Notice is hereby given that the Board of Education, Bakersfield City School District, City Hall, Bakersfield, Calif., will receive sealed bids, up to 7 p. m., of October 26th, 1922, for the erection and completion of a two-room brick and frame addition to the McKinley School Building, Bakersfield, Calif., in accordance with plans and specifications for same on file with the Clerk of said Board and open for the inspection of bidders. Copies of said plans and specifications may be had at the office of Charles H. Elggar, architect, Bank of Italy Bldg., Bakersfield, and the work will be done under his supervision. Each bid must be accompanied by a certified check for at least ten per cent of the amount bid, said check to be made payable to the Clerk of the Board of Education, Bakersfield City School District, and will be forfeited should the successful bidder fail to enter into contract for the erection and completion of the building, satisfactory to the said Board of Education and in addition thereto, furnish satisfactory bond in the amount of seventy-five per cent

of the contract price. The Board reserves the right to reject any or all bids or to waive any informality in any bid received. Alternate bid for the construction of one room only, is also desired.

By order of the Board of Education, Bakersfield City School District, September 23, 1922.

HARRIET R. PEACOCK,
President.
E. R. LONG, Clerk.

BRIDGES, DAMS & HARBOR WORK

BUREKA, Humboldt Co., Cal.—County Supervisors accept offer of Highway Commission to pay one-half the cost of constructing new bridge over Van Duzen river near Altun. The structure will cost about \$50,000.

SAN RAFAEL, Marin Co., Cal.—Until Nov. 8, 11 a. m. bids will be rec. by Robert E. Graham, county clerk, to const. rein. conc. culvert in Middle Fork flood Rd. at Cunningham's Landing, Rd. Dist. No. 4. Cert. check 10% payable to Chairman of Board of Suprs. required with each bid. Spec. on file in office of clerk.

SAN BERNARDINO, Cal.—County supervisors will probably reject all bids for const. South E St. bridge as too high. Est. was \$6000; lowest bid, \$3200.

SAN DIEGO, Cal.—The "Rivers and Harbors Bill" provides \$160,000 for dredging work in San Diego harbor. This type area into which the new mole type pier will extend. The new was sent from Washington by Congressman Phil D. Swink.

REDWOOD CITY, San Mateo Co., Cal.—Supervisors reject bids to const. rein. conc. box culvert and filling in old bridge site in Alpine road at crossing of Corte Madera river in 3rd District. Work ordered by day labor, under supervision of County Survey. Geo. A. Kneese.

RED BLUFF, Tehama Co., Cal.—County Surveyor W. F. Luning completes estimates of cost to const. bridge over Sacramento river at Bend; bridge with solid conc. piers, \$101,800; bridge on cylinder piers, \$83,000 and for conc. bridge \$120,000.

RENO, Nevada—Property owners and petition city council to const. bridge over Cortez river. Estimate of cost, \$10,000, approx. \$30,000 of this amount to be assessed to property owners. Harry Chism, city engineer.

SANTA ROSA, Sonoma Co., Cal.—W. L. Proctor, Santa Rosa, at \$3015 awarded contract by supervisors to construct bridge on Valley Forge-Freestone highway, involy. 90 cu. yds. class B conc., 6700 ft. B. M. timber, D. E. Allers, Santa Rosa, at \$1880 awarded contract to const. 3 rein. conc. culverts on 2-Rock Fallon road, involy. 60 cu. yds. class A and E conc.

FRESNO, Fresno Co., Cal.—C. C. Gledhill, Fresno, at \$1800 awarded contract by supervisors to const. bridge on Fowler-Laten road.

NOGALES, Ariz.—Lewin and Wood awarded contract at about \$17,000 to construct a new state highway bridge over Sonita Creek at Patagonia.

VENTURA, Cal.—Until 11 a. m. Nov. 9, bids will be rec. by supervisors for removal of the old floors and construction of two new bridge floors, one 20x132 and one 20x394, involy. 29,000 ft. B. M. new timber, 114 cu. yds. class "A" conc., 14,100 lbs. rein. steel. Plans and spec. on file with County Surveyor Chas. W. Pettit, L. E. Hollowell, clk.

BIGGS, Butte Co., Cal.—Until Nov. 6, 3 P. M. bids will be received by Chas. Blimie, Secretary, Drainage District No. 200 of Butte County to construct reinforced concrete bridge over Main Ditch A on Ricketson road. Specifications may be obtained from Wm. Green, Engineer, Biggs, Calif.

SAN JOSE, Santa Clara Co., Cal.—County Sur. J. J. Ryder preparing spec. for rein. conc. bridge over Pajaro river on Bolsa road; work to be financed jointly by San Benito and Santa Clara counties.

SAN JOSE, Santa Clara Co., Cal.—Until Nov. 6, 11 a. m. bids will be rec. by Henry A. Pfister, county clerk, to const. wooden bridge in Alum Rock Falls Road, in supervisors Dist. 3 and one rein. conc. culvert in Middlefield road over Clark ditch in Supervisor Dist. 5. Cert. check 10% payable to clerk required with each bid. J. J. Ryder, county sury.

SANTA BARBARA, Santa Barbara Co., Cal.—Santa Barbara Yacht Club has endorsed the engineering firm of Leeds & Barnard, Los Angeles, for survey to be made of proposed inner harbor for the club. A public fund known as the Harbor Survey Fund has been raised to complete this survey and make the beginnings of a harbor for Santa Barbara.

ORANGE, Cal.—A survey of the proposed Santiago canyon reservoir project under consideration for some time has been ordered by the Irvine Company and carpenter and Serrano water companies. Plans call for a reservoir capable of 1500-inch flow during 200 days. The expense will be borne half by the Irvine Co., and half by the water companies.

SAN BERNARDINO, Cal.—Edgar T. Wheeler Co., L. A. Ry. Bldg., Los Angeles, submitted bid to supervisors at \$200 to const. steel plate girder bridge with concrete abutments over Warm creek. Other bids were: Mercereau Bridge & Constr. Co., \$8987; Davidson Constr. Co., \$10,344; Geo. Herz, San Bernardino, \$10,253; W. M. Ledbetter Co., \$11,370. Bids under advisement.

SACRAMENTO, Cal.—Bids were opened on October 16th by Harry W. Hall, County Clerk, to construct steel and concrete bridge over Steamboat slough near Paintersville. Separate bids were opened the same day to construct a steel and concrete bridge over Sacramento river near Paintersville.

Bids were received as follows:
(1) Both bridges; (2) Paintersville Bridge; (3) Steamboat Slough. Jenkins & Elton, Sacramento (1) \$333,316; (2) \$197,400; (3) \$142,600. Healy Tibbitts Constr. Co., San Francisco (1) \$52,300; (2) and 3—\$155,000. A. W. Kitchen (1) \$355,000; (2) \$204,000. Clinton Constr. Co., San Francisco (1) \$325,400; (2) \$208,600; (3) \$161,551. Bids were taken under advisement until October 23rd.

PORTLAND, Ore.—Albert Burham, St. Helens, Ore., at \$22,325 submits low bid to F. S. Engineer Office, 321 Customhouse, to const. dyke in Columbia River near Burke Slough, involy. 75,000 cu. ft. filling; 53,000 E. B. m. timber, 2500 cu. yds. stone; 1800 cu. yds. gravel; 3500 cu. yds. excavation. Other bids: Pacific Bridge Co., Portland, \$23,500; Philip Const. Co., Portland, \$23,671; Jacobson Const. Co., Portland, \$25,200; A. Guthrie Co., Portland, \$26,205; Henry C. Makela, Astoria, \$31,120.

VENTURA, Cal.—Until 11:30 a. m. Nov. 9, bids will be rec. by supervisors for the construction of a reinf. conc. box culvert with earth fill, guard fence etc., involy. approx. 56 cu. yds. class "B" conc., 1000 yds. earth fill, 21 ft. 8-in. corrug. iron pipe, 2500 lbs. reinf. steel, 28 ft. 12-in. corr. iron pipe, 180 ft. 24-in. fence. Plans and spec. on file with county surveyor. Cert. chk. 2%. L. E. Hollowell, clerk.

LONG BEACH, Cal.—Construction of a deep water ship canal from Long Beach Harbor to Dominguez Junction, promoted by the L. A. Terminal Assn., has reached the stage where the Dominguez estate has granted right of way, and a survey under the direction of George W. Goethals has approved the engineering features. A. P. Gillies, industrial engr. of the assn., is in charge. Long Beach Chamber of Commerce has named a committee to care for city interests.

SANTA CRUZ, Santa Cruz, Cal.—M. Thies awarded contract by supervisors to const. struct culvert in Branciforte road district.

HOLLISTER, San Benito Co., Cal.—San Benito County Supervisors will confer with supervisors of Santa Clara county regarding construction of a new bridge over Pajaro river in the Bolsa District. W. A. Winn, county sury.

STOCKTON, San Joaquin Co., Cal.—Until Nov. 8, 10 a. m. bids will be rec. by Eugene D. Graham, county clerk, to construct rein. conc. trestle bridge on site of old trestle in Lower Sacramento road, over a portion of the Mokelumne river, near town of Woodbridge in Rd. Dist. 2. F. E. Quail, county surveyor.

IRRIGATION PROJECTS

TURLOCK, Stanislaus Co., Cal.—Until Nov. 3, 2 p. m. bids will be rec. by Anna Sorenson, secy., Turlock Irrigation Dist. for manufacture and delivery of spillway gates for Denison Dam project, involy. 225 tons, principally of riveted steel plates and structural shapes but incl. steel castings, iron castings, small sluice gates and hoists, welded steel pipe, large cast iron pipe fittings and pipe railroads. See call for bids under official proposal section in this issue.

ORLAND, Glenn Co., Cal.—Enlargement of the Orland Irrigation District is proposed by the Orland Chamber of Commerce. Construction of the Orland Lake district, back of Brownwell or Julian Rocks and the forming of a new unit to the present Orland district is planned. The new unit bet. 20,000 and 30,000 acres. Construction totaling \$3,000,000 is proposed.

EL CENTRO, Cal.—The Imperial Irrigation District has rejected all bids for constructing main drain outlets of the proposed drainage works of the dist. The bids ranged from 15c to 20c yd. Director Mark Rose stated the dist. could do the work for less as it has nearly all equipment needed. P. H. Moyer, secy., Masonic Bldg., El Centro.

TRACY, San Joaquin Co., Cal.—Until Nov. 3, 11 a. m., bids will be rec. by Lynn O. Stark, sec'y, Naglee-Burk Irrigation District, 47 W 6th St., for the following improvements:

Under Contract No. 2: (1) lump sum for furnishing labor and materials to shape and prepare canal banks for concrete lining; (2) furnishing material for placing 6476 lb. of concrete lining; (3) \$200 "extra work" including in general, an unknown amount of work directly involved in the project say cost plus percentage. Certified check for \$1000 payable to President of District required.

Under Contract No. 3 (1) furnishing labor and materials required to construct 5.2 miles of drainage laterals and 2800 ft. of main drainage canal construction; (2) furnishing materials for construction and installation of 1800 ft. of 18-in. rein. conc. pipe; (3) furnishing labor and materials to construct rein. conc. superstructure for installation of necessary pumping machinery and drainage equipment; (4) \$500 "extra work" including in general, an unknown amount of work directly involved in the project say cost plus percentage. Certified check of \$1000 required payable to President of District.

Under Contract No. 4 (1) for furnishing and installation of following equipment: 12-in. double suction vertical centrifugal pump with bronze impeller, removable bronze flanges, inn-peller, necessary suction inlet cones, pump shaft, shaft tubing and coupling for direct connected motor and companion flange on pump discharge nozzle. 1 12-in. by 12-in. flanged check valve. 1 12-in. by 1-in. curved taper approx. 9-in. long of number 10 double riveted and dipped steel, one sand flanged and one end hubbed 3-ft. dia. rein. conc. pipe, automatic lubricating attachment for pump, 1 30-h. p. 60 cycle 3 phase 110 volt, 550 revolutions per min., 10 degree motor with remote control and automatic starting compensator with overload and underload relays. 1 float switch 37½ k. v. 2200 volt oil 440 volt transformers. 1000 gal. sary oil designed to deliver 4500 gals. per minute against 20 ft. head and of a guaranteed efficiency of at least 80 per cent to be tested after installation, also all necessary lighting fixtures, switches and cut-outs; (2) \$200 "extra work," including in general, an unknown amount of work directly involved in the project say cost plus percentage. Certified check \$500 payable to President of District required with each bid. Plans may be obtained from office of Secretary of District at Tracy.

MERCED, Merced Co., Cal.—Frank A. McConnell, of Livingston, awarded contract by Merced Irr. Dist. at 22c cu. yd. for extending canal to irrigate several acres near the Merced river.

SAN GABRIEL, Cal.—A party of engineers, including Flood Control Engr. Reagan, member of the county board of supervisors, and members of the San Gabriel Valley Chamber of Commerce, have started on a trip of inspection over the territory in the San Gabriel canyon where it is proposed to build a dam and other adjuncts of a flood control project costing about \$25,000,000. It is proposed to build a great canyon dam and utilize the immense amount of waters in the San Gabriel river for irrigation purposes.

ROSEVILLE, Placer Co., Cal.—Petition seeking formation of proposed Roseville Irrigation District has been submitted to the county supervisors at Nov. 6 meeting. District will comprise about 35,000 acres. Enlargements are proposed at a later date. Water for ditches would be purchased from the P. & E. Co., and Western States G. and E. Co. C. W. Landis and A. C. Cleary, Mills Bldg., San Francisco, are engineers for the proposed district.

LIGHTING SYSTEMS

OAKLAND, Cal.—Petitions are being circulated by the Down Town Ass'n. to have electric lights installed in Broadway, Telegraph and San Pablo Aves., bet. 14th and 16th Sts.; 15th St., bet. Broadway and Franklin and 16th St., bet. Telegraph and San Pablo Aves. Stand-ards combining lighting units with

trolley poles is proposed in an effort to reduce the cost. About 98 trolley poles are in the district where the system will be installed. The cost of installation will be about \$14.50 per front foot. Geo. E. Sheldon is secretary-manager of the Down Town Assn.

GLENDALE, Cal.—H. H. Walker, 1800 W 12th St., Los Angeles awarded contract by council at \$14,818 to install ornamental street lights on San Fernando Rd., bet. Pacific Ave. and Los Feliz R. av. on 50 2-light Marbelite posts. Other bids were: Newbery Elec. Corp., \$16,532; Paulson Constr. Co., \$16,640; So. Cal. Elec. Co., \$16,660; C. W. Sparks, \$16,835.

LOS ANGELES, Cal.—Paulson Constr. Co. submitted bid to supervisors at \$3941 to install complete ornamental lighting system, consisting of 33 lights with underground service, in the National lighting dist. Other bids were: C. W. Sparks, \$4100, 60 days; So. Cal. Elec. Co., \$4135, 100 wkg. days; Newbery Elec. Co., \$4290, 90 days; H. H. Walker, \$4336, 90 days; D. S. McEwan Elec. Co., \$4517, 60 days; So. C. Kerns, \$6600, 90 days. Bids under advisement.

C. W. Sparks, 433 San Fernando Bldg., awarded contract by bd. Pub. Wks. at \$7871 for install ornam. lights compl. in Berkshire Ave., bet. Kendall Ave. and Huntington Dr., north and in portions of other streets.

Paulson Constr. Co. awarded contract by board of Pub. Wks. at \$11,463 for installing ornam. lights complete in Grand Ave., bet. Ninth and Pico Sts.

SANTA CRUZ, Santa Cruz Co., Cal.—Following bids received by supervisors for lighting system in Boulder Creek Public Lighting District: (1) Western Electric equipment; (2) General Electric equipment:

Santa Cruz Electric Co., (1) \$1049.90; (2) \$1093.40.
San Jose Utilities Co., (1) \$948.03; (2) \$953.72.
Walter L. Paine, (1) \$931.36; (2) \$931.36.
Ernest A. McGinty (1) \$1022.35; (2) \$973.05.

Bids taken under advisement.

MACHINERY

PALMDALE, Cal.—H. G. Klusman, Cucamonga, has the contract to make and lay about 30 miles of irrigation pipe for the Palmdale and Little Rock irrigation districts.

SAN FRANCISCO.—Seagrave Co., at \$8560 awarded contract by Fire Comm. for one gasoline motor-driven tractor of 4-wheel type to be attached to water tower.

Acacia St., Glendale, submitted low bid to council at \$16,275 to pave Patterson, Fairmont and Clester Sts., involv. 50 lin. ft. grading at 75c ft.; 5173 sq. ft. conc. gutter at 23c ft.; 22,314 sq. ft. 3-in. macad. paving at 10c ft.; 17,235 sq. ft. 5-in. paving at 12c ft.; 225 sq. ft. 3-in. macad. paving at 11c ft.; 4860 ft. curb at 49c ft.; 24,736 sq. ft. cement walk at 10c ft.; laying 32 ft. 4-in. and 1081 ft. 6-in. pipe, \$5300 compl.; storm drain, involv. 19c cu. yd. conc. at \$20 yd.; pnm. lighting system, \$5600 compl.

GLENDALE, Cal.—All bids rec. by council to pave Cypress St. and Oakridge Ave. rejected as too high. Peter L. Ferry, 614 E. Acacia St., Glendale, submitted low bid at \$24,388, involv. 246 lin. ft. grading at 90c ft.; 9712 sq. ft. gutter at 25c ft.; 55,970 sq. ft. 3-in. macad. paving at 11c ft.; 4860 ft. curb at 49c ft.; 24,736 sq. ft. cement walk at 10c ft.; laying 32 ft. 4-in. and 1081 ft. 6-in. pipe, \$5300 compl.; storm drain, involv. 19c cu. yd. conc. at \$20 yd.; pnm. lighting system, \$5600 compl.

SANTA ROSA, Sonoma Co., Cal.—No bids rec. by supervisors Oct. 11 for three highway projects and roads been re-advertised to open Nov. 14, as follows:

Petaluma-Valley Ford Highway, Sec. 1; involv. 9000 cu. yds. unclass. excav., 2630 cu. yds. crushed rock; 32166 sq. yds. asphaltic surfacing; 50 lin. ft. 12-in. 50 lin. ft. 15-in. and 50 lin. ft. 18-in. corr. metal pipe.

Geyserville-Petaluma road, Sec. A. 0.28 mile, involv. 1400 cu. yds. excav.; 510 cu. yds. crushed rock; 6110 sq. yds. asph. surfacing; 50 ft. 12-in., 50 ft. 15-in. and 50 ft. 18-in. corr. pipe.

Sonoma to state highway road, Sec. B, 1.79 miles, involv. 3500 cu. yds. unclass. excav.; 1580 cu. yds. crushed rock; 19,000 sq. yds. asph. surfacing; 26 lin. ft. 12-in., 26 lin. ft. 15-in., and 26 lin. ft. 18-in. corr. pipe. R. Press Smith, county surv.

SAN FRANCISCO—Until Oct. 23, 3 p. m., bids will be rec. by Board of Public Works to improve Moultrie St., bet. Eugenia & Powhattan, involv. 112 lin. ft. conc. curb; 1406 sq. ft. asph. conc. and 900 sq. ft. concrete sidewalk; 124 sq. ft. art. stone walks; 3 br. catchbasins; 60 lin. ft. 10-in. culvert.

MARTINEZ, Contra Costa Co., Cal.—Supervisors contemplate concreting Inter-county highway tunnel to reduce maintenance expenses. Work will probably be financed by Alameda and Contra Costa counties.

SALINAS, Monterey Co., Cal.—Until Oct. 28, 10 a. m., bids will be rec. by M. R. Keef, city clerk, to improve portions of Sledad St., by grading; paving with 4-in. conc. 1911 Act and Bond Act 1:15, Donald F. Davies, city eng.

STOCKTON, San Joaquin Co., Cal.—City Council, A. L. Banks, clerk, declares intention to improve 1st St., bet. Stanislaus and Stockton City Homestead grading; const. curb, conc. curbs and gutters; conc. walks; paving with 3-in. asph. conc. base with 1 1/2-in. asph. conc. surface, 1911 Act and Bond Act 1:15. Protests Nov. 10, W. B. Hogan, city engineer.

HAYWARD, Alameda Co., Cal.—Chamber of Commerce urges immediate construction of extensions to sewer system in residential and industrial districts. The city industrial plants are to be replaced locating but no action will be taken under sewer extensions are assured. Jessie E. Holly, town eng.

CALIFORNIA—State Highway Commission will ask bids the latter part of November to const. portion of state highway between Nevada County, known as Donner Grade bet. Donner Summit and Donner Lake. Commission desires that prospective bidder view site of work at this time in order to properly examine the ground and amount of work to be done before Winter, as at the time of advertising for bids, the ground may be covered with snow to such an extent that it will be impossible to locate the line. The Commission to award the contract to permit early construction in the Spring. Work consists of const. a graded roadway 21 ft. wide in cut and 24 ft. wide in embankments and installation of drainage structures. Austin B. Fletcher, State Highway Engineer, Forum Bldg., Sacramento.

TIRLOCK, Stanislaus Co., Cal.—Until Nov. 7, 7 p. m., bids will be received by A. P. Ferguson, city clerk, for fur. and rel. 400 ft. 4-in. sewer pipe, 25 4-in. sewer bends, 60 6-in. 4-in. sewer pipe, 25 6-in. 4-in. sewer pipe and 60 4-in. end stoppers. All to be first class quality vit. salt glazed, delivered f. o. b. Tirlock. Cert. check 10% required with cash bid. Horace Hall, city eng.

STOCKTON, San Joaquin Co., Cal.—Until Nov. 8, 10 a. m., bids will be rec. by Eugene D. Graham, county clerk, for road work in Rd. Imp. Dist. No. 5. Separate bids, same date, for improvements in Rd. Dist. No. 7. Work under Rd. Dist. Imp. Act 1907. Cert. check 10% payable to Bd. of Sup. required. Plans obtainable from clerk. F. E. Quail, county surveyor.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns
of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

2754

—reaching the Engineer, Contractor and Material Dealer.

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

KOEHRING DANDIE

Light Mixer

—yet it is within the price range for light mixers

THE Dandie is a light, easily portable mixer for concrete footings, culverts, floors, and has also proved suitable for mortar mixing.

It is a Koehring mixer—Koehring designed and constructed—and this means that dependability and long service life are the first considerations, not lowest price. No it is not the lowest priced mixer, but is well within the price range for light mixers, making it the greatest *value* in light mixer field. It sets a new standard of efficiency and value for light mixers. Big production, standardization in every part, and automatic shop equipment keeps the price down!

GRANTS PASS TO COAST R. R. TALK IS REVIVED

Reports at Crescent City, Calif., indicate that construction work on the California & Oregon Railroad between Grants Pass, Ore., and Crescent City, may be revived in 1923. Indirect advice of financial negotiations for completion of the road have been received during mill city of Brookings through Harbor into the redwood belt back of Crescent City.

The proposed railroad would tap one of the most inaccessible sections of California and Oregon and would tie up the vast coast region from Eureka north with the traffic arteries of the valley by rail. At the present time the region along the coast is practically without direct rail communication with the valley from San Francisco Bay to the Columbia River.

The survey of the line calls for running up the Illinois River, tunneling through the divide and then down Smith River to Crescent City. The cost of laying the eighty-five miles of track is estimated at around \$3,000,000.

A connection would be made, it is planned, with the California & Oregon Lumber Company standard gauge railroad from the Curry County lumber the past months by officials of the Southern Pacific Company and the Oregon State Bureau of Mines and Geology.

The road, designed to open up southern Oregon coast and extreme northern coast of Superior California, was begun prior to the war under the guidance of Robert E. Twohy and construction was completed from Grants Pass west to Waters Creek, a distance of 15 miles.

STRUCTURAL STEEL BUSINESS SHOWS DECLINE

The Department of Commerce announces that a slight decline in the sales of fabricated structural steel in September, according to reports made to the Bureau of the Census, September sales amounted to 61.9 per cent of shop capacity, compared with 64.9 per cent in August.

Reports received from 137 identical firms from April through September, with a shop capacity of 218,155 tons a month, show the following actual tonnages booked each month and the percentage of shop capacity represented by these bookings:

	Tonnage	Per cent of capacity*
April	188,873	86.6
May	170,166	78.0
June	151,511	69.5
July	140,829	64.6
August	141,561	64.9
September	135,069	61.5

*The inclusion of additional firms this month has made slight revisions in the per cent of capacity reported previously.

Proposed Stockton Civic Center--

THIRD OF STATES' BONDED DEBT FOR HIGHWAYS

More than a third of the \$1,071,506,981.28, which is the total of the outstanding bonded indebtedness of all the states, has been incurred for highway projects, according to a nation-wide survey of state debts and securities just completed by The Bank of America, New York. Another twenty per cent of the aggregate represents bond issues for waterways and harbor improvements.

The construction of highways and bridges is by far the leading single purpose for which the outstanding debts were incurred, the statistics show, the total of \$367,687,100 in highway bonds representing 34.3 per cent of the entire indebtedness of the states. These figures are further significant. The Bank of America points out, when it is remembered that the development of state highway systems is comparatively recent and that a large proportion of these sums has been doubled by Federal aid. And yet for all this highway development vital to our life and commerce the per capita state debt is only about three and a half dollars.

Among the noteworthy highway systems financed by large bond issues now outstanding are those of California (\$55,000,000), New York (\$100,000,000), Oregon (\$81,700,000) and Pennsylvania (\$50,000,000). Five other states, Illinois, Maryland, Massachusetts, Michigan and West Virginia have bonds for more than ten million dollars issued for highway purposes.

Waterways and harbor improvements—the development of port and canal facilities—come second in the list of purposes of state indebtedness with a total of \$213,891,400. This includes the \$154,800,000—the largest individual item in any classification—with which New York state has been financing its great canal projects. Other developments in this group are: California, \$13,084,000 for the improvement of the har-

bor at San Francisco; Louisiana, \$12,500,000 for canals and \$18,489,400 for the work of the state port commission, including \$2,600,000 for the port of New Orleans; Maine, \$650,000 for the state pier loan; Massachusetts, \$12,333,000 for port of Boston and other harbor improvements; and Rhode Island, \$76,000 for harbor work.

Other physical improvements, including the \$83,775,162 spent by Massachusetts on the transit, water, sewer and park systems of the metropolitan district, represent 9.5 per cent of the total debt. With public buildings paid for by 1.9 per cent, it is significant that actual physical improvements represent fully 65.7 per cent of the indebtedness and probably more, as some are undoubtedly included in each of the other classifications.

CAST IRON PIPE PRODUCTS SHOW DROP IN VALUE

The Department of Commerce announces that the census reports show a decrease in the value of products of establishments engaged primarily in the manufacture of cast-iron pipe during the year 1921 as compared with 1919. In 1921, 68 establishments reported products amounting to \$43,599,469, as compared with 59 establishments having products valued at \$50,235,101 in 1919, a decrease of 12.6 per cent in value of products.

Notwithstanding the decrease in value of products, which was accompanied by decreases in the number of persons employed, in the amount paid during the year for salaries and wages, and in the cost of materials used, there was an increased number of establishments, and the tonnage output was greater in 1921 than in 1919. There were 7 new establishments reported, and 3 establishments which were assigned to another industry classification at the previous census reported cast-iron pipe as their chief product in 1921.

Of the 69 establishments reporting in 1921, 25 were located in Alabama; 8 in New Jersey; 7 in Pennsylvania; 6 each in New York and Ohio; 3 each in Tennessee and Virginia; 2 each in Indiana and Massachusetts; and 1 each in California, Georgia, Illinois, Indiana, North Carolina, Oregon, and Wisconsin. Alabama, the leading state in the industry in 1921, produced 35.2 per cent of the total value of products in that year.

In November, the month of maximum employment, 13,895 more persons were reported, and in January, the month of minimum employment, 10,183; the minimum representing 73.3 per cent of the maximum. The average number employed during the year was 12,428 in 1921 as compared with 12,652 in 1919. A classification with reference to prevailing hours of labor in the establishments in which employed shows that for 1921, or 9.8 per cent of the total (average) number of wage earners the prevailing hours per week were 41 or less; for 1601, or 12.9 per cent, the hours were 48 per week for 5629, or 54.4 per cent; 4; and for 3478 or 28 per cent, from 54 to 60.

The returns indicate that the combined output of all establishments was approximately 52.5 per cent of the maximum capacity, based upon a demand requiring full running time. The percentage of output of individual establishments ranged from 5 to 100 per cent of the maximum capacity.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

To obtain for the typical small community in America a hospital building which is at the same time efficient in arrangement and creditable in architecture, a leading journal in that field, the *Modern Hospital*, has recently issued the formal program of prize competition, open to all architects. Prizes amounting to \$1000 are to be given to successful contestants, and although certain definite requirements are set forth in the program, the avowed intention of the competition is to bring out new thought in hospital construction. The Illinois chapter of the American Institute of Architects, to which the general program of the competition was submitted, has approved it as to form and method of procedure. Richard E. Schmidt, of the firm of Richard E. Schmidt, Garden & Martin, of Chicago, is the architectural adviser. The jury of award is to be composed of two architects, two hospital superintendents and a graduate nurse who has had experience as superintendent of a small general hospital. Official announcement of the competition was made at the recent annual conference of the Am. Hospital Assn. held in Atlantic City, N. J., September 25-28. Three cash awards of \$500, \$200 and \$200 and two honorable mentions are to be given. The prize-winning drawings, according to the rules of the contest, become the property of the publishing company, but the author is not prohibited from making any individual use of his designs. The competition calls for a set of plans of a general hospital from thirty to forty beds, consisting of the contest must be taken place on or before November 15, 1922, and the final date for submitting designs is January 15, 1923. The general program of the contest may be had by addressing the Chicago office of the *Modern Hospital*, 22 East Ontario Street, Chicago, Ill.

United States Attorney George Springmeyer has announced an investigation into building operations in Reno, Nevada, has been started to determine whether there have been violations of the Sherman anti-trust law. Complaints have been filed to the effect that illegal combinations exist in Reno in restraint of trade. J. H. Cahill, a mining operator, complained that after rejecting bids for the construction of a building to cost \$25,000 he attempted to negotiate with sub-contractors but this was halted by the builders. Cahill declares he was informed by men representing themselves as speaking for a builders' organization that unless he patronized members of the organization he would be boycotted by labor organizations. The United States Attorney states he has received several complaints from Reno and has advised that the organization of builders had prevented erection of buildings by certain contractors and had refused to install materials purchased from outside agencies because they had not been paid commissions. Some contractors had complained they had been deprived of contracts after owners had been threatened with trouble. Attorney Springmeyer states all evidence secured will be submitted to the Federal Grand Jury. For more than a year allegations have been current of an illegal combination of contractors and mechanics in Reno, for the purpose of maintaining high building costs. Latest reports from Reno are that the federal county building at Elko, with headquarters in Reno has appointed a committee of three to cooperate with the authorities in sifting the charges.

Following the suggestion of Secretary of Commerce, Hoover, the metal lath manufacturers are preparing to cut the excess varieties out of their long list of metal lath products and reduce them to a minimum. A preliminary meeting was held with Wm. A. Durgin of the Department of Commerce on October 2 in Washington and a formal meeting has been arranged for December 12 at which manufacturers, representatives, architects, planners, contractors and dealers will be invited to a joint conference. W. B. Turner, of the General Fireproofing Co., is chairman of the Industry Committee on this matter and Wharton Clay, Commissioner of the Associated General Lath Manufacturers, is secretary.

The city trustees of Visalia, Calif., in an effort to side-step an "open shop" war have amended the city ordinance relating to plumbing and pipe-laying qualifications so as to permit outsiders coming into Visalia and doing such work instead of making it compulsory for them to have places of business within the city. This action was taken when union plumbers refused to undertake work on a home being erected in West Center Street, the structure being of the ready-cut type built by a Los Angeles non-union concern. Under the amended ordinance work on the structure will proceed, a Los Angeles contractor having obtained a permit to do the plumbing work.

Oakland is participating to the fullest in the greatest building boom in the history of the United States. During the past ten months Oakland has constructed more than twice as many dwellings as were constructed during the same period last year. The building permits issued between January and October of this year total \$17,396,056, aggregating more than five million in excess of the same period in 1921. Of the months of this year, the greatest was June when 773 permits were issued for a total of \$3,045,518. This was the biggest month in ten years, according to estimates. In 1921, 533 permits were issued calling for an expenditure of \$1,486,022.

Plans for a \$6,500,000 concrete bridge across the bay at Coyote Point are announced by Colonel F. E. Webb, of the Benschel Engineering Company of New York. The structure will be financed by the Benschel Company and the Keystone State Construction Company, and will be operated as a toll bridge. Application will be made immediately in San Mateo and Alameda Counties for a franchise to construct the bridge. The application will contain a provision that the counties may purchase the structure at any time they desire. It is proposed to start work in February, 1923, and complete operations in September, 1924.

Portland, Ore., twenty-fifth in point of population in the United States, was nineteenth in volume of building for the first nine months of this year, according to figures compiled by the American Contractor, Building statistics for Portland for the nine months period are given as \$18,548,140. Los Angeles and San Francisco are the only cities on the Pacific coast which exceed Portland, the permits for the former city for the nine-month period aggregating \$59,315,053 and for San Francisco \$35,546,783.

The plant of the California Pine Box Distributors at San Jose suffers \$50,000 fire loss on October 20. The company acts as selling agent for over 25 mills and operates plants in all the principal fruit centers in the State.

California Wire Cloth Co. of Orange, Calif., has opened a distributing office and warehouse at 635 Second street, San Francisco, under the management of C. C. Loughery. The company manufactures weatherproof wire and cable

Faced with a shortage of mechanics in some of the more important crafts of the building trades, directors of the Valley Industrial Ass'n, of Fresno, plan a \$10,000 industrial school to give extensive training to apprentices in the plasterers' craft. The school may be extended to include the training of bricklayers and plumbers. The school was decided upon after it was found that several building projects were being deferred due to labor conditions.

The Patterson Chamber of Commerce Stanislaus County, is conferring with Wisconsin and Michigan interests regarding the establishment of a milk condensary. An option has been taken on the plant of the Western Meat Co., and if the project goes through a considerable amount of machinery will be installed.

The Alameda County Supervisors in a communication to Colonel Herbert Deakne, U. S. Engineer of Rivers and Harbors in this district, announce their intention of calling a bond election next Spring to provide funds to finance construction of a tube or bridge across the Oakland Estuary at Webster Street. Request is made of the War Department to postpone its order requiring the removal of the present bridge by July 1, 1923.

The McCormick Steamship Company has been organized as an independent concern instead of an auxiliary to the C. R. McCormick Lumber Company.

Western Loan and Building Co., of Salt Lake City, opens branch offices in Santa Cruz. Walter B. Cox, of the Cox Electric Co., Santa Cruz, is interested.

The National Motor Bearing Co. has leased the building at 1699 Pine street, San Francisco, and will engage in the manufacture of die cast white metal and bronze bearings for bearings for original installation and replacement applications. The company proposes to turn out a line of motor bearing shims in addition to the bearings. L. A. and A. S. Johnson operate the business.

The Geo. A. Gray Co., manufacturers' representatives and jobbers in electrical supplies, have opened a salesroom and warehouse at 910 Howard St., San Francisco.

Hunter's Wharf, on the Alameda side of the Oakland Estuary, has been purchased by the Hogan Lumber Co. of Oakland, according to Edwin M. Tilden, president of the firm. In addition to the wharf, which is 354 feet long, one and one-half acres of land in Alameda, adjoining the wharf, have been purchased. The consolidation is announced at \$60,000.

Auditorium Committee of the Sacramento City Council will call a special meeting to consider sites and estimates of cost for a municipal auditorium. H. W. Faneck is chairman of the committee.

M. M. Moffitt, formerly chief clerk of the purchasing department of the So. Pacific Co., has been promoted to assistant purchasing agent of the company, with headquarters at Portland, Ore.

"Los Angeles has now under way, or under construction, in the aggregate more construction than the combined cities of New York, Chicago and San Francisco." Such is the statement of Assistant Secretary Henning, of the U. S. Department of Labor in a dispatch from Washington to the Detroit Free Press.

ALONG THE LINE

H. G. Cotton, San Francisco landscape engineer, has been commissioned to prepare plans for laying out the grounds of the new Hanford High School buildings at Hanford which were erected at a cost of \$450,000.

Articles of Incorporation of the Marysville Brick Co. have been filed with the Secretary of State. Company is capitalized at \$10,000 with the principal place of business at Marysville. Directors are: E. A. Hunn, I. C. Evans, J. B. Wood, C. N. Marders, L. E. Hite, L. A. Williams, J. Robinson, H. Shein and E. E. Bryan.

The Contra Costa County Builders' Exchange has adopted resolutions condemning the State Housing Referendum on the November ballot. The exchange believes that the bill is class legislation and the members plan an active campaign against the measure.

Jacinto Irrigation District in Glenn County plans drainage improvements costing \$100,000.

Washington Iron Works, Seattle, Wn., will construct \$90,000 new gray iron and steel foundry building in Sixth avenue. Will be 660 by 130 feet.

Clinton Construction Co. of California, announces the removal of its offices from 140 Townsend Street to 123 Folson Street, San Francisco.

Los Angeles and Salt Lake Railroad granted permission by Interstate Commerce commission to construct 32 miles of railroad from Lund to Cedar City in Utah at a cost of \$798,000. The line will tap deposits of iron ore.

Stanford Engineers, Inc. of Palo Alto, have filed articles of incorporation with the Secretary of State and will engage in a general engineering business with a capitalization of \$50,000. Directors are: Wm. W. Tamplin, Wm. Hood, Vance M. Brown, Ivan Redeker, J. B. Balcomb.

In the first seven months of the operation of the Redding, Calif. municipal lighting system, the net profits were \$15,319.17.

Sacramento contractors are planning to be in Marysville Nov. 4, to attend the annual goose stew to be given by the Marysville Builders' Exchange.

MUNICIPAL STREET RAILWAY IN TOKIO

The municipally owned and operated street railway of Tokio, Japan, has a total mileage of 1758 and carries an average of 1,057,633 passengers daily. The railway has been operated since 1911.

RAILROADS IN CANADA

The total railway construction in Canada, which was some 2300 miles at the time of confederation, and had risen to some 17,000 miles by 1897, has increased to more than 40,000 miles, not including sidings or double trackings.

Arrangements For Thirteenth American Good Roads Congress Being Perfected

An organization, insuring conditions that will be as nearly one hundred percent perfect as possible is being formed by the American Road Builders' Association to handle the arrangements for the Thirteenth American Good Roads Congress and Fourteenth National Good Roads Show, to be held in Chicago, January 15 to 19, next.

While most of the important features of last year's show will be retained, many new and novel features will be added. The program for the congress has been revolutionized and instead of holding the sessions at the Chicago Coliseum where the show will be housed, they will be held at the Congress Hotel. It is believed that this will insure a better attendance at each session while the show will continue without interruption. All the noises heretofore so disturbing to the speakers and convention delegates.

Almost immediately following the last congress and show the American Road Builders' Association revised its constitution and by-laws to some extent and elected new officers and directors. Thomas J. Wasser, the new president, appointed to the Executive Committee Chas. M. Upham, state highway engineer for North Carolina, Jas. H. MacDonald, consulting highway engineer, New Haven, Conn. and treasurer of the road builders' organization, and J. H. Cranford, of the Cranford Paving Company, Washington, D. C. E. L. Powers, secretary, became ex-officio a member. Meanwhile exhibitors at the last good roads show perfected the Highway Industries Exhibitors' Association, with headquarters in Chicago, for better cooperation in making the next show a greater success than any held heretofore.

The Executive Committee of the A. R. B. A. created a special Convention and Show Committee to have supervision of all arrangements for both of next year's events, consisting of C. M. Upham, chairman, and James H. MacDonald, both representing the A. R. B. A., and S. F. Beatty, vice president of the Austin-Western Road Machinery Co., Chicago, and president of the exhibitors' organization. The gen-

eral committee has created a number of sub-committees on program, reception and hotel, entertainment, registration, exhibits, banquet, local press, transportation and general publicity. Each sub-committee will be composed of active members of the road builders' organization who have had experience with past expositions and conventions.

The Exhibits Committee has employed a professional director of exhibits and the Publicity Committee has employed an experienced publicity man as director of publicity. The director of exhibits will be C. W. Kelly, of Chicago, and the director of publicity will be T. S. Lee, of New York. Mr. Lee handled the publicity work for the 1921 and 1922 conventions and shows and Mr. Kelley has staged some of the biggest expositions in the country.

According to Chairman Upham, of the general arrangements committee, the chief difficulty will be in providing space for all the exhibits, though arrangements will be made for all the additional space that it is possible to obtain. "The program for the congress," said Mr. Upham, "as it is now being worked out, will be entirely different from any that we have had heretofore. Instead of avoiding controversial subjects as in the past, the program will consist of controversial subjects of vital interest to the whole road-building industry. This will help to arouse interest in the sessions and provide for interesting and informative oral discussions.

"The Highway Industries Exhibitors' Association," continued Mr. Upham, "is working in close touch with those in active charge of the arrangements. We expect to conduct a publicity campaign with more far-reaching effect and greater compelling force than any heretofore and I believe the attendance will break all records."

The general offices of the American Road Builders' Association have been moved from 11 Waverly Place, New York, to 37 West Thirty-ninth St., New York, and while the work of arranging for the congress and show, for the most part, will be carried on there, headquarters will be opened in Chicago at an early date.

LUMBER BUSINESS IS ACTIVE, SURVEY SHOWS

Tremendous traffic in lumber, scarcity of cargo carriers in the coast-wise service, congestion at terminals with shortage of cars, all give evidence of prosperity prevailing in California, according to J. M. Daily, manager of the marine department of the San Francisco Chamber of Commerce.

The huge volume of building operations throughout the territory in which San Francisco serves as the distributing point, is shown by Daily's analysis of cargoes handled across the wharves of this port.

Lumber shipments from all points, including Oregon and Washington to California ports by water and interior places by rail, to date amount to 636,267,000 feet.

Lumber operators, visualizing the rush of business, declare all yards in the San Francisco area are kept busy. Enormous shipments are going forward to interior points in the San Joaquin and Sacramento valleys.

Just a glimpse of the demand for lumber is conveyed by the statement of a statistician who says one purchaser obtained 300 carloads of lumber for a single development project within the San Francisco trade territory.

Daily's survey reveals that lumber receipts from Oregon and Washington,

during the first eight months of 1922 are practically double the receipts from the same ports during the corresponding period of 1921.

The lumber receipts from Oregon and Washington for the first eight months of 1922 amounted to \$44,220,000 feet. The 1921 shipments were only 174,331,600 feet.

The trend of operations, building, shipping and otherwise is shown by the figures. During the first six months the Oregon and Washington column carries receipts of 270,723,000 feet. July added 47,137,000 feet. August receded, the shipments amounting to 26,340,000 feet. September again was strong, with 39,166,000 feet and the first three weeks of October show 36,295,000 feet.

Lumber shipments by water from California coast ports, including the first three weeks of October, total 129,248,000 feet. For the first six months they amounted to \$1,319,000 feet. July added 6,576,000; August, 17,355,000; September, 14,570,000 and thus far in October the receipts are 9,416,000 feet.

Lumber receipts from interior points by rail for the first six months were \$7,164,000 feet. July added 7,912,000; August, 7,895,000; September, 7,865,000 and three weeks of October, \$10,490,000.

PAVING PATENT UPHELD

Reprint From Oregon Voter

Immense costs of litigation plus hundreds of thousands of dollars in royalties—in all a bill which may exceed \$300,000—is what will have to be stood by the state highway fund of Oregon as a result of demagogic agitation against paving anything for the right to use patent paving. This \$300,000 might have been expended for miles of paving and roadbed construction had it not been wasted in this silly attempt to overturn a patent that had been held valid by the highest federal courts every time its validity had been brought before them as an issue to be decided.

For years these demagogic politicians and newspapers have been making capital out of fighting patented paving. They all admitted the paving was a superior paving, but grounded their opposition upon the fact that a royalty would have to be paid for its use. Candidates for the legislature and county offices have been elected simply because they talked so virulently against paying for the use of a patent that their constituents became persuaded that a property right in a patent was something entirely different morally than a property right in a bond or piece of land. When in office, such candidates usually wasted taxpayers' money, but they covered their waste by their strident denunciations of the Warren paving people as owner of the hated patents.

Several newspapers throughout the state forgot pretty much everything else in the way of local issues in order to devote their editorial and news columns to attacks upon patent paving. Foremost among these, Portland Telegram, wrought itself into a condition of perpetual hysteria on the subject. It went to the extremity of assassinating the characters of legislators who had the courage to defend paving patents as property the same as other patents or other property, and succeeded in discrediting them by its slanderous assaults.

In Oregon we have a state highway commission which in quality of personnel is of the highest rank—the foremost men of the state in personal integrity and demonstrated business success are and have been its members—and this highway commission contracted for miles and miles of patented paving, giving it the preference at an equal price in competition with unpatented pavements of supposedly equal quality. The agitation was carried to the point of attempt to destroy the character of individual commissioners. There seemed to be no limit to the hysteria of defamation.

Year after year the legislature refused, by ever-decreasing majorities, to enact legislation directed against patent paving. But as men of courage were retired on this issue, and demagogues elected to replace them, it was only a matter of time before the majority would be the other way. This came about three years ago. Shortly before the paving patent expired, and legislation was enacted directing the attorney general and the state highway commission to use the type of paving regardless of the patent and fight the patent in court in order to avoid payment of royalty. With this legislative direction there was nothing for the highway commission to do if it desired to use this superior type of paving but to use it and fight the patent.

In this way the issue was brought into the federal court.

In defiance of this patent right, the state contracted for about 1,200,000 yards of the patented type of paving, and entered into contract with the contractors to protect them from infringement suit. This was according to the legislature's instruction.

Prior to that time, millions of yards of this same type of patented paving had been contracted for by the highway commission on a competitive basis—type against type, with price considered in proportion to quality. The matter of royalty did not enter into the award—that was fixed after open bidding on a competitive basis. It was a matter of common knowledge that the competition was so keen that the amount of royalty figured in the price was only ten cents a yard.

But with defiance of the patent and use of it regardless of its proven standing in court, the patentee was in a position to sue for his full royalty of 25 cents a square yard—which on 1,200,000 square yards amounts to \$300,000. The test suit was brought against one contractor only, and covered only 75,000 yards. Judgment for the full 25 cents a yard was awarded by the federal district court, the opinion being handed down by Federal Judge Robert S. Bean.

This opinion shows that the opposition to the patent through all these years had not a leg to stand on. Everybody who had studied the facts knew that this was the case, but the agitation was kept up regardless of the facts. No decision could be more sweeping in its denial that there was any real justification for having brought the case into court at all.

This decision, except for the appeal with its inevitable result, is the end to an agitation which has torn the state for years—except that the bill must be paid to the tune of several hundred thousands of dollars which otherwise might have been expended for much-needed road construction. It is an end that was inevitable from the start. At no time was there any real ground for the agitation, for the courts had sustained the patent time and again. The unfortunate thing about it, aside from the reputations wrecked by demagogic newspapers and the wasteful acts by incompetent officials, is that the final huge cost must be paid out of the highway fund instead of from the property of those who prospered by a wicked agitation.

The decision by Judge Bean is brief. Its full text follows:

FULL TEXT OF OPINION

"I have at great labor carefully examined the elaborate record and briefs in this case and am satisfied the plaintiff is entitled to the relief demanded.

"The patent in suit was issued in May, 1903. The pavement therein described has been extensively laid throughout the United States and proven a commercial success. The validity of the patent has been contested in practically every state in the Union and with few if any exceptions has been upheld. It was held valid by the Court of Appeals of the Sixth Circuit after a strenuous contest, Judge Lurton writing the opinion in Warren Brothers vs. City of Owosso (166 Fed. 309), the Court of Appeals of the Second Circuit in Warren Brothers vs. New York (187 Fed. 335), and by the District Courts of Alabama (Warren Brothers vs. Montgomery, 172 Fed. 414), Michigan (Warren Brothers vs. Grand Rapids, 216 Fed. 364), Pennsylvania (Warren Brothers vs. Evans, 234 Fed. 657), Ohio (Warren

Brothers vs. Pace, 247 Fed. 117), and New York (Warren Brothers vs. New York, 187 Fed. 832). Injunctions have been issued in many courts restraining the infringement of the patent and in only two or three instances, so far as I am advised, been denied and then for reasons not affecting the merits.

"The patent was recognized as valid by the defendant and by the State Highway Commission, the real party in interest, and many miles of pavement laid under license from the patentee upon which royalty was paid prior to the legislative act of 1919, providing that if in the opinion of the Attorney-General an alleged patent is invalid or of doubtful validity the State Highway Commission may, if it deems such patented material to be advantageous in the construction of a highway, use or contract for the use of same and indemnify and hold harmless any contractor as a result of such use. The question of the validity of the patent, in pursuance of this law, referred to the Attorney-General who reported that without further litigation he could not advise whether it was valid or not. The Highway Commission, therefore, contracted with the defendant for the laying of certain pavements and stipulated that it would indemnify and save him harmless against the use of a patented article, and hence this suit.

"The decision of courts other than the Court of Appeals of this circuit are, of course not binding on this court but they are strongly persuasive and when, as here, there is such a mass validity of a patent, judicial comity suggests that a trial court should not assume to declare them erroneous or hold the patent invalid unless for some defenses not before considered, sustained by clear and satisfactory proof. As said by Judge Dickinson in the Evans case, supra, referring to the patent now in suit:

"Independently of the merits of the question of the validity of a patent, there must come a time when that question must be deemed to have been settled, whether rightly or wrongly, nevertheless settled. If this be not so, rights evidenced by letters patent are no rights at all. All which can profitably be said upon the subject of the validity of this patent is embraced in the opinions accompanying rulings already made. * * * Such validity is supported by the prima facie findings of the patent office. It has confirmation in a judicial experience so extensive that a mere list of the cases in which it has been litigated would unduly lengthen this opinion. This experience has embraced adjudications, not only in a number of the District Courts but in the Circuit Courts of Appeals in two different circuits and recognition in three other circuits supplemented by consideration in almost, if not quite a round dozen of applications for preliminary injunctions. Out of all of this judicial consideration, something in the nature of a settled establishment or denial of some definite rights must have resulted. What we find has resulted in the establishment of the validity of claims 5, 6, 9, and 11 of this patent beyond the reach of successful attack upon any grounds then litigated."

"The defenses made in this case of anticipation by prior uses, prior patents and literature and double patenting are the same as those involved in prior litigation either in fact or in kind. The evidence here does not show anything substantially new in respect thereto, or

any reasons why the conclusions of such courts should not be followed.

"The pavement of McGovern Alley in Denver, principally relied upon, and the Pittsburg pavement, were held by Judge Dickenson in the Evans case, supra, not to anticipate the Warrens' patent. Washington pavement, in all substantial respects the same as the one urged here, was rejected as anticipation in the Montgomery and New York cases. There is nothing, as far as I can see, in the evidence concerning South Omaha and Hamilton pavement to anticipate or invalidate the plaintiffs' patent. The alleged prior patents and literature contain nothing new in kind from what was before the courts in the other litigation. The defense of double patenting is the same as that previously laid by the Owens and New York cases. All these matters have been carefully considered by able courts, after protracted and painstaking litigation and nothing could profitable be added to the discussion.

"The defense of non-infringement is not made out. The pavement laid by the defendant under his contract with the State Highway Commission and involved in this suit are in all particulars the same as that previously laid by him and the Highway Commission upon which royalties were paid and in my opinion are clearly infringements of plaintiffs' patent.

"There is no dispute as to the yardage, 74,511.8 yards, and the evidence shows beyond question that twenty-five cents a yard is a reasonable royalty.

"Decree may be prepared accordingly."

OPENINGS FOR ENGINEERS IN U. S. COAST AND GEODETIC SURVEY

The U. S. Civil Service Commission, Washington, D. C., states that there is urgent need for eligibles to fill positions of junior engineer and desk officer under the United States Coast and Geodetic Survey, and that an examination for such positions will be held on December 13-14. A prerequisite for consideration is that applicants shall have completed at least 21 years of a course in civil engineering leading to the degree of B. S. or C. E., in a college, university, or technical school of recognized standing. Graduation with one of these degrees will be required before appointment. The usual entrance salary is \$2,000 a year, in the temporary grade of junior engineer and desk officer. Vacancies in the various commissioned grades are filled by promotion, after six months' satisfactory service. An act of Congress provides that the Commissioned personnel of the Coast and Geodetic Survey shall at all times receive the pay and allowances, including longevity pay and all retirement privileges, of the officers of the Navy with whom they hold relative rank.

STONE TUFF HOUSES FOR SILESIA FAMILIES

A new building material is now being used on an extensive scale in Germany, Silesia, according to the London "Times" correspondent at Oppeln. This consists of stone turf.

Strips of turf are arranged within a wooden framework and solidified by means of cement and chalk. The turf is then hardened into a sort of stone, a four-centimeter plate of this material being tougher than a brick wall.

The new building material has the advantage that much less wood molding is required than in the case of concrete and that the stone turf is superior in insulating qualities against heat and damp. Stone-turf houses are 40% cheaper than those built of any other material.

\$4,800,000 FRESNO COUNTY HIGHWAY FUND IS EXHAUSTED

Officially the Fresno county highway bond issue of \$4,800,000 voted in 1919 is exhausted with the completion of improvement of more than two hundred miles of road under the direction of County Surveyor Chris P. Jensen.

In a report filed with the board of supervisors, a working balance of \$16,038.32 October 1 is shown. It is understood that bids called for and contracts let since the first will exhaust that sum.

As yet about 60 miles of highway, outlined in the road building program under the bond issue, have not been built. To supplement the bond issue a direct levy of a 4¢ cent tax was made by the supervisors this year to complete a portion of the unbuilt road. Another direct tax will be levied next year to finish the highway system.

Hoists and bridges built under the bond issue to date have cost \$5,281,161.19, according to Hogue's report. On October 1 there was a balance of \$552,053.28 in the fund, less outstanding warrants amounting to \$83,607.71 and contracts payable in the sum of \$452,407.25.

Forty six highway paving contracts were let under the bond issue costing \$4,200,926.87. Of this sum, \$3,737,723.03 has been paid and \$443,193.84 is due. There were 32 bridge contracts let at a cost of \$329,207.85, of which \$223,994.44 is paid and \$9,213.41 yet due.

Included in the road building plan under the bond issue was the reconstruction of the Toll House road at a cost of \$115,602.59, and other mountain roads.

The Hamilton lake work cost \$22,507.48; the Auberry-Hig Creek road \$94,334.40; the San creek road \$45,164.69; the San creek cut-off, \$1,323.65; the Dunlap road, \$8,142.32; the Coalina lateral, \$32,696.48.

Highway maintenance cost \$15,553.27; overhead, \$55,140.71, and equipment, \$6,814.22.

Members of the board of supervisors are on record as being in favor of completing as much of the county highway system as possible under the available funds. Contracts for roads to be built this year under the special highway fund are being let as soon as plans and specifications are completed.

RESULTS OF TESTS ON CLAY SEWER PIPES AVAILABLE

The engineering press during the last thirty days has commented upon the exhaustive series of tests on jointing materials for vitrified clay sewer pipes which were conducted by Prof. S. E. Dibble of the College of Industries of Carnegie Institute of Technology, Pittsburgh, Pa.

One main fact stands out as a result of the twenty-one tests, and that is that vitrified clay pipe can be jointed and the joints can stand a pressure of 16 pounds without showing any leaks provided a compound is used similar to those mentioned in this report. The following practice should be used when pouring compound:

First—Packing such as oakum or putty must be used and caulked into the annular space to act as a packing and to hold the molten compound into the annular space until it has thoroughly set.

Second—A joint runner must be used when the pipe is in a horizontal position. This joint runner may be of the metal flexible type or asbestos rope type or may be made of clay that is sometimes found on the job. The joint runner must be perfectly tight so as to hold the compound and not allow it to run outside into the ditch.

Third—The compound must be poured when it is very hot and runs like water.

Fourth—A pouring device or ladle should be used that is large enough to fill the annular space in one pour.

Fifth—The joint runner should not be taken off until the compound is set. This is a matter of probably four or five minutes.

These tests have proven that a line of pipe can be thrown out of alignment and the joint still be tight. The tests also proved that in case a leak developed in a compound joint that it could be readily fixed and made tight by the application of heat and added material. With reasonable care such as would be given by a careful hand layer there would be no possibility of a leak in any joint, provided the joint was first packed with one strand of oakum and the compound poured while it was very hot.

These tests have been put in pamphlet form together with a series of tests conducted by the Bureau of Surveys of the City of Philadelphia, Pa. The pamphlet may be obtained from the Clay Products Association, 133 W. Washington St., Chicago.

PACIFIC COAST BUILDING SUMMARY FOR SEPTEMBER

Reports covering building construction activity in 192 American cities for the month of September record no sharp let-down in fall construction as has been noted for several years past at this time.

According to an exhaustive survey of conditions obtaining completed by the American Contractors Association of Chicago, there were 57,325 building permits issued by the reporting cities during September valued at \$205,750,795. This is a 34 per cent gain over the total given for September, 1921. The lull from the August record volume is about 6 per cent and this is considered a gratifyingly small figure.

Building permits issued during September of this year in Pacific coast cities follow:

	1922	1921
Seattle	\$ 1,315,820	\$1,354,430
Tacoma	316,211	304,090
Portland	1,521,005	1,789,195
San Francisco	2,951,858	2,100,163
Oakland	1,789,439	1,478,739
Los Angeles	10,267,891	8,302,665
Long Beach	1,317,438	822,675
San Diego	1,061,510	657,081

STONE QUARRY ACCIDENTS IN 1921

Accidents at some stone quarries throughout the United States in 1921, resulted in the death of 100 employes and the injury of 10,465 others, according to figures compiled by the U. S. Bureau of mines. The average number of men employed in quarries was 77,185 who worked a total of 17,987,547 shifts, an average of 233 work days per man. Based upon a standard year of 300 days, producing state, the number of persons employed and the number of accidents in each were: Pennsylvania, 14,994 employes, 1914 accidents; Ohio 4579 employes, 726 accidents; Indiana 4434 employes, 602 accidents; New York 4257 employes, 827 accidents; Vermont 4130 employes, 361 accidents; California 3,719 employes, 684 accidents; Illinois 2341 employes, 515 accidents; and Missouri 3079 employes, 415 accidents. Most of the accidents inside the quarries were caused by handling rock at face, flying objects, falls or slides of rock, haulage, and Machinery. At the outside rock-dressing plants and crushers, the main causes of accidents were flying objects, machinery, falling objects, hand tools, and falls of persons.

The Idaho Central Railroad Co., backed by the Western Pacific, will complete, within a year's time, ninety miles of railroad to connect Twin Falls, Idaho, with the W. P. and S. P. lines at Wells, Nevada, according to an announcement of Conrad Wolfley, presi-

APARTMENT HOUSES

Sub-Figures Being Taken.
APT. HOUSE. Cost, \$50,000
SAN FRANCISCO, N E Funston Ave.
and Lake St.
Three-story and basement frame and
plaster apt. house.
Owner—Kline and Krause.
Architect—Houghton Sawyer, Hearst
Bldg., San Francisco.

Plans To Be Prepared.
APT. HOUSE. Cost—
SAN FRANCISCO, S California between
Fillmore and Gough Sts.
Class "A" apartment house (80 rooms).
Owner—Ellias Rhine & Richard O'Brien.

Contract Awarded.
APARTMENTS. Cost, \$15,000
OAKLAND, Alameda Co., Cal E Bryant
Ave. 25 S Manila Ave.
Two-story 16-room frame apartments
Owner—H. D. and H. Monroe, 759 Central
Ave., Alameda.
Architect—Not Given
Contractor—Oakland & San Francisco
Imp. Co., Merchants' Exchange Bldg.,
San Francisco.

Contract Awarded.
APT. HOUSES. Cost, \$30,000 ca.
SAN FRANCISCO, W Hyde St. 100 and
137-6 S Geary.
Two 1-story and basement concrete
apartment houses (16 apts each).
Owner—Adolph Stock.
Architect—Henry Shermund, Hearst
Building.
Contractor—Edward Jose, 1173 Hayes
Street.

Preliminary Plans Being Prepared.

ft. and will contain 52 two-room, 16 3-
room and 11 4-room apartments. Est
cost, \$165,000.

BANKS

Figures to be Taken This Week.
ADDITION. Cost, \$20,000
SAN ANSELMO, Marin Co., Cal.
One-story brick addition to bank.
Owner—Bank of San Anselmo.
Architect—S. Heiman, 57 Post St., San
Francisco.

Figures to be Taken for a general
contract.

Preliminary Sub-Figures Being Taken
BANK & OFFICES. Cost, \$150,000
BERKELEY, Alameda Co., Cal. Shat-
tuck Ave. and Center St.
Addition to 5-story class "A" annex
to present bank and office bldg.
Owner—Mercantile Trust Co. (Roy T.
Douglas, vice-president).
Architect—Jas. W. Plachek, 2014 Shat-
tuck Ave., Berkeley.

Preliminary sub-figures are being
taken by H. McCullough, 1641 Allston,
Berkeley, superintendent of construction
for the bank.

TURLOCK, Stanislaus Co., Cal.—City
trustees will call election to vote bonds
of \$25,000 for sewage improvements.
Horace Hall, city eng.

SUSANVILLE, Lassen Co., Cal.—
Bonds of \$18,000 voted to purchase fire
fighting apparatus and installation of
fire alarm system.

BONDS

FOWLER, Fresno Co., Cal.—Chamber
of Commerce urges election to vote
bonds of \$15,000 for park improvements.

HEALDSBURG, Sonoma Co., Cal.—
Bonds of \$67,000 voted at recent elec-
tion to finance school improvements
for Healdsburg Grammar School Dist.

CLARKSBURG, Yolo Co., Cal.—The
\$75,000 bond issue of Clarksburg School
District sold by supervisors; proceeds
of sale will finance construction of
new school plans for which are being
compiled by Architect W. H. Weeks,
369 Pine St., San Francisco.

TRACY, San Joaquin Co., Cal.—City
trustees contemplate calling election to
vote bonds of \$125,550 to finance fol-
lowing improvements: Municipal water
works improvements, incl. water main
extensions, \$27,000; paving street in-
tersections, 15,500; sewage disposal
plant with effluent pipe line and sewer
main extensions, \$62,750; 11th St. sewer
extension, \$2600; firehouse, \$18,000.

SAN FRANCISCO.—Supervisors have
appropriated \$20,000 to finance im-
provement and purchase of equipment
for Margaret Hayward and Funston
Playgrounds.

STOCKTON, San Joaquin Co., Cal.—
Until Nov. 6 bids will be received by
supervisors for purchase of \$15,000 bond
issue of Manteca Union High School
District; proceeds to finance school im-
provements.

LOS ANGELES, Cal.—Harbor Com-
mission will soon call for bids for con-
structing new roadway on Harbor Blvd.
bet. 7th and 14th Sts., San Pedro. This
section will be 30 ft. wide and will have
6 or 8 inch concrete base.

MERCED, Merced Co., Cal.—Merced
Irrigation District sells \$1,883,933 worth
of bonds for premium of \$52,583; pro-
ceeds of sale to finance improvements
in the district. R. C. Starr, chief eng.

OAKLAND, Cal.—The Alameda Coun-
ty Supervisors in a communication to
Colonel Herbert Deakney, U. S. Engin-
eer of Rivers and Harbors of this dis-
trict, announce their intention of call-
ing a bond election next Spring to pro-
vide funds to construct a tube or
bridge across the Oakland Estuary at
Webster Street. Request is made of
the War Department to postpone its or-
der requiring the present bridge to be
removed by July 1, 1923.

DINUBA, Tulare Co., Cal.—Election
will be held Nov. 14 in Windsoor School
District to vote bonds of \$40,000 for
school improvements. Trustees of dis-
trict are: Andrew Winter, clerk; J. J.
Hilbert and F. S. Clifton.

SUSANVILLE, Lassen Co., Cal.—
Bonds of \$22,000 voted to purchase site
and erect new city hall. Site will cost
\$1500.

PITTSBURG, Contra Costa Co., Cal.—
City Council plans election to vote \$40,-
000 in bonds to finance construction of
municipal wharf.

REDWOOD CITY, San Mateo Co., Cal.
—Until November 6 bids will be re-
ceived by the Supervisors for the pur-
chase of \$180,000 bond issue of Jeffers-
on Union High School District; pro-
ceeds to sale to finance construction of
a new high school. John Reid Jr., 1st
National Bank Bldg., San Francisco, is
the architect.

HANFORD, Kings Co., Cal.—Election
will be held November 23 in Rustic
Elementary School District to vote
bonds of \$3,000 to finance school im-
provements.

HANFORD, Kings Co., Cal.—Elec-
tion will be held November 24 in Fad-
lock Elementary School District to
vote bonds of \$12,000 to finance school
improvements. Trustees of District
are: J. L. Downing, J. H. Smith and
Grace Overstreet.

CHURCHES

Contract Awarded.

Three-story reinforced concrete addition adjoining present lodge bldg.

Owner—Young Men's Institute.

Architect—Shea & Shea, Chronicle Bldg. San Francisco.

Contracts Awarded.

LODGE BLDG. Cost, \$2255
"COURTLAND", Sacramento Co., Cal. NE

Bates Ave. and Riverside Drive.

Two-story frame lodge building.

BUILDING, Oct. 24, 1922—Golden sand from the old mining town of Shasta will be used in San Jose in mixing mortar for laying the cornerstone next Sunday of the new Native Sons building in that city. The local parlor today, by request, sent twelve pounds of sand from the old mining camp to the San Jose parlor. A like quantity of sand is to be gathered from other historic mining camps.—The Chronicle.

IF THESE Native Sons.

ONLY KNEW about it.

THEY COULD use the same sand.

THAT JAMES Marshall.

WHO DISCOVERED gold.

IN CALIFORNIA in '49.

WASHED OUT.

ON THE American River.

JUST A few miles.

ABOVE SACRAMENTO.

FOR CLARENCE Sand Pratt, President

OF THE Pratt Building Material Co.

DOUGLAS 300—"easy to remember."

IS SHUDDING the same sand.

THAT THE '49ers used.

TO WASH gold from.

PRATT'S SAND washing plant.

IS LOCATED at Sacramento.

ON THE American River.

AND THEY say.

THERE IS gold.

IN PRATT'S clean, sharp sand.

PLASTERERS AND brick contractors

say.

THAT PRATT'S clean, sharp sand.

IS WORTH its weight.

IN GOLD.

SO WHEN you need sand.

FOR PLASTERING or brick mortar.

ASK FOR Pratt's sand.

FORM THE American River.

OR THE same sand.

THAT JIM Marshall saw.

WHEN HE discovered gold.

ON THE American River.

IN 1849.

FOR THIS sand.

HAS BEEN washed.

DOWN THE river

TO OUR pit.

"I THANK you."

This is the way you called on your sweetheart in '49, when Pratt's American River sand was being washed for gold. Short skirts, gasoline wagons, tangers, radios and camel walk dances had not been invented in the good old days of '49, red flannel shirts and whiskers.

Owner—Franklin Lodge 143, F. & A. M. Hall Association, Courtland.
 Architect—North.
 Contractor—Jessie Cassie and Geo. Rendall, Courtland.
 Painting awarded to Conrad Schneider, 1335 39th St., Sacramento, \$1847.

Contract Awarded.
CLUB HOUSE Cost, \$100,000
SAN FRANCISCO, S Market W 12th St. Two-story brick Class A store and club building.
 Owner—Loyal Order of Moose, S. F. Lodge No. 26.
 Architect—O'Brien Bros., 240 Montgomery St., San Francisco.
 Contractor—F. L. Hansen, 251 Kearny.

MODESTO, Stanislaus Co., Cal.—Knights of Pythias, Modern Woodmen of America, Woodmen of the World, Redmen, Scouts, Native Sons of the Golden West, Moose, United Artisans, Yeomen and Druids Lodges of this city, will contribute half the cost of donations to finance construction of \$150,000 lodge building. Will be 4 stories high; auditorium on ground floor seating 2000; 2nd and 3rd floors for lodge rooms; 4th floor probably for offices.

SAN DIEGO, San Diego Co., Cal.—The \$150,000 fund required for the \$500,000 gift to the city for a navy Y. M. C. A. building has been over subscribed. The international committee offered the larger sum contingent upon the \$150,000 being raised to buy a suitable site. Work will start as soon as necessary arrangements and plans can be completed. Geo. W. Marston, chairman of the campaign committee.

SANTA BARBARA, Santa Barbara Co., Cal.—Sister Vincent, Mother Superior of St. Vincent's Orphanage, has taken tentative plans for the proposed orphanage bldg. at Goleta to St. Louis for approval by the Superior-General of the order. A bldg. committee consisting of Edw. F. R. Vail, Francis Price and Charles Edwards is in charge of the work. The bldg. as planned will be on the unit system, built in the shape of an "H" the east and west length being 480 ft. and north and south 288 ft. It will be three stories, containing approx. 100,000 ft. floor space, accommodating 300 children and 50 sisters. In addition to usual rooms, auditorium seating 224, there will be a chapel with two outside entrances. There will be three fire towers extending from roof to basement. The general design of the bldg. will be simple Spanish with limited ornamentation. It will be necessary to drill a water well as there is at present no available water system.

HOSPITALS

Completing Plans.
HOSPITAL ANNEX Cost, \$200,000
OAKLAND, Alameda Co., Cal. Moss & Broadway.
 Four-story reinforced concrete annex for hospital.
 Owner—Fabiola Hospital Assn.
 Architect—Geo. W. Kelham, Sharon Bldg., San Francisco.
 Contractor—E. J. Walker Co., Monadnock Bldg., San Francisco.
 Construction will be started in about a month.

Plans Completed—Figures to be Taken Shortly.
HOSPITAL Cost, \$300,000
HOLLYWOOD, Los Angeles Co., Cal. Vermont Ave. near Sunset Blvd.
 Five-story reinforced concrete hospital. Owner—Hollywood Hospital Assn.

Official Proposals

NOTICE TO BIDDERS

(Furniture, Linoleum, Shades)

Notice is hereby given that the Board of Trustees of Petaluma City High School District will receive sealed bids for the furnishing of the following articles to be taken as a whole or in part as they desire:

- 75 School Desks, size 1.
- 125 School Desks, size 2.
- 50 Arm Chairs.
- 5 Teachers Desks.
- 35 Serviceable Oak Chairs.
- 1 Sixty inch office desk.
- 1 Library Table 12 feet long.
- 950 Square yards more or less, Bathepish Linoleum.
- 100 Venetian Blinds.

Samples of articles bid must be furnished to the Board for inspection.

Each bid shall be accompanied by a certified check equal to 10 per cent of the amount bid, to be forfeited if such bid is accepted and such a bidder shall fail to deliver said articles at a time to be agreed upon before the opening of bids.

Bids must be filed with J. A. Olmsted, clerk of the Board of Trustees of Petaluma City High School District, on or before 8 o'clock p. m., on the 8th day of November, 1922, at which time bids will be opened at a meeting of the Board of Trustees of Petaluma High School District to be held in the City Hall, City of Petaluma.

The Board reserves the right to reject any and all bids.

JOHN A. OLMSTED,
Clerk.

NOTICE TO BIDDERS

(School Gymnasium Additions)

Notice is hereby given that sealed proposals or bids will be received at the office of the City Superintendent of Schools, City Hall, Eureka, California, up to 7:30 p. m., on the Thirteenth day of November, 1922, for the construction of a shower and various other rooms on the north side of the present High School Gymnasium, for the Eureka High School District, according to plans and specifications on file in the office of the City Board of Education. Bidders will submit a bid for the heating system installed and also a bid without the system installed.

All proposals or bids must be accompanied by a Certified Check or a Cashier's Check payable to Eureka High School District, for an amount which shall not be less than five per cent of the aggregate of the proposal, or by a bond for the same amount and so payable, signed by the bidder and two sureties who shall justify before any officer competent to administer an oath in double the said amount and one-half and above all statutory exemptions.

The Board of Education of the City of Eureka reserves the right to reject any and all bids.

GEO. B. ALBEE,
Superintendent of Schools of the City of Eureka.

NOTICE TO CONTRACTORS AND BUILDERS

(School Shop Building)

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Watsonville Union High School District, County of Santa Cruz, State of California, at 7:30 p. m., on the eighth day of November, 1922, at the office of the high school building, corner of East Third and Lincoln Sts., Watsonville, California, for the erection and completion of a shop building for the above named district, in accordance with plans and specifications made for the same by Wyckoff & White, Architects, Growers' Bank Building, San Jose, California.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Plans and specifications can be secured at the office of the Secretary of the Board, Watsonville Union High School District, Watsonville, California, or at the office of the architects, Wyckoff & White, Growers' Bank Building, San Jose, California.

All bids are to be made on Blank forms furnished by the architects and must be accompanied by a check for not less than five per cent of the amount of the bid, made payable to the secretary of the board, and certified to by some responsible banking house. This check to be forfeited in the event that the successful bidder after having been awarded the contract, fails within ten days to sign the contract and furnish a good and sufficient bond as required by law.

The Board reserves the right to reject any and all bids.

Mark all bids "Building Bid" and address to Secretary of the Board of School District, Watsonville, California, Trustees, Watsonville Union High School District.

T. S. MACQUIDDY,
Secretary of the Board of Trustees, Watsonville School District.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on November 29, 1922, at which time they will be publicly opened and read, for construction in accordance with the specifications thereto for which special reference is made, portions of State Highway as follows:

Merced County, through Atwater and Livingston (VI-Mer-4-C and D), about nine-tenths (0.9) mile in length, to be surfaced with asphalt concrete.

Los Angeles County, near Newhall Creek at Newhall (VII-LAI-E), constructing a reinforced concrete bridge, consisting of four thirty foot reinforced concrete girder spans with the necessary bents, abutments and wing walls.

Plans may be seen and forms of proposal, bonds, contracts and specifications

may be obtained at the said office and they may be seen at the office of the Division Engineer at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.
AUSTIN B. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.
Dated October 23, 1922.

Notice is hereby given that sealed bids will be received by the Board of Education of the Sacramento City High School District for the purchase and installation of Electric Lighting Fixtures for the new High School, situate at 34th and "W" Streets, in the City of Sacramento, County of Sacramento, State of California, exclusive of lamps, and excepting only the auditorium. Samples of fixtures and designs to be submitted together with full information as to material and finish of same.

Blue prints of the wiring and outlets of the new High School will be found in the office of the Business Manager of the Sacramento City School District, Room 301, City Hall, subject to inspection.

It is further understood that the installation shall conform in all respects to the requirements as set forth in the General Lighting Safety Orders of the Industrial Accident Commission of the State of California, and the said installation shall also be to the satisfaction of the Board of Education of the Sacramento City High School District.

A certified check for the sum of ten per cent of the amount of the bid must accompany each proposal, which will be forfeited to the Board of Education should the bidder fail to comply with the terms of his bid as required so to.

It is further understood that a bond of fifty (50) per cent of the amount of the bid will be exacted by the Board of Education in the event of the award of contract to the successful bidder to insure the faithful performance of contract.

All bids must be filed with the Secretary of the Board of Education of the Sacramento City High School District, Room 300, not later than 5 o'clock p. m., November 6th, 1922.

The Board of Education reserves the right to accept or reject any or all bids.

CHAS. C. HUGHES,
Secretary of the Board of Education of the Sacramento City High School District.

TO CALL BIDS FOR PEARL HARBOR PIERS

NOTICE TO CONTRACTORS

Sealed proposals, endorsed "Proposals for reinforced concrete piers, Naval Operating Base, Pearl Harbor, P. H., Specification No. 4687" will be opened at the Bureau of Yards and Docks, Washington, D. C., in the near future. The work consists of two reinforced concrete piers, 18 feet wide by 335 feet long, including dredging and filling, precast reinforced concrete piles, composite piles, reinforced concrete deck, timber and creosoted timber pile fender system and creosoted timber pile fender system and creosoted timber pile dolphins. Plans and specifications may be obtained by forwarding to the Bureau of Yards and Docks, Washington, D. C., or to the Commandant, Navy Yard, Mare Island, Calif., or to the Commandant, Naval Operating Base, Pearl Harbor, T. H., a check or postal money order for \$10, payable to the Chief of the Bureau of Yards and Docks, as security for the safe return of the drawings and specification, which will be forwarded as soon as available.

NOTICE TO BIDDERS

Turlock Irrigation District and Modesto Irrigation District, Stanislaus and Merced Counties, California, Joint Storage Works, Spillway Gates, Don Pedro Dam.

Sealed proposals will be received at the office of the Turlock Irrigation District at Turlock, California, until 2 o'clock p. m., November 3, 1922, for the manufacture and delivery of the Spillway Gates of the Don Pedro Dam in Tuolumne County, California, involving the furnishing, fabricating and delivery of about 225 tons, principally of riveted steel plates and structural shapes, but including steel castings, iron castings, small sluice gates and hoists, welded steel pipe, large cast iron pipe fittings and pipe railings.

Detailed plans and specifications will be furnished upon application accompanied by a deposit of \$10—to be returned to the successful bidder and to all others upon the return by them of the plans and specifications in good condition.

The contract will be let to the lowest responsible bidder, but the Board reserves the right to reject any or all bids. Early delivery is important and the guaranteed time of shipment will be considered in the awarding of the contract.

Bidders may submit bids upon any or all schedules, but no proposal will

be considered for any part of a schedule.

Each proposal must be accompanied by a certified check for 5 per cent of the amount of the bid, payable to the Treasurer of the Turlock Irrigation District for the benefit of said districts as a guarantee that the bidder will, if successful, execute a satisfactory contract and furnish a bond in the sum of not less than 25 per cent of the amount of his bid for the faithful performance of the work in accordance with the plans and specifications, said bond to be subject to the approval of said Boards.

The proposal must be marked, "Proposal for Spillway Gates" and addressed, "Turlock Irrigation District and Modesto Irrigation District, Turlock, California."

Done in pursuance of orders of the Boards of Directors of the Turlock Irrigation District and the Modesto Irrigation District, this 10th day of October, 1922.

ANNA SORENSON,

Secretary of the Turlock Irrigation District.

C. S. ABBOTT,

Secretary of the Modesto Irrigation District.

NOTICE TO BIDDERS

(Opera Chairs)

At the regular meeting of the Board of Trustees, Hanford Joint Union High School district, held Monday evening, October 9, 1922, at the regular place of meeting, motion was made and carried that the Clerk of the Board advertise for bids to furnish opera chairs to complete seating the lower floor and for the required number to fully equip the gallery of the new Hanford Union High School as follows:

145 or more Opera Chairs with backs constructed with seven ply birch veneer, 3/4 inch thick; seats five ply birch veneer, 2-16 inches thick. Chairs mounted on metal standards and must conform with those now in the auditorium of the high school.

200 or more opera chairs for gallery. Any good opera chair may be submitted for consideration.

Prices on the above include installation.

A certified check for 10 per cent of the amount of the bid must accompany the same.

The board reserves the right to reject any or all bids. All bids must be delivered to G. W. Armstead, clerk of the board, at his office in the Southern Pacific Freight Station, Hanford, Calif., or delivered in person at the office in the high school building on or before 8:00 p. m., Wednesday, November 1, 1922 at which time bids will be opened.

G. W. ARMSTEAD,

Clerk of the Board of Trustees.

BRIDGES, DAMS & HARBOR WORK

SAN BERNARDINO, Cal.—All bids for construction of E. St. bridge were rejected by county supervisors and Highway Commissioner J. W. Cole was instructed to move old steel bridge from mouth of Santa Ana canyon to the South E. St. site.

SAN FRANCISCO—Plans for a \$6,500,000 concrete bridge across the Bay at Coyote Point are announced by Colonel F. E. Webb, of the Hensel Engineering Co., of New York. The structure will be financed by the Hensel Co. and the Keystone State Construction Co. and will be operated as a toll bridge. Application for a franchise to construct the bridge will be filed at once in San Mateo and Alameda counties. Provision will be made enabling the counties to purchase the bridge at any time they desire. It is proposed to start construction in February, 1923 and to complete work in September, 1924.

CALIFORNIA—Until Nov. 20, 2 p. m., bids will be rec. by State Highway Commission, Forum Bldg., Sacramento, to const. rein. conc. bridge consisting of 4 30-ft. rein. conc. girder spans with necessary bents, abutments and wing walls in Los Angeles county. Provision will be made enabling the counties to purchase the bridge at any time they desire. It is proposed to start construction in February, 1923 and to complete work in September, 1924.

NEWPORT BEACH, Cal.—Until 7:30 p. m., Nov. 6, bids will be rec. by City Clk. Alfred Smith, for dredging in Newport Bay in Municipal Imp. Dist. No. 1. Plans and spec. may be obtained from the city clerk. Cert. check or bond 10%.

MADERA, Madera Co., Cal.—Until Nov. 9, 2 p. m., bids will be received by L. W. Cooper, county clerk, to const. timber and concrete bridge over Berenda slough. Cert. check 10% required with each bid. Plans on file in office of clerk J. O. Rue, county surv.

VISALIA, Tulare Co., Cal.—Until Nov. 16, 2 p. m., bids will be rec. by Geo. R. Prestidge, county clerk, for hauling materials for use in constructing Bridge No. 62 over Salt Creek, a distance of approx. 2 miles. Materials to be hauled comprise approx. 555 tons gravel or crushed rock, 21,556 tons steel, 185 cu. yds. sand. Cert. check 5% required with each bid. Spec. may be had from Laurence A. Moye, county surv.

VISALIA, Tulare Co., Cal.—Until Nov. 16, 2 p. m., bids will be received by Geo. R. Prestidge, county clerk, to construct Rein. conc. bridge No. 63 over Salt Creek (under Prop. 1.) (2) 77.13 cu. yds. class B conc. in abutments; (3) 40 piles driven; (4) total for labor in erection complete with exception of abutments. Material will be furnished by county f. o. b. Roache siding. Cert. check 5% required with each bid. Laurence A. Moye, county survivor.

VISALIA, Tulare Co., Cal.—Until Nov. 16, 2 p. m., bids will be received by Geo. R. Prestidge, county clerk, to construct Rein. conc. bridge No. 64 over Salt Creek. Bids will be asked under two propositions: prop. 1, including material haul, and prop. 2, excluding material haul. Involves 152.56 cu. yds. class A concrete, above bottom deck girder and 241.17 cu. yds. class B conc. below bottom deck girder. Materials will be furnished by county f. o. b. Lemore siding. Cert. check 5% required with each bid. Spec. may be had from County Surv. Laurence A. Moye

VISALIA, Tulare Co., Cal.—Until Nov. 16, 2 p. m., bids will be rec. by Geo. R. Prestidge, county clerk, to const. rein. conc. bridges over streams crossing Visalia-Threes Rivers Highway, to be known as Bridge Slabs No. 65, A, B, C, D, E, F. Involves: Item 1, \$4.32 cu. yds. class A conc. No. 65 A-C-D; 2, 20.41 cu. yds. class A conc. pave. No. 65 A-C-D; 3, 48.09 cu. yds. class A conc. No. 65 B; 4, 23.77 cu. yds. class B conc. No. 65 B; 5, 11.03 cu. yds. class A conc. pave. No. 65 B; 6, 58.11 cu. yds. class A conc. No. 65 E; 7, 7.01 cu. yds. class A conc. pave No. 65 E; 8, 40.26 cu. yds. class A conc. No. 65 F. Materials will be furnished by county f. o. b. Farmerville and Lemon Cove siding. Cert. check 5% required with each bid. Laurence A. Moye, county survivor.

PHOENIX, Ariz.—Until 2:30 p. m., Nov. 9, bids will be received by Thos. Maddock, state engr., Phoenix, for constructing Holbrook-Lupton highway bridge at Sta. 425, near Lupton. Work consists of approx. 225 cu. yds. excav., 130 cu. yds. conc. steel superstructure, wooden deck (approx. 10,000 B. M.), and other incidental items. Cert. chks., 5%. Plans and spec. may be obtained upon payment of \$5.

MERCED, Merced Co., Cal.—Contracts to construct 3 rein. conc. bridges awarded by supervisors as follows: Bridge No. 92, Sup. Dist. No. 2, to C. C. Wright, \$3900; Bridge \$6 in Dist. 4 to Carlson Bros., \$1500; Bridge 109, Dist. 3 Merced Concrete Pipe Co., \$2783.

MARTINEZ, Contra Costa Co., Cal.—Bids were opened on October 23rd, by J. E. Wells, Clerk of Contra Costa County, for the construction of a wood truss bridge over Walnut creek on Division 27, county highway system, known as Ignacio Valley Road, just east of Thibn of Walnut Creek. R. R. Arnold, County Survivor.

The contract was awarded to The Renner Foundation Company, 628 Montgomery street, San Francisco. Following is a complete list of the bids: Renner Foundation Co., S. F., \$4135.80 Peter Peterson..... 4324.50 B. A. Bruce..... 4834.70

OAKLAND, Cal.—City Council, E. K. Sturgis, clerk, appropriates \$1877 to pay half of cost of const. conc. culvert in Richmond Ave. bet. Warren St. and Moss Ave. W. W. Harmon, city engineer.

BLTYHE, Cal.—Until 2 p. m., Nov. 10, bids will be received by Palo Verde Joint Reclamation Dist., Blythe, for excavation and embank. Involves approx. 367,000 cu. yds. earthwork and clearing 19 acres at Raab shoofly; for 247,220 cu. yds. excav. and clearing 126 acres for Raab bend channel correction; 195,700 cu. yds. excav. and clearing 75

acres for Hauser bend channel correction; \$1,000 cu. yds. excav. and clearing 80 acres for Casad bend channel correction. Plans and spec. may be obtained from H. G. Neuffer, chief engr., at Blythe. Herman Bahls, pres.

SAN FRANCISCO—Simmons Co., 198 Bay St., seeks permit from supervisors to construct steel bridge over Powell St., south of North Point St.

SAN RAFAEL, Marin Co., Cal.—Supervisors are advertising for bids to construct concrete culvert in Two Rock Road in Road District No. 4.

IRRIGATION PROJECTS

EL CENTRO, Cal.—Directors of Imperial Irr. Dist. have ordered the construction of main drain outlets for the proposed drainage system to the dist. to proceed by force account under the superintendence of Chief Engr. Ray S. Carberry, Calexico. Bids received for this work Oct. 10, were rejected. H. S. Thompson, bid 18c cu. yd. and P. E. Engh 27c cu. yd. on schedule 2. Dist. has nearly all equipment required for work.

OAKDALE, Stanislaus Co., Cal.—R. E. Hartley, superintendent of Oakdale Irrigation District will start crews repairing canals for which \$50,000 is available. Of the total amount \$10,000 will be expended for rock work at the head of canals and for widening tunnels.

SCAPPOOSE, Ore.—E. E. Wist, of the First National Bank Bldg., has been elected president of the Scappoose Drainage District, organized Oct. 4. Improvements planned in the district will cost about \$260,000.

SANTA BARBARA, Cal.—County farm advisor D. T. Batchelder is making investigations regarding an irrigation project proposed for Santa Ynez Valley. The work would involve a dam somewhere bet. Solvang and Gibraltarr. Engineers from the office of the surv. general have been making a preliminary survey.

WILLOWS, Glenn Co., Cal.—Jacinto Irrigation District plans to expend \$100,000 in drainage improvements, the average cost being about \$9 an acre.

DIXON, Solano Co., Cal.—Felix Swan, representing land owners and S. C. Hermann, engineer, backs movement to organize irrigation district comprising 60,000 acres in the district lying between Dixon and the west limit where the maximum elevation is 52 ft. est. cost \$2,200,000 or \$37 an acre. Another plan under consideration is the Putah Creek watershed as a possible source for a gravity system of irrigation, this to cost about \$6,000,000. Arthur Huston, of Woodland, is a prime mover in the project. Those interested are J. L. Kilkenny, R. H. Watson, J. H. Rice, Harry McFadyen, C. E. Sedgewick, W. T. Elbe, C. B. Kidwell, Otto Eggert, J. Rohwer, T. B. Stephens, Jeremiah Ahern, and Henry Schroeder.

PROSSER, Wash.—Immediate development of the Horse Heaven project of 225,000 acres, to which water was to be brought by means of a \$32,000,000 bond issue voted by the landowners and recently validated by the courts, has been held up due to the failure of contractor Howard Amon, of Portland, Ore., to file his \$6,000 surety bond. Amon was to take charge of construction and market the bonds. Judge Carroll B. Gravel, Central Bldg., Seattle, represents the district.

LIGHTING SYSTEMS

LOS ANGELES, Cal.—H. H. Walker, 1812 W. 12th St., submitted low bid to board of public works at \$4786 for installing an orn. lighting system in Melrose Ave., bet. Western Ave. and Grandby Pl. Offer by J. C. Sparks, Cal. Elec. Co., \$4930; Paulson Constr. Co., \$4986; C. W. Sparks, \$512.29; Newbery Elec. Corp., \$5550.

H. H. Walker low bidder at \$17,557 for installing ornamental lighting system in Santa Monica Blvd., bet. St. Andrews Pl. and Serrano Ave. Other bidders were: So. Cal. Elec. Co., \$19,000; Paulson Constr. Co., \$19,229; C. W. Sparks, \$19,963; Newbery Elec. Corp., \$20,928.

HAYWARD, Alameda Co., Cal.—City council will adopt resolution ordering installation of electrolier system in Castro, Main, Ist, A, B and C streets, the main business section. Extensions will be made at a later date for lighting the residential districts. L. H. Goodwin, city engineer.

SACRAMENTO, Cal.—Property owners in 5th St., bet. J and K Sts. and 1 St., bet. 6th and 7th granted permission by council to install electroliers; work will be contracted for by city and financed by property owners. Albert Givan, city engineer.

MACHINERY

LOS ANGELES, Cal.—Until 3 P. M., Nov. 3, bids will be received by the public service commission, 297 S. Broadway, for 3000 1-in. lead hinge corporation step cocks and 3000 1-in. lead flange unions. Specification 628. Jas. P. Vroman, Secretary

LOS ANGELES, Cal.—Until 3 P. M., Nov. 17, bids will be received by the Public Service Commission, 297 S. Broadway, for 10,000 No. 1 meter boxes. Specification 629. Jas. P. Vroman, Secy.

STEAM SHOVEL CONTRACT LET
PASADENA, Cal.—Marion Steam Shovel Co. awarded contract by City Directors at \$15,977 for a 3½-yd. revolving type electric driven shovel, equipped with a gasoline driven generator set. Motor and equipment for taking power from city lines whenever convenient, can be substituted.

HANFORD, Kings Co., Cal.—U. S. Cast Iron Pipe and Foundry Co., Monahan Bldg., San Francisco, at \$67,500, f. o. b. Hanford, awarded contract by trustees for 1500 ft. 4-in. class C iron pipe. Other bids: American Cast Iron Pipe, \$67,500 per ton, f. o. b. Hanford; Horlock Cloy Co., \$122.70 per ton; National Cast Iron Pipe Co., \$55.45 per ton, f. o. b. San Francisco.

SANTA CRUZ, Santa Cruz Co., Cal.—American Cast Iron Pipe Co., Ballboa Bldg., San Francisco, awarded contract by council to fur. 2000 ft. 4-in. c. i. pipe with fittings; bid follows: pipe, \$1039; fittings, \$424.32; total, \$1734.32.

OROVILLE, Butte Co., Cal.—Until Nov. 6, 3 p. m., bids will be received by J. W. Hibson, city clerk, for installation of sewerage plant at Exposition building in Oroville. Spec. on file in office of clerk.

SANTA CRUZ, Santa Cruz Co., Cal.—H. H. Miller, county clerk, will sell at public auction, Nov. 6, 3 p. m., a 2½-ton Fageol motor truck. Further information may be had from clerk.

SAN FRANCISCO—Until Nov. 13, 3 p. m., bids will be received by J. S. Dunnigan, clerk, Board of Supervisors for fur. one oil burning range, laundry machinery and hospital furniture. Proposal blanks will be furnished by clerk, Room 235, City Hall.

HARDWICK, Kings Co., Cal.—Until Nov. 2, 10 a. m., bids will be rec. by Leonard Hardwick, city engineer, District, to install pneumatic water pressure system. Spec. on file in office of County Supt. of Schools at Hanford may be obtained from Geo. M. Harfman, trustee of district, at Hardwick.

MARYSVILLE, Yuba Co., Cal.—Chamber of Commerce will secure designs and estimates of cost on the construction of dehydrators. The information will be obtained for raisin growers in District No. 10, Yuba County. It is proposed to call a special meeting in the near future to have dehydrator specialists submit plans.

EUREKA, Humboldt Co., Cal.—Contracts for sawmill machinery for the new Dolben-Carson Electric Mill, now under construction, have been awarded. Sumner Iron Works, of Everett, Wash., awarded contract for approx. 500,000 lbs. machinery; Aliss Chalmers Co., Milwaukee, approx. 250,000 lbs. and D. J. Murray Mfg. Co., Warsaw, Wis., for 167,000 lbs. Contract prices and description of materials are not available.

BENICIA, Solano Co., Cal.—Until Oct. 31, 8 p. m., bids will be rec. by J. C. MacAravy, city clerk, for fur. and del. motor truck, to have wheel base of approx. 10 ft., with four cylinder motor to develop no. less than 20 hp., more than 3½ h. p. fitted with Artillery type wheels with 21x14½ in. pneumatic tires. Springs to be semi-elliptic front and rear. To be equipped with regular equipment, electric starting and lighting system, generator storage battery, head lights, tail light, speedometer, ammeter, mechanical horn, extra rim, complete set of tools, including tire pump and jack. To be capable of developing up to 50 miles per hour.

Bids are also desired to change equipment from present chemical engine owned by city to above truck.

REDFEY, Butte Co., Cal.—Until Nov. 4, 8 p. m., bids will be rec. by W. A. Walden, clerk, Gridley Union High School District, for fur. and install. one Joiner for manual training department. Spec. call for bids, city clerk at office of Diamond Match Co., Sycamore and Washington Sts., Gridley.

GRIDLEY, Butte Co., Cal.—Until Nov. 13, 8 p. m., bids will be received by Marion Deenen, clerk, Redfey Joint Union High School District, for fur. and del. one Ford, Model T, 5 passenger touring car, equipped with self starter and demountable rims; prices to be f. o. b. Redfey, set up and in running order. Spec. may be had from clerk.

BAKERSFIELD, Kern Co., Cal.—Until Nov. 9, 7:30 p. m., bids will be rec. by E. R. Long, secy. Board of Education, for one Model United States H-34 automatic two stage air compressors with 3-4 h. p. motor or equal f. o. b. Bakersfield. See call for bids under official proposal section in this issue.

BAKERSFIELD, Kern Co., Cal.—Until Nov. 9, 7:30 p. m., bids will be rec. by E. R. Long, Board of Education, to drill wells and for water per systems at Primavera Park School. See call for bids under official proposal section in this issue.

RAILROADS

OMAHA—Union Pacific Railway Co. is having plans prepared by its engineering department at Omaha for the new shop bldg. to be erected near Belvedere Gardens. Bldgs. will include a 50-stall roundhouse and a number of large shops of brick constr. Plans will be ready for figures early next week. Bids to be taken through the local engineering dept. Plans are being prepared by local engineering office for substitution of the industrial tract, the work will include about 12½ mi. of concr. and asph. paving, 4000 ft. of sewer, railway tracks, etc. Development of the machine shop tract will require about \$100,000 worth of grading and installation of 30 miles of railway track.

SANTA BARBARA, Cal.—Pacific Southwestern Ry. Co., has been granted permission by state railroad commission to sell stock to build a standard gauge railroad bet. Lompoc and White Hills, a distance of 4 miles. The company is incorporated for \$100,000. The company has also applied for permission to extend its rails across certain alleys and streets in the city of Lompoc.

WASHINGTON, D. C.—Los Angeles and Salt Lake R. R., authorized by Interstate Commerce Commission to construct 22 miles of railroad from Land to Cedar City, Utah, at approx. cost of \$758,000. Line will tap deposits of iron ore. There are 2,500,000 miles of rural highway in the United States.

TWIN FALLS, Idaho—The Idaho Central Railroad Co., backed by the Western Pacific Railway Co., will complete, within a year's time, 30 miles of railroad to connect Twin Falls with the W. P. and S. P. lines at Wells, Nev., according to Conrad Wolfley, of San Francisco, president of the Idaho Central Railroad Co. The line will cost approximately \$1,600,000.

CRESCENT CITY, Cal.—Reports here indicate that construction on the California-Oregon Coast Railroad between Grants Pass, Ore. and Crescent City, Cal. may be revived in 1923. Indirect advisers of financial negotiations for completion of the road have been received by officials of the S. P. Co. and the Oregon State Bureau of Mines and Geology. The road, designed to open up the Oregon coast and extend to northern coast of Superior California, was begun prior to the war under the guidance of Robert E. Twoby and construction was completed from Grants Pass west to Waters Creek, a distance of 15 miles. The survey of the line calls for running up the Illinois river, tunneling through the divide and then down South River to Crescent city. The cost of the 85 miles of track is estimated at \$3,000,000.

FIRE EQUIPMENT

CAMMEL, Monterey Co., Cal.—City trustees contemplate purchase of motor driven fire truck. Fire department favors purchase of White La France engine costing \$6152.

PORTLAND, Ore.—Until Nov. 10, 2 p. m., bids will be received by S. C. Pier, City Purchasing Agent, Room 208, City Hall, for 100 fire hydrants for Bureau of Water Works. Spec. may be had from above.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

SANTA ANA, Cal.—Until 11 a. m., Nov. 8, bids will be received by supervisors to resurface East Chapman Ave., bet. city limits of Orange and Prospect Ave., with 5-in. asph. conc. or 5 in. reinf. conc., in four-lane road dist. Plans and spec. on file with supt. of highways in the court house. Cert. chk. or bond \$25,000. J. M. Backs, clerk.

RIVERSIDE, Cal.—Geo. M. Pearson, La Verne, will be awarded contract by supervisors at \$23,223 to construct an asph. macad. pavement on the Elsinore-Corona road, involy. 2862 cu. yds. excec. at 14c per cu. yd. also 12,000 sq. yd. roadbed at 17c ft.; 128,000 sq. ft. 5-in. macad. pavement at 16c ft.; 194 cu. yds. conc. in culvert end walls, at \$20 yd.

LOS ANGELES, Cal.—J. G. Beckford, 718 San Fernando Bldg., awarded contract by supervisors at \$11,500 for paving with oil and screenings, constructing curbs, gutters and Corona Aves., bet. Bell and Florence Aves., 36 mi., R. D. I. No. 228.

ALHAMBRA, Cal.—Until 8 p. m., Nov. 6, bids will be rec. by R. D. Williams, city clerk, to const. 8-in. vit. pipe sewers in Rushnell Ave., Electric Ave., Los Robles Pl., Marguerita Ave. and in other avenues and streets, a total of 15,755 lin. ft., also 4-in. cast-iron house sewer in curb line.

EUREKA, Humboldt Co., Cal.—Until Nov. 13, 7:30 p. m., bids will be rec. by Geo. B. Albee, City Supt. of Schools, to construct sewer system connecting the high school gymnasium with J. St. sewer. Terms of contract payable to Eureka High School District required with bid. Plans may be had from Board of Education.

 W. B. Hogan, City Engineer

CIVIC CENTER FOR BY THE CITY

Some months ago when the Stockton city council, after choosing a site for a municipal auditorium, selected a site in the same vicinity as a location for the city hall, it became evident that the city officials favored the creation of a civic center. Not long after the agreement as to the location of the two edifices was reached the council announced its position favoring a civic center and requested the architects appointed in connection with the two buildings to draw comprehensive plans for the development of a civic center with the auditorium as the nucleus. A plan was submitted by the city hall architects and another by the auditorium architects. The latter plan was more generally approved.

The civic center under the plan approved will be within the area bounded by Commerce, El Dorado, Park and Lindsay streets. When the plan has been fully developed the three edifices will be the auditorium, city hall and library.

Probably the biggest feature in connection with the carrying out of the plan is the contemplated filling in of McLeod lake from El Dorado street to a point west of Center street. The council has already started negotiations to secure permission to make this fill. City engineer W. B. Hogan is now at work preparing plans of the contemplated fill and an application to the war department will be made shortly.

The plan approved, however, does not necessitate the filling in of the lake before any part of the scheme can be carried out. Construction of the auditorium and city hall can be carried on immediately as both buildings are to be located on firm ground, one on either side of the lake area.

The city has already purchased the block bounded by Center, Fremont, Commerce and Oak streets as the site for the municipal auditorium. It has also purchased the block bounded by El Dorado, Lindsay, Fremont and Center streets as the site for the city hall. The auditorium will cover practically the entire site purchased, while the city hall will occupy a little less than half of the block, leaving the rest for use for widening streets and for beautification.

When the McLeod lake area is filled in an area bounded by El Dorado, Center, Oak and Fremont streets will be

AUDITORIUM CITY OF STOCKTON ARCHITECTURAL COMMISSION

 J. M. Burke, Engineer

developed into a beautiful park. It is upon this park that all of the buildings in the center will front.

According to Glenn Allen, chairman of the city architectural commission which prepared the plan, Fremont, Oak and Lindsay streets from El Dorado to Commerce street will be widened eighty feet. The purpose of widening the streets is to create parking for automobiles and a wide thoroughfare for traffic. Besides the unusually wide streets there will be a large area along Center street and near the waterfront where machines can be parked. The architects have endeavored to provide sufficient parking space to handle the crowds that will visit the auditorium.

The only extensive area the city would have to purchase to carry out the plan would be the south half of the block bounded by Center, Oak, El Dorado and Park streets, the library site. The library would occupy the greater part of this area. Its style of structure and location would conform and harmonize with the city hall.

The city hall is to be located on the north half of the block selected. The structure itself will front on the large park area caused by filling the lake and a wide street. On the south half of the block will be a small strip of park extending from El Dorado to Center street.

The remainder of the area would be used to widen the street and create parking area. A small street extending from El Dorado to Center street between the structure and the small park would give access to the city hall.

In the final preparation of the comprehensive plan for civic center development the auditorium architects and the city hall architects have conferred together and determined that the style of architecture and design shall be in harmony. Color and beautification schemes shall all be in harmony so that the center idea will be carried out to the fullest extent.

Besides the large park on which all of the edifices will front the architects have provided for a smaller park south of the auditorium and the strip of park south of the city hall. Ample space will be created at various points in the center for statues and other beautification schemes. In the central park the architects have planned for a fountain and pool, ornamental walk and ample shade.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

(Continued from Page 17)

FRESNO, Fresno Co., Cal.—City Council plans widening of Harrison, Thomas and Belmont Streets, opening of Safford St., and closing of Acadia St., at a cost of \$29,290. Wm. Stranahan, city engineer.

CALIFORNIA—Until Nov. 20, 2 p. m., bids will be rec. by State Highway Com. Forum Bldg., Sacramento, to surface with asphalt, conc. 9 in. into Merced Co., Road and Broadway, involving 73,292 sq. ft. 8-in. macadam paving, curb, walk etc.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns
of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

2754

—reaching the Engineer, Contractor and Material Dealer.

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

OFFICIAL PROPOSALS

(Continued from Page 15)

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed proposals will be received by the undersigned on November 8, 1922, for constructing portions of the State Highway System as follows:

(1) Bids received until, and opened at 1:30 p. m., for grading, construction of culverts and placing gravel surface, in Humboldt County, between the south county line and Winnemucca.

(2) Bids received until, and opened at 2:30 p. m., for grading, construction of culverts and placing gravel surface, in Lyon and Churchill Counties, between 2.8 miles East of Fernley and Hazen.

Bids received until, and opened at 3:30 p. m., for placing gravel surface in Churchill County, between 1 1/2 miles East of Salt Wells and Sand Springs.

Plans may be examined and form of Proposal, Contract and Specifications secured at the office of the undersigned; they may also be examined at the County Clerk's office in Winnemucca for Humboldt Co. work in Yerington and Fallon for Lyon and Churchill Counties. Division Engineer's office in Las Vegas, Elko or Reno, and District office of Bureau of Public Roads, U. S. Building, San Francisco, California. Cash deposit of fifteen dollars (\$15.00) with the undersigned required for copy of plans which will be refunded on their return in good condition. Bids must be on Pro-

posal form of Highway Dept. and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a Surety Company, duly authorized to do business in this State, stating that such Surety Company will provide said bidder with a bond in such sum as is required and in accordance with the provisions of said Specifications, conditioned for the faithful performance of all provisions of the Contract and Specifications.

Right is reserved to reject any or all bids.

GEO. W. BORDEN,
State Highway Engineer,
Carson City, Nevada.

TO CALL BIDS FOR REFRIGERATING PLANT, ETC.

NOTICE TO CONTRACTORS

SEALED PROPOSALS, indorsed "proposals for refrigerating and ice-making plant, Naval Operating Base (Hospital), Pearl Harbor, T. H. Specifications of 4735 will be received at the Bureau of Yards and Docks Washington, D. C. in the near future. The work consists of refrigerating and ice-making equipment substance except ammonia, and consisting of two-motor-driven compressors, condenser, liquid receiver, two motor-driven brine pumps, a motor-driven circulating water pump, a combination freezing and brine-cooling tank with expansion coils, a water pre-cooler tank with coils, a pressure filter, brine agitator, water agitator system by compressed air, automatic can filler, hand-operated crane, automatic can dump and ice chute, ice cans, oil and scale traps, piping for existing cold storage rooms and cook's boses and the construction of an ice-storage room in shall be 8000 pounds per 24 hours. Drawings and specification No. 4735 may be obtained on application to the Bureau of Yards and Docks, Navy Department, Washington, D. C. Commandant, Navy Yard, Mare Island, California, or to the Commandant, Naval Operating Base, Pearl Harbor, T. H. Deposit of a check or postal money order for \$10.00 payable to the Chief of Bureau of Yards and Docks is required as security for the safe return of the drawings and specification within five days after the award of contract.

BUSINESS OPPORTUNITIES

Further information regarding these opportunities may be had from Foreign & Domestic Trade Department, San Francisco Chamber of Commerce, Merchants Exchange Bldg; (refer to index number when making inquiries).

6564—Norway. Old established manufacturers and exporters of sepulchral monuments and tomb stones, also crude blocks of syenite (Labradorite), with importers on the Pacific Coast.

6568—Los Angeles, Calif. Importers of calcium chloride 70-75% and sulphate of copper 98-99% desire connections with San Francisco firms using these chemicals.

6570—Honolulu, T. H. Manufacturers of wood products desire to be placed in communication with firms dealing in planing mill machinery, with a view to securing estimates for a complete planing mill and furniture factory.

6570—San Juan, Porto Rico. Gentleman with excellent references is interested in a San Francisco export business of building materials.

6580—Sweden. Firm manufacturing plain wooden chairs, suitable for assembly halls, etc., is anxious to secure a representative for their product on the Pacific Coast.

D-286—Hayonne, N. J. Manufacturers of Fuel Oil Burners desire representative in California.

D-288—Buffalo, N. Y. Well established eastern concern is anxious to be placed in touch with an individual or firm which could represent them in San Francisco and adjoining territory for the handling and selling of complete semi-automatic filling machines.

The Diamond "J" Mixer

The Newest of The Barrel Type of Mixer

Rapid in Mixing Action---Easily Charged and
Discharged---Can be rapidly moved from
place to place---Always ready
to go to work

Barrel 33 Inches
From Ground
Easy to Feed

Rubber Tire Truck
Tracks With Auto
Quick to Move

Hook it right on behind your Auto

When a job is finished it is possible for one man to wheel it back of the auto and by the use of one bolt couple it ready for the road.

Contractors do not realize the yardage capacity and the money-making power of the Diamond "J" Mixer. It is capable of turning out from 25 to 30 yards of concrete per 8-hour day, with 4 to 5 men, and the concrete is as well mixed as can be done by any machine, regardless of size.

The Diamond "J" Mixer is adopted to nearly all

sizes and kinds of concrete jobs from the small repair jobs to the large basements and foundations. In fact, a number of contractors now prefer to have 2 or 3 of these small machines rather than one large machine. They can be used separately on small jobs, or two or more on the larger jobs.

The Diamond "J" is built strong throughout, made of the very best material, and will stand years of hard service.

The Diamond "J" Mixer complete with engine weighs about 775 pounds. Write for prices.

BILLS LIMIT HIGHWAY LOADS AND
PROVIDE PUBLICITY FOR DAY
WORK PROJECTS

Two bills of importance to construction men will come before the California Legislature when it assembles next January. One is to be a bill to limit traffic loads on state highways, so they will not exceed the maximum loads for which the pavements were designed. The other bill will require publicity on all public work done on a day labor basis.

The highway measure is earnestly supported by W. A. Gillette, of Pasadena, public works contractor, who believes that many of the attacks on the State Highway Commission, the highway engineers and the contractors for the condition of some of the highways are unjust.

Referring to an accounting of the cost of public work done on the day labor plan, Arthur S. Bent, in a statement to the press of Los Angeles, called the attention of the public to the startling contrast between the results of contract work and day labor work by the State's forces in the construction of the State highways. He said that in the joint report of the two great automobile clubs of California there was a statement of 300 contracts done by the State by day labor amounting to \$7,000,000, while the State's accounts showed unit costs on only five.

"How long would a contractor last if he did business that way," asked Mr. Bent. "On two of these five, the State first called for bids, then rejected them on recommendation of the engineer, who went ahead with the work by the State's force. On the large job the estimated cost was \$102,000; a contractor's bid on the work was \$117,000; by day's labor the work cost the State \$160,000. The second job had been estimated by the engineers at \$43,000; the bid was \$64,000; by day's labor it cost the State \$81,000."

BETTER HIGHWAYS TO RELIEVE CITY CONGESTION

"The highway engineer is needed sorely at this moment, the engineer with daring imagination, to help scatter the dwelling houses and residence facilities of cities of more than 25,000 population far and wide into the outlying open country, and thus in some appreciable way to relieve congestion in American cities," declared Dr. C. J. Galpin, United States Department of Agriculture, at the second annual conference on highway transportation education at Washington.

"A large factor in decentralizing city homes is the transportation problem, and challenges the genius of highway engineers," Dr. Galpin said. "Less than one-third the entire population of the United States is on farms. Sixty-eight cities of more than 100,000 population each contain nearly another third. The 30 odd millions of people living in cities of 25,000 population and over are being brought into immediate contact with the commodities of living, the skills of service, and the institutional wisdom of the world, whereas those who live on farms receive few of these advantages."

A system of complete terminal towns connected by rail or water to wholesaling cities and an adequate system to groups of farm populations is Dr. Galpin's solution for "taking the curse off farming, and opening the door to a good kind of life on the farm."

SACRAMENTO BUILDERS GATHERING CONTRACT AND DAY LABOR COSTS

The Sacramento Master Builders' Association is collecting data on public and private construction to afford a comparison between contract and day labor work.

The information collected will reflect on a new bill which will be brought before the legislature in the near future. The proposed legislation provides that in the matter of state construction work the estimated cost of the work to be published, bids called for, and the final cost of the job, if completed by day labor, published.

Out of 300 state jobs accomplished by day labor during the past year, according to figures, on only five of them was the cost estimated beforehand, and on two jobs in which bids were received the final cost of the work by day labor was 40 per cent on one and 80 per cent on another higher than the contract figures for the work. A similar bill was vetoed by Governor William D. Stephens a short time ago.

STATE CIVIL SERVICE COMMISSION TO HOLD EXAMINATION

Examinations soon will be held at Sacramento, San Francisco and Los Angeles by the State Civil Service Commission to provide eligibles for attractive positions in the State Corporation Department as Deputies and Examiners. The salary ranges for the position are for Deputy, from \$225 to \$325 per month, and for Examiners, from \$200 to \$270 per month. The Civil Service will accept applications for the examinations up to and including Nov. 4, and the persons desiring to enter may obtain application blanks from the State Civil Service Commission, Room 331, Forum Building, Sacramento; Room 1007, Hall of Records, Los Angeles, and the office of the State Free Employment Bureau, 771 Howard Street, San Francisco.

BUILDING BOOM RELAXES

"Indications are that the peak of the building boom is past," says The Industrial Digest. "September expenditures on construction did not quite equal those of August, and since the June of May, it is fair to assume that the 1922 boom is over. This does not mean that activity in the building trade may be expected to stop, but merely that the excitement is past and the industry is ready to settle down to a long period of deliberate work until there are enough houses for everybody."

"There is still a real housing shortage in 94 out of 146 cities and counties surveyed by the National Association of Real Estate Boards. There is a surplus of high class apartment houses in New York; in Boston there is no shortage; Charleston has a housing problem, but rents are going down; there are plenty of homes in Dallas; Harrisburg still has a shortage, although building operations are normal and rents steady."

"In the South, construction is still going strong. Activity earlier in the year was tremendous. In 84 cities of 16 Southern States where comparative building figures are available, \$215,531,425 worth of new construction was commenced during the first half of the year, a gain of \$64,563,723 over the corresponding period of 1921."

BUILDING BOOM IN CANADA

Canada is experiencing a building boom. Figures for the first six months of the year show a volume of construction unequalled in any year since 1911.

Building permits had an aggregate value of \$132,452,900 for the first six months, as compared with \$117,762,559 in the first half of 1921. Ontario accounted for \$75,586,900, Quebec \$31,294,200, Maritime provinces \$5,521,700 and the Western provinces \$21,049,200.

Of the total \$53,435,300 was invested in residences, \$39,660,900 in business building, \$10,050,700 in industrial concerns and \$29,305,100 in engineering construction. Compared with last year, building in Ontario has doubled and Toronto has led all Canadian cities in work of this kind.

OCTOBER BUILDING SUMMARY

Following is a record of building activities in San Francisco for the month of October, 1922, as shown by the records of the Bureau of Building Inspection of the Department of Public Works:

Class	No. of Bldgs.	Est. Cost
A	1	\$ 225,000
B	2	536,500
C	30	1,010,397
Frames	247	1,421,939
Alterations	399	1,525,558
TOTAL	679	\$4,719,394

LUMBERMAN SLAIN

C. M. Cox, Manager of the M. J. Scanlon Lumber Company plant at Massack, seven miles from Quincy, Plumas County, was shot and killed October 31. Felipe Pasquera, a Filipino, has been arrested and charged with the shooting. Cox was married and is survived by a widow and one daughter.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

More Americans are flocking to the building bargain counter this fall than at any time since the war halted home construction. Contractors and architects, usually the first to feel the approach of cold weather with a slump in business, report a steadily increased volume of inquiries and city officials are writing more permits for erection of homes. Men in the building industry, from material manufacturer to carpenter and mason, have long known the economic advantage of building in the slack season. For several years the industry has waged a steady campaign to bring this fact before the public and spread the congested activity of a few months over the entire year. When the greater portion of building is crowded into seven months, prices reach their highest in the spring and summer when the demand crowds the supply. The same situation obtains in the labor phase of the work. By building in the fall and as far as possible into the winter, this demand is more nearly proportioned among 12 months of the year; mills and factories are able to maintain a steadier flow of production; raw material and architect are able to keep their basic organizations intact and the contractor and architect are able to keep their basic organizations intact and thus decreasing overhead expenses and assuring more satisfactory and efficient work. Men in the industry see in this autumn's increased building, the prospect of a broadening of the old short season and a consequent stabilization of building costs, estimating that the certain success of the home owners who are building this winter will prompt many others to take the step in succeeding seasons. The manufacturers of cement particularly have waged steady campaigns on this one subject, in perfecting methods of using their product in cold weather to the best advantage, and to bring a realization of the savings to be effected before the public. That such campaigns have borne fruit is evidenced in reports for proposed construction from many cities which show a greater volume of all classes of building on the books for fall and winter than ever before.

The home builder of California will not be allowed to shingle his roof if the State Housing Act—famously known as the Shingle Bill—now being held up for referendum, is approved at the November election. Because of an anti-shingle clause inserted so adroitly that it was not discovered until after Governor William D. Stephens had signed the measure, is manifestly so absurd, unfair and unjust, the lumbermen of California are opposed to the bill, which is No. 5 on the November ballot. In proof that the State Immigration and Housing Commission, under whose supervision the State Housing Act is administered, did not know of the clause in question and that its presence makes the whole act objectionable, Paul Scharrenberg, chairman of the State Immigration and Housing Commission, has written the argument asking for the negative vote. The bill defines semi-fireproof and fire-proof buildings prescribing "approved" roofings and then adds a section which includes all dwellings which may be built. The smallest bungalow, the most isolated and humble cottage in any incorporated community in California, come under the provisions of the act, as it will be in effect if approved Nov. 7th. Realization of the defect, the discriminatory sections favoring one class of manufacturers and imposing a ridiculous and unjust restriction upon house owners, was responsible for the holding up of the law pending a referendum. More than 53,000 names were signed to the petition for the State Immigration and Housing Commission announced its opposition to a measure that might have been termed its own and the "anti-shingle" bill became known as one of those freak and dangerous measures which must be defeated.

Reductions in freight rates ranging as high as 35 per cent on a number of commodities from Eastern points to California will become effective Nov. 30, according to G. W. Luce, Freight Traffic Manager of the Southern Pacific Company. The reduced rates will apply, from all Eastern points except the Southeast, on cedar lumber, varnish, stoneware, brass and bronze articles, asbestos lumber, lamp black, grading and road-making machines, electric traveling cranes, machinery, packing house products, copper roofing, iron barrels, acetone and other commodities.

A movement to form a branch of the Los Angeles Builders' Exchange in Orange county, is under way. At a meeting at Santa Ana a temporary organization was formed with J. Simon Fluor as chairman and George W. Wells as secretary. A temporary executive committee to receive and pass on applications for membership was appointed. This committee consists of G. W. Young, Chris McNeill and Charles H. Chapman. The purpose of the movement in Orange county is stated to be the protection of the public against irresponsible persons in the building industry.

The Laguna Honda Parent Teachers' Association has endorsed the \$12,000,000 bond issue to be voted upon in San Francisco November 21.

San Jose, during October, issued 80 building permits. The improvements totaled \$116,110, as compared with \$117,355 for October, 1921.

Building permits issued in Vallejo during October totaled \$26,344.

C. W. Dickey, supervising architect for the Oakland Board of Education, assisted by Architect J. J. Donovan of Oakland, is mapping out a program of construction to be undertaken under a future \$8,400,000 bond issue to finance school improvements. The issue will provide \$7,000,000 for construction, \$700,000 for purchase of sites and \$700,000 for furnishings.

The Sacramento Chamber of Commerce is conferring with City Manager Clyde L. Seavey regarding the immediate construction of a municipal golf course in the William Land Park on Riverside Drive. Wm. Locke, noted golf course architect, will submit a preliminary report on the proposed improvement.

Building in Portland, Ore., for October totaled \$1,459,420 as compared with \$1,942,510 for the corresponding period in 1921. The total for the past ten months is \$20,037,560.

Articles of incorporation of the Electric Screw Driver and Tool Company have been filed in Oakland. The company is capitalized at \$100,000. Directors are: R. D. Austin, D. F. Bacheller and Julius Dusevoir, of Oakland.

The Western Lumber Co. of Sacramento, has filed articles of incorporation with the Secretary of State. The company is capitalized at \$200,000, of which \$500 is subscribed. Directors are E. S. Carpenter, J. S. Forster, N. J. Campbell, Phillip S. Driver and F. H. Carpenter, all of Sacramento.

(Continued on Page 7)

ALONG THE LINE

B. S. Stone, of Astoria, Ore., was elected president of the Pacific Coast Ass'n. of Port Authorities, at the close of the annual convention held in Oakland. Other officers were: R. D. Pinneo, Astoria, secretary; R. S. Burgard, Portland, first vice president; Albert E. Carter, Oakland, second vice president; Edgar McKee, Los Angeles, third vice president; J. H. McCallum, San Francisco, fourth vice-president, and J. E. Lampine, Seattle, fifth vice president.

R. M. Beanfield, civil and mechanical engineer, has opened offices in the Brix Building, Fresno, where he will specialize in the designing of reinforced concrete, steel and timber structures, heating, ventilation, refrigeration, mechanical handling of materials, quantity surveys, inspections and reports.

Ben Covell, Sacramento building inspector, reports the issuance of 301 building permits during October. The improvements carried on under these permits represent an expenditure of \$1,378,486. For the past ten months the building totals in Sacramento aggregate \$8,155,269.

F. A. Beltmann, of Houston, Texas, has been elected president of the National Hardware Ass'n, which recently closed its 1922 convention in Atlantic City. Other officers elected are: Bruce Hayden, of San Francisco, and John Townley, of Kansas City, vice presidents; T. James Farney, of Philadelphia, secretary-treasurer.

The Saticoy Company, of Ventura, has been incorporated with a capital stock of \$150,000 by A. G. Wright, of Fullerton; C. A. Beall, of Los Angeles; A. H. Stovall, of Santa Paula, and Charlotte Stephens and D. G. Bowker, of Ventura.

The American Automatic Lock and Lift Co., of San Francisco, capitalized at \$500,000, has filed articles of incorporation with the county clerk in Oakland. Directors are: Evan Georgeff, Charles F. Craig and Walter Johnson.

A. B. Cutter, city engineer of Everett, Washington, has been granted six months leave of absence. He will go to New York to take up a course in the National Institute of Public Administration.

The Calfelt Insulating Manufacturing Co. has opened a plant at 2417 Enterprise St., Los Angeles, for the manufacture of deadening felts. A. G. Brown is manager.

Western Sheet Metal Works, 1911 Mission street, San Francisco has placed on the market a new gas tank water heater.

The Associated General Contractors of America will hold their annual meeting in Los Angeles, January 30 to February 2, 1923.

Union Oil Co. plans \$500,000 oil storage plant on 120-acre tract, at Ten Mile Point, just south of Edmonds, Wash.

A NEW \$26,000,000 WATER POWER PLANT

In the State of Alabama is the largest power plant in the world, at Keokuk. During the period of its construction the attention of all the engineers of the country was focused on it. This plant was the largest thing of its kind that had ever been attempted so far. When completed, it supplied electric power to hundreds of cities and innumerable factories.

And now, in northern Arkansas on the White River, there is now under construction a project which will be even greater than Keokuk. Whereas Keokuk is a power plant, for supplying power only, the new project will not only supply as great an amount of power, but will also serve as a medium to keep in check the surrounding rivers which cause enormous damage to both crops and property each year.

The program includes the creation of an artificial lake to be the largest in the world, with an area of 90 square miles, a 350-mile shore line and possessing all of the attractive features of a natural lake. The completed project will supply the power to turn the wheels of hundreds of factories spread over a large territory and meet the power demands of cities and towns, from the smallest village to the great metropolitan centers.

The present program provides for the construction of three dams, the largest one across the White River near Cotter, to be known as the Dixie Dam; another across the Buffalo River, 12 miles below Cotter, and a third on the Big North Fork of the White River, 20 miles below Cotter. The combined output of the three dams will be 155,000 horsepower. The contemplated construction of five low-head dams across the White River between Cotter and Batesville, Ark., will increase the continuous horsepower to 255,000.

The Dixie dam, which will be located within a short distance of the celebrated Rush Creek mining district, noted for its rich deposits of zinc and lead, will be started shortly after the first of next year and will require two years in building. Its height is given as 253 feet, length at crest 2000 feet, and base 1500 feet. The width at the base is to be 200 feet and the width at the crest 36 feet. The dam will be of the monolithic type, of solid concrete, requiring 1,100,000 yards of concrete in its construction. The cost of construction of the Dixie dam will be \$15,000,000, and it will have a capacity of 100,000 continuous horsepower. The Buffalo dam will cost \$5,000,000 and will have a capacity of 25,000 continuous horsepower. The Big North Fork dam will have a 30,000 continuous horsepower capacity and will cost \$6,000,000, bringing the cost for the three dams to \$26,000,000.—The Industrial Digest.

BARNES-TIBBITTS SHIPYARD PASSES TO NEW HANDS

Purchase of the Barnes and Tibbitts shipbuilding and Drydock Company, of Alameda, Calif., by the General Engineering Company, 1013 Battery Street, San Francisco is announced by George A. Almes, president of the latter concern, who will head the combined affairs of the entire operations of the entire holdings on both sides of the San Francisco Bay. The purchase price is not revealed. The shipyards and drydocks embrace large and valuable land and water holdings in Alameda and the plant is declared to be exceptionally well equipped. The purchasers come into possession of everything associated with the shipyards, including boiler works, two drydocks, mill and joiner shops, cranes and all other apparatus. The name of the shipyards will be changed to the General Engineering and Drydock Company. In October of

Eighteenth Convention of National Rivers and Harbor Congress

The Official Call has been issued for the Eighteenth Convention of the National Rivers and Harbors Congress, which is to be held in Washington, D. C., on Wednesday and Thursday, Dec. 6 and 7. This will be the second convention of the Congress in 1922, the Seventeenth, which would regularly have been held in December, 1921, having been postponed until the 6th and 7th of March of this year because of the Conference on the Limitation of Armaments.

A special rate of one and one-half fare for the round trip, on the certificate plan, has been granted from every part of the country except the Pacific Coast States, and a large attendance is expected. The Woman's National Rivers and Harbors Congress will hold its Fifteenth Convention at the same time and place.

The annual banquet will be held on the evening of the second day, Thursday, Dec. 7. The banquets of the Congress have always been notable and enjoyable occasions and there is no reason to expect that the coming one will be any exception. There is some curiosity, however, to see who will act as toastmaster. Vice President Coolidge presided at the banquet last March and Vice President Marshall at the one preceding that, in December, 1920.

One of the liveliest discussions at the coming Convention will center around the question whether or not water competition justifies a violation of the long-and-short-haul clause of the Interstate Commerce Act. Before the Interstate Commerce law was passed, the railroads reduced the rates to waterway points to any extent that was necessary to destroy water competition, recouping themselves for the losses so incurred by charging higher rates to intermediate points and much higher rates to inland points equally distant but not intermediate.

Feeling on this subject is especially acute in the Inter-Mountain region, the people of which claim that their interests are suffering from a discrimination that is unjust and ought to be made un-

lawful. For a long time the freight rate from New York to Salt Lake City, for instance, was made up of the through rate from New York to San Francisco plus the local rate from San Francisco back to Salt Lake City. Former Senator Bristow, of Kansas, once pointed out that the railroads charged \$670 more to drop a carload of woolen goods from New York in Tucson, Arizona, than they did to haul it through Tucson, 1600 miles farther to the Pacific coast.

The people in the Inter-Mountain Country have been fighting this system of rate making ever since the Interstate Commerce Commission was established—and are still at it—and the National Rivers and Harbors Congress has secured several changes in the Interstate Commerce law. Freight rates can no longer be cut below cost of operation but must be fairly compensatory, and water competition must be "actual" rather than merely "potential" before the Interstate Commerce commission can allow a railroad to charge more for a shorter than for a longer haul.

The cities situated on waterways insist that they are entitled to the benefits due to their location, including lower freight rates than inland points and the railroads declare that inland points are entitled, not to the same rates as waterway points, but to rates that are reasonable for the service rendered; that if they are not allowed to make competing rates to waterway points all the traffic would go by boat instead of by rail and that this would cause such a loss of railway revenues that, in order to avoid bankruptcy, they would have to charge to inland points rates that are much higher than those they now pay.

The Intermediate Rate Association has agreed to furnish a speaker to state their views and it is expected that a speaker from some city on the Pacific Coast will present the other side of the question, after which it will be thrown open for discussion by the delegates to the Convention.

Last year the General Engineering Co. purchased the holdings of the Triangle Engineering Company. Prior to Armes joining the General Engineering Company as president last year, the concern was known as Mooney and Young. John Mooney and James Young will be directing heads in the various phases of the enlarged company.

PRIZE OFFERED FOR STORIES OF LANDMARKS

The Saye the Surface Information Bureau, 507 The Bourse, Philadelphia, Pa., announces that \$1000 has been set aside for prizes which will be awarded for the best stories and pictures of notable American landmarks. Every town or village has some building or landmark whose preservation has been secured through loving care by owners or public spirited citizens.

The prizes have been classified as follows: First prize, \$250; second prize, \$100; third prize, 50; four prizes of \$25; thirty prizes of \$10; forty prizes of \$5.

In case of ties the full amount of the prize will be given to each tying contestant. Preference will be given to stories accompanied by pictures.

TUBE PROJECT HALTED

Plans for the construction of a tube under the estuary between Oakland and

Alameda received a setback when District Attorney Ezra Decoto informed the Alameda County Board of Supervisors that under the state constitution the proposed tube cannot be built.

The state constitution conflicts on the point, he declared, an enabling act in 1911 giving the power of expending the money for such work to the boards of supervisors and the mayors of the cities interested, while in 1914 an amendment placed the power of expending county funds only within the hands of the supervisors.

An attempt by Supervisor John Mullins to have the counties state construction of a bridge to replace the one ordered out by the federal government was voted down. An attempt will be made at the next session of the legislature to have the law amended again.

BRIDGE CONSTRUCTION FOR URUGUAY

Commercial Attache Edward F. Feelev, at Buenos Aires, Argentina, has called the results of the second bidding for the construction of the Santa Lucia River Bridge in Uruguay, which will require 3,000 tons of fabricated steel. There were eight bidders, of whom the lowest according to nationality were: American, 621,000 Uruguayan gold pesos; Belgian, 799,000 pesos; German, 856,000 pesos; and British, 900,000 pesos.

BONDING IRRESPONSIBLE CONTRACTORS

"By giving bonds to irresponsible contractors, surety companies not only spoil the experience and profits of their own company but greatly interfere with the obtaining of a legitimate profit by their better class of clients. By qualifying on the bonds of the undesirable contractor, surety companies obtain bonds on which they suffer loss and trouble, and by their action keep the work from going to responsible concerns of experience and responsibility. It is human nature that when a contractor of good standing loses six or eight jobs by a narrow margin because of the ridiculous bidding of the irresponsible bidder, he will take the last desperate chance, cut away his profits entirely, hoping for the breaks to help him over the rocks. Why is this necessary? Because some bonding company wanted the business of the irresponsible contractor and did not sense the resentment of the legitimate contractor who was pitting his recognized ability, both of a practical and financial nature, against a gambler. What chance has a man who plays against loaded dice? In the same breath one is tempted to compare the sure-thing gambler with the contractor of no standing who is able to secure a bond."—The Scrapper."

HOUSING BUREAU PREPARES PLUMBING REPORT

A tentative report on residence plumbing has been prepared by the subcommittee on plumbing of the Building Code Committee of the Division of Building and Housing of the U. S. Department of Commerce. This report presents recommendations for design of plumbing systems in one and two-family dwellings, and outlines the principles which it is believed should govern the public control of such work through plumbing codes and inspection.

These recommendations are based on extensive series of experiments with plumbing equipment conducted at the U. S. Bureau of Standards under the direction of the subcommittee; also on investigations of practice and opinion in all parts of the country. This report is being sent out in limited numbers for comment and criticism, and the revised report published later for distribution.

Detailed rules for plumbing practice are now being prepared, and will be given in a subsequent report. The experimental work is being continued and demonstration equipment, open to public inspection, will soon be installed.

11 MILLER ORDERS EXCEED SHIPMENT

"American Lumberman" of California says some reduction in volume of orders, particularly for southern pine; they still are above possible shipments from mills. Consequently, order files are increasing and market is whole remains unusually firm for period. Unsold stocks are small, but at some points sold stocks are accumulating.

Automobile manufacturers have been increasingly in the market during the past fortnight for certain southern maples and ash. Low grade lumber, particularly hardwoods, has been active for boxing and crating industries. A feature of yellow pine has been tendency of some mills to hold for advances on certain items of upper grades. Architectural terra cotta is a leader in building materials markets, all factories in this district working at capacity. Stocks are exceptionally low.

A detailed survey of two square miles of land, rich in limestone beds, owned by the Riverside-Portland Cement Co., above Springfield, is being made under the director of J. L. Thomas, general superintendent of the company.

By W. R. Neel, State Highway Engineer of Georgia

(Paper read before a recent meeting of the Southern District of The Asphalt Association, Atlanta, Ga.)

This is a subject very often under discussion by all of the parties concerned. The Engineer has his interpretation of the word co-operation, the Contractor his and the Owner his; but isn't it a fact that each one's idea about just what this word means is a little different? This reminds me of a story told me by a friend. He relates that soon after marrying, he, wishing to avoid mistakes commonly made by married people, decided it would be a good idea to have a frank discussion with his wife in order that they arrive at a plain understanding of their relations. After a brief discussion, mostly carried on by him, they agreed that as he was the man all very weighty matters would be decided by him and that everything else would be decided by the wife. He relates that after several years of married life nothing of a real serious nature had come up for his decision and as a consequence his wife had decided everything.

In regard to the subject under discussion, most specifications frankly place upon the Engineer all of the decisions in the carrying out of a contract. It is my belief, however, that the Engineer has, generally speaking, fully realized that this authority is not given him to abuse. Fairness to both the owner and the Contractor should be the goal which the Engineer strives for.

My experience in life has been that almost every one wishes to be fair according to his own lights—but I must admit that I have met some people with very dim lights. My experience has also led me to believe that, generally, misunderstandings are brought about by the ignorance of someone connected with the contracting.

Frequently contractors submit bids without either a thorough knowledge of the specifications or of the site where the work is to be executed. It is also a fact that frequently misunderstandings arise, due to the fact, that the Engineer is either unfamiliar with the terms of the contract and the specifications, or that he is so inexperienced that he is not capable of properly interpreting same.

The first lesson to be learned by the Engineer is, that he is not only representing the Owner, but that he is also representing the contractor. Fairness to these two parties is the engineer's job. First, it must be recognized that the owner or beneficiary should pay the full cost agreed upon for the improvement. The second—that the contractor effecting the improvement should receive a fair compensation for his efforts, insofar as the limitations of the contract will permit. It should be the desire of the engineer to assist the contractor that after the proper execution of the work a maximum profit can be made. It should be the desire of the contractor to so perform his work that nothing, either in the spirit of the letter of the contract, remains to be done toward securing for the owner a satisfactory job. With both the engineer and the contractor entering into their work with this spirit, true co-operation may be expected.

The laws frequently prevent the very thing for which they are written. They frequently prevent the awarding of the contracts to the best bidder; frequently they are written upon the statute books maximum salaries to be paid engineers, thus preventing the state or

county from securing the very best engineering service. Very often you find a resident engineer or a division engineer in charge of a great many construction jobs and clothed with full authority, who may or may not be competent and who frequently is paid less money than the foreman of the construction gang.

Contractors are always on the lookout for good men and good men are always on the lookout for a means of bettering their positions in life; therefore, it is imperative not only from the interests of the owner, but also, from that of the contractor that adequate salaries be allowed in order to secure and hold competent, experienced engineers. Not only is this true of the engineer but it is also true of the contractor. A well equipped contractor receiving a fair compensation for his work, with an experienced engineer, (and generally this means an engineer receiving a fair salary) in charge of the work means a smooth running, harmonious job where real co-operation and satisfactory results to the owner may be expected. On the contrary a poorly equipped contractor who has submitted a bid which will not allow of a first class job with a fair margin of profit, means contentions, and either the slighting of the job or calling on the bondman, and this always means delay and ultimately a poorly finished job and a dissatisfied public.

Unfortunately all engineers are not to be entrusted with the wide powers generally given the "engineers" by the specifications. There are in every profession what correspond to the "prospector lawyers"—that is a man who lives by making trouble. Many men employing engineers think that trouble between the contractor and engineer is to be expected and unless there is some trouble that the engineer is not looking after the job properly or is "in with the contractor." This is before me there are engineers who are thorough enough to make constant trouble for the contractors; the result is loss to all contractors working under them or excessively high prices for work. The only remedy for this, in my opinion, is for reputable contractors to investigate the engineer in charge of work and in case his reputation is not good to refuse to bid or work in his charge and to inform the men who employ the engineer the reason for declining to bid. Bonding companies could be required by the contractors to furnish impartial information in regard to an engineer, standing and reputation.

Another cause of trouble is placing an inexperienced engineer in responsible charge of the work. Owners will employ a graduate engineer just out of college. The man may be entirely sincere in his efforts but through lack of knowledge of actual construction conditions he may, by over emphasis of some unimportant point cause a loss or at least unnecessary trouble without bettering the work in the slightest.

A phrase of this subject which I consider a real serious one is the insistent bidding of contractors both poorly equipped and incompetent to perform a first class job, but who can get bond. This class of bidder is a constant menace to the other contractors as well as to the engineer's reputation. Of course, you know how difficult it is for a public official to reject the bid of this class of contractor. In selecting any other than the lowest bid, the public official is immediately accused of partiality and even of graft.

The inspectors and the resident engineer are supposed to be able to enforce

carrying out of the plans and specifications and to secure the same result regardless of what class of contractor is doing the work. Yet, anyone at all familiar with construction knows how utterly impossible this is. To obtain it class results experienced, well-dipped contractors and competent, experienced engineers and these cooperating to the best interest of the owner are absolutely necessary. Now, we can this be accomplished? In my opinion, the only practical way is for the engineer to reject all work not coming him up to the plans and specifications. If this is plainly understood, the result will be that contractors who are not equipped either with machinery or experience will either be deterred from doing or very soon driven out of the contracting business. In order to carry out this plan successfully and with every assurance of fairness, specifications must be plainly written and competent engineers and inspectors acted in charge of the work.

The Observer.

(Continued from page 4)

Application has been filed by the Colorado, Columbus and Mexican Railroad Co., recently organized, for permission to construct 550 miles of new railroad between Columbus and Farmington, N. M., with branch lines to El Paso, Texas, and other points. The company seeks authorization to issue bonds of \$20,300,000 and the approval of a issue of \$5,000,000 at par in common stock.

The Bureau of Yards and Docks, U. S. Navy Department, has distributed a questionnaire throughout the naval shore establishments requesting reports on the condition of water front structures and on various factors entering into their design and useful life. The Bureau's present investigation is in operation with the general program of waterfront studies now in progress under the sponsorship of the Committee on Marine Piling Investigations, of the National Research Council.

Hans M. Olsen, chemical engineer for the Monolith Portland Cement Co., operating at Monolith, Calif., is in San Francisco instructing architects and contractors in the use of Monolith plastic waterproofing cement, the company's principal product. Improvements being made at the company's plant will provide a daily capacity of 12,000 sacks of waterproof cement.

M. S. Lopes, Jr., has been appointed manager of the Fess System Co. of Los Angeles, and will handle the Southern California section. The company recently moved to enlarged quarters at 934 Santee street, Los Angeles.

T. L. Rosenberg, of Oakland, has purchased an interest in the Quality Electric Motor Co., 207 Twelfth Street, Oakland, associated with J. S. Burt. The company specializes in factory installation.

Water Supply Installations for Farmsteads and Country Estates, is the title of a recent book written by Wm. Paul Gerhard, C. E., Dr. Eng., 17 West 42nd St., New York.

San Francisco has more automatic elevators than any other city in the world, according to John Stoiz, of the Otis Elevator Company.

Unless cars are secured, lumber shipments from Sisson, Siskiyou County, will cease and the plants close. Similar reports are received from Weed, in the same county.

Significance of the Building Material Price Rise of 20 Per Cent In Twelve Months

(Engineering & Contracting)

A year ago in September, according to the Bureau of Labor, the wholesale price index of building materials was 150, whereas this September it was 180, a rise of 20 per cent in 12 months. The price index, or price level, was 100 in the year 1913, so that building material prices now average 80 per cent above the pre-war level, and they bid fair to go higher.

In August the building material price index was 172, hence the rise was 8 points in one month. Now that winter is approaching, there may be a cessation of this price rise in the building field, but it is our belief that the rise will be resumed next spring.

During the past three years the editor has published several forecasts of the probable movement of commodity prices, and in each instance has been substantially correct. These forecasts have been based on the theory that two dominant factors that control wage levels are the per capita money and its velocity of circulation or rate of turnover. In June, 1920, per capita money began to decrease, because federal reserve notes began to be called in. Coincidentally bank clearings began to decline, indicating a decrease in the rate of money turnover, and average wholesale prices began to fall. The bottom of this wholesale price level was reached in January, 1922, since which the wholesale price index of 400 commodities has risen 13 points, or 3 per cent. Had food products kept pace with other commodities in the rise, a much greater average increase in the price level would have occurred. But a falling off in European demand for our foodstuffs has caused a glutting of the American markets, resulting in abnormally lowering the price of grain, meat, etc. In September, farm products averaged only 33 per cent in price above the average in the year 1913, and foods averaged only 25 per cent above the 1913 level. Since these two classes of commodities form 40 per cent of the total of all commodities in the Bureau of Labor index, it is evident that their relatively low price accounts for the fact the general price level is not considerably higher than it is.

It is reasonably certain either that the farmers will curtail their production next year, as many farm periodicals are urging them to do, or that European markets will again be restored to them through tariff changes that will permit the inflow of European goods with which to buy our farm products. In either case, farm products will probably rise in price, next year, and farm prosperity will be restored. Such a restoration will increase general prosperity, causing both an increase in federal reserve notes (i. e. paper money) and the rate of money turnover, thus bringing about a general rise in prices, in which building materials will share.

Our per capita gold is 80 per cent above that in 1913, and is increasing at the rate of 8 per cent yearly. This 89 per cent increase is alone sufficient to cause an 80 per cent increase in

wages above the level of 1913, and unless the efficiency of workers has increased since 1913, commodity prices are destined soon to average 80 per cent above the pre-war level.

Prof. Charles J. Bullock, Chairman of the Harvard Committee on Economic Research, has just announced that that committee has come to the conclusion that there will be no drop in the American commodity price level for 10 years. He cites the great increase in our gold holdings as the main reason for this forecast. So far as wage levels are concerned we are in agreement with this conclusion, but Prof. Bullock has ignored one important factor in estimating price levels, namely per capita efficiency of production. However, during the most progressive decade of our history 1869 to 1879 per capita efficiency of production increased 25 per cent. If this productivity record were to be equaled in the next ten years, its effect would be to lower the price level 20 per cent, were all other factors to remain unchanged. But there is strong probability that change in other factors will more than offset increased productivity in its effect on price levels, namely increase in per capita money. With the great nations of the world indebted to this nation to the extent of more than \$10,000,000,000, it is probable that most of the \$150,000,000 of gold produced annually will flow into America for at least another decade. If only two-thirds of this new gold reaches us, it will add 3 per cent annually to our gold reserves, and since our population is growing at a rate of slightly more than 1.2 per cent annually, the influx of new gold would raise our per capita gold about as rapidly as the best probable increase in per capita productivity would tend to lower the price level.

In addition to increase in per capita gold, there probably will occur an even faster increase in our paper money. Recent English experience has taught our bankers that they can operate with lower gold reserves than have hitherto been regarded as safe. This will probably lead to greater bank credit expansion in America than would once have been deemed safe, and this will mean a greater relative issue of federal reserve notes (paper money), with a consequent rise in both price and wage levels.

Steel and copper prices are far below what they will probably be a year or so hence. In September the price index for metals was 134, or only 34 per cent above the 1913 level. When the price level for metals rises to 180, it will have risen 46 points, or 35 per cent above the September level. Any builder who expects to use much steel should not defer ordering it well in advance.

The price and wage level formulas deduced by the editor, and referred to above, accord closely with past history for more than half a century. Hence forecasts based upon them are much likely to be correct than forecasts based on other lines of reasoning.

Master Painters of Santa Barbara are planning to organize. The Master House Painters and Decorators Association of Los Angeles has been asked to render assistance in perfecting the organization.

Pacific Southwestern Railroad Company a new corporation, has applied to the Interstate Commission for authority to construct a four-mile line from Lompoc to White Hills, in Santa Barbara County.

The Southern Pacific Co. has purchased from the Oakland Terminal Co. 360 acres along the Oakland waterfront, the property to be used for terminal, port and industrial purposes.

The California Lock and Lift Co. of San Francisco, has purchased the property at 165 Thirteenth street, Oakland. The property is improved with a two-story building which will be used for offices and factory.

BONDS

ESPORTO, Yolo Co., Cal.—Esporta School District will call election to vote bonds of \$95,000 to finance construction of new high school. Trustees of district are: H. H. Gable, J. E. Linderman, Shadrock Gladney, J. T. Lowrey and S. L. Murray.

MEDFORD, Ore.—Election will be held in Jackson county Nov. 7 to vote bonds of \$100,000 to construct a number of permanent roads. Chauncey Flory is county clerk.

POMONA, Cal.—City Engr. F. C. Froebel and Mayor T. R. McClellan have proposed a \$100,000 bond issue to provide funds for constructing a new outfall sewer. The present sewer line is inadequate, one entire section of the city being without sewerage. It is proposed to build a joint line with the old one, suitable for a city of 40,000. The system approved by the state board of health provides for an activated sludge system on a 100 acre farm owned by the city. The sewer farm is at present leased and the sewage used for irrigation purposes.

BEAUMONT, Cal.—City trustees have called election to vote bonds to pave a number of city streets. Mont. P. Chubb, prest, Chamber of Commerce, is active on the committee.

HANFORD, Kings Co., Cal.—Supervisors sell \$10,000 bond issue of Oakvale School District for premium of \$26; proceeds to finance school improv.

VISALIA, Tulare Co., Cal.—Bonds of \$20,000 voted in Ichtergrove School Dist., proceeds to finance construction of 2-classroom and assembly hall school building.

MILL VALLEY, Marin Co. Cal.—Election will be held Nov. 21 in Mill Valley School District to vote bonds of \$19,000 to purchase sites and pay off debts of district already incurred. Trustees are: Melville W. Erskine, Edna M. Boland, and Owen E. Lovett.

Architect—Alfred J. Fabre, 110 Sutter
St., San Francisco.

PRATT BUILDING MATERIAL CO.
Incorporated

Clarence F. Pratt, President & Manager

Suite 515 Hearst Building

ALL KINDS OF SAND, GRAVEL, ROCK, GRANITE RIP RAP

San Francisco, October 25, 1922.

Dear Sirs:

A few days ago, near my home in beautiful Westwood Park, I saw a journeyman plasterer who was getting \$14.00 per day for eight hours, screening rocks and trash out of the sand he was using. As our plastering and brick mortar sand is screened and free from rocks, sticks, clay, etc., I walked over to where this high-salaried plasterer was working; in conversation with him, and he was a very intelligent fellow, he said, "you would be surprised to know how many contractors and owners are careless about the sand they give the plasterers and other workmen to use."

When sand is the cheapest material on the job and when we sell our washed, screened, clean, sharp plastering and brick mortar sand at about the same price (sometimes lower) than ordinary sand, you would think that everybody would use a screened and washed sand, especially when plasterers and bricklayers are so scarce and their wages so high. A San Francisco contractor said that often he pays some of his journeymen plasterers as much as \$120.00 per week. You can wager that this contractor uses Pratt's clean, sharp sand from one of our sand-loading plants at Sacramento, Marysville or Pratto, Monterey County, and he also says he can even afford to pay more for our screened and washed sand and then make money by reduced labor bills.

The names of our plastering and brick mortar sands are: Screened American River sand (from Sacramento), 1/4 Marysville, white sand (from Marysville) and Pratto Amber sand No. 2 (from Pratto, Monterey County). At these same plants we also produce screened and washed sand for concrete, sand blasting, marble grinding, chicken grit and locomotives.

Yours for clean, sharp sand,

"SANDY" PRATT, President.

1600 LETTERS like the above.

WERE SENT.

ALL OVER Northern California.

AND CLARENCE SAND Pratt, Presi-
dent.

OF THE Pratt Building Material Co.

DOUGLAS 300—"easy to remember."

HAS RECEIVED so many comments

OF A favorable nature.

ABOUT THIS letter.

THAT CLARENCE, producer.

OF CLEAN, sharp sand.

AND "MAYOR."

OF BEAUTIFUL Westwood Park.

WHERE THE scene.

OF THIS terrible tragedy.

ACTUALLY TOOK place.

DECIDED TO print the letter.

IN THE Daily Pacific Builder.

A GOOD newsy paper.

OF WIDE circulation.

AND EVERYTHING.

FOR BILLY Cement George, President.

OF THE Builders' Exchange.

ANSWERED THE above letter.

AND JACK Roof Contractor Bender.

READ BILLY George's letter.

SO SEVERAL somebodies.

ARE SPENDING their valuable time.

READING CLARENCE Sand Pratt's
stuff.

"I THANK you."

The pretty bungalow in beautiful Westwood Park where the terrible tragedy occurred (see letter at head of this near-comedy) and where some poor contractor lost some money.

**GOVERNMENT WORK AND
SUPPLIES**

WASHINGTON, D.C.—Bid of Warrack
Construction Co., 1427 34th St., Seattle,
Wash., at \$110,300, to construct the
federal building at Cordova, Alaska,
has been rejected by the Supervising
Architect's Office, Treasury Depart-
ment. The bids exceeds the appropriation
by \$25,000.

Arno B. Cammerer, assistant director
of the National Park Service, who will
preside at the convention of national
park superintendents at Yosemite Valley
beginning November 12, will arrive
in Yosemite Valley the first of the
month to confer with W. B. Lewis su-
perintendent of Yosemite, over the new
\$35,000 administration buildings.
A selection will be made of the site,
and some decision reached on tenta-
tive plans. A sketch of the proposed
structure was prepared several years
ago, but it now is deemed advisable to
make almost complete changes in those
plans.

SAN FRANCISCO—Until Nov. 8, 10 a.
m., bids will be rec. by Quartermaster
Supply Officer, Port Mason, under Cir-
cular R. M. & F. 23-30 for fur & del.

 tric work, \$1300. Taken under advise-
 ment.

POWER PLANTS

SALEM, Ore.—California & Oregon
 Power Co. a California corporation, with
 offices at Medford, Ore., with T. G.
 Phelps, as secretary, has filed an appli-
 cation with the State Engineer's office
 for permit to appropriate water for
 power developments.

The first diversion will be 400 sec-
 ond feet to develop 9000 horsepower
 under a head of 100 feet. There will be
 a dam, penstock and canal to the pow-
 erhouse. The second calls for 900 second
 feet which is to be taken out one mile
 from Bradley Falls. This will develop
 15,000 horsepower from a 520-foot fall,
 there will be a diversion dam with can-
 al or tunnel to the powerhouse. The
 third calls for 600 second feet to devel-
 op 20,400 horsepower, taken under a
 360-foot head, which is to be taken out
 one-third mile from Ireland Falls.

PUBLIC BUILDINGS

Official Proposals

NOTICE TO CONTRACTORS

(Green House and Heating Plant)

Pursuant to an order of the Board of Education of the Fresno City High School District, duly passed and entered in its minutes of October 12, 1922, notice is hereby given that said Board will receive sealed proposals for the following work:

1. A green house, approximately 25'x41'-8", to be equal to that made by Lerd and Burnham Company of Chicago, Ill. Same to be an Iron Frame Construction as illustrated on their sheet No. 3373-A. House to have one glass gable only, all iron work painted one shop coat of paint, all hardware necessary to be furnished. Ventilating apparatus for four lines of sash, all iron for plant benches.

No glass, concrete work or plant bench lumber to be included in this bid. All material to be figured delivered at New High School Property.

2. A separate bid shall be given for a heating plant to consist of 800 feet of 2" pipe, one 4-20 American Radiator Company's Arco heater with all tools, breeching, foundations, connections, labor for making a complete operating plant. Plant to have a complete thermostatic control. Also one Gearhart or equal distillate oil burner and 50 gal. tank for oil, all installed as per City Ordinances.

This heating plant will be located at one end of green house in a Potting Room to be erected later by the Owners.

Plans are on file with secretary of said Board and may be seen at the office of the secretary of the Board.

All bids must be in the hands of L. L. Smith, Secretary of Board of Education, Fresno City High School District, at his office in the Technical School Building, Fresno, California, before 5 P. M., November 9, 1922.

A certified check equal to ten per cent of the total amount of bid submitted must accompany the proposal. The Board further reserves the right to reject any or all bids.

All bids must be sealed and name of bidder and branch of work must be marked on outside of envelope.

By order of the Board of Education, Fresno City High School District.

L. L. SMITH, Secretary.

NOTICE TO BIDDERS

(Oakley School District)

Sealed bids are hereby invited and will be received by the Trustees of the Oakley School District of the County of Contra Costa, State of California, at the School House of said District in the Town of Oakley, County of Contra Costa, up to and including the hour of 4 p. m., on Thursday, November 14, 1922.

For the material and labor for the construction and completion of a hollow tile and frame School Building, on the school lot of said District, according to plans and specifications prepared by Narbett & O'Brien, the Authorized Architects and heretofore adopted by said Board of Trustees.

Plans may be obtained at the offices of Narbett & O'Brien, 906 Macdonald Ave., Richmond, California, and Bacon Building, Oakland, California. A deposit of Five (\$5.00) Dollars will be required for the safe return of each set of plans.

All bids shall be made out on bid form furnished by the architects.

Bids shall be delivered to Mrs. Lillian L. Hall, Clerk of the Board, Oakley, California. Said bids shall be enclosed in sealed envelopes and addressed to the Board of School Trustees, Oakley School District, Oakley, California. A certified check of ten (10%) per cent of the amount the proposal, payable to Oakley School District, must accompany each bid.

The successful bidder to obtain bonds and sign a contract for the amount of his proposal, within five (5)

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

days after the award of contract to him under this notice, should he fail to do so within the time fixed, his check will be forfeited to said district. All checks will be returned to the unsuccessful bidders after the contract has been signed and bonds furnished by the contractor whose bid has been accepted.

The Board of School Trustees reserves the right to reject any or all bids or any part of any bid.

Dated: October 24, 1922.
LILLIAN L. HALL,
Clerk of Board of School Trustees,
Oakley School District.

It is expressly understood that the above lumber is to be furnished in one or more deliveries as desired, and to the School Shop or Schools, as may be determined and specified.

A certified check for the sum of ten per cent must accompany each bid which will be forfeited to the Board of Education of the Sacramento City School District, should the bidder fail to comply with the terms of his bid as required so to do.

All bids must be filed with the Secretary of the Board of Education of the Sacramento City School District

Room No. 300, City Hall, not later than five o'clock p. m., Monday, November 13th, 1922.

The Board of Education reserves the right to accept or reject any or all bids.

CHAS. C. HUGHES,

Secretary of the Board of Education of the Sacramento City School District

NOTICE TO CONTRACTORS

(San Lorenzo School and Auditorium)

NOTICE IS HEREBY GIVEN that sealed bids will be received by the trustees of the San Lorenzo School District, Alameda County, California, for the construction of an auditorium and school and auditorium in San Lorenzo School District, Alameda County, California, as per plans and specifications on file with the clerk of said trustees or at the office of Henry C. Smith, the authorized architect, 735 Market Street, San Francisco, California.

Plans and specifications can be obtained from the Clerk or Architect upon the deposit of the sum of \$20, which will be returned when said plans are returned in good condition to either of the above.

Reference to plans and specifications are hereby made for bids required. Blank forms for bidding will be furnished upon application.

Said bids will be received up to and including Monday, November 13, 1922, at 7:30 p. m. o'clock by the Clerk of said Board of Trustees, at the Present school building, San Lorenzo, California, Alameda County, California. Each bid must be accompanied by a certified check for the sum of \$500 for general bids; and 10% of bid on sub bids; conditioned on the successful bidder entering into the contract, the said check will be made payable to Robert King, Clerk of the Board of Trustees, San Lorenzo school district. The Trustees reserve the right to reject any or all bids in part or as a whole.

By order of the Board of Trustees, San Lorenzo School District, Alameda County, California.

Dated at San Lorenzo, October 23, 1922.

ROBERT KING, Clerk,
Board of Trustees, San Lorenzo School District.

NOTICE TO CONTRACTORS

(Porterville Elks' Building)

NOTICE IS HEREBY GIVEN that the Board of Directors of the Porterville Elks Bldg. Assn., Inc. of the City of Porterville, County of Tulare, State of California, will receive sealed bids for the furnishing of all labor and materials necessary in the erection, construction and completion of the Club Building, including the above, according to Plans and Specifications prepared by The Ernest J. Kump Co., Architects, of the City of Fresno, and in strict accordance with the segregated bids and alternate bids, asked for in Specifications, Job 703 Revised.

Said Sealed Bids will be received up to and including 4 p. m., of the **FOURTEENTH DAY OF NOVEMBER, 1922**, by the undersigned J. T. Fuller, Secretary, at the offices of A. J. Newbury, 307 Mills St., Porterville, Cal.

Said Sealed Bids must be accompanied by a certified check in the sum equal at least to ten per centum of the amount of bid to do the work mentioned and made payable to the undersigned secretary as a guarantee that the Bidder will execute the proper contracts and Bonds in case the contract is awarded to him by reason of his Bid.

Plans and Specifications are on file with the undersigned Secretary of the Board and additional copies may be ob-

J. T. FULLER, Secretary

**MERCED UNION HIGH SCHOOL
NOTICE TO CONTRACTORS
(Gymnasium Building)**

The Board of Trustees of the Merced
Union High School District, Merced,
California, will receive sealed proposals
up until 8 o'clock p. m., Nov. 14, 1922,
at the office of the clerk in the High
School building, Merced, California, at
which time and place said bids will be
opened and read in public, for furnish-
ing the required labor and materials
for, and erecting and completing the
proposed new High School gymnasium
in accordance with the plans and specifi-
cations prepared therefor by W. B.
Bedesen, Engineer, Shafter building,
Merced, and Wilson J. Wythe, architect,
513 Central Bank building, Oakland, as-
sociated. Bids will be received sepa-
rately for the different parts of the
work as follows:

- Contract No. 1.—For the excavating,
concrete, masonry, and all carpentry
work.
- Contract No. 2.—For sheet metal
work.
- Contract No. 3.—For tile roofing, etc.
- Contract No. 4.—For composition
roofing and composition shingles.
- Contract No. 5.—For plastering.
- Contract No. 6.—For painting.
- Contract No. 7.—For electric work.
- Contract No. 8.—For plumbing, sewer-
ing, etc.

Cashier's or certified check or bid-
der's bond for an amount not less than
five per cent (5 per cent) of amount of
bid shall accompany each proposal
drawn payable to the order of C. D.
Martin, Clerk of the Board, as a guar-
antee that the bidder will within five
days after being notified of the accept-
ance of his bid, enter into a contract
with said High School Board in accord-
ance with same, and shall furnish the
surety bonds, or other approved bonds,
as required by the specifications.
Said check or bond to be forfeited to
the said Union High School District
should the bidder fail to execute con-
tract and furnish bond as above men-
tioned.

All bids to be made out on forms fur-
nished by the Engineer.
Plans and specifications bearing date
of revision of October 30, 1922, for all
the above work may be seen at the
office of the Engineer or at the office
of the Architect, where they may be
secured for bidding.

A deposit of Fifteen Dollars (\$15.)
will be required from all contractors
receiving plans. Said deposit will be
refunded to bidders when plans and
specifications are returned in good con-
dition within 5 days after the bids are
opened.

The said High School Board reserves
the right to reject any and all bids, and
to waive any informality in any bid
received.

By order of the Board of Trustees
Merced Union High School District,
Merced, California.
October 30, 1922.

**NOTICE TO BIDDERS
(School and Auditorium Building)**

Notice is hereby given that the
Cohasset Union School District of
Butte County, California, will at the
home of Val C. White, in the Union
district of Cohasset on the 15th day
of November, 1922, at 3 p. m., of that
day receive and consider sealed bids
for the following work:

The construction of a new frame
Grammar School and Auditorium Build-
ing. This work to be done on the school
premises at Cohasset, in the County of
Butte, State of California, according to
plans and specifications for the same
on file with the Clerk of the Board of
Trustees.
Plans and specifications may be ob-
tained at the office of P. M. Harris at
Room 5, Graves Bldg., Chico, Calif.,
upon payment of \$10.00, which sum will
be repaid upon return of plans and
specifications in good order.

All bids must be sealed and filed
with the Clerk of said Cohasset Union
School Board prior to 3 p. m. of the
15th day of November, 1922, and be
accompanied by a check certified to by
a solvent bank for ten per cent of the
amount of the bid submitted, which
check shall be payable to the Clerk of
the Cohasset Union School District.

This check is required as a guarantee
that the successful bidder will within
three days after notice of the awarding
of the contract to him enter into a sat-
isfactory contract with the Board of
said District, and execute and deliver
the necessary bonds as required by law.
If the contractor shall fail to enter into
such contract, the amount of the cer-
tified check shall be retained by said
Board as liquidated damages. If the
contractor shall enter into the con-
tract as stated above his check shall
be returned to him.

The Board reserves the right to re-
ject any and all bids.
Dated this 28th day of October, 1922.
C. M. BROCKMAN,
Clerk of the Board of Cohasset Union
School District.

**NOTICE TO CONTRACTORS
(School Furniture & Shop Equipment)**

Pursuant to an order made this 10th
day of October, 1922, Notice is hereby
Given by the Board of Trustees of the
Grass Valley High School District,
County of Nevada, State of California,
that bids will be received by said Board
of Trustees for the furnishing and
equipping of the main building of the
Grass Valley High School and also for
equipping the shops of said school in
accordance with the specifications with
file with the clerk of the Board, Mr.
A. B. Champion.

Separate sealed bids will be received
for any or all of the classes or groups
named in said specifications. Bids must
give price of each article f. o. b. Grass
Valley. Delivery of furniture and equip-
ment of the main building to be made
by January 1st, 1923, and of the shop
equipment not later than Feb. 1, 1923.

Bids will be opened on Monday, No-
vember 13, 1922, at 8 o'clock p. m., at
the Public Library building in Grass
Valley, California.

Copies of above specifications may
be obtained upon application to A. B.
Champion, Clerk of the Board, Grass
Valley, California.

All bids must be sent or handed to
the Clerk of said Board of Trustees on
or before said hour and day and en-
closed in sealed envelopes and marked
on outside, "Bids for furniture or equip-
ment for High School at Grass Valley,
California."

The Board of Trustees reserves the
right to reject any and all bids, or any
or all items of such bids, and to waive
any informality in any bid received.

A. B. CHAMPION,
Clerk of the Board of Trustees of the
Grass Valley High School District,
County of Nevada, State of California.

BRIDGES, DAMS & HARBOR WORK

MERCED. Merced Co., Cal.—Until Nov. 15, 10 a. m., bids will be received by P. J. Thornton, county clerk, to construct wooden bridge No. 116 over Middle slough on Lone Willow road, in Rd. Dist. 5. Cert. check, 10% payable to chairman Board of Sup. reg. Spec. may be obtained from G. E. Winton, county surv., on deposit of \$10, returnable.

PRESCOTT. Ariz.—Yavapai county highway commission has completed plans for a 2-span steel truss bridge, 231 ft. long, to be erected over Agua Fria at Canyon, on the Black Canyon Rd. Bids will be called for at once. R. E. Moore, chairman county highway commission.

SANTA ANA. Orange Co., Cal.—County Supervisors adopt plans for a 524-ft. bridge across the Santa Ana river as part of the state highway link between Huntington Beach and Newport Beach. Est. cost, \$50,000. Structure will consist of 3 60-ft. spans, Warren type steel trusses resting on conc. piers. At each end will be 21-ft. bents of conc. pile construction. The structure will be 24 ft. wide. J. L. McBride, county engr.

SACRAMENTO. Cal.—County supervisors will reject bids for the Paintersville and Steamboat Slough bridges, due to error in plans which called for 20-ton structure whereas the supervisors ordered plans for 15-ton structures. Drury Butler is county engineer and Chas. Deterding, county surveyor. Supervisors propose to take the work out of the County Engineer's office and place the supervision under the supervision of the County Surveyor.

VENTURA. Cal.—Plans and spec. for the reservoir site and pumping plant to be used by the new water company have been accepted by the board of supervisors and bids for same have been called for. Chas. W. Felit, County Surveyor.

SAN DIEGO. Cal.—United Dredging Co., Central Bldg., Los Angeles awarded contract at \$22,820 cu. yds. for dredging about 267,000 cu. yds. in San Diego harbor. San Francisco Bridge Co. submitted only other bid at 42.3c yd.

LOS ANGELES.—K. O. Wetzel Co., 699 14th St., submitted low bid at \$3387 for dismantling steel bridge in the Arroyo Seco and La Canada-Verdugo Rd. Other bids were: McCrean Bridge & Constr. Co., \$3500; Frank H. Greene, \$3700.

REDWOOD CITY. San Mateo Co., Cal.—San Francisco Motor Inventory Co., 180 Jessie St., San Francisco, at \$3880 awarded contract by supervisors to construct levee on county road from South San Francisco to San Bruno. Involy. 10,000 cu. yds. earthwork and 70 lin. ft. timber bulkhead.

POCATELLO. Ida.—Until Nov. 13, 2 p. m., bids will be rec. by county commissioners to construct 100-ft. steel truss bridge with 2-mi. approach and roadway, to be known as Federal Aid Project No. 59, on Idaho Pacific Highway in Barcock cu. yds. earthwork, steel, 67,000 lbs. structural steel; 140 lin. ft. corr. pipe; 304 cu. yds. conc.; 14,000 cu. yds. earth excavation; 15 cu. yds. gravel surfacing; 1500 cu. yds. gravel surfacing; 2110 cu. ft. guard rail; 5 acre clearing and grubbing.

PRESCOTT. Ariz.—County highway commission taking bids to const. steel bridge over Agua Fria at Canyon Road. The bridge will be of the steel truss type 231 ft. in two spans.

NEWPORT BEACH. Cal.—Until 7:30 p. m., Nov. 6 bids will be rec. by City Clerk Alfred Smith to const. steel plate through girder bridge, complete across the Santa Ana river. Plans and spec. on file with Paul E. Kressly, consulting engr., 732 H. W. Hellman Bldg., Los Angeles. Cert. check, 10%. The structure will be 47 ft. over all in length, with a 24-ft. roadway, with 11-in. reinf. conc. paving, and 5-ft. walk on the east side. The north approach is 300 ft. long, 24 ft. wide bet. curbs, with 6-ft. conc. walk on east side; the south approach is 40 ft. long, with a roadway narrowing from 40 ft. to 24 ft. The paving of the approaches will involve \$116 sq. ft. 8-in. cem. conc. pavement.

OAKLAND. Alameda Co., Cal.—County Surveyor Geo. A. Posey is preparing specifications to widen bridge over San Leandro creek in East Fourteenth St. in San Leandro. Bids will be asked in about one month.

OAKLAND. Cal.—Plans for the construction of a tube under the estuary between Oakland and Alameda have been temporarily halted due to an opinion of the District Attorney that under the state constitution the proposed tube cannot be built. The state constitution conflicts on the point, the attorney declares, an enabling action in 1911 giving the power of expending the money for such work to the boards of supervisors and the mayors of the cities interested, while in 1914 an amendment placed the power of expending county funds only within the hands of the supervisors. An attempt to have the county start construction of a bridge to replace the one ordered out by the Federal Government was voted down. An attempt to have the law amended again will be made at the next session of the legislature.

IRRIGATION PROJECTS

FAIR OAKS. Sacramento Co., Cal.—Until Nov. 13, 12 m., bids will be rec. by secretary Fair Oaks Irrigation Dist. for fur and d.i. riveted steel slip joint, dipped and soil protected water pipe: 1409 ft. 14-in. 12-gauge; 4300 ft. 12-in. 14-gauge; 4200 ft. 10-in. 14-gauge; 1100 ft. 9-in. 14-gauge; 9100 ft. 8-in. 16-gauge; 1100 ft. 7-in. 16-gauge; 3800 ft. 6-in. 15-gauge; 4300 ft. 4-in. 16-gauge.

Specifications may be obtained from Engineer of District, Stephen E. Keiffer, 407 Post St., San Francisco. See call for bids under official proposal section in this issue.

OFFICIAL PROPOSALS

(Continued from Page 15)

NOTICE TO CONTRACTORS

(Kern County General Hospital)

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Supervisors of the County of Kern, State of California, up to 10 a. m. of December 18th, 1922, for furnishing all labor and materials for the erection and completion of four buildings with connecting tunnels, etc., of the Kern General Hospital Group, to be erected on Flower St., East Bakersfield, California, in accordance with plans and specifications on file in the office of the Clerk of the Board and open for the inspection of bidders. Total cost of said plans and specifications may be had upon deposit of \$25.00 at the office of Charles H. Biggar, Architect, 105-406 Bank of Italy Bldg., Bakersfield, California, and the work will be done under his supervision. Deposit will be returned upon receipt of plans and specifications in good condition before December 24th, 1922.

Bids will be received for the work as a whole or segregated as follows:
1.—General Contract—all work complete except plumbing, heating and ventilation, electric work, elevators, painting, refrigeration plant and boxes, and kitchen equipment.
2.—Excavating, grading and filling.
3.—Plumbing.
4.—Heating and ventilating.

5.—Electric work.
6.—Elevators.
7.—Painting.
8.—Alternate proposals for cement concrete brick as per samples submitted by manufacturers.
9.—Refrigeration plant and boxes.
10.—Kitchen equipment.
11.—Laundry machinery.
Bids to be made out upon form furnished by the Architect for that purpose and each bid must be accompanied by a certified check or bidder's bond in the amount of at least ten per cent (10 per cent) of the amount bid, such check or bond to be made payable to the clerk of the Board of Supervisors and submitted as a guarantee that the bidder, if successful, will enter into a contract satisfactory to said Board of Supervisors and in addition thereto will furnish good and sufficient bonds therefor.

The Board reserves the right to reject any and all bids not deemed advantageous to the County and to waive any informality in any bid received.

By order of the Board of Supervisors of the County of Kern, State of California, adopted October 23, 1922.
F. E. SMITH,
County Clerk and ex-Officio Clerk of the Board of Supervisors.

BIDS WANTED

(Steel Pipe)

Bids will be received by the Fair Oaks Irrigation District, Fair Oaks, California, until 12 o'clock noon Monday, November 13, 1922, for the following described sizes and quantities of riveted steel pipe, to be dipped and soil protected water pipe:
1400 ft. 14-in. No. 12-gauge;
1300 ft. 12-in. No. 14-gauge;
4200 ft. 10-in. No. 14-gauge;
1100 ft. 8-in. No. 14-gauge;
900 ft. 8-in. No. 16-gauge;
1100 ft. 7-in. 16-gauge;
1300 ft. 6-in. No. 16-gauge;
4300 ft. 4-in. No. 16-gauge.

The above lengths are approximate only and may be modified at pleasure of the Board of Directors of the District.

Detailed specifications may be obtained from the Engineer of the District, Stephen F. Kieffer, 57 Post St., San Francisco, California.

A certified check for ten per cent of your bid must accompany bid. Address all communications to Fair Oaks Irrigation District, Guy L. Camden, secretary, Fair Oaks, California.

TO CALL BIDS FOR REFRIGERATING PLANT, ETC.

NOTICE TO CONTRACTORS

SEALED PROPOSALS, indorsed "proposals for refrigerating and ice-making plant, Naval Operating Base (Hospital), Pearl Harbor, T. H., Specification No. 4735 will be received at the Bureau of Yards and Docks Washington, D. C. in the near future. The work consists of refrigerating and ice-making equipment, using as refrigerant any satisfactory substance except ammonia, and consisting of two-motor-driven compressors, condenser, liquid receiver, two motor-driven brine pumps, a motor-driven circulating water pump, a combination freezing and brine-cooling tank with expansion coils, a water pre-cooler tank with coils, a pressure filter, brine agitator, water agitating system by compressed air, automatic can filler, hand-operated crane, automatic can dump and ice chute, ice cans, oil and scale traps, and other necessary accessories; also brine piping for existing cold storage rooms and cook's boxes and the construction of an ice-storage room in the Substation Building. The capacity shall be 4000 pounds per 24 hours. Drawings and specification No. 4735 may be obtained on application to the Bureau of Yards and Docks, Navy Department, Washington, D. C., Commandant, Navy Yard, Mare Island, California, or to the Commandant, Naval Operating Base, Pearl Harbor, T. H. Deposit of check for \$100.00 is required for \$100.00 payable to the Chief of Bureau of Yards and Docks is required as security for the safe return of the drawings and specifications within five days after the award of contract.

SWAYNE LUMBER COMPANY PUBLISHERS
CHASING TIMBER TRACT

The Swayne Lumber Co., of Oroville, announces the purchase of 167,000,000 feet of timber in the Plumas County National Forest at the head of the Little Fork, from the Government at approximately \$360,000. The timber covers about 14,000 acres of land. A logging railroad twenty-one miles long will be constructed in the district, connecting with an existing road forty miles long. The forest service which will supervise the cutting of the timber which is in the sugar and yellow pine belt of the Sierras, estimated today that it would take eight years to convert it into lumber. All young and thrifty trees will be left for future growth. The logs will be shipped over the Swayne company's railroad to their mills here for milling. The prices reported to be received by the government are \$3.50 per 1000 feet for sugar pine, \$2 for yellow pine and \$1 for other species.

SAN JOAQUIN LIGHT AND POWER
IMPROVING HOLDINGS

San Joaquin Light and Power Co., of Fresno, to provide additional facilities for wholesaling power to the Midland Counties Public Service Corporation, is constructing 30 miles of high tension power line, reconstructing two substations and building six miles of telephone line. The work will cost \$550,000. Steel towers will be used to carry wires through Santa Barbara forest for distance of 33 miles; for a distance of fifteen miles out of McKittrick on the valley end and 12 miles out of Santa Maria on the coast end of the line, wooden poles will be installed. Towers will be of fabricated steel, 16 ft. wide at base, 4 ft. wide at top and 65 ft. high of the 3-arm type, the arms extending 7 ft. on each side. A. Emory Wishon is manager of the San Joaquin Light and Power Company.

Opinion That Construction Costs Will Decrease Refuted By A. G. C.

That construction costs will continue to increase to a higher level than at present, and that demand for construction will continue for some years to come, is the opinion of the Associated General Contractors of America, in a statement to James A. Wetmore, acting supervising architect, who is quoted as authority for the statement that within the next 18 months the country may look for a very material drop in the cost of building.

The United States Advertiser it is reported that \$15,000,000 worth of Federal buildings throughout the country are being held up for a drop in the cost of construction expected within the next 18 months.

Not only has the cost of building been going up for several months, according to the Associated General Contractors, but so has the cost of materials. Wages in the building trades have more recently begun to increase also. The general average of wholesale prices has been increasing since the first of the year.

"The behavior of all these prices in increasing during a time of recovery from business depression" state the contractors, "is entirely normal. It is a phenomenon which always occurs during like periods. We believe it is a very strong indication that prices in general have been stabilized for the present on a new price level in the neighborhood of seventy per cent higher than that which prevailed in 1913. This means that prices will continue to go up until the present period of prosperity is fully established and will not go down again until the beginning of the next business depression. The next depression will probably be only a moderate one—such as we were familiar with before the war—and will be accompanied by only moderate decreases in prices.

"Instead of expecting that building costs will materially lower eighteen months from now, we anticipate that they will continue to increase during the greater part of that period, and that they will be at that time perhaps, at about the beginning of a decrease but at a point higher than the present. We believe, further, that the decrease which may be expected to begin at

about that time will not go to a point very much below the figures reached during the past winter."

In explaining their reasons for their opinions, the contractors say that the costs of building materials are going up partly because they are partaking of the general tendency of prices to rise during this part of the economic cycle, and partly because we are experiencing a building boom of unprecedented volume. Wages of building labor are increasing partly because of the shortage brought about by this same building boom and partly because of a recovery in other lines of industrial activity, which is already beginning to produce labor shortages.

"One important aspect of this phenomenon" they state, "is the shortage of common labor, which is due, in large measure, to the almost complete extinction of immigration for the past nine years, caused by the Great War and latterly by our present restrictive immigration act. That this shortage of common labor in fields other than the building trades is a very real one is proved by the recent action of the U. S. Steel Corporation, and a number of the other important steel companies, in making large voluntary increases in their wage scales.

"It may be that some believe the present building boom has about run its course, and that, for that reason, building activity will soon diminish and building costs go down. We believe the outlook to be far otherwise. The boom shows no signs of abating. For six successive months the figures for contracts let have been record-breaking. The slight recession of August is less than the usual seasonal recession. As a result of very painstaking investigations it has been estimated that the deficit in building, the country over is so great that building could continue for ten successive years, beginning with this year, at 25 per cent above normal before catching up with that deficit. We do not predict any such sustained activity, but we do point to the figures as proof that there is no possibility of the present building boom coming to an end within the next few months, because of having filled the demand for new construction."

JAIL SENTENCE FOR OVERLOADING
HIGHWAYS

New York state has established a fine of \$50 or a month in jail as the minimum penalty for the first offense in using overloaded motor trucks on the public highway. For the second, a minimum fine of \$50 or two months in jail. For the third offense, the minimum fine is \$100 and the registration of the truck is suspended for a period of not less than 30 days nor more than 6 months. The new law just passed to protect the state highways, limits loads to 28,000 pounds, with a maximum load per wheel of 9800 pounds and a maximum load per inch of tire of 700 pounds. Use of rubber tires worn to within one inch of the metal flange is prohibited. Trucks not exceeding 2 ton capacity are limited to a speed of 20 miles per hour, and trucks of over two tons to 15 miles. Trucks with pneumatic tires are allowed an additional five miles

per hour speed. Excess loads when discovered must be unloaded on the roadside. Under the new law 150 truck drivers were fined in one day.

INVENTS NEW STEEL

Through the personal efforts of Mason Grover, a blacksmith of Bidwell, O., the government is in possession of a secret process by which a finer quality of steel than that now turned out may be produced. Grover's steel is produced from ordinary iron at a few cents per hundredweight, the iron being subjected to the secret process which makes the finished steel so hard that it will readily cut any other piece of steel, resist friction, retain its temper and withstand more than double the strain of other steels. Grover has refused offers from steel manufacturers seeking his process, but he has turned the formulas over to the government.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

September was the fifth consecutive record-production month in the Portland cement industry according to figures of the United States Geological Survey just released. Daily production was at the rate of 831,000 barrels, as compared with 726,000 in August, the best full month on record. Since April production has been at a monthly rate well over 1,000,000 barrels in excess of the best previous month on record. Shipments during September, although totaling less than August, because of transportation difficulties and car shortage, with at the rate of over 1,600,000 bags per day. (There are four bags in a barrel of 376 pounds. As Portland cement enters into practically every form of construction and is used as soon as shipped during summer months, figures as to shipments of that commodity serve as the best index of construction activity. The enormous construction program now under way is the biggest factor in hastening the return of business prosperity. Shipments of Portland cement this year will probably total close to 110,000,000 barrels, as compared with 98,000,000 during 1920, the best previous year. For the past five months Portland cement plants in the country have been producing at the rate of 137,000,000 barrels per year, which means that when the farmers and the railroads again enter the construction market there will be plenty of this useful material to meet their needs.

More paint and varnish products were used in the United States in 1922 than in any previous year, according to estimates made by the "Save the Surface" campaign, the co-operative organization of the paint and varnish industry, which has its headquarters in Philadelphia. While figures for the year are still incomplete, information received from individual manufacturers indicates that practically all of them will show greater sales tonnages than ever before. Figures as nearly official as possible will be presented to the trade at the paint congress to be held in Atlantic City November 13-17, which will be the most important gathering that this trade has yet had. The hotels, the Ambassador and the Ritz Carlton, will be required to accommodate the delegates. It is expected that more than a thousand persons will assemble in Atlantic City for the deliberations of the Congress and they will represent every phase of the paint manufacturing and distributing business. Herbert Hoover, Secretary of Commerce, and George Wharton Pepper, Senator from Pennsylvania, are among the national figures who will deliver addresses at the congress, which will be made up of the annual meetings of the National Paint, Oil & Varnish Association, the Paint Manufacturers' Association of the United States and the National Varnish Manufacturers' Association.

Oakland, during the month of October established a new high record for building activity. During the month 1922 building permits were issued for improvements totaling approximately \$2,316,332. Of these, 384 permits were for new buildings totaling \$2,238,781 and 161 permits for repairs, alterations and additions costing \$78,252. An increase of nearly 25 per cent over the business of last year is shown in comparison of records for October, 1921, and October, 1922. In 1921 the total permits were 273 and the total building value is \$1,245,220. The largest previous month recorded is that of September of this year when 868 permits were issued.

Private building operations in San Francisco for the month of October represent an expenditure of \$4,719,394, a gain of \$2,220,871 over the totals for the same month in 1921 and those of September of this year by \$1,767,536. The October activities show that for the first ten months of the year more than \$40,000,000 has been expended in San Francisco. Indications point to a \$50,000,000 year, making 1922 San Francisco's banner building year.

The Road Builders' Equipment Co., Portland, Ore., has been appointed Northwest distributors for the Koppel Industrial Car and Equipment Company, manufacturers of dump cars, portable track, etc. The manufacture of this line was taken over during the war by an all-American owner company from the alien property custodian and it now is operated by Americans.

Properties of the Saddle Mountain Logging Co., in Oregon, including a stand of 300,000,000 feet of lumber and about twenty-five miles of logging railroad, have been taken over by the Eastern and Western Lumber Co., of Portland, Ore., on an option which the company has held since last summer.

The Bakersfield Paint & Supply Co., recently organized, has opened quarters at 718 Nineteenth St., Bakersfield, and will handle a complete line of paints, oils, varnishes, wall board, roofing and electrical supplies. C. A. Stevens, N. Seammhorn and E. L. Stevens are interested.

Col. Wm. D. Uhler, Chief Engineer for the Pennsylvania State Highway Department, died in Harrisburg, Pa., October 27. During the war Uhler was an assistant to Major General George Gehlens on highway matters.

The California Wall Bed Co., of San Francisco, has purchased property in Thirtieth Street between Alice and Jackson Streets, Oakland, and will operate a factory for the manufacture of wall beds.

The United States Chamber of Commerce predicts no relief from high rents can be expected for from eighteen months to two years. The building boom of the past year is most remarkable but the saturation point is in the far future. The construction of the first nine months of this year is already \$100,000,000 greater than the entire building of 1921.

The U. S. Radium Corp., 58 Pine St., New York, has issued a set of catalog sheets, compiled primarily for architects, covering radium illuminated articles announced by different manufacturers. The set is in a folder with convenient printed label for ready filing and reference.

The Sunset Sash, Door and Mill Co., of Los Angeles, has been incorporated with a capital stock of \$250,000. Directors are C. A. Knowles, H. J. Emster, and H. T. Woolton.

L. C. Hammond is now general manager of the Hammond Lumber Company's Eureka operations. G. W. Fenwick taking up quarters at the San Francisco office of the company.

The Simpson-Gray Lumber Co. and the Stockton Lumber Co., C. B. Bird, manager, announces the establishment of permanent offices at Sonoma and Commerce streets, Stockton.

Building activities in Reno, Nevada for the month of October totaled \$46,300.

ALONG THE LINE

The time quarry on the Dardin Ranch in the Alisal district, near Salinas, has been purchased by Los Angeles capitalists who proposed to construct a cement plant. The purchase embraces some 7000 acres and the purchase price is said to exceed \$250,000. The plant will employ from 600 to 700 men.

A bond election will be held in Tracy, San Joaquin County, December 12, to vote \$27,000 for water main extensions; \$15,500 for street improvements; \$65,450 for sewage disposal plant and \$18,000 to erect firehouse and purchase apparatus. W. D. Harrington is City Engineer of Tracy.

Earle Russell, formerly structural engineer for MacDonald & Kahn, San Francisco engineers and contractors, has opened an office for private practice in the Santa Fe Building, San Francisco.

The M. and H. Piston Ring Co., Capitalized at \$100,000, has filed articles of Incorporation with the county clerk in Oakland. Directors are: John and Chas. I. Chartz, Chas. A. McCharles and R. C. Savage, all of Carson City, Nevada.

The Gerrard Wire Tying Machine Co., Inc., Pacific Coast Division, now located at 688 Townsend street, has leased the building now under construction at 224 Spear Street, San Francisco.

J. W. Ludlow, who has been acting engineer of the Los Angeles harbor commission, has been made permanent harbor engineer at a salary of \$400 per month.

The San Francisco Sulphur Co., 624 California St., San Francisco, will erect a brick sulphur refinery in North Point Street near Grant Avenue at a cost of \$40,000.

Chas. Winters, pioneer lumberman of Washington, died in Seattle October 31. He came to Washington in 1880 and engaged in lumber industry until his retirement a few years ago.

The University of California will build a granary at the University Farm at Davis, Calif. The structure will be equipped with the latest type of machinery.

The Union Oil Co. has purchased 60 acres of land adjoining its refinery at Oleum, Contra Costa County, and proposes to construct a number of oil storage tanks.

The annual convention and banquet of the Southern California Retail Lumber Dealers Association will be held at the Alexandria Hotel, Los Angeles, November 18th.

Building in Bakersfield for the month of October totaled \$179,408, as compared with \$14,414 for September, according to City Building Inspector T. W. Dupes.

Preston R. Davis, 80 years of age, formerly county surveyor of Sonoma county, died in Sonoma November 1.

MORE PLUMBER APPRENTICES IS NEED, SAYS SACRAMENTO CONTRACTOR

It is better for a young man with a mechanical bent to be a good plumber than to try "higher education," and fail as a professional man in some line for which he is not fitted.

Such is the declaration of J. R. Wilson of the Lattourrette-Fical Co. of Sacramento, in a discussion of the apprentice question which is being agitated in Sacramento at the present time, and which has resulted in a demand for a first class trade school in connection with the new Sacramento high school.

Outlining his views on the question, Wilson said:

"The national association is turning its attention to the subject of the necessity for the plumbing trade to become actively interested in the apprentice problem. We believe that this campaign is indeed an important one for the future of the trade and we are glad to see the association devoting its remarkable resources and the value of its prestige thereto.

"In one of our foremost magazines the other day a very brilliant man said that, in some ways, this is an age of overdone education. He said that too many young men whom nature cut out to be mechanics, good mechanics, good business men, were going in for "higher education" which would fit them for no practical good and for which they were not fitted.

"And the man is right. What we need is a race of trade trained men who know their business and who can, in after years, be owners of businesses of their own. We are a young country. We have only started to develop. We have just begun to build. We are pioneers in our way just the same as Daniel Boone and Davy Crockett were pioneers in their day.

"We need young men who know which is the business end of a monkey wrench, young men who can lay brick and saw lumber—and most of all we need young men who will learn to be first class, journeymen plumbers.

"The expansion of the sanitary engineering business during the next twenty years will be tremendous. The apprentice of today is the master of tomorrow who will cash in on the great future of the profession.

"Let's show these young fellows the advantages of our trade. Let's tell them of the money to be made, the pride in the job, the service to be rendered! The story is a fine, big one and we must tell them about it!"

S. P. PLACES FOUR MILLION DOLLAR RAIL ORDER

The Southern Pacific Company has placed an order with steel plants in the East for 75,000 gross tons of rails for delivery in 1923, according to announcement of William Sproule, president of the Company. The value of the order, between \$3,000,000 and \$4,000,000. Of the amount of rails ordered, substantially 73,400 tons were placed with the Tennessee Coal, Iron and Railroad Company and the balance with the Lorain Steel Company. Approximately 50,000 tons of the rails, or two-thirds of the amount ordered, will be used on the Pacific System of the Southern Pacific. This will provide a total of 330 miles of rails for use in the West, of which 217 miles is of 6-10-pound rails and 113 miles of 90-pound rails. The 110-pound rails are the heaviest ever used in railroad construction work west of the Rocky Mountains.

Increasing traffic in the West and the use of new and heavier locomotives in hauling trains is responsible to a large extent for the huge rail order placed by the Southern Pacific. The new rails are for use in construction work during the year 1924.

What Are Building Costs?

(A. P. Greenfelder, in The Constructor)

People frequently discuss building costs as if bricks and bricklayers, materials and labor were the only items worthy of consideration. Broadly speaking, men and materials do comprise the total expense in construction work, just as they do in any other article produced for civilized man.

What we wish to emphasize, however, is that most people really think that the walls and floors of a building, the visible completed objects, are the only costs that enter into the expense of erection. They think differently, however, when they find it necessary to buy a stick of wood at the lumber-yard or a pair of hinges at a hardware store, which may be needed for an extra partition after they have moved into the new building.

From their own books business men know just the sort of expense items they must add to the cost for fixed charges, operating expense and legitimate profits. They understand that their selling prices must include rent, taxes and insurance, contingency charges, interest and profits.

Builder Has "Overhead"

The builder is a merchant. He is also a manufacturer, differing from the usual producer in that the builder's factory is portable and frequently without a roof, at least until nearly the end of the job. The builder has a fixed office, a warehouse and yards for storage of machinery and materials. The annual upkeep of these adjuncts must be sustained by field construction executed during the year.

The builder also has selling expense. He must advertise and call upon architects, engineers and owners before his estimator to make a quantity survey of the plans, because the owner does not tell him what he tells everybody else he buys from—the quantity of materials he wants to purchase. The builder's purchasing agent then locates the material at market prices; and, after careful estimates are made, conferences held and a financier consulted, a contract is made with a future owner and the builder assumes the title and agency of a contractor.

As agent, the contractor arranges to incur the following expenses: surety

bonds, liability, fire and tornado insurance, building permits, water license, city inspection fee, temporary public utilities service, transportation of materials and drayage of equipment. Not a single item would be visible to a visitor to the building site, and yet they may constitute 10 per cent to 15 per cent of the cost. Then there is bank interest, because the owner does not advance money for payrolls and material bills. There is also ice and coal, oil, stationery, carfare, postage, rope, perishable tools, scaffolding, demerage, war taxes and other miscellaneous items which are consumed.

Equipment High Cost

On a job of any size at all, the contractor must provide labor-saving equipment, such as concrete mixers, steam shovels, derricks, hoisting machines, power saws and similar machinery. While they are truly labor-saving and produce economy, they cost about 4 per cent of their value each month. Then, there is the greatest of intangibles, brains, which, mingled with experience, good judgment, aptitude and industry, produce that supervision which makes for good results, brains insure satisfactory service. This is represented in the contractor's organization in many ways. The ablest superintendent, for instance, makes the fewest mistakes, has initiative, plans his work ahead, keeps his men working cheerfully together and gets a quality job done ahead of time within the estimated cost. Such men earn good wages and are worth it. Every merchant and manufacturer knows how scarce leaders are.

Then appear such contingency items as frost, rain, labor strikes, railroad delays and accidents, many of which are common to most industries, but all of which frequently confront the contractor. The law of averages applies the proper charge on such items to the work. Finally, to the actual outlay for materials and labor must be added a remuneration for the contractor sufficient to induce him to remain in business, subject to hardships and risks, and yet keep his financial credit good enough to start the next job.

Do you still think men and materials embrace all building costs?

Los Angeles Building Operations For Past 10 Months Totals \$100,895,480

Building operations in Los Angeles for the month of October totaled \$11,580,427, the second largest monthly total for the year 1922. No large projects are listed in the operations for October. During the month 4951 building permits were granted, the housing operations having a value of \$7,675,300, exceeded that for any previous month in the history of the city. October also brought Los Angeles building total for the year over the hundred million mark, the total for 10 months being \$100,895,480, which is \$35,985,720 more.

The most gratifying feature of the October building total is that it was made up very largely by ordinary building operations. Permits were issued for only two Class A buildings with an estimated valuation of \$420,983, and 63 Class C buildings with an estimated valuation of \$1,153,712. This construction represents chiefly business buildings.

Housing operations for October were

represented by 2045 permits for dwellings, flats and apartment houses with an estimated valuation of \$7,675,300, or 41.3 per cent of the total number of permits and 66.3 per cent of the total valuation for the month. Accommodations are provided by these dwellings for 3080 families, or 13,860 persons, computed on the census ratio of 4 1/2 persons to each family.

The following table gives the valuation and housing operations for ten months of 1922, together with the totals for all building, for the purpose of comparison:

	Total	CL.A.B.C Housing
January	7,795,169	\$1,500,298
February	7,559,798	5,119,493
March	10,964,829	2,976,253
April	12,959,686	6,058,900
May	9,327,501	1,190,766
June	10,662,265	1,296,382
July	8,064,018	1,458,711
August	11,523,891	2,186,877
Sept.	10,267,894	2,167,020
October	11,580,427	1,574,695
		7,675,300

FRESNO CO. SURVEYOR SLATED FOR DIRECTOR OF PUBLIC WORKS

Chris P. Jensen, Fresno county surveyor, is a candidate for the office of Director of Public Works of the State of California, an appointive position. That his candidacy is being favorably considered is the well grounded rumor current in Fresno and the bay district.

Jensen's candidacy is based upon his record established while surveyor of Fresno county, one of economy. The major points in his favor are a saving to the county of \$250,000 by reducing overhead expense on roads to 5 per cent, and the victory over the Warren Brothers, paying contractors with a saving to the county of more than \$200,000 in royalties on a type of paving designed by Jensen which was claimed to be an infringement on the Warren patents.

Jensen was born in Contra Costa county in 1873. He came to Fresno in 1876, and received his education in Fresno schools. He studied engineering in San Francisco.

Jensen's first work of any magnitude, after entering private practice as an engineer, was undertaken when he assisted in the construction of the Madera Sugar Pine company's flume, carrying out its original system of logging railroads.

The surveyor specialized in road construction, for which he is a recognized authority of the state. Irrigation, sewage disposal and water units.

Jensen has designed and superintended the construction of sewage disposal systems and water works for Reedley, Dinuba, Clovis, Sanger, Fowler and Strathmore, and was consulting engineer for Bakersfield and Lodi on sewage disposal.

In 1909, Jensen was appointed Fresno city engineer, occupying the position for four years. In 1919 he took the office of Fresno county surveyor, which he has since held.

In his present capacity, Jensen has supervised the construction of more than three hundred miles of road which was improved under the \$4,800,000 bond issue voted here in 1919.

Up to the present time, Jensen has built or has under construction 160 miles of standard pavements, 43 miles of gravel macadam road and 113 miles of mountain roads.

U. S. CIVIL SERVICE EXAMINATIONS ANNOUNCED

The U. S. Civil Service Commission, 241 Post Office Bldg., San Francisco, announces examinations will be held in the immediate future for the following positions:

Marble polisher, \$840 per annum. Vacancy in the custodian service, San Francisco, Calif.

Skilled laborer, qualified as carpenter and locksmith, \$840 per annum. Vacancy in the custodian service, San Francisco, Calif.

Assistant petroleum economist (oil and gas production), \$1500 to \$2100 per annum. Vacancy in the bureau of miners, department of the interior, headquarters at Pittsburg.

Laboratory (chemical, physical, engineering) \$1200 to \$1500 per annum. A vacancy in the federal classified service throughout the United States.

General mechanic, \$720 to \$1000 per annum. Vacancies in the departmental service, Washington, D. C., or elsewhere, and in the Indian service throughout the United States.

Architectural draftsman, \$1600 to \$2000 per annum. Vacancies in office of the supervising architect, treasury department, and in the veterans' bureau, Washington, D. C.

Inspector (mechanical), \$720 per annum. Vacancies at the naval station, Pearl Harbor, T. H.

Master Painters' Assn. To Hold Ladies' Night

Extraordinary preparations are being made for entertaining the ladies of the members of the Master Painters' Association of San Francisco Nov. 25, at the Fairmont Hotel.

This is an annual event and the Committee in charge, composed of Pres. A. D. Sutherland and First Vice Pres. B. H. Garnette, are sparing no efforts to make it a success. There will be a banquet entertainment and dance. For entertainment the Committee has engaged Miss De Fiddes' Million Dollar "Let's Go" Revue. At 9 p. m. the President and Mrs. Sutherland will lead the march that starts the dancing. During the march souvenirs will be given to the ladies. The usual dancing contest between the two oldest couples present will take place at 11 p. m. This event is particularly interesting as it shows the older generation is as up to date as the younger folks.

The annual election of officers takes place Dec. 6. The present officers are: Pres. J. Sutherland; First Vice B. H. Garnette; Second Vice Geo. T. Bowen;

Third Vice L. J. Neal; Fourth Vice H. Axt; Secretary F. La Torres; Treasurer M. Cohn; Statistician R. Postler and Sergeant at Arms E. Porter.

It is rumored that "dark horses" will be in the field for the honors of holding office next year; however the President's office is secure as no one would stand much of a show against the present incumbent.

The annual convention of the State Master Painters takes place in Los Angeles this year and the local organization will be largely represented with the expectation of securing the 1923 convention for San Francisco. A strong boosters committee is being formed by the Associations of the Bay Counties to push forward the candidacy of Mr. A. D. Sutherland for next state president.

These conventions are attended by paint, oil, varnish, brush and wall paper manufacturers and other kindred producers and it is here that the new creations for home decorations for the ensuing year are first seen.

WALLACE, SECRETARY FEDERATED ENGINEERING SOCIETIES, COMPLETES COAST TO COAST TOUR

L. W. Wallace, executive secretary of the Federated American Engineering Societies, has completed a coast-to-coast tour, during which he set in motion plans for Federated expansion.

Stressing the great influence exercised by the Federation, since its organization about two years ago under the presidency of Herbert Hoover, and evidencing this by the report of its committee on the Elimination of Waste in Industry, as well as by the report of the committee on Work Periods in Continuous Industry, as well as by other substantial achievements, Wallace was attentively heard by large engineering gatherings in many cities.

Everywhere, he reports, engineers are recognizing the enormous possibilities for technical and public service in the Federation as the instrument of expression and action of the engineering profession in America.

Wallace began his notable tour from New York, speaking first to the engineering students of the University of Nebraska at Lincoln. He next addressed a joint meeting of constituent societies under the auspices of the Colorado Society of Engineers at Denver. He also spoke before the faculty and students of the Colorado School of Mines at Golden.

At San Francisco, his principal stop, he addressed the meetings of the American Society of Civil Engineers and the American Institute of Mining and Metallurgical Engineers, urging before the latter body revision of the mining laws.

The first stage of his journey included addresses before the Joint Technical Societies of Los Angeles and the engineering students of the University of California.

Returning, Wallace spoke at the following places: State College, Pullman, Wash.; University of Idaho, Moscow; Oregon Agricultural College, Corvallis; Oregon Technical Council, Portland; Associated Engineers, Spokane; State School of Mines and Montana Society of Engineers, Butte; Duluth Engineers Club and Engineers Club of Northern Minnesota, Duluth.

The final events of the trip were two meetings in Columbus, O., where Wallace addressed a luncheon meeting of the Chamber of Commerce, and later, the industrial engineering students of Ohio State University on "Waste in Industry."

"Elimination of Waste in Industry" will be the theme for discussion at the sixth annual New York State Industrial Conference to be held at the Hotel Lafayette, Buffalo, for three days, beginning November 21.

Wallace will deliver the opening address, his topic being "Wasteful Industrial Habits." H. F. Simmons of the General Electric Company, Schenectady, will speak on "How to Prevent Waste of Materials." Other speakers will include Governor Nathan L. Miller.

USE OF TAR ON ROADS

Tars and tar products are fast replacing mineral-oil products for surfacing roads. This fact may be variously ascribed to the increasing supply of suitable tars, the decreasing supply of suitable mineral-oil products, increased appreciation and recognition of the suitability of tars, and the more general availability of tars in practically all parts of the country.

A number of specifications have been drawn up for the tar to be used for this purpose, a fact not at all surprising in view of tars being produced under so many different conditions, and the roadbed, surfacing materials, and traffic and climate conditions differing widely from place to place. Road tars are used for various purposes, and may be applied in different ways to obtain a particular result—a further cause for the wide variance in specifications. They may be used as a binder in place of cement, as in bituminous macadam roads, for dust-settling purposes or for cementing material—in grouting—in the construction of brick, stone, or wood-block pavements. Although the material used for these purposes is usually either a soft pitch or a refined tar, or a mixture of the two, it is quite generally termed "road tar."

BUT WHERE'S THE ROAD?

The following paraphrase of Longfellow's poem hangs on the wall of the New York State Highway Commissioner's office:

Hordes of autos now remind us
That we should build our roads to stay,
And departing leave behind us
Kind that rains don't wash away.
When our children pay the mortgage
Father's made to haul their loads,
They'll not have to ask the question,
"Here's the bonds, but where's the road?"
—Author Unknown.

APARTMENT HOUSES

Contract Awarded.
APARTMENTS Cost, \$25,000
OAKLAND, Alameda Co., Cal. W. Col-
lege Ave. 100 S. Chabot Rd.
Three-story 20-room frame apartments
Owner—P. T. Gray, 355 Grand Ave., Okla.
Contractor—John Vaughn, 1124 Hampel
Oakland.

Plans Being Figured.
APARTMENTS Cost, \$20,000
SAN JOSE, Santa Clara Co. Market
between San Fernando & Park Ave.
Two-story reinforced concrete apts.
Owner—G. W. McKernan.
Architect—Wolfe & Higgins, Auzeais
Bldg., San Jose.
Figures are being taken for a general
contract.

Contract Awarded.
APARTMENTS Cost, \$23,618
SAN JOSE, Santa Clara Co., Cal. E.
Santa Clara St., bet. 14th and 15th
Streets.

**Two-story frame apartment house (8
apartments)**
Owner—R. J. Taylor of the Crown Tail-
oring Co., San Jose.
Architect—Wolfe & Higgins, Auzeais
Bldg., San Jose.
Contractor—J. Thorp, Auzeais Bldg.,
San Jose.

Contract to be Let on Percentage Basis
—Sub-Figures to be Taken This
Week.

APARTMENTS Cost, \$45,000
SAN FRANCISCO, N. Filbert 140 E.
Larkin St. 44137-6.
Two and three-story frame and stucco
terraced apartment house (9 apts. of
2, 3 and 5 rooms; 5 servants'
rooms, garage for 8 machines with
turntable).
Owner—Withheld.
Architect—O. R. Thayer, 110 Sutter St.,
San Francisco.

Contract Awarded.
APTS & GARAGE Cost, \$43,500
OAKLAND, Alameda Co., Cal. N. E. 51st
St. and Desmond.
12 4-room frame apartments & garage.
Owner—Waldo E. Etia A. Smith, 5113
Broadway, Oakland.
Contractor—Harry C. Knight, 388 12th
St., Oakland.

Preliminary Plans Being Prepared.
APTS & STORE Cost, \$27,000
SAN FRANCISCO, N. California W. Hyde
Three-story frame apts. & store bldg.
(5 4-room apts & 1 store).
Owner—Withheld.
Architect—O. R. Thayer, 110 Sutter St.

Contract Awarded.
APT HOUSES & GAR. Cost, \$13,500 ea
OAKLAND, N. 29th St. 560, 405 W. Tele-
graph St. and S. 30th St. 390 W. Telegraph.
Four 2-story 16-room frame apart-
ment houses and 4 garages
Owner—B. S. Huntington, C. Deuble,
M. A. Wallin & H. E. Lamarz.
Contractor—California Builders, 1534
Franklin St., Oakland.

Contract Awarded.
APTS & GAR. Cost, \$14,000
OAKLAND, S. Croxton St. 110 E. Pied.
Two-story 16-room apts & garage.
Owner—B. F. Scott, 14 Yosemite Ave.,
Oakland.
Contractor—S. C. Walker, 3231 Boston
Avenue, Oakland.

Plans Completed.
APT. & OFFICE BLDG. Cost, \$50,000
UKIAH, Mendocino Co., Cal. School St.
and Stanley St.
Two-story the store, office and apt.
bldg. (4 4-room apts. and 4 offices).
Owner—A. Perrelli-Minetti, A. L. Wes-
sels and A. Sanchez.
Architect—Jos. A. Leonard, Ukiah, Cal.

To Be Done By Day's Work.
APARTMENTS Cost, \$25,000
SAN FRANCISCO, S. W. Cole St. and
Parnassus Ave.
Three-story and basement (12) apts.
Owner—John J. Binet, 336 Church St.

Owner Taking Figures.
APARTMENTS Cost, \$125,000
SAN FRANCISCO, SW Taylor and
Adelaid Place.
Six-story and basement steel frame
and reinforced concrete (41)
apartments.
Owner—R. J. O'Brien and T. F. Kler-
nan, 110 Sutter St., San Francisco
Architect—Albert W. Burgren, 110
Sutter St., San Francisco

Contract Awarded.
APARTMENTS Cost, \$15,000
OAKLAND, Alameda Co., Cal. Lot 16
Batchelder Tract.
Four four-room frame apartments and
garages.
Owner—Clarissa F. Hamilton, 1329
Jackson St., Oakland.
Architect—None.
Contractor—Harry C. Knight, 388 12th
St., Oakland.

Plans Being Prepared.
APARTMENTS Cost, \$12,000
SAN FRANCISCO, Geary St. near
Fifth Avenue.

**Two-story frame and plaster apart-
ment house and store building (2
apartments and 2 apts.)**
Owner—Mr. Myself
Architect—E. E. Young, 251 Kearny
St., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$24,000

R. Barks, Valley Bank Bldg., Fresno,
has purchased the lot at the southeast
corner of Mono St. and Van Ness Ave.,
and plans to erect a two or four story
business bldg.

DINUBA, Tulare Co., Cal.—The Chamber of Commerce has appointed a committee to select a site and secure estimates for a new office building, to house quarters of the Chamber. Committee consists of Clarence Wilson, H. L. Andrews, H. L. Perry, H. J. Barnett and H. T. Hayden.

BONDS

LAKEPORT, Lake Co., Cal.—Election scheduled for Nov. 14 in Clear Lake Union High School District has been cancelled by trustees due to irregularities in advertising proceedings.

EUREKA, Humboldt Co., Cal.—City council proposes to call election to vote bonds to finance purchase of new rails and equipment for Municipal Railway system. John Griffiths is city supt. of public works and Harry H. Hannah, city engineer.

SACRAMENTO, Cal.—City Manager Clyde L. Seavy will submit report to City Commissioners to improvements proposed under a \$1,250,000 bond issue. Bonds will be provided, through the issue, for the purchase of the Riverside Baths; improvements to city parks; extensions to water mains and sewer and street improvements. Albert Givan, city engineer.

TRACY, San Joaquin Co., Cal.—December 12 is date set to vote bonds of \$125,000 for improvements, \$75,000 for extensions to water mains; \$15,000 for curbing, draining, paving and graveling street intersections; \$65,540 for sewage disposal plant; \$18,000 for erection of fire house and purchase of apparatus. W. D. Harrington, City Manager.

YUBA CITY, Sutter Co., Cal.—Bonds of \$250,000 voted in Yuba City Union High School District to finance construction of a high school building. No architect has been selected as yet to prepare plans for the structure.

MADERA, Madera Co., Cal.—County supervisors sell \$20,000 bond issue of Chowchilla School District for premium of \$2040; proceeds of sale to finance construction of a new school.

FALLON, Nevada.—Churchill County Board of Education sells \$65,000 bond issue of Fallon School District for premium of \$3241; proceeds to finance improvements at high school building. Wood & Lamb, Hagelstein 1442, Sacramento, are the architects. Bids will be called shortly for the construction of the building (a 1-story frame and stucco addition).

STOCKTON, San Joaquin Co., Cal.—County supervisors sell \$25,000 bond issue of Shady Grove School District for premium of \$1536 and \$15,000 issue of Manteca Union High School District for premium of \$1312; proceeds of sales to finance school improvements.

OROVILLE, Butte Co., Cal.—Nov. 29 is date set in Honcut-Yuba Irrigation District to vote bonds of \$1,656,411 to finance construction of works in district. Plans were prepared by Engineers McCray Brothers, known as the Tunnel Diversion Plan. A. F. Folsom is President and Fred M. Turner, secretary of the district.

EAST SAN DIEGO, Cal.—The \$31,000 bond issue to purchase an existing water system failed to secure the necessary two-thirds majority at the recent election.

WILLIAMS, Colusa Co., Cal.—Election will be called to vote bonds to finance construction of water and sewer system. Preliminary estimates have been made by Eng. Chas. E. Sloan Co., Santa Fe Bldg., San Francisco.

SAN LUIS OBISPO, Cal.—The San Luis Obispo High School and its equipment have been declared "out of date" according to a report submitted to A. H. Mahley, city supt. of schools, by experts appointed to make a survey of the building. It is probable that an election will be called to finance construction of a new structure.

PLACER, Butte Co., Cal.—Trustees of Placerville High School District will call election to vote bonds of \$100,000 to finance construction of a new high school building.

MONROVIA, L. A. Co., Cal.—Harold Bruce Dunn, 137 S. White Oak Ave., Monrovia, has been commissioned to prepare plans for a \$600,000 class A group of hotel bldgs. to be erected on Gold Hill at the head of Myrtle Ave.

Monrovia is a reproduction of the Indian architecture cliff dwelling settlement in New Mexico, for the Cliff Dwellers Inn Co., Arthur B. Benton, 1548 Sunset Blvd., L. A., consulting archt. The main and supplementary canyon side bldgs. will be eight, conc. const. Main bldg. will be 1-story, 150 ft. front and 60 ft. deep, containing 100 guest rooms each with bath, dining rooms, lobby, basement 8-story group will be of 20 buildings, will contain 10 to 20 rooms each with bath in each room. Other bldgs. of brick tile and adobe const. will include 50 types each with bath, 50 wigwags each with bath, hot water heating system plan in separate bldg., swimming pool, 50x250 ft., bath house, Mission chapel, 50x100 ft. at top of group, with organ, roof garden. There will be an ext. incline elevator from bottom to top of canyon.

POWER PLANTS

FRESNO, Fresno Co., Cal.—San Joaquin Light and Power Co., 1801 Tulare St., Fresno, to provide an additional facilities for wholesaling power to the Midland Counties Public Service Corporation, is constructing 50 miles of high tension power line, reconstructing two sub-stations and building six miles of telephone line. The work will cost \$550,000. Steel towers will be used to carry wires through Santa Barbara forest for distance of 28 miles; for a distance of fifteen miles out of Me-

Kittick on the valley end and 12 mi. out of Santa Maria on the coast end of the line, wooden poles will be installed. Towers will be of fabricated steel, 16 ft. wide at base, 4 ft. wide at top and 65 ft. high of the 3-arm type, the arms extending 7 ft. on each side. A. Emory Wison is manager of the San Joaquin Light and Power Company.

PUBLIC BUILDINGS

Contract Awarded.
BUILDING
FRESNO, 1161 F St.

Cost, \$20,000

PRATCO, Monterey Co., Nov. 7.—110 precincts complete out of a possible 23 gives Andy Gump for Congress a majority of 97. At the big sand producing plant located on Sandy Lane and operated by the Pratt Building Material Co., every employee of this Sand Co. voted for Andy, because he wears no man's collar. Great crowds seeking returns on Andy Gump, blocked traffic here to night on Pratto street in front of the Amber Sand Building. Andy lost but one vote which was defective. Many two to one bets were made on Andy.

WESTWOOD PARK, Nov. 7.—30 precincts in beautiful Westwood Park, home of Sandy Pratt, sand king and our mayor, gave Gump 1000 and opposition 21. Same precincts in 1920 gave Harding 25,000 and Cox 13,000. Power Act, for 13, against 23.

MARYSVILLE, Calif., Nov. 7.—In the 7th ward where the Pratt Building Material Co. have their Marysville white sand pit, Andy Gump for Congress leads by 10,000. All the sand washers and sand diggers voted for Mr. Gump, because his wife Min made them "sand switches" (sandwiches) from Pratt's sand and the Yuba River's willow trees.

AMERICAN RIVER BRIDGE (one mile from Sacramento) Nov. 7.—Andy Gump polled a heavy vote in the American River near the Pratt Building Material Company's sand producing plant. Tabulation of the Gump vote will not be taken till the sand diggers fill the fleet of railroad cars with sand. One voter tried to vote 10 times for Andy. A great sand slide is predicted for the people's choice. Andy, tired from his campaign, slept in the "bed" of the American River.

THE ABOVE explains.

WHY CLARENCE Sand Pratt, President.

OF THE Pratt Building Material Co.

DOUGLAS 300—"easy to remember."

WORKED and voted.

FOR ANDY Gump, the people's choice.

FOR CONGRESSMAN.

ANDY HAD the "sand" (Pratt's Amber).

TO RUN independent.

OF EVERYBODY and everything.

AND AS Andy Gump.

IS FOR the common people.

CLARENCE SAND Pratt proposes.

THAT ANDY rides to Washington.

IN A car.

OF CLEAN, sharp sand.

FROM ONE of Pratt's sand pits.

"I THANK you."

CLARENCE F. "SANDY" PRATT,
OWNER OF A SACRAMENTO
SAND BANK, IS THE
NOISIEST MEMBER

This photo made by a Chronicle Artist at a luncheon of the Rotary Club in the Palace Hotel, shows the largest exclusive shipper of clean, sharp sand in California.

Four-story building.
Owner—J. Malcanco, 1161 F St., Fresno.
Contractor—Jos. Lo Forti, 2206 Webster Street, Fresno.

 at the corner of Baker and Kentucky
 streets.

Official Proposals

NOTICE TO CONTRACTORS

(Admin-Admin Summit National Forest Highway)

Sealed proposals for construction of an above-named National Forest Highway, located partly within the boundaries of National Forest, Alameda County, State of California, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 881 Mills Building, San Francisco, California, until 2 o'clock p. m. on November 28, 1922, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except from contractors ascertained to be experienced and responsible. The project is located about 28 miles southwest of Alturas and the length to be constructed is approximately 14.9 miles. The principal items of work are approximately as follows:

- Clearing and grubbing, 250 cubic yds.
- Excavation, rock, 5750 cu. yds.
- Excavation, common, 55,500 cu. yds.
- Overhaul, 63,200 yd. sta.
- Class "A" concrete, 102 cu. yds.
- Class "B" concrete, 218 cu. yds.
- Class "C" concrete, 122 cu. yds.
- Reinforcing steel, 56,550 lbs.
- Corrugated steel pipe, 15-in. to 24-in. 1750 lin. ft.

The work embraced in the contract shall be started within fifteen days after notice so to start has been given by the contractor by the District Engineer, which notice will be given until weather conditions render it impracticable to prosecute the work to advantage in the Spring of 1923, and shall be completed within six months after said notice has been given.

The contract form and the plans, plans, specifications and estimate of quantities may be examined by responsible contractors at the following addresses:

881 Mills Building, San Francisco, Cal. Office of Forest Supervision, Alturas, California.

California Highway Commission, 601 Forum Bldg., Sacramento, Cal.

The Bureau of Public Roads will furnish Corrugated Metal Pipe for pipe culverts. The Bureau also has a cash loan to contractors on a rental basis equipment as listed in the proposal sheets. Bidder will state in his bid the amount of Government equipment that he will use during construction and the minimum rental period thereof. The estimated rentals will be deducted from the total of the construction items and award will be made on bid to best advantage to the Government.

Plans and specifications will be furnished contractors who contemplate bidding upon deposit of a certified check for \$5000 payable to the Secretary of Agriculture of the United States. Check will be held, pending return of plans and specifications.

All proposals must be made on forms furnished by the District Engineer, Bureau of Public Roads, and in accordance with the instructions forming a part of the specifications, above referred to.

C. H. SWEETSEY, District Engineer.

NOTICE TO HEATING CONTRACTORS (Steam Heating System)

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Saratoga School District of Santa Clara County, State of California, at 2:30 p. m. on the 22nd day of November, 1922, in the present school building of said school district in the County of Santa Clara, State of California, for the installation and completion of a steam heating system for the above named district, in accordance with the plans and specifications made for the same by Wyckoff & White, the authorized architects, employed by the Board. Proposals will be received on a general

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

contract, including everything specified and shown.

Plans and specifications can be seen at the office of the Architects Wyckoff & White, Grocers Bank Building, San Jose, California.

A deposit of Twenty (\$20.00) Dollars cash will be required on all plans located outside of San Francisco.

All proposals to be made out on blank forms, furnished by the Architects and must be accompanied by a check for not less than five per centum of the amount of the bid, made payable to Sheldon P. Patterson, Clerk of the Board, and certified to by some responsible banking house. That check is to be forfeited in the event that the successful bidder, after having received the contract, fails within ten (10) days to sign the contract and furnish good and sufficient bonds satisfactory to the Trustees, and as required by law.

Bids will be received up to and including November 22, 1922, at 2:30 p. m., and must be addressed to Sheldon P. Patterson, Clerk of the Board of Trustees, of Saratoga School District, Saratoga, California.

The Board reserves the right to reject any and all bids.

By order of the Board of Trustees, dated October 30, 1922.

SHELDON P. PATTERSON, Clerk of the Board of Trustees.

NOTICE TO CONTRACTORS

(Sequoia Union High School District—3 1-story reinforced concrete structures; estimate \$300,000)

Notice is hereby given that sealed proposals will be received by the Secretary of the Board of Trustees of the Sequoia Union High School District, Redwood City, San Mateo County, California, until Saturday, the 18th day of November, 1922, up to and until the hour of 1 o'clock of said day when the said bids will be opened at the office of said clerk, in the office of the Sequoia Union High School, Redwood City, California, for the erection and completion of the new Sequoia Union High School buildings on the premises lately acquired by said district located in Redwood City, California, according to plans and specifications prepared for the same by Werner and Coffey, architects, San Francisco, California.

Separate bids will be received for: The general work.

QUANTITY SURVEYOR
and Valuation Engineer
Buildings and Engineering Works
ARTHUR PRIDDLE
693 Mission Street, at Third St.
San Francisco, Calif.
Telephone Douglas 8-4-9-3

The plumbing work.
The heating and ventilator work.
The electrical work.
The plastering work.
The blackboards in place.
Note: Contractors may submit bids of four any or all of the foregoing items of the work.

A copy of plans and specifications of the work are on file at the office of the principal of the Sequoia Union High School, Redwood City, Calif., and at the office of the Architects, Werner & Coffey, 312 Humboldt Bank Bldg., San Francisco, California.

On a deposit of \$25.00 complete plans and specifications may be had by any prospective bidder and said deposit shall be returned if said plans and specifications are returned in good order and a bona fide bid is submitted. Bids must be made on forms obtained from the office of the Architects and be accompanied by the bidder, accompanied by a certified check for at least 10 per cent of the amount of the bid or proposal, and to be by responsible bank or banker and made payable to D. E. O'KEEFE, secretary of the Board of Trustees of the Sequoia Union High School District, to be returned by said school district as agreed and liquidated damages should the party or parties to whom the contract or contracts be awarded fail to enter into the contract, and as agreed to give bonds required for the faithful performance of the contract or any bond required by law. The Board reserves the right to reject any or all bids, or any or all items of such bids.

L. P. BEHRENS, President
D. E. O'KEEFE, Secretary
Board of Trustees Union High School District, Redwood City, California.

BIDS WANTED FOR REMODELING SCHOOL

NOTICE TO CONTRACTORS

Office of the Secretary of the Board of Education of the City of Oakland.

Sealed bids will be received by the Board of Education of the City of Oakland, City Hall, Oakland, California, until 12:30 o'clock p. m., Nov. 29, 1922, at which time said bids will be opened, for the remodeling of the Cole School building of the Oakland School District, located on Union and 11th Streets, Oakland, California.

Bids will be received for General Work, in accordance with Addendum No. 1, dated October 26, 1922.

Plans and specifications for said work are on file at the office of the Architect for the Board of Education, 1419 Broadway, Oakland, California.

On a deposit of Twenty-five (\$25) Dollars, said plans and specifications may be had by any prospective bidder. These plans and specifications may be obtained for said work.

If the plans and specifications are not returned to the Architect within the time above specified, or are returned in a mutilated or damaged condition, the deposit will be forfeited and will be immediately used for the purchase of a new set of blue prints and specifications.

Bids must be made on proposals obtained at the office of the Architect, and be signed by the bidder, accompanied by a certified check, certified to by some responsible bank or banker and made payable to J. W. Edmond, Secretary of the Board of Education, to be retained by the said School District as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5000) Dollars for said work, less than Five Thousand (\$5000) Dollars, said check shall be for at least ten (10) per cent of the amount of the bid. Each bid shall be accompanied by an affidavit executed

cuted on a form that can be obtained from the Architect.

Bids will be opened by the Board of said Districts on Monday, the twentieth day of November, 1922, at the hour of 1:30 p. m., in the Board Room, 211 second floor of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

J. W. EDMOND,
Secretary of the Board of Education
of Oakland, California.

NOTICE TO BIDDERS (Austin-Weston Reversible Road Grader)

Notice is hereby given that sealed proposals or bids will be received by the Board of Supervisors of Santa Clara County, in their rooms in the Court House, in the City of San Jose, up to 11 o'clock a. m. of Monday, November 20, 1922, for a Mannheim Junior Reversible Road Grader, or equivalent, with Arch Frame and Offset Hitch, having a 10-foot blade, a wheel base of 14 feet and a length over all of 17 feet 8 inches, size of wheels front 32x5 inches, rear 50x5 inches—all with concave rims. Also furnish three extra 10-foot blades.

Each bid must be accompanied by a certified check in the sum of 10 per cent of the amount bid, drawn upon some reliable bank in favor of Henry A. Pfister, County Clerk.

The board reserves the right to reject any and all bids.

All bids must be addressed to John Roll, Chairman of the Board of Supervisors of Santa Clara County, and indorsed "Bids for Grader."

By order of the Board of Supervisors of Santa Clara County.

Attest: HENRY A. PFISTER, Clerk.
By Eugene M. Don, Deputy Clerk.

NOTICE TO CONTRACTORS

CUYAMA ROAD

Sealed proposals for constructing all of the above named National Forest Highway Project or sections thereof located within and adjacent to the Santa Barbara National Forest, Counties of Santa Barbara and San Luis Obispo, State of California, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 881 Mills Building, San Francisco, California, until 2 o'clock p. m. on the 24th day of November, 1922, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids and none given considered except those from contractors ascertained to be experienced and responsible.

The project to be constructed is part of the minor work of located 19 miles northeast of Santa Maria along the slope south of the Cuyama River. The length of the project is approximately 15.1 miles and the principal items of work are approximately as follows:

Clearing Right of Way, 726 Stations.
Excavation, unclassified, 629,100 Cu. Yds.
Dry Rubble Masonry (retaining walls) 367 Cu. Yds.
Class A Concrete (culverts) 1759 Cu. Yds.
Class C Concrete (headwalls) 315 Cu. Yds.
Reinforcing Steel, 227,300 Lbs.
Corrugated Metal Pipe Culverts, 8040 Lin. Ft.
Hand-Placed Embankment, 200 Cu. Yds.
Right of Way Fencing, 13,100 Lin. Ft.
Ditch Paving, 1470 Sq. Yds.

The minor work of clearing right of way embraced in this contract shall be started within ten days after notice of signing of contract by the Secretary of Agriculture has been given to the contractor by the District Engineer, and shall be completed before the beginning of the 1923 fire season. Construction of major items shall be started within fifteen days after notice so to start has been given by the contractor by the District Engineer, which notice will not be given until weather conditions render it practical to prosecute the work to advantage in the Spring of 1923, and shall be completed within the time mentioned in the special provision.

The contract form, maps, plans and specifications and estimate of quanti-

ties may be examined by responsible contractors at the following addresses: 881 Mills Building, San Francisco, California.

C. L. Preisker, Santa Maria, California.
Highway Commission, Forum Bldg., Sacramento, California.
The Bureau of Public Roads will furnish Corrugated Metal Pipe for Culverts. The Bureau also has available for loan to contractors on a rental basis, equipment as listed in the specifications. Bidder will start in his bid the Government equipment that he will use during construction and the minimum time required. The estimated rentals will be deducted from the total of the construction items and award will be made on bid to best advantage to the Government.

Plans and specifications will be furnished to contractors on the day of bidding, upon deposit of a certified check for \$10.00 payable to the Secretary of Agriculture of the United States. Check will be held pending return of plans and specifications.

All proposals must be made on forms furnished by the District Engineer, Bureau of Public Roads, and in accordance with a part of the Specifications above referred to.

C. H. SWEETSER, District Engineer.

November 6, 1922.

NOTICE TO CONTRACTORS

(Landscape Work, Incinerator, Kitchen equipment, Roads, Walks, Storage Tanks Lighting, etc.)

Notice is hereby given that sealed estimates will be received by the Board of Supervisors of San Mateo County, California, up to Monday, the 4th day of December, 1922, at 10 o'clock a. m., for the following work, all for the new County Hospital Building now being erected at Redwood in San Mateo County, California, and in accordance with the plans and specifications as prepared by Will H. Joepke, Architect, and as filed with the Clerk of the Board of Supervisors, on November 6, 1922, to which bidders are referred.

The estimates will be received in accordance with the plans and specifications as filed and will be as follows:

ESTIMATES FOR INCINERATOR;
ESTIMATES FOR FOG GARDENING;
LAWN, STAIRS, ETC.

This estimate will be sub-divided and rendered as called for in specification.

ESTIMATES FOR KITCHEN EQUIPMENT.

ESTIMATES FOR ROADS, WALKS, WATER SUPPLY, STORAGE TANKS, AND LIGHTING OF GROUNDS.

Estimate No. 1, for roads, walks, etc.
Estimate No. 2, for water supply, storage tanks, etc.

Estimate No. 3, for Lighting of the Grounds.

All these estimates must be in strict accordance with the requirements as called for in specifications.

All bidders submitting estimates will be required to submit with their proposal a certified check or certificate of deposit on some responsible Bank or Trust Company in the sum of ten (10) per cent of their bid, which must be made payable to the County Treasury of the County of San Mateo and will be held as security that the bidder will enter into a written contract with the Board of Supervisors of the County of San Mateo if awarded the contract within ten (10) days from the date of the award. In the event of a bid not being awarded under which this check is held, the same said check or certificate of deposit will be cashed and the proceeds thereof placed to the credit of the awarding fund of said County of San Mateo.

The successful bidder will further be required to give a bond from a satisfactory surety company in the sum of fifty (50) per cent of his contract price, conditional for the faithful performance of his contract within the time limited, and to further guarantee the material furnished on the work.

The successful bidder will also be held responsible for the County against required to protect the County against liability arising under the Workmen's Compensation Act and against any and every contingency under which the County might be held liable. During the progress of the work contracted with the contractor on said hospital building.

The contract will provide for the re-

tention of twenty-five per cent of the contract price for thirty-five days (35) after the completion of the work and the filing of the notice of completion thereon.

Sealed estimates should be filed with the Clerk of the Board of Supervisors. The said Board of Supervisors of the said County hereby reserves the right to reject any and all bids.

Plans and specifications can be seen at the Architect's office, at Room 714, Newell Building, 1201 Mission Street, St. San Francisco, California, or at the office of the Clerk of said Board, in the Court House at Redwood City, California.

By order of the Board of Supervisors, Dated November 6, 1922.

ELIZABETH M. NASH, Clerk.

NOTICE TO CONTRACTORS

(Gymnasium and Academic Buildings; Estimated Cost, \$135,000)

Notice is hereby given by the Board of Trustees of Tulare Union High School District that sealed bids will be received at the office of the Clerk of the said Board of Trustees at the High School Building in said city of Tulare, up to 10 o'clock a. m. on the 20th day of November, 1922, at which time all bids will be publicly opened. said bids to be for the furnishing of labor call materials for the erection and completion of a gymnasium building and an academic building, all in accordance with plans and specifications for same prepared by J. T. Henderson, the Authorized Architects and Engineers employed by said Board of Trustees.

All bids must be accompanied by a certified check or bidders bond of ten per cent of the amount of bid tendered made payable to W. D. Cook, Secretary of the Board of Trustees, and conditioned with such bid, and file with said Board of Trustees an approved Surety Bond equal to 50% of the contract price within six days from the acceptance of his bid, which bonds shall be conditioned for the faithful fulfillment of the contract entered into and to be done by the contractor. The protection of all persons performing labor or furnishing materials for the work to be done.

In case the said contractor shall fail to execute a bond acceptable to the Board within the said six days, due notice having been given him, then shall the contractor forfeit all claim to the said amount, said certified check of ten per cent of his bid, and it shall become the property of the Tulare Union High School District.

The contractor to whom the work is awarded must agree to complete the work within the space of 130 working days from and after the date of the contract.

Plans and specifications may be obtained from the office of Swartz & Ryland, Architects and Engineers, 1000 Building, Fresno, California, upon a deposit of Ten (\$10.00) Dollars.

The Board reserves the right to reject any and all bids.

By order of the Board of Trustees, R. H. JONES, President
W. D. COOK, Secretary
H. C. BAILL
FRANK PURSELL
D. O. HOWARD

NOTICE TO CONTRACTORS

(Shop Building)

The Board of Trustees of the Corcoran Union High School hereby advertises for sealed bids for the construction of a shop building upon the premises of the school in the town of Corcoran, County of Kings, State of California. NOTICE TO BIDDERS

(Vacuum Heating System—Monterey High School Buildings)

Notice is hereby given, by the Board of Trustees of the Monterey Union High School District, at Monterey, California, that sealed bids will be received by said Board for Vacuum Heating System for High School Buildings at Monterey, in said District, in accordance with the plans and specification adopted by said Board of Trustees on the 28th day of October, 1922, and now on file in the office of the Clerk of said Board of Trustees. Plans and specifications may now be obtained from the Clerk of the Board or from the Architects Norman E. Coulter, 46 Kearny Street, San Francisco, California, or Marshall A. Dean, 162 Pacific Avenue, Pacific Grove, California. A deposit of Ten Dollars (\$10.00) will be required for each set of plans.

All bids will be opened by the said Board of Trustees on the 25th day of November, 1922, at 1:30 o'clock P. M., at The Monterey Union High School building, Monterey, California, and all bids must be delivered to Mr. James McIntosh, Clerk of said Board, before that hour, enclosed in sealed envelope, and marked on the outside, "Bids for Vacuum Heating System for High School Buildings at Monterey."

All bids must be accompanied by a certified check, cash or a certificate of deposit equal to Ten (10) per cent of the amount bid; checks or certificates of deposit to be made payable to the Board of Trustees and to be returned to the party or parties whose bid or bids are not accepted, and to the party whose bid is accepted, upon his entering into a contract with the said School District and giving such bonds as may be required by Law or said Board.

Board of Trustees reserves the right to reject any and all bids.
JAMES MCINTOSH,
Clerk of the Board of Trustees of the Monterey Union High School District, Monterey, California.

NOTICE TO CONTRACTORS

BIDS WANTED FOR SCHOOL ADDITION

Notice is hereby given by the Board of Trustees of the Larkspur-Corte Madera Elementary School at Larkspur, Main County, California, that bids will be received for the additions and alterations to the present school building at Larkspur.

All bids must be accompanied by a certified check for not less than ten per cent of the amount of the bid submitted.

Bids must be enclosed in a sealed envelope and delivered to the Clerk of the Board, Mr. James A. Fay, at the Larkspur-Corte Madera School Building, Larkspur, California, on or before November 11, 1922, at 10 o'clock p. m.

Plans may be obtained from the Clerk of the Board or from the Architect Norman E. Coulter, 46 Kearny Street, San Francisco. A deposit of ten dollars will be required for each set of plans given to Contractors.

The Board of Trustees reserve the right to reject any or all bids that may be submitted.

Clerk of Larkspur School District.
JAMES A. FAY,

TO CALL BIDS FOR REFRIGERATING PLANT, ETC.

NOTICE TO CONTRACTORS

SEALED PROPOSALS, indorsed "proposals for refrigerating and ice-making plant, Naval Operating Base (Hospital), Pearl Harbor, T. H., Specification No. 4735 will be received at the Bureau of Yards and Docks Washington, D. C. in the near future. The work consists of refrigerating and ice-making equipment, using as refrigerant any satisfactory substance except ammonia, and consisting of two-motor-driven compressors, condenser, liquid receiver, two motor-driven brine pumps, a motor-driven circulating water pump, a combination refrigeration and brine tank with expansion coils, a water pre-cooler tank with coils, a pressure filter, brine agitator, water agitating system by compressed air, automatic can filler, hand-operated crane, automatic can dump and ice chute, ice cans, oil and scale traps, piping and other accessories, also brine piping for existing cold storage rooms and cooler's boxes and the construction of an ice-storage room in the Subsistence Building. The capacity will be 3000 pounds per 24 hours. Drawings and Specification No. 4735 may be obtained on application to the Bureau of Yards and Docks, Navy Department, Washington, D. C., Commandant, Navy Yard, San Francisco, California, or to the Commandant, Naval Operating Base, Pearl Harbor, T. H. Deposit of a check or postal money order for \$10.00 payable to the Chief of Bureau of Yards and Docks is required as security for the safe return of the drawings and specification within five days after the award of contract.

SAN FRANCISCO BUILDERS HELD ON ANTI-TRUST ACT.

Police Judge Daniel S. O'Brien of San Francisco has submitted a decision ordering that twenty-five out of the seventy building material men and corporations given a hearing in his court, be held for trial before the Superior Court on charges of violating the Cartwright anti-trust law.

Out of the remaining forty-five defendants, six were dismissed for lack of evidence of a violation of the anti-trust act, and the other thirty-nine cases were continued for future disposition.

The cases arise out of the complaint of A. Lettich, a plumbing contractor, who charges that he was refused the privilege of purchasing supplies from the building material men he named, because he did not conduct his business under the open shop or American plan, as outlined by the Builders' Exchange.

The case which had been carried over a period of several months, was a long and tedious one, taking twenty-one days actual time to present the evidence and arguments.

"In his decision on the case, Judge O'Brien said in part:

"The evidence in this case showed that the defendants, who controlled all or nearly all of the plumbing material in San Francisco, did enter into an agreement to refuse to sell any of such material to any plumbing concern or contractor who refused to operate his business under the so-called American plan.

"It is my opinion, based upon the evidence and decisions referred to that the acts of the defendants in refusing to sell plumbing materials as shown by witnesses for the people, constitute a violation of the Cartwright act."

Rotten Condition In Building Trades Due To Union Agents To Further Own Interests

(American Contractor)

Labor is cursed with organization. By nature of the case, it is so adept at managerial functions as if it were made up of units of managerial capacity. Therefore the super-imposed organization is quite free to get away with practices which thinking labor does not approve of—when it thinks.

The rotten condition in the building trades in certain cities would not exist if business agents and officers in those cases had not been actuated by selfish gain at any cost rather than by the good work for the membership they represented.

The burden of iniquity and indefensible practices has resulted in nationwide leaning toward the open shop. There are four avenues which progress may take: (1) There may be instituted and maintained an open shop; (2) there may be a battle for supremacy won by labor organized on a different plan than now; (3) there may be a reformation of the unions on much the present plan by a house cleaning within themselves; (4) there may be domination by the present unions with all their present practices maintained. Let us look to these four departures.

(1) The institution of the open shop means fighting and whipping present labor organization. This is no small job in itself, but the maintenance of the open shop is where the still greater difficulty comes because, unless the course following the whipping is very fair and satisfactory, the second condition will result. Remember, a France stinging from 1871 is always is always ready to trample on Germany's prostrate form. Labor left in that condition will always find leaders to reorganize it and to line up allies. Labor working under the open shop, of course, may be organized, but the organization must be satisfied with what the employer offers under the open shop rule, or the open shop will not stand the test.

(2) In that case the organization of

labor will be along more cunning and effective lines because profit is always made from past experience, and the employers' organizations have taught labor much about effective methods. There would be possibility in the building trades of the so-called one big union for the present craft unions.

(3) There is little prospect for the reformation of unions on the present plan, but in some cities and in certain crafts this will be done. Of course, this is a logical possibility under the open shop condition, but there is little possibility unless the battle for the open shop is waged so fearlessly that there is no other way for the unions to preserve themselves.

(4) It would be most unfortunate for the laborers as well as for the employers if present union tactics which are uneconomic should be continued by force of might. However, all things are possibilities and the gauge of battle thrown down means one side shall win and the other lose. Organized labor does not consider itself whipped as yet, and agents and officers will rally all resources in order to fight for their own existence.

Force alone will never conquer. The sting of domination is too sure to be implanted under such conditions. This is the age of organization, and it is almost unthinkable that there will not continue to be powerful labor unions probably much more so than now, because they will better represent the public by being along more economic lines without so much seeking of monopoly.

The education of the rank and file of labor to the fact that uneconomic practices must be done away with, and that labor organization must meet employer organization frankly, must be carried on. While fighting for the American Plan, there must be kept before the man working under such plan specific evidence of playing fair and giving measure for measure.

COST ESTIMATES COMPILED FOR JOINT HIGHWAY

Assistant State Highway Engineer E. T. Stanton, in conjunction with James K. O'Brien, Supervisor John Rusch, of Sacramento county, and Supervisor John Heiken, of Sutter county, has completed estimates of costs for construction of a joint highway from a point near Oswald in Sutter county, by way of Taylor, Nicholas and Vernon to Elkhorn in Sacramento county. The estimates of Engineer Stanton on the various types of road, allowing \$53,000 for grading and \$25,000 for a timber bridge, follow:

Water bound gravel or crushed rock, fifteen feet wide and six inches thick, \$238,410; same type, eighteen feet wide, \$278,145; asphalt macadam, fifteen feet wide, and six inches thick, \$397,325; same type, eighteen feet wide, \$476,820.

Portland cement shoulders with asphalt macadam in center, eighteen feet wide and six inches thick, \$582,780; same type, fifteen feet wide, \$496,820. All Portland cement roadbed, eighteen feet wide and six inches thick, \$688,740.

NEW CHIEF OF INFORMATION AP- POINTED BY FOREST SERVICE

Wallace L. Hutchinson, assistant chief of the branch of public relations in the Washington, D. C. headquarters of the United States forest service, is in San Francisco to take charge of educational and information activities in the California district, according to an announcement by district forester, Paul G. Redington.

Hutchinson is a graduate of the Yale forest school, and an experienced newspaper and magazine writer. He first entered the Federal forestry service in 1902 under Governor-elect Gifford Pinchot of Pennsylvania, and has had wide field experience in the forests of the western states, Philippine Islands and Europe. Hutchinson was formerly supervisor of the San Isabel national forest in Colorado, and served for many years as information chief in the Rocky Mountain district of the forest service.

Westgate Metal Products Co. of Oakland, manufacturing cooking cabinets and gas stoves has opened a salesroom at 1218 Market street, San Francisco.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Architects, Engineers, Contractors and Materialmen are invited to send in items for publication to "The Observer." The opening of a branch office, a social, a special meeting of department heads, promotions, changes of address, addition of new lines of equipment, appointments, etc., all of these are of interest and will be welcomed for publication. Make this column a clearing house of timely, interesting and useful information.

Every Chamber of Commerce in the Sacramento valley will be asked to cooperate in obtaining a federal appropriation for an engineering survey of Lassen National Park, as the result of a conference held in Sacramento. Colonel E. B. O'Hern, commandant of the government arsenal at Benicia, presided in his capacity as president of the United Chambers of Commerce of the Sacramento valley. R. M. Neustadt, industrial consultant, representing the San Francisco Chamber of Commerce, A. E. Dittmar, secretary and manager of the Lassen Park Association, announced that if an appropriation is obtained for an engineering survey a complete road building program to handle tourist travel to the park will follow.

Uniform irrigation laws for the West were discussed at the first of a series of conferences under way at the Anglo and London, Paris National Bank, San Francisco, under representatives of all the Western states, including Governor Davis, of Idaho, Attorney General U. S. Webb of California, members of the Ninety Irrigation Districts Association of California, members of the Irrigation Securities Committee of the Investment Bankers' Association, and local attorneys. At present every state has its own irrigation district features. It is believed that uniform laws will make this class of securities more attractive.

S. L. Jones & Co., of San Francisco, has been given judgement for \$14,500 in the District Court of Appeal, on the damage suit brought by the Jones Company against Vincent Bond. It was shown that Bond had entered an agreement in 1920 to supply S. L. Jones & Co. with 1000 tons of steel bars, who had later failed to deliver them. The lower court allowed the \$14,500 judgement, as representing the difference between the contracted price and the market value when additional bars had to be purchased by the Jones concern. The opinion of the District Court is an affirmation of the previous ruling.

Chas. A. Merritt and Chas. A. Parlier, of San Jose, have formed a partnership and will engage in the plumbing and sheet metal business with offices in the Liberty Amusement Building. Merritt served his apprenticeship with Mangrum and Otter, remaining in their employ for twenty-six years. Parlier was with Mangrum and Otter for fifteen years and for the past two years have been superintendent for Snyder and Du Brutz of San Jose.

Approximately 20 miles of street pavement have been laid and more than 14 miles of curbs and gutters placed in Sacramento under the present new charter form of government, according to a report compiled by City Manager Clyde Seavey. Under the present administration \$66,094.49 has been expended for paving, alley and sewer jobs, curbs, gutter and grading. According to the report, there are 20 paving jobs to be completed.

The Ozette Railway Co. consumed one of the largest timber deals made in the Northwest when it purchased the Quinalt Lake unit of the Indian Reservation timber comprising 388,000,000. The accepted bid is \$5 a thousand feet for live, dead cedar, Douglas fir, spruce, white pine and Amabilis fir, and \$3 a thousand for all hemlock. The total amount of the deal is approximately \$1,700,000. The sale was made through W. B. Sams, Indian Agent, for the Government.

An extensive stone-tile plant under license for the National Stone Tile Co., is in operation by the Rhodes-Jamieson Co., of Oakland, on a five acre tract on the Oakland estuary near High street. Raw materials from the Sacramento river district and stone from Marin county are being largely used in the production. An output of 10,000 tile a day, equivalent to 30,000 bricks is reported.

J. F. Shepherd and Ed. Riley, Stockton contractors, have won a suit against W. T. Owens. The contractors prepared plans and specifications to remodel a brick building at Eldorado and Oak streets, Stockton, and Owens refused to proceed with the work, declaring the plans did not meet with building law requirements. The court allowed the contractors 3 1/2 per cent commission on the sum of \$16,796.80 in recompense for their services.

The biggest timber sale in the history of the land office at Roseburg, Ore., was recorded when 80,000,000 feet of timber tributary to Coos Bay and Coquille were sold to Ben Chandler, of Marshfield, Ore., and the Coos Bay Timber Co. The buyers purchased all the good timber at \$2.50 a thousand, a slightly smaller amount being paid for inferior grades. The total amount of the sale was \$187,409.08.

The Geo. H. Tay Co., San Francisco wholesale plumbers, will occupy a two-story reinforced concrete building to be erected by the Talbot Investment Company at Eighth and Natoma Streets, San Francisco. A feature of the structure will be the show rooms for the exhibition of products carried by the Tay company. The building will cost in excess of \$100,000.

C. E. Gruinsky, engineer in charge of the Gordon Valley water project for the city of Vallejo, has no authority to change the salaries of men employed on the project, according to members of the city council. The decision was made when it became known that the salary of Lester Canady, assistant engineer had been raised from \$225 to \$260 a month.

Oroville-Wyandotte Irrigation District, Butte County, votes bonds of \$2,000,000 to construct irrigation works and purchase irrigation systems of South Feather and Feather Land and Water Companies. S. J. Norris, Oroville, is chief engineer for the district.

ALONG THE LINE

Albert Givan, City Engineer of Sacramento, has returned from a trip East where he inspected harbor development work prior to preparing plans for improvements proposed by the Sacramento City Commissioners. A report of his observations will be submitted to the City Commission within the next few days.

H. W. Robertson has been elected president of the Master Builders' Assn. of Sacramento. Other officers elected are: George D. Hudnutt, first vice president; Curtis Cutter, second vice president; W. E. Tueddale, secretary; C. H. Chatterton, treasurer and A. W. Norris, sergeant at arms.

City Council of Eureka, Calif., will call election to vote bonds of \$100,000 to finance purchase of rails and equipment for municipal railway system and \$100,000 to purchase land for park improvements.

City of Watsonville has voted \$225,000 to purchase and improve the plant and distributing system of the Watsonville Water Company. Of the total amount voted \$25,000 will finance improvements.

The Aladdin Co., builders of ready-cut buildings has established a branch office in the First National Bank Bldg., Oakland, with I. L. Walker as district manager.

Geo. T. Freitas, city engineer of Modesto, has tendered his resignation to the city council, effective January 1, 1923.

James Reavey, for more than twenty years assistant chemist for the San Francisco Board of Public Works, died in the Morton Hospital, October 10.

Robert W. Baxter, railroad builder, died at his home, 1132 Park Ave., Alameda, October 10, following an illness of two months.

Architect E. L. Hopkins has opened an office in room 626 Western Mutual Life Bldg., Third and Hill Sts., Los Angeles.

C. E. Hassey has been appointed acting building inspector of Santa Barbara, succeeding Frank Stewart.

John S. O'Brien, 65 years old, pioneer lumber dealer of San Mateo, died in that city November 11.

Architect Jas. J. Donnellan, formerly of San Francisco, has opened an office at 214 Lissner Bldg., Los Angeles.

Savage & Son, plumbers, have moved to new and larger quarters at 214 Sierra St., Reno, Nevada.

Pacific Gas & Electric Co. purchases 25-acre site in San Leandro on which it is proposed to erect a sub-station.

Highway Engineering and Highway Transport Fields and Their Need for Trained Men

(By Thomas B. Macdonald, Chief I. S. Bureau of Public Roads, Department of Agriculture)

In May, 1920, before the first conference on Highway Engineering and Highway Transport Education, it was my privilege to present a paper on a very similar subject. About the same groups made up that conference that are again represented here. The essential difference, then, is the fact that we now have to guide us three years experience in the development of a remarkable highway program, a program of highway improvement much beyond the conception of our most advanced ideas of only a few years since. Out of this experience there are certain tendencies crystallizing which indicate clearly and most emphatically responsibilities that must rest upon all those who are and who should be concerned with the business of education.

At the time of the first conference this country had been passing through a time of intense industrial activity. We are now emerging slowly from a period of the greatest contrast, a period marked by industrial depression, liquidation, and deflation. From the record as it was stated then and out of these more recent experiences, materialize the principles of a major character if measured by their effect upon the highway development of this country, and major, too, if measured by the difficulty of overcoming them effectively. In outline these principles may be stated:

1. During periods of industrial activity industry takes annually a large draft of technically trained men. This is true whether applied to the young men upon whose diploma the ink is scarcely dry, or to the trained, efficient engineer of many years experience.
2. The inducements of higher compensation, sure advancement and continuity of services are offered by industry to the individual of outstanding personality and technical preparation far in advance of the offers made by the public service.
3. During the periods of industrial depression there is a drift of engineers to the public service, but, generally speaking, not of the best qualified or experienced engineers.

Elaborating the point briefly, when the depression seized upon the industry, large and small, and there came a general curtailment or shutting down of activities, many engineers sought the public service, fled reluctantly and generally with greatly decreased compensation. Now that, despite major handicaps, a revival and expansion of industrial and commercial activity is again heard, we can expect the repetition of our very recent experience of having the most available and best qualified engineers attracted and deflected to other fields. It will not be very long before this cycle is completed. The principles, which are in themselves an indictment, are the prologue. If this conference is to accomplish something big, and if it is to assist, in the months and years immediately ahead, the achievement of definite progress, it must concern itself with educational measures and policies that are broader in their application than the technical curricula of our educational institutions. It must do its part in helping to awaken and develop a real public conscience toward its own public service, and it must awaken the public's intelligence to a real appreciation

of the magnitude and significance of the developing highway transportation.

First, consider the significance of the recent highway legislation. The Federal Highway act of November, 1921, gave us for the first time in the history of the United States, a plan for the development of a comprehensive system of highways serving the nation by perfecting a net work into every part of every State. It contemplates the service of highways for interstate and transcontinental traffic but none the less does it provide for local traffic. It brings this major system of highways too close to the communities that a properly developed system of local roads will reach all those who are not served directly. But the direct service which will be provided by the major system itself will reach a very large percentage of our total population and carry a very large amount of the total highway traffic.

Preliminary estimates show that there will be included in the major system, which we may call the Federal highway system, approximately 180,000 miles, and even considering the improvement which have been made, it will require ten to fifteen years, perhaps longer, to complete that system. Last year we added about 10,000 miles of completed highways to this system. This year the record will be smaller but there are included in these yearly totals a large mileage which must yet be surfaced or improved with a higher type of surfacing before the system can possibly be considered complete.

The Federal Highway Act established as conditions precedent to the continued participation of the States in the allotment of Federal aid, these principles:

1. That each State should maintain a highway department properly organized and equipped to supervise and administer the construction of new highways, and to maintain those already built.
2. That each State must provide State funds to meet the Federal aid funds, and not to be dependent upon the various subdivisions such as counties, to supply the State's quota, and
3. That, probably most important of all, each State must provide sufficient funds to maintain the roads which are built and lift the responsibility from the shoulders of the local communities. A majority of the States have already incorporated in their State legislation these principles, and it was the result of the successful working of these principles in some States over a considerable period of time that led the framers of this Act to require their universal adoption.

The States which must change their constitutions or their laws in order to comply with these requirements are already taking the necessary steps, and it is only a question of a very short time until they are made a part of the laws of all the States. Note that this development in legislation accepts and provides for a plan of administration and supervision universal in its application, that can be satisfied only by an engineering organization.

This conference can evaluate the degree of accomplishment for the benefit (public) that lies between the results that will be secured by an adequate engineering organization, and the dis-

appointments that will result from the failures of an inadequate organization. Can the general public be awakened as keenly to this difference?

Second, the field for the highway engineer is not so limited as might first be thought. It is not sufficient that there shall be competent engineers in the public service alone. There must be equally competent and well qualified men in the field of the producers and the allied activities. This field is partially covered by the following:

1. Engineering organizations such as county, municipal, State and Federal highway departments.
2. Contractors engaged in highway construction.
3. Producers or manufacturers of highway material.
4. Consulting and private engineers.
5. Commercial laboratories and inspection service.
6. Industrial educational associations.
7. Engineering and educational institutions.
8. The technical press.
9. Traffic engineers.

This latter is a new and at this time almost undeveloped field, but in the future it promises to absorb many men who will be engaged in a most valuable service.

This list is not complete; there are many allied lines having relation to the general field of highway development.

Third, our production of serviceable highways is not keeping pace with the demand.

Because their use, their practicability and their continuing service are dependent upon improved highways, the growth and the use of the motor vehicle is the best index to the need for, and the probable future increase in the mileage of modern highways. During the little more than a decade since 1910 the number of motor vehicles in service on our public highways has increased more than 2000 per cent. Permit me to repeat the figures which I have used before, which indicate the lag in the development of highways of modern type over the development in the use of the motor vehicle:

1. During the period 1910 to 1921 the potential number of motor vehicles demanding highway service increased approximately 2000 per cent. Our actual expenditures for construction and maintenance of highways increased about 400 per cent.
2. During the period 1910 to 1921 motor vehicles increased more than 1100 per cent, highway expenditures about 120 per cent.
3. During the period 1918 to 1921 motor vehicles increased about 900 per cent, of the number registered in 1910, and highway expenditures about 400 per cent on the same basis.

It is not asserted that these figures are directly comparable, but I cannot be disputed that they are indicative.

Fourth, consider briefly the matter of highway funds. The total estimated expenditures for highways by all agencies and from all sources during the year 1921, amounted to more than \$700,000,000. The figures for this year will probably fall somewhat below the figures for last year.

On the basis of the more conservative estimate of the actual expenditures, and without attempting to fix closely the proper percentage of cost for engineer

ing services, there should be invested annually, at the present rate, for the engineering and administrative control alone, from \$20 to 60 million dollars. Considering that easily from 40 to 60 per cent, depending upon the type of work, will be used for labor, there will be available annually, from 250 to 400 millions of dollars. These funds are available for the employment of skilled and technically trained men in the contractors' organizations as well as for the employment of common labor.

It is hardly necessary to continue to tell of the large sums available, which may legitimately be used for the employment of highway engineers.

In summary, we find that the tendency of highway legislation is most favorable to the man who will consider the highway field as his future work. There are opportunities in more than a dozen of major fields directly connected with highway work. The rate of highway improvements has not kept pace with the demand which, together with the program now definitely recognized, make certain a long period of major activity.

The legitimate percentages of the total available funds which should be used for engineering and supervision are sufficient to insure employment to many men who are properly qualified and technically trained. As a commentary these facts do not, at least to me, indicate that the educational institutions should feel called upon to specialize in the teaching of highway engineering. For the graduate who would enter the highway engineering field I would personally prefer that he have a sound general course in mathematics, English, economics and kindred general subjects, rather than a number of specialized subjects. But on the other hand, the graduate who is to enter the highway field should not be trained for some other engineering field. Referring back to the principles which were developed in the opening paragraph there is here potentially a big, attractive field for the best trained men and the extent to which these men can be brought into this field and retained, will be the measure of the economy and efficiency of the expenditure of the tremendous public funds which are inevitably to go into the building and maintenance of our public highway system.

Bigger by far than any other problem before this conference is first the problem of awakening the public to the need for and the support of the highway administrative and engineering organizations engaged in this work, and second, that of educating the public to a proper use of the highways from the traffic standpoint.

FRESNO MATERIAL DEALERS ELECT OFFICERS

The Fresno Building Material Dealers' Association, at its annual banquet in the Hotel Hughes, November 13, elected the following directors: A. B. McWorter, President; J. P. Brown, Clarence Foin, S. L. Platt and B. A. Newman. McWorter has been president during the past year and L. J. Allen, secretary. The directors will meet in the immediate future to name a president and secretary for the new year.

Among those who addressed the dealers at the annual banquet included: W. A. Sutherland, vice president of the Pacific South-west Bank and head of the Fidelity Bank of Fresno, spoke on "Financing Building Operations"; Arthur W. Bernhauer on "Problems in the Planning Mill Business"; Wm. Kendrick on the "Lumber Industry"; J. A. Hunt, of the Valley Industrial Association, outlined a plan to create better conditions in the building industry.

Chester Rowell announced he will resign from the State Railroad Commission January 1. Martin Madsen is reported slated to fill the vacancy.

Construction Started On First Truscon Standard Building In San Francisco

Construction on the first Truscon Standard Building in Northern California has been started in San Francisco for the U. S. Metal Products Co. in Tenth street between Folsom and Harrison, according to Chas. Hallway, Jr., San Francisco branch manager of the Truscon Steel Company of Youngstown, Ohio.

While the Truscon Standard Building is new to the building interests in this section it is extensively used in southern California, the Middle West and in the East. The construction is most adaptable for industrial plants, from the smallest to the largest type of building and is accepted by the Fire Underwriters. The Truscon Standard building for oil filling stations is carried in stock by the San Francisco branch.

The structure now in course of construction for the U. S. Metal Products Company will cover an area of 50 by 66 feet and will be one story, eighteen feet high. Walls and roof sheets are formed of No. 18 gage copper alloy steel with sheets interlocking and attached to the structural steel by means of bolts and wedges. As all units are interchangeable it is a simple matter to enlarge the structure at any time desired.

LUMBER OUTPUT SHOW DECREASE COMMERCE BUREAU REPORTS

Preliminary statistics just released by the Department of Commerce show the total lumber cut of Idaho and Montana during 1921 as 756,609,000 feet, which is a decrease of 45 per cent as compared with the cut reported for the preceding year. These statistics are the result of a census of the lumber and timber products industry in the 2 states by the Bureau of Census, Department of Commerce, and the Forest Service, U. S. Department of Agriculture, acting in cooperation.

The production of lath for the two states was 100,162,000 in 1921 compared with 144,855,000 in 1920 and 90,512,000 in 1919, and the production of shingles was 15,338,000 in 1921 compared with 31,454,000 in 1920 and 22,910,000 in 1919.

The Forest Service reports that during 1921 conditions surrounding the lumber industry were extremely difficult for the western operators to contend with, resulting in the smallest lumber cut since 1905 for Montana and the smallest since 1908 for Idaho, that during the late winter and early spring months of 1921 selling prices were probably below the cost of production at many of the mills and several of the large operators closed their camps in July, 1921, and did not actively resume their operations until October. November of that year. Thirty-eight per cent of all the mills located in Montana and 37 per cent of all the mills in Idaho were reported idle during 1921. The Forest Service also states that there are indications of a return to fairly normal conditions in the lumber industry and that the total production for 1922 in these states will probably not fall much below the average for the past five or six years.

CRUCIBLE STEEL SHOWS DEFICIT OF \$3,709,517

The Crucible Steel Company of America shows a deficit of \$3,709,517 in its annual report of operations for the year ending August 31, as compared with a profit of \$5,547,245 for the preceding year. The operating loss for 1922 was set down as \$2,165,767, after adjustment of inventories. The company has a surplus of \$20,008,270.

sired and is just as easy rearranged, reduced in size or taken down and re-erected on another location.

That this type of building will be used extensively in this section particularly for private garages and small industrial plants, is indicated by the number of inquiries received at the San Francisco office of the Truscon Company.

Among the more important orders recently placed with the Truscon Company for the Standard Buildings include a structure, 60 by 124 feet, for the U. S. Quartermaster Depot at Cambridge, Mass.; a structure, 40 by 36 feet, for the New York Shipbuilding Company of Camden, N. J.; a truck storage building, 60 by 252 feet for the Packard Motor Car Co.; a warehouse, 28 by 440 feet for Parke, Davis and Co.; a group of structures for the Paige-Detroit Motor Car Company and a number of buildings for the Henry Ford and Son Tractor plant at Dearborn, Mich. Among the first orders received by the Truscon Company for the Standard Building was that of the Lakewood Engineering Company of Cleveland, Ohio, which firm has taken down and re-erected a warehouse three times on three different locations.

ENGINEERS INSTALLED BY STATE CORPORATION DEPARTMENT

Walter D. Abel, formerly assistant engineer of the State Corporation Department, attached to the San Francisco office, has assumed charge of the Los Angeles engineering branch. Following the resignation of D. W. Minier, formerly engineer in charge of the Los Angeles office, Commissioner of Corporations Edwin M. Daugherty transferred Abel to the Los Angeles branch. L. C. Wyman, a mining engineer of Los Angeles, has also been attached to the staff of the State Corporation Department. Rapid growth of the business of the State has necessitated the additions and changes in this department.

Abel graduated from the Golden Colorado State School of Mines in 1906, and spent throughout the western states and Mexico, where for several years he was mining superintendent for the American Metal Company. He also spent considerable time in Arizona and Idaho. Just prior to joining the staff of the State Corporation Department he was attached to the State Highway Commission engineering staff.

Wyman is a graduate of the Case School of Applied Science, and holds the degree of mining engineer. He has been a mine superintendent through the western and southwestern section of the United States, and also has spent several months in the oil fields in and about Ventura district.

TO BUILD TIMBER RAILROAD

A railroad twenty-one miles in length will be constructed in the heart of the Sierra Mountains in California to provide an outlet for 167,000,000 feet of timber in the Plumas National Forest, recently sold by the Government to a lumber company. The new line will connect with an existing logging rail-largement of the plant of the Ransome road forty miles in length.

The forest service, which will supervise the cutting of the timber covering 14,000 acres in the sugar pine-yellow pine belt, estimated that it would require eight years to convert it into lumber. Sales of the timber, the forest service said, would bring approximately \$360,000 into the Federal treasury.

Building News Section

APARTMENT HOUSES

Ready for Segregated Bids in About Ten Days.

APARTMENT HOUSE. Cost, \$200,000
SAN FRANCISCO, NW Jackson and Laguna Streets.

Nine-story reinforced concrete apartment house (9 8-room apartments) and basement and garage.
Owner—Joseph E. Levin, San Francisco and S. Levin, New York.
Architect—C. A. Meussdorfer, Humboldt Bank Bldg., S. F.

Plans Completed.
APARTMENTS. Cost, \$80,000
FRESNO, Fresno Co., N Bush 135 W Mason Five-story and basement brick apartments (20 apartments).
Owner—Mrs. B. Eassey.
Architect—W. H. Crim Jr., 425 Kearny.

Contract Awarded.
APT. HOUSE. Cost, \$25,000
FRESNO, 150 Howard Street.
Owner—Edmond, 348 Valera St., F.
Contractor—Roy Martin, Fresno.

To Be Done By Day's Work.
APT. HOUSE. Cost, \$12,000
FRESNO, Fresno Co., Cal., 432 Olive Ave.
Apartment house.
Owner—Berton & Wolff, Bank of Italy Bldg., Fresno.

Plans Being Prepared.
STORE & APTS. Cost, \$18,000
SAN FRANCISCO, Geary bet. 17th & 18th Aves.
Two-story frame store and apts. (brick veneer) 2 apts and 2 stores.
Owner—Jacob Weissbein.
Architect—H. C. Baumann, 251 Kearny.

Plans Being Prepared.
APT. BLDG. Cost, \$80,000
BEVERLY HILLS, L. A. Co., Cal., 520 Beverly Drive.
Two-story brick store, theatre and apt. building 100x150.
Owner—Withheld.
Architect—W. Aza Hudson, Woods-Beckman Bldg., Beverly Hills, Cal.

Contract Awarded.
APT. & STORE BLDG. Cost, \$16,000
OAKLAND, N Foothill Blvd. 200 S Seminary Ave.
Two-story 15-room apt and store building.
Owner—R. J. Burks, Bacon Bldg., Okd.
Contractor—Marshall & Burks, Bacon Bldg., Oakland.

Plans Being Prepared.
LOS ANGELES, L. A. Co., Cal., Gower Ave. and Franklin Blvd.
Three-story class "C" apt. building.
Owner—C. A. Keeler.
Architect—Monaco & Bordeaux, Bank of Italy Bldg., L. A.

Contract Awarded.
APARTMENTS. Cost, \$33,000
SAN FRANCISCO, W Ashbury 75 N Page.
Two-story & basement frame (8) apts.
Owner—E. Robitscher, 1022 Haight St.
Contractor—John J. Binet, 326 Church Street.

Figures To Be Taken In Two Weeks.
APT. HOUSE. Cost, \$200,000
SAN FRANCISCO, N Market E Gough.
Six-story class C reinforced concrete market and apt. house (35 2-room apartments).
Owner—Jas. B. Gaffney and Raymond A. Luce, of the Daylight Market.
Architect—Walter C. Falch, Hearst Bldg., San Francisco.

Contract Awarded.
APARTMENTS, ETC. Cost, \$26,000
SAN FRANCISCO, Hyde St., near Golden Gate.

Two-story and basement Class B reinforced concrete printing plant and apartment house.
Owner—Louis R. Lurie.
Architect—O'Brien Bros., 240 Montgomery St., San Francisco.
Contractor—John Spargo, 240 Montgomery St., San Francisco.

Segregated Figures Being Taken—Bids Open Nov. 17, 1922.
APARTMENTS. Cost, \$80,000
SAN FRANCISCO, N Bush 135 W Mason Five-story and basement brick apartments (20 apartments).
Owner—Mrs. B. Eassey.
Architect—W. H. Crim Jr., 425 Kearny.

To Be Done By Day's Work.
APARTMENTS. Cost, \$20,000
SAN FRANCISCO, S Union 137-6 W Larkin.
Three-story and basement frame (12) apartments.
Owner—Axel A. Johnson, 632 Belvedere Street.

Plans Being Prepared.
APT. HOUSE. Cost, \$1,250,000
LOS ANGELES, Kenmore Ave. and Wilshire Blvd., corner 153x150.
13-story and basement class A Apartment house (425 rooms).
Owner—Paul B. Fletcher and J. B. Little, 3rd and Western Ave.
Architect—Walker & Eisen, Pacific Finance Bldg., L. A.

Plans Being Figured—Bids Close Dec. 1 1922.
APT. HOUSE. Cost, \$700,000
LOS ANGELES, Wilshire Blvd. and Carondelet St.
Eight-story class A apt. house (376 rooms, 138 apts., ballroom, locker room, etc.).
Owner—Wilshire Carondelet Holding Company.
Architect—Russell & Alpaugh, Story Bldg., L. A.
Bids are being taken for a general contract, heating, plumbing, wiring, vacuum cleaning, refrigeration, painting and elevators.

Contract Awarded.
APT. HOUSE. Cost, \$350,000
LOS ANGELES, L. A. Co., Cal., Calhoun St. and Yucca St.
Four-story and basement class "C" brick apt. house 100x160 (172 rooms 90 apts.).
Owner—Leach Cross.
Architect—Walker & Eisen, Pacific Finance Bldg., L. A.
Contractor—Scotfield Engineering Construction Co., Pacific Finance Bldg Los Angeles.

SEATTLE, Wash.—Architect Harry H. James, American Bank Bldg., Seattle, completing working drawings for 10-story class reinforced concrete, 60x120 ft. apartment house to be erected in 6th Ave., bet. University and Seneca Sts.; est. cost \$250,000. Will contain 240 rooms; 40 three-room and 60 two-room apartments. J. H. Williams is owner.

LOS ANGELES, L. A. Co., Cal.—Arch. A. H. McColloch, 503 Delta Bldg., L. A., has completed plans for 3 bungalow courts, with 6 units each, each unit to contain 3 rooms, in the Wilson add., Walnut Park, for Victor Girard. Rustic ext., frame constr., 1-story, 28x24 ft., comp. rt., Oak fls., wall beds, gas rad. hgt. cut water hts., \$100,000. Sixteen units to be erected by owner immediately.

BANKS

Contract Awarded.
ANNEX. Cost, \$11,900
SAN FRANCISCO, S E Sacramento and Liederdorf.
One-story class "C" annex to bank.
Owner—Mercantile Trust Co.
Contractor—Wm. Bateman, 1915 Bryant Street

Plans Being Prepared.
BANK BLDG. Cost—
SAN FRANCISCO, N W Abram and Ocean Aves.
One-story hollow tile frame and plaster bank (Spanish style).
Owner—Continental Trust Co.
Architect—G. Albert Lansburgh, 110 Montgomery.

Contract Awarded.
BANK BLDG. Cost, \$35,775
OAKLAND, Alameda Co., Cal., E-14th St. ad 31th Ave.
One-story and basement concrete bank building.
Owner—American National Bank.
Architect—Edw. T. Foulkes, Crocker Building.
Contractor—Geo. A. Scott, 685 23rd St., Oakland.

Plans Completed.
BANK BLDG. Cost, \$225,000
POONA, Los Angeles Co., Cal.
Five-story, mezzanine and basement Class A bank and office building, 60x90.
Owner—First National Bank.
Architect—Aleck Curlett and Claud Beelman, Union Bank Bldg., Los Angeles.
Bids will be taken separately on the general contract, plumbing, wiring, heating, marble, terra cotta, mechanical equipment, etc.

BONDS

MADERA, Madera Co., Cal.—Election to vote bonds of \$150,000 to erect new county hospital failed to carry.

PORTLAND, Ore.—Bond proposals on the general obligation bonds for the issue provides \$3,000,000 for Burnside bridge and \$1,600,000 for Ross Island viaduct.

ESPARTO, Yolo Co., Cal.—Nov. 18 is date set in Esparto Union High School District to vote bonds of \$95,000 to finance construction of new one and two-story brick high school buildings. Preliminary plans for which have been made by Architect W. H. Weeks, 369 Pine St., San Francisco.

SANTA ROSA, Sonoma Co., Cal.—Election will be held December 2 in Olivet School District to vote bonds of \$3,000 to finance school improvements. Trustees of the district are: F. A. Mossler, Jas. W. Wood and John W. Rued.

OAKLAND, Cal.—Supervising Architect Chas. W. Dickey of the Oakland Board of Education is preparing estimates of cost preparatory to a call to vote bonds to finance construction of new schools and additions and alterations to standing structures.

MORGAN HILL, Santa Clara Co., Cal.—Election held in Morgan Hill Grammar School District to vote bonds \$100,000 to carry. Proceeds favor the purchase of property, erection and equipment of high school buildings and improvements on grammar schools.

PHOENIX, Ariz.—The proposition to increase the bonded indebtedness of Arizona to construct approx. 95 miles of paved highway as a connecting link in the Phoenix-Los Angeles road, carried at the election Nov. 8.

SAN JOSE, Santa Clara Co., Cal.—Until Dec. 4, bids will be received by county supervisors for purchase of \$12,000 bond issue of Saratoga School District; proceeds to finance school improvements.

SACRAMENTO, Cal.—Date to open bids for the purchase of the \$5,000,000 block of 4 1/2% state highway bonds has been extended from Nov. 23 to Dec. 27, due to delay in shipment of bonds from the east where they are being engraved.

WATSONVILLE. Santa Cruz Co., Cal.—Bonds of \$225,000 have been voted to purchase and improve the plant and distributing system of the Watsonville Water Co. Of the \$225,000 voted \$25,000 will be used for improvements. H. B. Kitchen, city engineer.

NEWPORT BEACH. Cal.—Until Dec. 12, bids will be received by city trustees for purchase of the present city gas distributing plant. The people voted 7 to 1 to dispose of the plant. Alfred Smith, city clerk.

SUSANVILLE. Lassen Co., Cal.—Due to error in previous election, the Susanville-Milwood Sanitary District will have another election to vote bonds to finance improvements in the district. The law provides that the first bonds must be retired one year from date. The recent election makes the first bond payable Dec. 1, 1924, and they should be payable Dec. 1, 1923.

LOS ANGELES. Cal.—Los Angeles County Water Works Co., which operates in the "Shoestring Strip" has filed application with railroad commission for authority to issue \$30,000 of bonds to secure funds to make improvements.

OAKDALE. Stanislaus Co., Cal.—City trustees propose to purchase plant of Oakdale Co. and operate same as municipal system. Plant is valued at \$60,000.

REDWOOD CITY. San Mateo Co., Cal.—Bonds of \$30,000 to finance construction of a new high school for the Jefferson Union High School District have been sold by the supervisors for a premium of \$1710. John Reid Jr., First National Bank Bldg., San Francisco, is the architect.

CHURCHES

Contract Awarded.
CH. ANNEX. Cost, \$10,000
SACRAMENTO, 2832 34th St.
Two-story stucco church annex.
Owner—Church of Latter Day Saints, premises.
Contractor—Geo. F. Wright, 3981 Second Ave. Sacramento.

Preliminary Plans Prepared.
CHURCH. Cost, \$350,000
LOS ANGELES. L. A. Co., Cal., N E Wilshire Blvd. and Normandie Ave. 140x225.
Two-story and basement brick & terra cotta church and educational bldg.
Owner—Wilshire Boulevard Christian Church.
Architect—Robert H. Orr, Corporation Bldg., L. A.

Plans Being Prepared.
SUNDAY SCHOOL BLDG. Cost, \$75,000
SAN JOSE, Santa Clara Co., Cal. North Fourth Street
Reinforced concrete Sunday School building.
Owner—First Presbyterian Church.
Architect—Francis W. Reed, 522 East St. Concord.

SEATTLE. Wash.—Arch. Robert H. Orr, 1305 Corporation Bldg., L. A. is revising plans for a church at Seattle for Westminster Presbyterian Church of that city. Found. and basement are already constructed, superstructure will be brick construction, terra cotta exterior, slate rfg., \$100,000.

FACTORIES & WAREHOUSES

Contract Awarded.
TERMINAL BLDG. Cost, \$500,000
LOS ANGELES. L. A. Co., 1th and Alameda Streets.
Four-story and basement reinforced concrete wholesale terminal bldg (additional unit)
Owner—L. A. Union Terminal Co.
Architect—John and Donald B. Parkinson, Title Insurance Bldg., L. A.
Contractor—Wurster Constr. Co., Union Terminal Bldg., L. A.

Contract Awarded.
ADDITION. Cost, \$50,000
SAN FRANCISCO. Guerrero bet. 15th and 16th Sts.
Two-story reinforced concrete addition to plant.

Owner—National Ice Cream Co.
Architect—Wm. Mosser, Nevada Bank Bldg., San Francisco.
Contractor—Barrett & Hilp, 918 Harrison St.

Contract Awarded.
WAREHOUSE. Cost, \$250,000
SAN FRANCISCO. N W Bay & Powell.
Three-story reinforced concrete factory and warehouse.
Owner—Simmons Co., 198 Bay St.
Architect—Engineering Dept. of owner, Conover, Wis.
Contractor—Barrett & Hilp, 918 Harrison Street.
Sub-figures will be taken in about a week.

Plans Being Prepared.
BUILDING. Cost, \$50,000
HOLLYWOOD. L. A. Co., Cal. Santa Monica Blvd. and La Brea Ave.
Reinforced concrete and steel ice storage building 40x78.
Owner—Home Ice Co.
Architect—Wm. F. Bowen, 813 Union League Bldg., L. A.

Concrete Work Bids Being Taken.
WAREHOUSE. Cost, \$100,000
SAN FRANCISCO. N E 8th and Natoma Streets.
Two-story and basement reinforced concrete showrooms and whse. (flat slab construction).
Owner—Talbot Investment Co.
Lessee—Geo. H. Tay Co., 2nd and Mission Streets.
Architect—J. Kraft & Sons, Phelan Bldg., San Francisco.
Bids will be taken shortly for the steel, carpenter work etc.

Construction Abandoned.
WAREHOUSE. Cost, \$225,000
SAN FRANCISCO. S W Van Ness Ave & M. Wilshire St.
Eight-story and basement class A steel frame and reinf. conc. warehouse.
Owner—Lyon Fireproof Warehouse, 3420 Broadway.
Architect and Contractor—W. Knowles, Hearst Bldg., San Francisco.
NOTE.—The lot has been condemned by the city for a part of the Civic Center site for a War Memorial or Opera House building.

Plans Being Prepared.
WAREHOUSE. Cost, —
LOS ANGELES. L. A. Co., Cal., 2nd and Alameda Streets.
Two-story brick warehouse 80x243 ft.
Owner—S. M. Bernard.
Architect—Morgan, Walls & Morgan, Van Nuys Bldg., L. A.

Sub-contracts Awarded. Cost, \$75,000
MILK PLANT.
TRACY, San Joaquin Co., Cal.
Reinforced concrete and steel milk plant.
Owner—General Milk Co. of Cal.
Architect and Contractor—Wieland, Mazurette & Wieland, 1002 "H" St. Modesto.

Steel Sash to The U. S. Steel Products Co., San Francisco.
Metal Lath to General Fireproofing Co. Structural Steel to Union Construction Co., Oakland.
Pipe and Fittings to General Machinery Company.

Sub-figures Being Taken.
CREAM PLANT. Approx. \$100,000
NEWMAN, Stanislaus Co., Cal.
Two-story reinforced concrete and steel ice cream plant.
Owner—National Ice Cream Co.
Architect and Contractor—Wieland Mazurette & Wieland, 1002 "H" St., Modesto.

Contract Awarded.
WAREHOUSE. Cost, \$14,050
SACRAMENTO, Sacramento Co., Cal. N. St., 1330 R St.
Galvanized iron warehouse.
Owner—Perkins Grain Milling Co., 220 J St., Sacramento.
Architect—None.
Contractor—J. T. Randall, 1055 41st St., Sacramento.

Plans Completed.
WAREHOUSE. Cost, \$33,000
SAN FRANCISCO. N W 2nd and South Park Streets.
Three-story class C warehouse.
Owner—MacDonald & Kahn, 130 Montgomery Street.
Architect—S. Heiman, 57 Post St.
Contractors—Owners.

Contract Awarded.
ALTERATIONS. Cost, \$11,500
FRESNO, Kern and H Streets.
Alterations and repairs.
Owner—Zellerbach Paper Co., premises.
Contractor—Minard & Casteel, 319 Abbey St., Fresno.

To Be Done By Day's Work.
LOFT BUILDING. Cost \$50,000
SAN FRANCISCO. S California 59-2 W Kearny.
Four-story concrete loft bldg.
Owner—J. H. Hjul, 1342 Mission St.
Eng. Contractor—Owner.
Sub-figures will be taken shortly.

SALEM. Ore.—Oregon Pulp and Paper Co., commercial and Trade Sts., Salem, granted building permit to erect 4-story reinforced concrete industrial building, est. cost \$50,000. Van Patten and Son, contractors.

PORTERVILLE. Tulare Co., Cal.—Chamber of Commerce is conferring with San Francisco capitalists regarding the establishment of a creamery in this city. Cost to be in neighborhood

SAN MATEO. San Mateo Co., Cal.—McRoskey Mattress Co., 16th and Harrison Sts., conferring with the San Mateo Chamber of Commerce regarding the establishment of a factory for the manufacture of mattresses. Andrew Honerhan is sales manager of the San Mateo branch of the company.

HOQUIAM. Wash.—S. P. Mitchell, President of Mitchell Bldg. Co., Dayton, Ohio, has signed option for purchase of land in Lincoln street on which will be erected a factory for the manufacture of baskets, clothespins, broom and mop handles.

SEATTLE. Wash.—Architects Schack, Young & Myers, Lippy Bldg., complete plans and work will be done by labor on a three-story frame, 65 by 100 feet, heavy timber construction box factory for the Seattle Box Co., Fourth Avenue South and Spokane street. Construction involves 150,000 ft. of lumber; 90 cu. yds. concrete and a considerable amount of 8-in. tile, steel, etc. M. J. Nist is president of the Seattle Box Company.

PORTLAND. Ore.—Bingham & McClelland, 416 Worcester Bldg., have contract to erect a two-story reinforced concrete cold storage plant in East Portland Addition for National Cold Storage & Ice Co. Estimated cost, \$80,000.

POMONA. L. A. Co., Cal.—Hammi & Grant, Inc., 607 Ferguson Bldg., Los Angeles, have prepared plans and erected the first unit of a factory bldg. at Pomona for Teeter Adding Machine Co., 502 Pacific Finance Bldg., Los Angeles. Work will be started in a few days. Bldg. will be brick and steel with saw tooth rfg. constr., 100x300 ft., with a 2-story reinf. conc. office bldg., 35x100 ft. in a wing at the center.

HAYWARD. Alameda Co., Cal.—E. L. Macabee, manager for a local canning concern and chairman of the Cold Storage Committee of the Hayward Chamber of Commerce, announces that construction of a cold storage plant in this city is assured. The plant will be constructed either by the formation of a local stock company or by a corporation already established in Hayward.

SAN BERNARDINO. Cal.—E. G. Deckbaugh, 1717 Broadway, has a large plant to be used for storage purposes by the grape growers of Elwanda and Cucamonga districts. The first unit will accommodate 500 cars. The plant will be no reinf. conc., insulated and contain 8 storage rooms, 50x20 ft., and ice machinery capable of producing 35 to 40 tons ice daily. The proposed location is on the Santa Fe Ry., north of the city.

SAN FRANCISCO.—M. H. De Young of the S. F. Chronicle, has purchased the lot on the southwest corner of Mission and 5th streets and will probably erect a large building for the publishing plant of the Chronicle and the upper floors for a milliners exchange. Definite information can not be obtained at this time as to the effect of the ice plant in the East looking over plants and purchasing of new equipment.

WOODLAND, Yolo Co., Cal.—Harold von Tassel, county horticultural commissioner, is authority for the statement that a San Francisco paper concern is negotiating for a site in Yolo county near West Sacramento on which to erect a pulp paper mill. Surveys have already been made.

HALLS AND SOCIETY BUILDINGS

Contract Awarded.

ARMORY, BERKELEY, Alameda Co., 1918 Addison Street. Cost, \$25,000.

Clarence Sand Pratt, President, Pratt Building Material Co., Hearst Bldg., San Francisco.

Dear Clarence—Statistics do not tell when the name Clarence commenced to be joked about on the stage and in the funny papers, but this sort of thing ought to be stopped and I might suggest a Clarence Anti-Defamation League, for all the Clarences I have known at least, have been "regular guys" including you and I hope, me.

Here's a date I want you to remember—November 11—to tell every blessed Clarence you possibly can, to remember it, for on that date an EVENT of great good fortune is scheduled that is going to mean a great deal to every man named CLARENCE!

For the good of the Clarence clan and yourself in particular I urge you to send a letter exactly like this to EVERY Clarence you possibly can—at least four or five as this is the only method we have of spreading the GOOD NEWS. Failure to comply with this request will cause you much unhappiness. I received my letter from Clarence Orr of San Francisco—whenever he may be.

Sincerely,

CLARENCE R. WARD.

THIS FELLOW Clarence Orr.

WHOEVER HE IS.

WROTE TO Clarence Sand Pratt.

OF THE Pratt Building Material Co.

DOUGLAS 300—"easy to remember."

AND IT looks like the society.

OF MUCH-ABUSED Clarences.

IS TO be formed.

ESPECIALLY WHEN an architect.

OF YOUR dignity and standing.

IS WILLING to help.

PUT DOWN the joshing.

THAT IS going on.

BUT MR. Ward.

WHY DON'T you change.

THE FIRST part of your name.

CLARENCE SAND Pratt is now known.

AS SANDY Pratt.

AND HENRY Engineer Brunner.

IS THE fellow.

WHO STARTED it.

AND AS dignified.

AS HE is.

THEY CALL him "Bru."

AND "HOME-BREW."

AND SOME material men.

CALL HIM terrible names.

WHEN HE rejects their stuff.

BUT THEY call me "Sandy."

AND IT advertises.

OUR FAST growing sand business.

SAY, CLARENCE.

WHY NOT call you "Archy."

FOR ARCHITECT.

IT WILL advertise you.

ALTHOUGH I know.

IT IS unprofessional.

FOR ARCHITECTS to advertise.

BUT WILLIS Polk does it.

AND HE is not in jail.

AND TELL me an architect.

WHO DOES not advertise.

WHEN HE tells his client.

AND HIS personal friends.

THAT HE built this building.

OR THAT school house.

OR THIS beautiful residence.

ANYWAY "CLARENCE" Sand Pratt.

IS GLAD.

THAT BRUNNIER started.

TO SAY "Sandy Pratt."

"I THANK you."

Some would call this person a house maid, but Sandy Pratt alias, Clarence Sand Pratt, producer of sharp, clean sand for plastering, brick, mortar, concrete, sand blasting, chicken grit, etc., would call her a "peach."

Two-story class C armory.
Owner—C. S. Booth, 375 Euclid Ave., Berkeley.
Contractor—S. A. Warner, 351 12th St., Oakland.

Plans Being Prepared.
LODGE BLDG. Cost, \$70,000.

Official Proposals

NOTICE TO PAINTERS

(Santa Clara County Hospital Bldg.)

Notice is hereby given that sealed proposals or bids will be received by the Board of Supervisors of Santa Clara County, California, in their rooms in the Court House, in San Jose, up to 11 o'clock a. m. of Monday, December 4, 1922, for painting the following buildings at County Hospital, infirmary road, in accordance with specifications on file in said work, as follows: Main building, Superintendent's residence, Tuberculosis Pavilion, Water Tanks and Tower. Bidders must submit separate bids for each building.

Each bid must be accompanied by a certified check in the sum of 10 per cent of amount bid, drawn upon some reliable bank in favor of Henry A. Attest, County Clerk, as liquidated damages in case the successful bidder fails to file a satisfactory bond as required by the specifications within five days for the faithful performance of the conditions of the contract.

The board reserves the right to reject any and all bids.

Such bids must be addressed to John Roll, chairman of the Board of Supervisors of Santa Clara County, and endorsed Bids for Painting, All in One Bid, Superintendent's residence, Tuberculosis Pavilion and Water Tank and Tower.

By order of the Board of Supervisors of Santa Clara County, California, Attest, HENRY A. PRIDDLE, Clerk.
By Eugene M. Don, Deputy Clerk

BIDS WANTED FOR SCHOOL BUILDINGS

(Brick, Steel and Concrete Class "C" Construction. Estimated Cost \$250,000)

NOTICE TO BIDDERS ON THE LODI UNION HIGH SCHOOL BLDG., LODI, CALIFORNIA

Notice is hereby given, by the High School Board of Trustees of the Lodi Union High School District that sealed bids will be received at the High School Building, in said town of Lodi, County of San Joaquin, State of California, up to the hour of Five o'clock (5 p. m.) on the 7th day of December, 1922, at which time all bids will be publicly opened. Said bids to be for the furnishing of labor and material and erecting of a Two story Science Building, an Auditorium Building, a shop or Manual Training Building, a swimming tank, and making alterations to the present buildings, all of which buildings constitute a group of buildings, known as The Lodi Union High School, located in the City of Lodi, County of San Joaquin, State of California.

Bids shall be for: Division (1) One—General Contract. Division (2) Two—Heating and Ventilating.

Division (3) Three—Electric Clocks and Program System.

And shall include work according to plans and specifications which may be obtained at the office of Wright & Satterlee, and L. S. Stone, Architects, for the Board of Trustees of the Lodi Union High School, during business hours.

All bids must be accompanied by a certified check or certificate of deposit for Ten (10) per cent of the amount of bid tendered, made payable to Perry Clark, Clerk of the High School board, and conditions that successful bidder and each division shall enter into a contract in accordance with said bid and file with said High School Board, two (2) approved bonds within 2 days after the acceptance of his bid, one of which shall be for 50% of the contract price and shall be conditioned for the faithful fulfillment of the contract, and the other to be done thereunder, and one for Fifty (50%) per cent of the contract price for the protection of all persons performing labor or furnishing materials for the construction of said buildings

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

In case the said contractor shall fail to execute the bonds above mentioned which are acceptable to the Board within the said six days, due notice having been given him, then shall the contractor forfeit all claim to the said amount, said certified check for Ten (10) per cent of his bid and it shall become the property of the Lodi Union High School District.

All bids must be submitted upon forms obtained from the Architects.

Contractors must make a deposit of Fifteen (\$15.00) Dollars with the Architects when taking plans and specifications from the office.

The Board reserves the right to reject any or all bids.

By order of the High School Board.
W. S. MONTGOMERY, Pres.
FRED PERROT, Secy.
GEO. BECKMAN
J. E. NELSON

PERRY O. CLARK, Clerk.
As and constituting the Lodi High School Board of Lodi Union High School

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed bids will be received by the undersigned on November 29th, 1922, for constructing portions of the State Highway system as follows:

(1) Bids received until, and opened at 1:30 p. m. for grading and construction of culverts in Lincoln County, between Pierceville and Stone House.

(2) Bids received until, and opened at 2:30 p. m. for grading, construction of culverts and placing gravel surface in Eureka County between Hay Ranch and Eureka.

Plans may be examined and form of Proposal, Contract and Specifications secured at the office of the undersigned. May also be examined at the County Clerk's office in Pioche for Lincoln County work, and in Eureka for Eureka county work. May also be examined at the Division Engineer's office in Las Vegas, Elko or Reno, and District office of Bureau of Public Roads, Mills Building, San Francisco, California. Cash deposit of Fifteen Dollars (\$15.00) with the undersigned required for copy of plans which will be refunded on their return in good condition. Bids must be in form of Highway Department, and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a Surety Company, duly authorized to do business in this State, stating that such Surety

Company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of said Specifications, conditions for the faithful performance of the provisions of the contract and specifications.

Work need not commence until Spring of 1923, when work shall be commenced within fifteen (15) days after notice to commence work is sent to the contractor by the State Highway Engineer.

Right is reserved to reject any or all bids.

GEO. W. BORDEN,
State Highway Engineer,
Carson City, Nevada.

NOTICE TO LUMBER COMPANIES

Pursuant to an order of the Board of Education, duly made and entered in its minutes this 8th day of November, 1922, the Board hereby instructs the Secretary to advertise for and accept bids on the following lumber to be used in the manual training classes of the Junior High Schools:

1000 ft. 1x12 Sugar Pine Clear S2S and S2E.

NOTICE TO CONTRACTORS

(Adin-Adin Summit National Forest Highway)

Sealed proposals for constructing the above-named National Forest Highway, located partly within the Modoc National Forest, Modoc County, State of California, will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 881 Mills Building, San Francisco, California, until 2 o'clock p. m., on November 25, 1922, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except from contractors ascertained to be experienced and responsible. The project is located about 28 miles southwest of Alturas and the length to be constructed is approximately 10.9 miles. The principal items of work are approximately as follows:

Clearing and grubbing, 269 stations.
Excavation, rock, 5750 cu. yds.
Excavation, common, 55,550 cu. yds.
Overhaul, 63,200 yd. sta.
Class "A" concrete, 103 cu. yds.
Class "B" concrete, 218 cu. yds.
Class "C" concrete, 122 cu. yds.
Reinforcing steel, 56,550 lbs.
Corrugated steel pipe, 15-in. to 24-in. 1750 lin. ft.

The work embraced in this contract shall be started within fifteen days after notice so to start has been given the contractor by the District Engineer, which notice will not be given until weather conditions render it practicable to prosecute the work to advantage in the Spring of 1923, and shall be completed within 125 weather working days after said notice has been given.

The contract form and the maps, plans, specifications and estimate of quantities may be examined by responsible contractors at the following addresses:

881 Mills Building, San Francisco, Cal.
Office of Forest Supervisor, Alturas, California.

California Highway Commission, 501 Forum Bldg., Sacramento, Cal.

The Bureau of Public Roads will furnish Corrugated Metal Pipe and pipe culverts. The Bureau also has available for loan to contractors on a rental basis equipment as listed in the proposal sheets. Bidder will state in his bid the amount of Government equipment that he will use during construction and the minimum rental period thereof. The estimated rentals will be deducted from the total of the construction items and award will be made on bid to best advantage to the Government.

Plans and specifications will be furnished contractors who contemplate bidding upon deposit of a certified check for \$10.00 payable to the Secretary of Agriculture of the United States. Check will be held, pending return of plans and specifications.

All proposals must be made on forms furnished by the District Engineer, Bureau of Public Roads, and in accordance

with the instructions forming a part of the specifications above referred to.
C. H. SWEETSEI,
District Engineer.

BIDS WANTED FOR KITCHEN EQUIPMENT FOR U. S. HOSPITAL

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Director, U. S. Veterans' Bureau, Arlington Building, Washington, D. C., until 11 o'clock a. m., December 18, 1922, and then and there publicly opened, for the complete Kitchen Equipment work of the U. S. Veterans' Hospital at Livermore, Calif. Drawings and specifications may be obtained upon application to the office of Matthew O'Brien, Architect, No. 68 Post Street, San Francisco, California. Deposit of a certified check or postal money order for \$50, payable to Matthew O'Brien is required as security for the safe return of the drawings and specifications. C. R. Forbes, Director, U. S. Veterans' Bureau, November 18, 1922.

BIDS WANTED FOR LAUNDRY EQUIPMENT FOR U. S. HOSPITAL

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Director, U. S. Veterans' Bureau, Arlington Building, Washington, D. C., until 11 o'clock a. m., December 18, 1922, and then and there publicly opened, for the complete Laundry Equipment work of the U. S. Veterans' Hospital at Livermore, Calif. Drawings and specifications may be obtained upon application to the office of Matthew O'Brien, Architect, No. 68 Post Street, San Francisco, California. Deposit of a certified check or postal money order for \$50, payable to Matthew O'Brien, is required as security for the safe return of the drawings and specifications. C. R. Forbes, Director, U. S. Veterans' Bureau, November 18, 1922.

BIDS WANTED FOR GENERAL CONSTRUCTION OF U. S. HOSPITAL

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Director, U. S. Veterans' Bureau, Arlington Building, Washington, D. C., until 11 o'clock a. m., December 18, 1922, and then and there publicly opened, for the construction (exclusive of mechanical equipment), of 29 reinforced concrete buildings of the U. S. Veterans' Hospital at Livermore, Cal. Drawings and specifications may be obtained upon application to the office of Matthew O'Brien, Architect, No. 68 Post Street, San Francisco, California. Deposit of a certified check or postal money order for \$250, payable to Matthew O'Brien, is required as security for the safe return of the drawings and specifications. C. R. Forbes, Director, U. S. Veterans' Bureau, November 18, 1922.

BIDS WANTED FOR PLUMBING, HEATING, ETC., FOR U. S. HOSPITAL

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Director, U. S. Veterans' Bureau, Arlington Building, Washington, D. C., until 11 o'clock a. m., December 18, 1922, and then and there publicly opened, for the complete Plumbing, Heating, Ventilating, Water Softening and Filtering Equipment, Vacuum Cleaning System and Garage Equipment work of 29 reinforced concrete buildings of the U. S. Veterans' Hospital at Livermore, Calif. Drawings and specifications may be obtained upon application to the office of Matthew O'Brien, Architect, No. 68 Post Street, San Francisco, California. Deposit of a certified check or postal money order for \$250, payable to Matthew O'Brien, is required as security for the safe return of the drawings and specifications. C. R. Forbes, Director, U. S. Veterans' Bureau, November 18, 1922.

BIDS WANTED FOR ELECTRICAL WORK FOR U. S. HOSPITAL

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Director, U. S. Veterans' Bureau, Arlington Building, Washington, D. C., until 11 o'clock a. m., December 18, 1922, and then and there publicly opened, for the complete electrical work of 29 reinforced concrete buildings of the U. S. Veterans' Hospital at Livermore, Calif. Drawings and specifications may be obtained upon application to the office of Matthew O'Brien, Architect, No. 68 Post Street, San Francisco, California. Deposit of a certified check or postal money order for \$250, payable to Matthew O'Brien, is required as security for the safe return of the drawings and specifications. C. R. Forbes, Director, U. S. Veterans' Bureau, November 18, 1922.

BIDS WANTED FOR REFRIGERATING PLANT WORK FOR U. S. HOSPITAL

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Director, U. S. Veterans' Bureau, Arlington Building, Washington, D. C., until 11 o'clock a. m., December 18, 1922, and then and there publicly opened, for the complete Refrigerating Plant work of the U. S. Veterans' Hospital at Livermore, Calif. Drawings and specifications may be obtained upon application to the office of Matthew O'Brien, Architect, No. 68 Post Street, San Francisco, California. Deposit of a certified check or postal money order for \$50, payable to Matthew O'Brien, is required as security for the safe return of the drawings and specifications. C. R. Forbes, Director, U. S. Veterans' Bureau, November 18, 1922.

BRIDGES, DAMS & HARBOR WORK

STOCKTON, San Joaquin Co., Cal.—Jenkins and Elton, 36th and Y Sts. Sacramento, at \$450 awarded contract by supervisors to const. trestle near Wood-bridge.

STOCKTON, San Joaquin Co., Cal.—Until Dec. 5, bids will be received by Eugene Graham, county clerk, to re-floor McMillen Lake bridge on Durham Ferry road; est. cost \$1720; also for re-flooring Bailey Ferry bridge over Stanislaus river; est. cost \$3000 and to construct a new bridge over Bear Creek on Jacob Harris, Jr., road, est. cost, \$1260.

MADERA, Madera Co., Cal.—Following bids taken under advisement by supervisors to const. timber and re-inconc. bridge over Berenda slough; Ed. Layne, Chowchilla, \$5300, wood and \$6300, concrete piers. R. C. Brown, Chowchilla, \$5400 wood and \$7300 conc. piers. J. O. Rue, county surv.

SALEM, Ore.—Graham Steel, 104 Northwestern Bank Bldg., Portland, filed application with state Eng. Percy A. Cupper for permit to const. a reservoir in the channel of Big Marsh creek tributary to east fork of Deschutes river, to store 80,000 acre ft. of water for irrigation purposes.

MADERA, Madera Co., Cal.—Supervisors will construct 2 bridges on the Pacheco Pass road and bids will be asked in January. Agreement reached by county supervisors to construct the bridges with the State Highway Commission who will shortly ask bids to const. that part of the Pacheco Pass road from Califa, on the state highway, north of Fairmead to the Santa Rita bridge, about 26 miles.

SONOMA COUNTY, Calif.—Until Dec. 11, 2 p. m., bids will be received by State Highway Commission, Forum Bldg., Sacramento, to construct bridge in Sonoma county over N. W. Pacific Railroad near Lytton, consisting of 3 22-ft. reinf. conc. girder spans, with necessary bents, abutments and wing walls. Austin B. Fletcher, State Highway Eng. See call for bids under official proposal section in this issue.

PLYMOUTH, Cal.—P. B. Engh, Pac. Elec. Bldg., Los Angeles, submitted low bid to Palo Verde Joint Levee Dist., at 18c cu. yd. to construct levee works along the Colorado river, work to be done principally with dredges. Chas. Thompson & Bros., Clark Hotel, Los Angeles, submitted low bid at 25c cu. yd. for channel correction with 2000 cu. yd. to be awarded about Nov. 20. C. K. Clarke, chief engr.

STOCKTON, San Joaquin Co., Cal.—County Surv. F. E. Quinn authorized to construct protecting walls along the Calaveras river near Bellota to protect the adjoining lands from flood waters, the cost of the work not to exceed \$2500.

VENTURA, Cal.—Mercereau Bridge & Constr. Co., 313 N. E. 22, awarded contract by supervisors at \$6670 for flooring the Piru and Santa Paula bridges. G. H. Jordan, box 11, Ventura, awarded contract at \$2185 to construct conc. bridge in Wheeler canyon.

Petre Constr. Co. awarded contract at \$2605 to construct the Wilcy canyon culvert.

County Engr. Chas. W. Petit ordered by supervisors to prepare plans for a bridge in Long Canyon on the Stockton Road.

ALAMEDA, Cal. Bids received for the purchase of the Liberty Shipyard, have been rejected and new bids will

be asked. Thos. Baird, Pacific Coast Manager for the U. S. Shipping Board, announces he will not recommend the acceptance of a bid less than \$500,000. The highest bid offered was \$405,000.

SANTA ROSA, Sonoma Co., Cal.—County supervisors petitioned to construct new bridge over Sonoma creek on Nordwell ave., connecting Sonoma Vista and Boyes Springs.

SACRAMENTO, Cal.—Until Nov. 23, 10 a. m., bids will be received by State Reclamation Board for construction work on the Sutter and Tisdale By-Pass Levees of Reclamation District No. 1660. See call for bids under official proposal section in this issue.

OROVILLE, Butte Co., Cal.—Supervisors petitioned to const. new bridge near the mouth of Chico creek. R. referred to county surv. Harry H. Hume.

IRRIGATION PROJECTS

MERCED, Merced Co., Cal.—Until December 5, 11 a. m., bids will be received by W. D. Wagner, Secretary, Merced Irrigation District, for drilling and lining of not more than 30 wells; bidder to state number of wells he will drill in specified time and number of rigs he will employ, although the minimum number of wells bid on shall be not less than 15. Specifications may be had from the Secretary on deposit of \$5, or may be seen at office of Building and Engineering News, 560 Mission St., San Francisco.

MERCED, Merced Co., Cal.—Until Dec. 5, 11 a. m., bids will be received by W. D. Wagner, secretary Merced Irrigation District for fur. f. o. b. factory 2 pumps direct connected to two electrical motors with motor control equipment for Booster Plant No. 2 of the Lake Yosemite-LeGrand Highline canal. Pumps shall be so designed as to be able to discharge successfully and continuously 12 cu. ft. of water per second and 3 cu. ft. of water per second, respectively, against a total head of 27-ft. Motors shall have a rating of 110 volts, 60 cycles and 3-phase. Cert. check 5% required with each bid. Spec. may be had from secretary on deposit of \$5. R. C. Starr, ch. eng. for district.

Spec. on file in office of Building & Engineering News, 560 Mission St., San Francisco.

MERCED, Merced Co., Cal.—Until Dec. 5, 11 a. m., bids will be received by W. D. Wagner, secretary Merced Irrigation District for fur. f. o. b. factory, 2 pumps direct connected to two elec-

tric motors with motor control equipment for Booster Plant No. 3 of the Lake Yosemite-Le Grand Highline Canal. Pumps shall be so designed as to be able to discharge successfully and continuously 10½ cu. ft. of water per second and 4½ cu. ft. of water per second, respectively, against a total head of 20.3 ft. Motors shall each have a rating of 440 volts, 60 cycles and 3-phase. Cert. check 5% required with each bid. Spec. may be had from secretary on deposit of \$5. R. C. Starr, ch. eng. for district.

Spec. on file in office of Building & Engineering News, 560 Mission St., San Francisco.

SALEM, Ore.—The Deschutes County Municipal Improvement District of Tualuma, Ore., has applied to State Eng. Percy A. Cupper, for permit to divert 250-second ft. of water from the Deschutes river, to irrigate 15,350 acres. Construction in this district commenced in August, includes a concrete dam with five headgates, three steel gates, wastewater, a metal flume, siphon, reservoir with five miles long, an ditches. Total cost \$550,000.

OROVILLE, Butte Co., Cal.—Oroville-Wyandotte Irrigation District votes bonds of \$2,000,000 to construct irrigation canals and purchase the right-of-ways of the South Feather Land and Water Co. and the Palermo Land and Water Co. According to plans prepared by Eng. S. J. Norris, 401 Lincoln St., Oroville, the issue will provide for the consolidation of all water rights and holdings on the South Feather River by the purchase of the South Feather and Palermo systems; construction of an impounding reservoir at New York Flat near Challenge, with a capacity of 44,000 acre ft. Construction of a regulating dam at Lost Lake with a storage capacity of 5000 acre ft. Construction of a regulating reservoir east of Palermo. Ultimate construction of a dam at Little Grass Valley creating a reservoir with 109,000 acre ft. capacity. The district with lands now in and petitioning to come comprises 24,200 acres. Water developments will provide for 50,000 acres.

ORLAND, Glenn Co., Cal.—Three plans for enlargement and increased water supply for the Orland Irrigation District are outlined in a report submitted to the Orland Water Users' Association by Eng. L. C. E. Weber. Briefly, the three plans are:

Plan No. 1—Providing for the creation of the Mills division, which would irrigate 25,000 acres at an estimated cost of \$150 per acre. Water would be secured from the proposed Millsite reservoir.

Plan No. 2—Providing for an extension of the present project to cover 19,500 additional acres. The water would be secured from the proposed Millsite reservoir and would be applied to the present project as well as the proposed extension. Estimated cost, \$150 per acre.

Plan No. 3—Same as Plan No. 2, except it would provide for an extension to include 5000 acres more than No. 2. Estimated cost, \$110 per acre to the association.

No action is expected by the Association until the February, 1923, meeting.

SACRAMENTO, Calif.—Bids to const. the east and west levees of Reclamation District No. 1660, Sutter county, will be asked by the State Reclamation Board, Forum Bldg., Sacramento, within the next ten days. The work will involve an expenditure of approximately \$1,500,000.

TURLOCK, Stanislaus Co., Cal.—L. E. Neil, auditor, Turlock Irrigation District desires to secure catalogs and price lists on various kinds of iron and fence metal, such as is used on top of power houses and as bridge railings, etc. Address all communications to L. E. Neil, Auditor, Turlock Irrigation District, Turlock.

PHOENIX, Ariz.—S. B. Shumway, Mesa, was awarded contract for const. 14,943 mi. state highway on the Phoenix-Yuma line, bet. Piedra and Gila Bend, contract on Sched. No. 1, Sta. 4310 to 4732, at \$24,804.62, involving 16,000 cu. yds. excav. at 25c yd.; 15,392 cu. yds. borrow at 25c yd.; 78 cu. yds. excav. struct. at \$1 yd.; 58 cu. yds. conc. at \$4 yd.; 190 cu. yds. A conc. at \$18.50 yd.; 119 cu. yds. B conc. at \$16 yd.; 129 cu. yds. excav. struct. over 20 ft. at \$1 yd.; 14,920 lbs. rein. steel at 2 1/2c lb.; 13,046 cu. yds. gravel, surfacing f. o. b. curb at 10c yd.; 12,046 cu. yds. gravel, surfacing, unloading, placing and shaping (500 ft. free haul) at 60c yd.; 1,004,742 sta. yds. surfacing overhead at 67 1/2c yd.; minor items. Total, \$24,804.62. State furnishes materials valued at \$2786.70; plus 10% for contingencies, \$278.67; grand total, \$28,050.45.

Contract on Sched. No. 2, Sta. 4732 to 5069, involves 12,257 cu. yds. excav. roadway unclass. at 20c yd.; 5144 cu. yds. borrow at 20c yd.; 821 cu. yds. excav. struct. at 50c yd.; 440 cu. yds. excav. ditches and channel changes at 25c yd.; 1800 cu. yds. overhead 100 ft. earthwork at 67 1/2c yd.; 10,743 cu. yds. surfacing selected material at 48c cu. yd.; 53,895 sta. yds. surfacing overhead at 67 1/2c yd.; 4 cu. yds. A conc. at \$20 yd.; 3 cu. yds. B conc. at \$15 yd.; 331 cu. yds. C conc. at \$14 yd.; and minor items. Total, \$23,563.48; state furnishes materials at \$2207.76; plus 10% for contingencies, \$220.76; grand total, \$25,413.02.

YUBA CITY, Sutter Co., Cal.—E. T. Stanton, assistant state highway engineer, in conjunction with Jas. K. O'Brien, chairman, Supervisor John Russi, of Sacramento county, and Supervisor John Heiken, of Sutter county, has prepared estimates of cost preliminary to organizing a joint highway district to finance construction of a highway from a point near Oswego, in Sutter county, to the town of Tudor, Nicholas and Vernon to Elkhorn in Sacramento county. Estimates are submitted for various type of construction, including \$5000 for a timber bridge; water bound gravel or crushed rock, 15 ft. wide, 6 in. thick, \$288,410; same type, 18 ft. wide, \$273,145; same type, 15 ft. wide 6 in. thick, \$297,350; same type, 18 ft. wide, \$476,820. Portland cement shoulders with asphalt macadam in conc. base, Sutter county, 15 ft. wide, 750; same type 15 ft. wide, \$496,820. All Portland Cement roadbed, 18 ft. wide, 6 in. thick, \$688,710.

STOCKTON, San Joaquin Co., Cal.—Irey and Holden, Lodi, awarded contracts to improve Locust Rd. in R. J. Dist. No. 4, at \$26,087; and E. J. Mettler Rd. No. 525, Imp. Dist. No. 5 at \$10,086.

EUGENE, Ore.—Municipal Water Board has appropriated \$150,000 for enlargements and improvements for water plant, including \$35,000 for the Fairmount reservoir, additional filtering equipment and extensions.

MERCED, Merced Co., Cal.—Healy-Tibbitts Const. Co., 9 Main St., San Francisco, at approx. \$50,000 awarded contract by Yosemite Valley R. R. to construct approaches to bridge across Merced River at Hopeton.

FRESNO, Fresno Co., Cal.—Until Nov. 23, 3:30 p. m., bids will be received by R. Y. St. George, city clerk, to const. 6-in. vit. clay pipe lateral sewer in Block 102 with 4-in. connections to property line, lamphole manhole, etc. Wm. Stranahan, city eng.

MADERA, Madera Co., Cal.—City trustees petitioned to pave West Yosemite St., O St., and city limits at Olive St. Petitions to pave other streets will be presented shortly.

SANTA MONICA, Cal.—Until 10 a. m., November 22, bids will be received by city council to construct approximately 6 mi. 6-in. to 8-in. cement pipe sanitary sewer in the streets between 20th and 23rd St., and in portions of other streets, with manholes, junction chambers, jump holes, house sewers, etc. 1911 Art. John A. Morton, city engineer.

OROVILLE, Butte Co., Cal.—Petitions are in circulation asking supervisors to place 12 ft. gravel shoulders on each side of paved highway bet. Oroville and Bangor. Road is now 12 ft. wide. Harry H. Hume, county road engineer.

HOLBROOK, Ariz.—A. E. Thompson, Phoenix, Ariz., awarded contract at \$14,000 to construct city sewer system.

MERCED, Merced Co., Cal.—Valley Paving and Constr. Co., Merced, awarded contract by city trustees at \$19,800 to pave 13th St., bet. P. St. and the British Columbia R.R. at 3c sq. ft. grading, 15c sq. ft. paving, 15c sq. ft. bulkheads, and 20c ft. shoulders.

VENTURA, Cal.—Until 11:30 a. m., Nov. 24, bids will be rec. by supervisors to pave 3.05 mi. of Guiberson Rd., about 1 mi. south of City of Fillmore, involving 3200 cu. yds. excav. at 25c yd.; and rolling roadbed, 173,600 sq. ft. asph. conc. pavement, 139 cu. yds. conc. culverts, 8300 lbs. rein. steel, 60 ft. 15-in. corrug. iron pipe at 60c lin. ft., corrug. iron pipe, 12 ft. 48-in. corrug. iron pipe, 19 ft. relay of 48-in. corrug. iron pipe from Sta. 140-37 to Sta. 139-75. Plans and spec. on file with county supervisor, Chas. W. Pettit.

SANTA ROSA, Sonoma Co., Cal.—Following bids received by supervisors and work ordered done by day labor under supervision of R. Press Smith, county surveyor:

13,000 cu. yds. grading and surfacing Guerneville-Jenner highway, W. L. Proctor, 1000 Spring St., Santa Rosa, \$118,500.

Sec. 1, Sonoma to state highway, at 1.70 ml. asph. surfacing, M. F. Tracy, Sonoma, bid \$15,967.

Sec. B, Petaluma to Sonoma highway, at 3.05 ml. M. F. Tracy, Sonoma, bid \$30,147.

Grading and asph. surfacing, 1.04 ml. Dry Creek road, Mercer-Fraser Co., Eureka, bid \$5572.

Grading and asph. surfacing, Sec. A, Geyserville-Jintown road, Mercer-Fraser Co., Eureka, bid \$5572.

MODESTO, Stanislaus Co., Cal.—A. Teichert & Son, Ochsen Bldg., Sacramento, awarded \$753,917 awarded contract by supervisors to construct 1232 1/2 ft. bit. conc. pavement, 18-ft. wide, 5-in. thick, consisting of 3 1/2-in. bit. conc. base with 1 1/2-in. BUSINESS OPPORTUNITIES

Further information regarding these opportunities may be had from Foreign and Domestic Trade Bureau, San Francisco Chamber of Commerce, Merchants Exchange Bldg., by referring to index number.
-6426—Vladivostok, Russia. Gentleman with 10 years experience in Siberia is returning to that country this month and desires to represent San Francisco manufacturers or dealers. Agencies for rubber goods, refrigerating machinery, salt mining machinery are especially desired.
-6427—Chalchihuites, Mexico. Firm is erecting a small plant to treat ores and wishes to get in touch with San Francisco manufacturers of steam stamp mills.
-6431—Germany. German novelty manufacturer of coat hangers, screw drivers, wrenches, razor straps, etc., has sent descriptive literature desiring to sell local dealers.
-6438—Medina, O. Firm wishes to buy fibre suitable for weaving into furniture.
-6439—El Paso, Tex. Dealer wishes to purchase raton and fibre similar to his samples on file with this Bureau.
-6440—Texas. Business man with excellent references and twenty years' actual experience in Mexico desires to communicate with reliable San Francisco houses who desires competent representation below the border.
-D-300—Chicago, Calif. Party desires to buy quantity of roofing slate—wants prices and full information.
-D-310—San Francisco, Calif. Local house desires to get in touch with concern manufacturing bone and horn button manufacturing.
-D-312—Toledo, O. Radio manufacturer desires representative to handle their products this market.
-D-314—Dubuque, Iowa. Party who was chief engineer of Swift & Company's plants in South America desires to locate himself in some local industrial products.
-D-315—Los Angeles, Calif. Party desires to get in touch with suppliers of True Venetian Turpentine.
-D-316—San Francisco, Calif. Local concern has warehoused in Pennsylvania quantity of Battleship and heavy plain scrap linoleum—also quantity of cork carpet scrap, approximately 20,000 pounds. Material suitable for playhouses, for toys, bathing slippers, metal windows, etc. Parties interested in purchasing this material communicate with Domestic Trade Bureau.
-D-320—Tempe, Tex. Two young men desire to act as salesmen in Texas territory for San Francisco manufactured products.
-D-323—New York City, N. Y. Manufacturers and dealers in all kinds of steels desire contact with real live selling organization San Francisco.

A "Pittsburg" Automatic Gas Water Heater installed in the Home indicates high quality throughout.

Recommended and specified by all of the leading architects, plumbers and builders.

INDUSTRIAL ENGINEER ENGAGED BY S. F. CHAMBER OF COMMERCE

F. T. Letchfield, an expert of wide experience, has been appointed to direct the Industrial Department of the San Francisco Chamber of Commerce. Letchfield enters the organization to render a high grade professional service for every industry that can be interested in operating in the San Francisco area. Co-operating with Charles A. Day and F. M. Hyslop, the new industrial engineer, will put into practice a number of constructive ideas that have produced results in other fields of endeavor.

Letchfield is a graduate electrical engineer of the University of Michigan. He has served in the field, acquiring experience in hydro-electric, hydraulic, civil, mechanical and chemical branches of the engineering profession. For two years he served in an executive capacity for the United States government in charge of large war-time contracts. Later he became chief engineer for the Charleston Industrial Corporation of Nitro, West Virginia, directing the engineering and sales staffs. He was delegated by New York financial interests to make an industrial survey in China and spent six months in the Far East before completing that mission.

LAW OF SURVEYING AND BOUNDARIES IS LATE PUBLICATION

The Law of Surveying and Boundaries, a new book by Frank E. Clark, of the Minnesota Bar, supplies for the first time, in handy accessible form, all of the laws pertaining to surveying and boundaries. It covers fully and in detail the problems encountered by the surveyor and the lawyer, in actual practice, and advises the proper procedure in solving those problems.

ZARACOZA INVESTMENT COMPANY PLANS TOWNSITE AT TIA JUANA

Between four and five million dollars will be expended near Tia Juana, Mexico, by the Zaracoza Investment Company, present owners of the Tia Juana race track, in laying out a town site comprising approximately 645 acres.

The proposed development work will embrace 645 acres of open land to the east and southeast of the present race track. A four story hollow tile and heavy mill constructed hotel will be erected at a cost of \$430,000 in addition to a reinforced concrete theatre with a stage sixty feet wide on which will be featured large operas. The seating capacity will exceed 1800 people. Fourteen miles of sewers, probably of the reinforced concrete type will be installed, in addition to fourteen miles of macadam paved streets. An electric system of the latest improved type will also be a feature all public buildings will be of the Spanish type of architecture, the remaining structures of the Spanish-Mexican type, the character and design of which will be approved by a Civic Planning Commission.

A gas plant suitable for supplying a city of seven thousand population will be installed at a cost of approximately \$50,000 in addition to a sewage disposal plant and an incinerator. The Zaracoza Company has set aside a tract of five acres for the exclusive use of the Red Cross which organization will erect its own buildings. Other features of the project include the construction of a new race track, pavilion, clubhouse, grand stand and stables, these to be in the heart of the city. This section will be improved with semi-tropical gardens and an artificial lake. The business district will lie in the western section of the city. A considerable area is set aside for a residential district. An athletic field and polo grounds have been provided for in addition to church buildings and schools.

M. J. Lyon is acting chief of construction for the project.

Assurance that immediate construction of the project will be undertaken lies in the fact that San Francisco contractors have been asked to submit figures for construction. Offices of the Zaracoza Investment Co. are maintained at 333 Kearny Street, San Francisco.

LETTER CONTESTS ON STEAM SHOVEL EL MAINTENANCE COSTS

With the intention of getting actual records of steam shovel maintenance costs, the Erie Steam Shovel Company has inaugurated a letter contest, which will provide an incentive for those with records to send them in.

This contest is now open and will continue until Dec. 31. Records may be sent in by steam shovel owners, managers or any employees in direct contact with steam shovel work. In every case the record must be accompanied by a written statement from the owner of the machine to the effect that the figures submitted are correct to the best of his knowledge.

Twenty prizes will be awarded. These range from \$100 and a Waltham watch for first prize, \$50 and a Waltham watch for the second prize, down to \$5 for the twentieth prize. In addition, \$5 will be given for every record that does not win a prize, but is published.

SAN FRANCISCO ARCHITECTS TO ASSIST IN SAN MATEO COUNTY DEVELOPMENT

Frank K. Towne, president of the Redwood City Chamber of Commerce and Secretary R. H. K. Smith, of the same organization, have accepted membership on the San Mateo County Development Committee of which Willis Polk, San Francisco architect, is chairman. The purpose of the committee is to present a practical plan for the commercial development of San Mateo county, involving port construction, highway and boulevard improvements, reclamation of lands and a comprehensive zoning of industrial areas.

With the idea of rendering public service, the following San Francisco architects have become affiliated with the project: John Galen Howard, Bernard R. Maybeck, Arthur Brown Jr., Clarence R. Ward, Ernest A. Cuxhead, Wm. C. Hayes, G. Albert Lunsburgh, John Reid Jr., Walter Latelliff, Ernest L. Norberg, Wm. H. Toepke, and James H. Mitchell.

FIGHT ON BEETLE CUTS TIMBER LOSS

A reduction of at least 50 per cent in the infestation of the western pine beetle which has been causing a heavy loss of yellow pine timber in Southern Oregon and Superior California, is reported by the department of agriculture.

The reduction is the result of control work undertaken by the department in co-operation with the Indian Service and the Klamath Forest Protective Association, an organization of private timber owners.

The department of agriculture states the work to date will result in saving \$78,000 dollars worth of timber in the next three years over and above the cost of this year's work. Congress will be asked to allot additional funds for continuing the work next year.

TO ASK BIDS FOR FIVE MILLION DOLLAR H. H. PIPE LINE

Plans are being completed by City Engineer M. M. O'Shaughnessy for the construction of the pipe section of the Hetch Hetchy Aqueduct between Irvington and Crystal Springs and a call for bids to construct the project will be issued within the next sixty days.

Specifications will provide for a pipe line nineteen miles in length, sixty inches in diameter, either riveted steel or welded; 2650 feet of submerged pipe at Dumbarton Crossing; pumping plant to pump water to Crystal Springs Reservoir. The total cost of the project is \$5,000,000.

N. A. Eckart is chief assistant engineer for the Hetch Hetchy project.

S. F. ARCHITECTS AND BUILDERS WIN SUIT

Architects and builders of the Curtis Garage at Oroville, Calif., have been awarded a verdict of \$1,243.75 by a jury after seven days trial and three hours deliberation. The verdict was for two suits, that of Righetti & Hirschfeld, San Francisco architects, for \$1600 and Del Favero & Rasori, San Francisco contractors, for \$1000. M. N. Straus was the defendant in both cases. A cross-complaint for \$8000 alleged unnecessary expense filed by Straus was disregarded by the jury.

Will Contractors Become Extinct?

(American Contractor)

How will the dictionary of 1950 define the word Contractor?

CONTRACTOR. 1. One who enters into a contract with another person or corporation.

2. (OBSOLETE) One who agreed to do a certain piece of work, usually manual labor, for a sum agreed upon at the time of entering into the agreement. Sometimes this sum was a fixed amount, but more usually it was based upon a specified rate per unit of measurement. During the first quarter of the twentieth century, such contractors were found in every section of the United States. Shortly after the World War, this method of doing business was superseded by a system known as "Force Account" and the contractor is now an extinct species. (Universal Dictionary, edition of 1950.)

If the contractors of the United States do not wake up and start some sort of a publicity campaign, their grandchildren will read some such definition as this in the dictionaries of their generation. In fact, if something isn't done soon, we may all read it in the next issue of Webster. The extent to which public officials are entering the construction field is causing the contractor a maximum of worry with a minimum of work, and private enterprise reveals signs of following the lead of our public servants.

In the good old days, the kind we love to talk about, though we would dislike having to live in them, there were no contractors, in fact, no specialists of any kind. The barber attended to healing the sick as a side line—that was how he acquired his striped pole, and his penchant for combing blood letting with your morning shave. The pastor of the village church taught school in his spare time. The attorney practiced law when it did not interfere with training at his general store. And everyone "pitched in" when there was a road to be built, or a new building to be erected. Old barn raisings were events.

Today we tell the barber to stick to his shop. Specially trained physicians minister to us when we are ill. The pastor devotes all his time to his spiritual work, and the storekeeper remains in his store, while licensed attorneys dispute the fine points of law as long as their clients remain solvent. Barn raising has in large measure gone the way of the apple jack and the peach brandy which were so prominent a part of the festivities in grandfather's time. The neighbors building construction men who have specialized in that field.

But the contractor, having reached a point where he was regarded as indispensable, is now being eliminated. Not the big fellows, of course. But the little business man of today was the little chap of a few years ago, and where do you find the small contractor in these times?

What chance have our ambitious young men, fresh from schools, universities or practical training—boys just as energetic and virile as their fathers a generation ago—what chance have they to carve their way to success in the contracting field?

There is work to be done in their cities, in their counties, their states. But do they have an opportunity to bid on some portion of it, to establish

themselves in business in a small way, and to take pride in having done their bit to improve their community? They do not!

Some states provide that all public work shall be let by contract to the "lowest responsible bidder." It is practically impossible to persuade the average taxpayer that the man who submits the lowest figure is not just a responsible as the one whose bid is a little higher, but even that is not the worst feature of the matter. Before the war, few state and county officials tried to evade the plain provisions of the act. Today, it is getting quite common to call for bids, reject them all, and then do the work by "Force Account."

One state has a law providing that all counties having a population in excess of 50,000 shall call for bids on all public work. As there is only one county in this state which comes under the provisions of the act, all other sections of the commonwealth may do as they please. And they do.

In either case, what chance does the boy have to establish himself in business? In one instance, after he has spent time and money in preparing a reasonable bid, he sees his proposal filed away in a pigeon hole. In the other, he does not even get a chance to bid. Some city, state or county official, totally ignorant of the difficulties of contracting, but supremely confident of his ability to do the work more cheaply than can anyone else on earth, decides to do it by "Force Account." The boy gets the choice of handling a pick and shovel, or of going without work altogether.

A large educational institution in a western state recently enlarged by constructing a big building. Graduates of the college, ambitious to start their business careers on the campus of their alma mater, would have liked to submit bids on portions of the work. Were they allowed to do so? Not a bit of it. All work was handled by day labor, an employee of the college acting as superintendent of construction. He did a good job, but the boys got their business education at the end of a long-handled shovel.

Every county in the United States has many small jobs which should be let by contract. They are too small to interest the big fellow, but the little chap needs them and needs them badly.

Even big contractors are being hit by the menace. Observe the municipal paving plants that are springing up all over the country, representing another encroachment by public officials upon what should be wholly a matter of private enterprise. Grant that these officials can do the work as cheaply and as efficiently as experienced contractors. They can't—but grant it for the sake of argument. What then? Will they build up efficient organizations and maintain them permanently? Or will Bill Jones be retained as foreman only as long as the Republicans remain in power, to be replaced by the inexperienced Mike Collins when the Democrats win an election? And will either Bill or Mike spend much of his time studying the science of paving, when he knows that the next election may throw him out of a job? Naturally he

will devote most of his time to elector engineering. The plant can go hang.

This condition is partly the fault of the contractor himself. He greeted the "cost plus" type of contract as an ideal system, one that would eliminate his worries while giving him a fair profit. He failed to see that it was necessary to educate the public to the fact that contracting is a highly specialized profession, and that the "plus" covered such intangible, but valuable, items as organizing ability, overhead, and a multitude of similar expenses. The public did not understand. It saw that it was paying the full cost of the work with an added profit to the contractor. It thought not unnaturally, that it could do the work itself at cost, and save the "plus."

But can it? It has not the training to organize properly, to buy in the cheapest markets, to carry on the work in such a manner that there shall be no delay, nor to handle the labor problem without friction. All the public sees is the cost of the work, not realizing that the cost of work under public direction is greater than the bid a contractor would have made, or greater than the "cost plus" price of an experienced builder. Much publicity—call it propaganda if you will—will be required to teach the public that it takes trained men to build a highway, install a sewage system, or erect a building. We have such trained men today. Will we have them in the next generation?

We all know, of course, why some public officials are refusing to give work to contractors. Contractors are such a bunch of bad eggs. Think of their record during the War. They actually took contracts for building the cantonments on an iniquitous "cost plus" basis, and think of the cost of those army camps. That labor and materials soared in price from day to day during the entire period of construction has nothing to do with the case. Had the contractors been honest, patriotic citizens, they would have built the barracks at the same cost as was in force in 1916. To be sure, no contractor has been convicted, or even indicted for graft or for profiteering in this connection, but that is all due to the failure of the attorneys to prosecute, or of the courts to take drastic action.

Rot? Certainly, but does the public know that? Or know that the charge is just a smoke screen thrown up to give a lot of deserving political retainers a chance to get on the payroll? No, because the public has no chance to know it. Its reading conveys the other idea, from the little weekly published in the county seat, kept alive by printing the legal notices passed out by the powers that be to the Congressional Record with its latest attack on the profiteers. Is it any wonder the public believes as it does when it has no opportunity to learn the other side of the question?

It is time the contractors presented that other side of the case, instead of sitting back, secure in the conviction that "Truth crushed to earth will rise again." Undoubtedly it will; but it won't hurt to give it a helping hand. It may otherwise not rise until too late to do our boys any good.

NEW BULLETIN ON CONCRETE ROADS

"Portland Cement Concrete Roads," a new publication prepared by the Bureau of Public Roads, has been issued as Bulletin 1077 of the United States Department of Agriculture.

The bulletin is the work of James T. Voshell and R. E. Toms, engineers of the bureau, who have been in charge of a large amount of Federal concrete road construction and who have had an opportunity of inspecting concrete road construction under a wide variety of conditions.

The subjects discussed are materials used, proportioning, design, construction, organization and equipment, capital required, cost, maintenance, and resurfacing.

Particular attention is given to width of pavement on tangents and curves, transition curves, and super-elevation. Practical field methods are described and tables and charts given of value to field engineers.

Contractors will be interested in the pages describing operations with various kinds of equipment, which is accompanied by diagrams illustrating organization and plant layout. They will also find use for the table of quantities of materials per mile of pavement for various widths and mixtures, data for use in computing the size of engine for pumping water, cost of concrete roads in all sections of the country and a list of the items to be taken into account in estimating costs.

On the whole the bulletin is as complete a discussion of the practical and technical details of concrete road construction as could be expected in a publication of limited size. Copies may be had free upon application to the Department at Washington, D. C.

NATIONAL FIREFORM COMPANY HAS WALL BOARD TEST

The first public fire test conducted by the National Fireform Company on its new wall board was held at the company's plant, Sixteenth and Arkansas streets, San Francisco, November 14th. In addition to architects and contractors from San Francisco and Oakland, representatives of the Board of Fire Underwriters and the San Francisco Department of Public Works were present.

According to officials of the company the test proved a wonderful success, demonstrating the quality and strength of the board in addition to featuring its fire resisting qualities. The board has remarkable insulation qualities, is fire retardant and waterproof. A special composition used on the surface may be applied with a paint brush, spray or trowel. The board will be manufactured in sizes to fit the outside walls, ceilings and flooring, etc. The proper sizing of the product together with its weight is an economical feature.

The National Fireform Company expects to have its plant in full operation by about December 15th and will be in a position at that time to fill orders of any size. In addition to the manufacturing the wall board, the company will also manufacture a complete line of containers for use in shipping bottles, glasses, etc.

BIDS WANTED FOR PUMPS, MOTORS, MOTOR CONTROL EQUIPMENT AND DRAINAGE WELLS

Specifications are on file in "Contractors' Room," Daily Pacific Builder, 560 Mission street, for pumps, motors and motor control equipment and for drilling and driving drainage wells for the Merced Irrigation District, bids for which will be opened at Merced on December 5th. Interested parties are invited to inspect the specifications. (11)

Renewal of 1922 Wage Scale Is Recommended By Builder's Exchange

A new wage scale for the bay district building industry, calling for no reduction but in some cases an increase in pay has been submitted by the San Francisco Builders' Exchange to the Imperial Wage Board, consisting of Archbishop Edw. J. Hanna, chairman; C. E. Michaels and H. U. Brandenstein, preparatory to fixing a wage scale to remain in effect for the year 1923.

The wage scale, effective January 1, as submitted by the builders, follows:

Craft—	Journeyman Helpers
Asbestos workers.....	\$7.00 \$..
Bricklayers.....	\$10.00 ..
Bricklayers' hodcarriers.....	6.00 ..
Cabinet workers, in shop.....	7.00 ..
Cabinet workers, outside.....	8.00 ..
Carpenters.....	8.00 6.00

Teamsters, two horses.....	5.50 ..
Teamsters, four horses.....	6.00 ..
Flow teamsters, four horses.....	6.00 ..
Scraper teamsters, two and four horses.....	5.50 ..

Plasterers' hodcarriers, bricklayers' hodcarriers, roofers' laborers, hoisting engineers and steamshovel firemen to start 15 minutes before other workmen, both at morning and at noon.

Teamsters to be at the barn 30 minutes before auto truck drivers in the morning.

Auto truck drivers and teamsters nine hours a day, from 7:30 a. m. to 5:30 p. m.

Common labor, auto truck drivers and teamsters, 6 days a week.

Eight hours to constitute a day's work except as above noted.

Five and one (5 1/2) days to constitute a week's work except as above noted.

OVERTIME

Common labor, truck drivers, teamsters, for Sundays and recognized holidays, time and one-half.

All others, week days except Saturdays, from 5 p. m. to 8 p. m., time and one-half.

All others, Saturdays from 1 p. m. to 8 a. m., time and one-half.

All other Sundays and recognized holidays, double time.

Recognized holidays to be New Year's Day, Washington's Birthday, Decoration Day, Fourth of July, Labor Day, Admission Day, Thanksgiving Day and Christmas Day.

OAKLAND ARCHITECT ASSOCIATED WITH EDUCATIONAL HEADS

Mr. John J. Donovan, Architect, member of the American Institute of Architects, School Building Specialist and author of "School Architecture," wishes to announce that Dr. Frank W. Hart, Associate Professor of Educational Administration and Mr. L. H. Peterson, Associate in Educational Administration of the Department of Education, University of California are now associated with him for the purpose of providing an enlarged and improved service to School Boards and Architects by closely combining the architect's training and experience with the professional school administrator's knowledge of the modern educational demands upon the school plant.

This combined service has long been desired by Boards of Education and Architects in order that the architecture and planning of the executed work will economically and effectively meet the educational requirements of the school.

The enlarged service contemplates preparation of building surveys and schoolhousing programs in connection with school planning for communities confronted with the problem of increasing their building facilities.

EXCAVATING MACHINERY FOR LAND DRAINAGE

In recent years there has been considerable improvement in machinery for excavating drainage ditches and an increase in land drainage work. To place the latest information on the subject before persons concerned with drainage work, the U. S. Department of Agriculture has issued a revised edition of Department Bulletin 300, "Excavating Machinery Used in Land Drainage," by D. L. Yarnell, senior drainage engineer.

In the preparation of this bulletin, which has been entirely rewritten, studies have been made in many parts of the country, where size of ditch, size of project, wet or dry conditions of soil, stumps encountered, and other factors make various machines and methods of operation desirable.

The bulletin is designated to be useful in determining what type of machine will be best suited for a given project, the cost of the machine and of getting it ready for operation, size of crew and supplies necessary for operation, and rate of progress to be expected.

Copies may be obtained by writing to the U. S. Department of Agriculture, Washington, D. C.

CONTINUATION OF BUILDING IS FORECAST

Despite an increase in the cost of building, reported from various sections of the country, there will be a continuation of present construction activities until the building shortage is substantially "picked up." This is according to a review of existing conditions made by Wilson, Compton, secretary manager of the National Lumber Manufacturers' Association, who says the increased prices are due largely to higher wages he states are being paid.

Taking Washington, D. C. as an example, Compton says building costs have increased 10 per cent, and that \$15 per day has become the customary rate here for masons, bricklayers and plasterers. He adds that in some building projects in New York, as high as \$20 per day has been paid for skilled labor, due to the demand exceeding the number of men available.

Recently, a local contractor complained he was unable to get skilled mechanics for \$12 a day though he advertised extensively.

The accumulated housing shortage since 1914 up to the present year, Compton states, "was equivalent to approximately two and a half full years of new building based on the 1910 to 1915 yearly average. At costs of construction prevailing last Spring, between \$5,000,000 and \$5,000,000,000 expenditure would have caught up this building deficit."

"There is every reason to believe that the fundamental demand for building materials still maintains and that it will continue for several years, with, of course, ups and downs. There will be periods of great building activity alternating with periods of semi-stagnation until the building shortage is substantially caught up. These alternations probably will be due rather to the building trades labor situation than to building materials."

"There is little danger that the comparatively small increases in building costs due to increases in the cost of building materials will have much to do with discouraging or delaying building as long as the costs of building labor are excessive and erratic."

FLOOD CONTROL WORK TO COST \$1,500,000

Additional flood control work in the Sacramento valley, which probably will cost in excess of \$1,500,000, is soon to be undertaken under the supervision of the State Reclamation Board.

The work under consideration is the reconstruction of the east and south levees of Reclamation District 1660 in Sutter county, which besides forming important links in the general flood control plan of the Sacramento and San Joaquin valley as mapped out several years ago by United States army engineers, will constitute a part of the west levee of the Sutter by-pass and the north levee of Tisdale by-pass.

The levee fronting the Sutter by-pass will be about nine miles long and the second unit, which will form the south levee of the reclamation district, about three miles in length.

BOOK ON CONCRETE PRODUCTS

"Concrete Products: Their Manufacture and Use" is the title of a book for which material was compiled and edited by W. R. Harris, managing editor of "Concrete Products" and H. Colin Campbell, director of publications of the Portland Cement Association. The book includes such subjects as standard specifications for building units, tests on concrete in its manufacture and methods of using drain tile pressure pipes and other products.

CONFERENCE ON NUMBERING OF STEEL

Called by A. E. S. C.

A conference to consider the desirability of providing a system of designating qualities or kinds of steels by code numbers, has been called by the American Engineering Standards Committee at the request of the U. S. Bureau of Standards. The conference will be held in the Department of Commerce Building, Washington, D. C., December 6.

The subject of this conference is a matter of great importance to all manufacturers of steel and to all users of steel in large quantity. This conference will attempt to determine the desirability of applying a uniform numbering system to forging steels, casting steels, structural steels, including plates, tool steels or other steels not so classified.

While the American Engineering Standards Committee has invited to this conference representatives of all technical and industrial associations known to be interested in the subject, any organization which feels that it should be represented in the conference, but has received no formal invitation, is urged to communicate with the American Engineering Standards Committee, 28 West 39th Street, New York City.

The Society of Automotive Engineers has already formulated a system now in wide use, applying to the steels used in automotive practice, and there has been considerable discussion as to the advisability of applying such a system more generally.

USE OF GUNITE IN PRESERVING WINE TIMBERS

A most important question on which adequate data are not available, is the effect of gunite in retarding the decay of timbers to which the gunite is applied, states the Bureau of Mines in Serial 2297, just issued. It is obvious that such information can be obtained only by observation of gunited timber in comparison with exposed timbers under similar conditions, over a period of years. Experiments at the United Comstock, North Star and Empire mines, and at the University of California add are being watched carefully by the Bureau of Mines, and the final results will be published. From what has been learned of the density and nonporosity of gunite and its resistance to the absorption of water, it seems reasonable to believe, if sound timbers free from decay are carefully and completely covered with gunite, the gunite coating will protect the timber against the attack of fungus and insects and thus retard decay.

SMITH-BOOTH-USHER ISSUES PRICED STOCK BULLETIN

The Smith-Booth-Usher Co., 50 Fremont St., San Francisco, and 228 Central Ave., Los Angeles, has issued a new priced stock bulletin copies of which will be furnished on request. The bulletin containing 36 pages and more than 200 illustrations, prices at a net figure and illustrates the immense stock of the company both at San Francisco and Los Angeles.

Brooks Fisher, chief of the Advertising Department of the company, comments on the bulletin as follows:

"A catalog illustrates, but gives no prices or costs. A price sheet gives prices, but does not illustrate or give stocks. A stock sheet gives stocks, but has no prices or illustrations. However, our Priced Stock Bulletin illustrates, prices, and shows stocks, and is therefore a very valuable addition to any office or individual interested in anything we carry."

SEPTEMBER SLATE SALES MAINTAIN HIGH RECORD

September slate sales keep up the pace set by August, running over 3/4 of a million, and are 2% above 1920, and 5% above 1921, according to 61 producing companies reporting to the National Slate Association. Thirty of the concerns reporting show that September is the first month when the cumulative year's total of shipments in 1922 is 20% above 1921, and 10% above 1920.

Blackboard slate shipped in the first nine months of 1922 is only 10% behind the entire year's total of 1921, the largest blackboard slate year. As two of the largest producing blackboard quarries resumed operations in October after a month's strike, there is no question but that 1922 will exceed 1921 by 15 to 25%. The increasing use of blackboard slate by industrial plants, railroad stations, newspaper offices, and other commercial places, in addition to the enormous educational building program now under construction, is responsible for this increased demand.

Twenty per cent more roofing slate was shipped during September, 1922, than produced but the stocks on hand would maintain that rate of consumption for several months. The added production of the two large quarries previously mentioned, will soon bring production up to the demand in most sizes, grades and colors. The demand for the stable blacks, greys, and weathering or sea green varieties is unusually good, as the public recognizes today more than ever the durability, importance and all-time cost of a roof and acknowledged slate's supremacy as an economic roofing material.

As expected, electrical slate September shipments were 25% higher than August, and are constantly increasing. Many large projects and buildings have reached the stage where electrical switch boards, panel boards, switch bases, etc. must be supplied.

Slate prices are holding firm. While fuel and oil shortages emphasize materially delayed shipments during September and October, the acute situation is now somewhat relieved. Although considerable trouble in getting cars sufficient for shipments is still the rule, contractors and other slate users, appreciating the situation, are anticipating their slate needs and allowing more time between placement of their order and the time slate is required.

NEW DAYLIGHT LAMP

An artificial daylight lamp has been developed in England. The lamp is of the regular incandescent electrical type, and the light is reflected from a reflector which is colored with spots of certain shades. The resulting reflection is very much like ordinary daylight. The absorption of the yellow and red rays in the light produces a light of maximum clarity. A park was lighted with 80 new lights and the effect was almost the same as if the sun was shining. The new lamps are purchasable on the English market at the present time.—Industrial Digest.

LINK-BELT CATALOG

A new Link-Belt Portable Loader catalog has just been issued by the Link-Belt Co., Nicetown, Philadelphia, Pa., embracing their entire line of portable equipment. The book is the most up to date and complete ever issued by the company. It is 8 1/2 by 11 in size and contains complete specifications of all of the standard machines which include the large capacity Power Swiveling Loader, the Portable Belt Conveyor, the standard type "A" machine for Anthracite coal, the "CS" Loader for handling sand and gravel. Copies will be furnished on request.

Building News Section

APARTMENT HOUSES

To Be Done by Day's Work.
APARTMENTS Cost, \$25,000.
SAN FRANCISCO. NW Seventh Ave. and Judah.
 Three-story and basement frame (12) apartments.
 Owner—Ernest Johnson, 581 Belvedere St., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$15,000.
OAKLAND. E Opal St. 190 N 11st St.
 Two-story 17-room frame apartments.
 Owner—L. Jensen, 812 Alleen St., Okl.
 Contractor—F. A. Kurtz, 812 Alleen St., Oakland.

Contract Awarded.
APARTMENTS Cost, \$11,000.
BERKELEY. Alameda Co., Cal., 1816 Delaware St.
 Two-story frame apartments.
 Owner—Mrs. C. Patterson, 1717 Grove St., Berkeley.
 Contractor—H. Warren, 2615 Derby St., Berkeley.

Plans Being Figured.
APARTMENTS Cost, \$30,000.
PALO ALTO. Santa Clara Co., Cal., N E Cowper St. and University Ave (tile roof).
 Frame and plaster bungalow court (10 2 and 4 room apartments).
 Architect—Birge M. Clarke, 600 Embarcadero Road, Palo Alto.

CARPENTER WORK CONTRACT.
APARTMENT Cost, \$80,000.
SAN FRANCISCO. N Bush 135 W Mason Five-story and basement brick apartments (20 apartments).
 Owner—Mrs. B. Bayne.
 Architect—W. H. Crim Jr., 425 Kearny. The carpenter work was awarded to Vuklichiv & Barge, 180 Jessie St., at \$12,353. Other contracts will be awarded shortly.

Plans Being Prepared.
APT. HOUSE Cost, \$500,000.
OAKLAND. Alameda Co., Cal.—S Grand Ave., 140 E Broadway.
 Class A theatre and apartment house 90x230. (probably 10 stories).
 Owner—Roos Bros.
 Architect—Weeks & Day, California Ins. Bldg., San Francisco.

Plans Being Figured.
ALTERATIONS Cost—
SAN FRANCISCO. 41 1st St.
 Alter offices, fixture work, electrical plumbing, heating, carpentry, etc.
 Owner—Blake-Moffitt & Towne, 11 1st Street.
 Architect—Willis Polk & Co., Hobart Building.

Segregated Figures Being Taken.
APT. HOUSE Cost, \$30,000.
SAN FRANCISCO. Sacramento between Franklin and Gough Streets.
 Three-story and basement frame and stucco apartment house (6 4-room apts. with basement garage, steam heat and hot water system).
 Owner—Withheld.
 Architect—A. J. Horstman, Anglo Bldg., 16th and Mission.

Contract Awarded.
APT. HOUSE Cost, \$15,000.
FRESNO. 1126 Q Street.
 Apartment house and garage.
 Owner—Albert Bauer, Fresno.
 Contractor—W. R. Davidson, 654 N 2nd St., Fresno.

To Be Done by Day's Work.
APARTMENTS Cost, \$107,000.
SAN FRANCISCO. N California 104-W 27th Avenue.
 Two-story & basement frame (4) Apts.
 Owner—Arthur B. Stevens, 4026 Fulton Street.

Contract Awarded.
APT. HOUSE Cost, \$25,400.
SOUTH SAN FRANCISCO. San Mateo Co S Grand Ave.
 Two-story reinforced concrete apartment house.
 Owner—F. A. Cunningham, South San Francisco.
 Architect—E. L. Norberg, Balboa Bldg., San Francisco.
 Contractor—E. C. Stickle, South San Francisco.

Plans Being Prepared.
APT. HOUSE Cost, \$600,000.
LOS ANGELES. L. A. Co., Cal. Wilshire District.
 Eight-story class "A" apt house 150x 150 400 rooms.
 Owner—Withheld.
 Architect—Corwin & Merrill, 504 Douglas Bldg., L. A.

Contract Awarded.
APARTMENTS Cost, \$20,500.
SAN FRANCISCO. E Powell 77-6 N Jackson.
 Three-story and basement reinforced concrete (6) apartments.
 Owner—Mr. Morton.
 Architect—A. Fabre, 110 Sutter.
 Contractor—Fred Moller, 180 Jessie St.

Contract Awarded.
APARTMENTS Cost, \$15,000.
OAKLAND. W Walker Ave. 375 S Fairbanks.
 Three-story 15-room frame apartments.
 Owner—C. Lerch, 5406 Arbor Ave. Okl.
 Contractor—Axel Sommerstrom, 109 Sunnyside Ave., Oakland.

Permit Applied For—Segregated Figures To Be Taken In A Few Days.
APARTMENT HOUSE Cost, \$200,000.
SAN FRANCISCO. NW Jackson and Laguna Streets.
 Nine-story reinforced concrete apartment house (9 3-room apartments) and basement and garage.
 Owner—Joseph E. Levin, San Francisco and S. Levin, New York.
 Architect—C. A. Neusdorffer, Humboldt Bank Bldg., S. F.

BANKS

Ready for Figures in About a Week.
BANK BLDG. Cost, \$10,000.
OAKLAND. Alameda Co., Cal. Telegraph Ave. and 47th St.
 One-story reinforced concrete bank building.
 Owner—Bank of Italy.
 Architect—H. A. Minton, Monadnock Bldg., San Francisco.

Contracts Awarded.
ALTERATIONS Cost, \$—
SAN FRANCISCO. NW Pine and Montgomery Streets.
 Extensive alterations for bank.
 Owner—Security Bank & Trust Co.
 Architect—W. H. Weeks, 369 Pine St., San Francisco.

Marble Work to Joseph Musto Sons—Keenan Co., 555 North Point St.
Bronze and Ornamental Iron to California Artistic Metal & Wire Co., 349 7th St.

Plastering and Hollow Tile, Concrete Work, Etc., to P. J. Walker Co., Sharon Bldg.
Mahogany and Metal Counters to The M. G. West Co., 15 Front St.

As reported on October 6th, the contract for the vaults has been awarded to Hermann Safe Co., 216 Fremont St.

Contract Awarded.
BANK BLDG. Cost, Approx \$107,000.
VISALIA. Tulare County.
 Five-story reinforced concrete bank & office building.
 Owner—Bank of Italy, S. F.
 Mr. Cuneco in charge of construction.
 Architect—R. F. Fehlehn & Co., Bldg., Italy Bldg., Fresno.
 Contractor—Jas. Furlong, Monadnock Bldg., S. F.

Only two other bids were received and were as follows: Tracywhite & Shubel, Fresno, approximately \$110,000, and Schuler & Macdonald, of Oakland, approx \$135,000.

VALLEJO. Solano Co., Cal.—Vice President W. J. Tolmery of the Central Commercial Bank, announces that at a meeting to be held on Dec 11 the architect will be selected to prepare the plan for the handsome new bank structure to be erected in the 300 block in Georgia Street.

BONDS

SAWTELLE. Cal.—An election will be held Dec. 12 in Sawtelle district to vote a bond issue of \$250,000 for water distributing system for that part of city.

STOCKTON. San Joaquin Co., Cal.—Nov. 25 is date set for vote bonds of \$120,000 to finance construction of a restraining dam and reservoir on the Calaveras river to impound waters for municipal use, including land for water storage of water, city hall and machinery, conduits, diversion works, etc. A. L. Banks is city clerk and W. B. Hogan, city engineer of Stockton.

VALLEJO. Solano Co., Cal.—Y. M. C. A. plans construction of \$10,000 swimming tank in Sacramento street. Committee has been appointed to raise funds to finance construction.

ESPARTO. Yolo Co., Cal.—Bonds of \$30,000 voted to finance construction of new high school for Esparto High School District.

PASO ROBLES. San Luis Co., Cal.—Dec. 16 is date set in Paso Robles High School District to vote bonds of \$270,000 to finance construction of new high school.

TULARE. Tulare Co., Cal.—City trustees will call election to vote bonds of \$50,000 to build new city hall and remodel present structure in K St., and purchase new fire apparatus.

CLAREMONT. Cal.—Street paving proposed will necessitate a \$150,000 bond issue. Petitioners asking for the improvement of city streets specify concrete pavement for main traveled roads, 6-in. rock asphalt for less important streets, and light asphalt pavement for side streets. The work will include laying of sewers.

VALLEJO. Solano Co., Cal.—City Council calls \$250,000 issue of Gordon Valley water project bonds for premium of \$235.25. T. D. Kilkenny, city engineer.

WILLIAMS. Colusa Co., Cal.—Dec. 19 is date set to vote bonds of \$45,000 for sewer improvements. C. E. Sloan, Santa Fe Bldg., San Francisco, eng.

SAN FRANCISCO.—Bonds of \$2,000,000 voted to finance construction of fireproof buildings for Relief Home. John Reid, Jr., First Natl Bank Bldg., is city architect.

WILLIAMS. Colusa Co., Cal.—Dec. 19 is date set to vote bonds of \$60,000 for water system improvements. C. E. Sloan, Santa Fe Bldg., San Francisco, engineer.

HANFORD. Kings Co., Cal.—Super-visors call \$20,000 bond issue of Kings River Elementary School District for premium of \$237; proceeds to finance construction of new school.

PASADENA. Cal.—Election to be held Dec. 5, includes bond issue for \$500,000 to secure a system of bus transportation, with storage and repair shops, etc.

SANTA ANA, Orange Co., Cal.—The election to vote on a \$400,000 school bond issue will be held Dec. 9. The issue includes a junior high school bldg. to cost \$250,000 for the Santa Ana high school district, which embraces Santa Ana, Delhi, Diamond, Greenville, Taurine, Hunter-Harview, and Newport Beach, and \$150,000 for grammar schools for Santa Ana city. F. L. Andrews, sec. of board of education.

REDWOOD CITY, San Mateo Co., Cal.—Dec. 19 is date set to vote bonds of \$40,000 to purchase property at Broadway and State Highway and improve for playgrounds.

COLTON, San Bernardino Co., Cal.—City trustees proposed to call election to vote bonds of \$25,000 to construct sewer system.

PASADENA, Cal.—Election to be held Dec. 5, will include two water propositions: to bond the city for \$300,000 to provide a water distributing system, and for \$250,000 to acquire an existing water system.

STOCKTON, San Joaquin Co., Cal.—Election will be held Nov. 28 to vote bonds of \$150,000 to purchase land for park improvements adjacent to Municipal Auditorium site at North Central and East Oak Streets. W. B. Hogan is city engineer, and A. L. Banks, clerk of stockton.

YUBA CITY, Sutter Co., Cal.—Until Dec. 4 bids will be received by supervisors for the purchase of the \$250,000 bond issue of the Yuba City Union High School District, proposed to finance construction of a new high school.

SAN FRANCISCO.—Bonds of \$12,000,000 voted to finance purchase of lands, erection of new schools and additions to standing structures. No definite program has been outlined as yet. John Reid, jr., First Natl. Bank Bldg., is city architect.

CHURCHES

Plans Prepared.

CHURCH Cost, \$—
STOCKTON, San Joaquin Co., Cal. Flora and Hunter Streets.

Church building (Tabernacle type).
Owner—First Church of the Nazarene, Stockton, Calif.

Architect—E. E. List, Delano, Calif.
Present structure and property owned by the church at California and Wyandotte streets, will be sold and proceeds will finance construction of new structure.

Preliminary Plans Approved.

CHURCH Cost, \$100,000
STOCKTON, San Joaquin Co., Cal. Church building.

Owner—First Christian Church, Shirley E. Shaw, pastor.

Architect—Robert H. Orr, Corporation Bldg., Los Angeles.

Building committee consists of: J. W. Carter, chairman; Mrs. C. E. Orvis, Dr. O. E. Vanosne, H. W. Johnson and J. A. Swain, Sr.

Contract Awarded.
CHURCH Cost, \$32,556
SARATOGA, Santa Clara Co., Cal. Concrete church

Owner—The Congregation Church of Saratoga.

Architect—Miss Julia Morgan, Merchants' Exchange Bldg., S. F.
Contractor—H. E. Washburn, Pacific Grove

Contract Awarded

CHURCH Cost, \$15,000
TAFT, Kern Co., Calif. 4th and N 3th Second Streets.

Frame church 50x60 ft.
Owner—Methodist church of Taft.
Contractor—Elmo Carpenter, Taft, Cal.

LOS ANGELES, L. A. Co., Cal.—Clinton Constr. Co., Stock Exchange Bldg., L. A., was low bidder and will probably be awarded the general contract for erecting a new church at West Adams and Figueroa Sts., L. A., for St. John's Episcopal Church. Pierpont and Walter S. Davis, archts. It will be of reinf.

concr. constr., terra cotta facing, tile figs., etc. The gen. contr. will amount to about \$155,000.

TAFT, Kern Co., Cal.—The trustees of the local Methodist Church have authorized a call for bids for first unit of proposed new church. Plans by Rev. O. M. Butterfield, archt. Bldg. will contain Sunday school rm., auditorium, 36x50 ft. seating 400, and have a basement 9 ft. deep for junior class rms. A lease at 4th and North Sts., South Taft has been secured.

FACTORIES & WAREHOUSES

Contract Awarded.

WAREHOUSE Cost, \$10,500
SAN FRANCISCO. Clementina Street bet. Fifth and Sixth Streets

One-story reinforced concrete warehouse (wood trusses).

Owner—Bothin Estate.
Architect—Arthur S. Bugbee, 26 Montgomery St., San Francisco.
Contractor—Adam Arras, 180 Jessie St., San Francisco.

Plans Complete.

LOFT BLDG. Cost—
SAN FRANCISCO, Commercial St. bet. Kearny and Montgomery Sts.

Two-story reinforced concrete stop and go building.

Owner—De Boom Paint Co., 560 Clay St.
Architect—H. A. Minton, Monadnock Building.

Contract Awarded.

FACTORY BLDGS. Cost, \$268,000
LOS ANGELES, E 7th St., near Anderson St.

Two-class A warehouse and factory buildings.

Owner—Peck & Hills, 800 N Spring St. Los Angeles.
Architect—Albert C. Martin, 430 Higgins Bldg., L. A.
Contractor—Davidson Constr. Co., 1445 E 16th St.

The bldgs. have been changed from 2-st. to 4-sto. and basement each; dimensions, 80x100 ft. and 125x350 ft., respectively; reinf. concr. constr., steel sash, metal skylights, steel rolling doors, 4 elevators, automatic sprinkler system.

Contract Awarded.

LOFT BLDG. Cost, \$16,000
SAN FRANCISCO. N Bryant 55 W Second Street.

Two-story concrete loft building.

Owner—L. A. Myers.
Architect—S. L. Hyman, 68 Post St., San Francisco.

Contractor—O. W. Britt, 180 Jessie St., San Francisco.

Plans Being Prepared.

MFG. PLANT Cost, \$1,000,000
EMERYVILLE, Alameda Co., Cal. foot of Powell St. on a 12½ acre tract.

Large fireproof manufacturing plant.
Owner—Westinghouse Mfg. & Elec. Co.
Architect—Eng. Dept. of owner, Pittsburgh, Penn.

Contract Awarded.

LOFT BLDG. Cost, \$16,000
SAN FRANCISCO, Commercial St. bet. Kearny and Montgomery Sts.

Two-story reinforced concrete shop and loft building.

Owner—De Boom Paint Co., 560 Clay St.
Architect—H. A. Minton, Monadnock Building.

Contractor—Jas. Furlong, Monadnock Building.

Plans Being Prepared.

ICE PLANT, ETC. Cost, \$200,000
LOS ANGELES, Los Angeles Co., Cal. Near Jefferson and Hill Sts.

Two and three-story and basement reinforced concrete class A milk bottling and ice plant.

Owner—Consumers Milk Co.
Architect & Engineers—Truesdell, Purinton & Newton, 304 San Fernando Bldg., Los Angeles.

Plans Being Prepared.

TOWNSITE BLDGS. Cost—
GERLAC, Nevada.

Townsite, including reinforced concrete hotel, cottages, auditorium, etc.
Owner—Pacific Portland Cement Co., Pacific Bldg., S. F.
Architect—Weeks & Day, California Insurance Bldg., S. F.

Plans Being Prepared.

FILM LABORATORY Cost, \$100,000
LOS ANGELES, L. A. Co., Cal. McAdams Pl. S. of Santa Monica Blvd.
Two-story reinf. concrete and brick film laboratory.

Owner—Chester Bennett.
Architect and Contractor—De Luxe Building Co., 521 Union League Bldg., Los Angeles.

SALEM, Ore.—Capital Ice and Cold Storage Co., 560 Trade St., Salem, has applied for building permit to erect an addition to its plant at the southwest corner of Church and Trade Sts.

VISALIA, Tulare Co., Cal.—J. Sub Johnson, Gilbert E. Furness and Walter Drabnick have been elected directors of the Visalia Implement Works Inc., formerly known as the Dinuba Agricultural Works. Purpose of the company is to erect a factory and manufacture farm implements.

SANTA CRUZ, Santa Cruz Co., Cal.—Walt and Schilling, of Santa Cruz, have purchased 70-acre site just outside of city limits on which they will erect slaughter house. Approximately \$40,000 will be expended in improvements.
Plans Being Figured—Bids Close Dec. 15, 1922.

LOS ANGELES, Cal.—Cemet Oil Co. will build an oil refinery costing more than \$1,000,000 on East 26th St., near Downey Road. The company includes Adolph Ramish, Michael Gore, J. J. Gans, E. Resenberg and others. The capacity of the plant, which will serve Santa Fe Springs, Huntington Beach, Signal Hill, and Montebello, will be 2500 bbls a day at the start. The company is capitalized at \$600,000.

VISALIA, Tulare Co., Cal.—Visalia Implement Wks., Inc., will build a factory bldg. at once. About \$30,000 stock has been sold to local men and work will start at once. The directors are J. Sub Johnson, Dr. Gilbert E. Turness and Walter Drabnick.

SPOKANE, Wash.—North American Lumber Manufacturing and Export Co., a \$1,000,000 concern, with 200,000,000 ft. of timber available on Vancouver Island, is announced by S. Barstad, of Spokane. Company will construct a shingle mill and dry kiln at tidewater near the outlet of Nitinat lake, a small water inlet on the southwest corner of the island.

SAN DIEGO, Cal.—Shell Oil Co. is seeking a lease of tidelands at San Diego, to erect two 25,000-gal. tanks, bldg. and wharf. The tanks will be one-quarter inch welded plate walls, and the bldgs. will include galv. iron sheet metal warehouse, pump house, garage and office bldg. Facilities will also be put in for pumping and unloading.

SEATTLE, Wash.—Improvements totaling \$115,000 to the plant of the Associated Oil Co., at 1733 Railroad Ave., are planned in addition to \$200,000 in improvements now under way. New work involves the erection of steel oil storage tanks, one 37,000 bbl., 55x30-ft., one 90,000 bbl., 90x30-ft., one 10,000 bbl., 54x25, another 5000 bbl., 40x23; cone, and steel garage building, 336 by 30 ft.; warehouse, type of construction to determine, 220 by 42 ft.; J. McNeill, 207 White Bldg., Seattle, resident eng. for company.

FLATS

Contract Awarded.

FLATS Cost, \$12,000
SAN FRANCISCO, E 8th Ave. 55 N California

Two-story & basement frame (2) flats.
Owner—A. Biniaz, 377 Laidley St.

Architect—Edward E. Young, 251 Kearny Street.

Contractor—A. A. Wesendunk, 1747 Delores St.

To Be Done By Day's Work.
FLATS Cost, \$9000
SAN FRANCISCO, N Fulton 52-6 W 14th Ave.

Two-story & basement frame (2) flats.
Owner—S. C. Weinberg.
Architect—O'Brien Bros., Inc., 240 Montgomery

Contract Awarded.
FLATS Cost, \$12,000
SAN FRANCISCO, S Hill 85 W Valencia.
Two-story & basement frame (4) flats.
Owner—Jas. Landini, 271 Fair Oaks St.
Contractor—E. Wrander, 41 Coleridge Street.

Contract Awarded.
FLATS Cost, \$12,000
OAKLAND, S 41st St, 140 W Webster.
Two-story 16-room frame flats.
Owner—R. Foglietti, 443 43rd St., Okl.

Contract Awarded.
FLATS Cost, \$9500
SAN FRANCISCO W Sweet 75 N Greenwich.
Two-story frame (2) flats.
Owner—G. B. Guetiglah, 2529 Greenwich.
Contractor—Paul De Martini, 2869 Acavita St.

GARAGES

Contract Awarded.
GARAGE BLDG. Cost, \$102,500
LOS ANGELES, S E 7th & Bixel Sts.
Add 3 stories and remodel 3 story class A garage bldg.
Owner—W. W. Paden & W. C. Price for Don Lee, Cadillac agent.
Architect—Chas. M. Hutchinson, 427 Security Bldg., L. A.
Contractor—Robertson & Evans, 405 Grant Bldg., L. A.

HOTELS

Plans Being Prepared.

HOTEL Cost, \$1,000,900.
LOS ANGELES, Los Angeles Co., Cal. No. 813 South Flower St.
 Ten-story and basement Class A hotel building, 50x155 (300 rooms).

Here is really the newest one ever. Out comes a prosperous-looking person from Rutherford, New Jersey. He has a pocket bulging with papers and one of the bundles held together tightly by a stout rubber band is a contract.

It is all duly signed, sealed and delivered with notarial stamp and everything. It mentions a party of the first part and party of the second part strictly according to the legal Hoyle.

This important document sets forth that its holder is the contractor especially signed up where the lights sputter in the loarin' Porties to cross the Alleghenies, the Great Divide and the arid regions of the Western States to perform the simple task of giving the Golden Gate a brand new coat of gilt.—San Francisco Examiner.

AS BARNUM said.

THERE IS a sucker.

BORN EVERY minute.

THE ABOVE is a new one.

TO CLARENCE Sand Pratt, President.

OF THE Pratt Building Material Co.

DOUGLAS 360—"easy to remember."

AND IF it is so easy.

TO SELL things.

LIKE THE City Hall.

AND THE Stockton street tunnel.

THEN SANDY, alias Clarence Pratt.

WILL OFFER for sale.

THE "RED" of the American River.

WHERE SANDY Pratt digs.

THEN WASHES and screens.

HIS FAMOUS American River sand.

AT SACRAMENTO.

MAYBE MR. E. A. Haystack.

MIGHT BUY the concession.

TO MAKE sand-wiches.

OUT OF Pratt's white Marysville sand.

AND DON'T think.

THAT ALL the "boobs."

LIVE IN the country.

FOR SANDY Pratt.

SAW A street faker.

ON MARKET Street, San Francisco.

SELLING A looking glass affair.

THAT WAS supposed.

TO LOOK around the corner.

AND UP into a transom.

THEN DOWN.

INTO A bed room.

FILLED WITH ladies.

TRYING ON bathing suits.

"I THANK you."

I. C. Cornstalk showing his wife, Daissyapure and his beautiful daughter, Mrs. U. R. A. Beanpuler, the ferry building that he bought for \$10,000. Moral—Use Pratt's "sharp" sand and you will not be "cleaned" by these financial sharpshooters.

Owner—Fred Siegel, 419 Chapman Bldg., Los Angeles.
Architect—Alec C. Carlett and Claud Beelman, Union Bank Bldg., Los Angeles.

Plans Being Prepared.

Official Proposals

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on December 18, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Yuba County, between Morrison's Crossing and 1 mile south of Marysville (111-Yub-3-12), about eight and two-tenths (8.2) miles in length, to be paved with asphalt macadam.

Nevada County, between Nevada City and Little Deer (111-Nev-15-C), about eleven and eight-tenths (11.8) miles in length, to be graded.

Contra Costa County, between Hercules and Rodos (111-CC-14-B), about one and eight-tenths (1.8) miles in length, to be graded and paved with Portland cement concrete.

San Benito and Santa Clara Counties, between Hollister and Pacheco Pass Road (V-SBT-SC1-22-B and A), about eight and two-tenths (8.2) miles in length, to be graded and paved with asphalt macadam.

Madera County, between Westerly Boundary and Califa (VI-Mad-32-A), about fourteen and two-tenths (14.2) miles in length, to be graded and paved with asphalt macadam.

Ventura County, between a point 2 1/4 miles southeasterly from Huemul Road and Rindge Ranch (VII-Ven-10-A), about seven and four-tenths (7.4) miles in length, to be graded.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANFRED, Secretary,
California Highway Commission.

AUSTIN E. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.

Dated November 20, 1922.

NOTICE TO CONTRACTORS

(Roosevelt School Heating System)

Notice is hereby given that the undersigned trustees of the Burlingame Grammar School District, San Mateo County, California, will receive sealed bids at the Howard Avenue School, Burlingame, for the installation of a low pressure steam heating plant in the Roosevelt School Building, located in said district, up to the hour of eight (8) o'clock p. m., on Monday, the 4th day of December, 1922, at which said

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

time and place said bids will be publicly opened.

All bids must be addressed to Mrs. J. M. Vickerson, clerk of the Board, and must be accompanied by a certified check made payable to the order of aforesaid clerk in the amount equal to at least ten (10) per cent of the largest bid so submitted, and no proposal will be considered by said Board unless accompanied by such check.

The said check to be forfeited to said Burlingame Grammar School District as ascertained and liquidated damages in case the successful bidder fails or refuses to enter into a contract to perform the work, and give the bonds required, within ten days after the date of the award.

The plans and specifications for said work may be obtained from E. L. Norberg, architect, 407 Occidental Avenue, Burlingame.

The said Board of Trustees expressly reserves the right to reject any and all bids.

Done by the order of the Board of Trustees of the Burlingame Grammar School District, County of San Mateo, State of California.

F. H. THIRALL, Chairman.

RUFUS H. KIMBALL, Trustee.

MRS. J. M. VICKERSON,

Clerk of the Board of Trustees.

BIDS WANTED FOR REMODELING POST OFFICE

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., November 13, 1922. SEALED PROPOSALS will be opened in this office at 3 p. m., Dec. 5, 1922, for remodeling in basement, etc., of the United States Post Office, Albuquerque, N. M. Drawings and specifications may be obtained from the Custodian at the building or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

PROPOSAL FOR BIDS

(Indian School Addition)

Sealed proposals plainly marked on the outside of the sealed envelope "Proposals for Stone Mess Hall, Carson Indian School, Stewart, Nevada," and addressed to the Superintendent of the Indian School, Stewart, Nevada, will be received at

the school office until 2:00 p. m., December 4, 1922, for the erection of the stone portion of the mess hall. Drawings and specifications may be had by applying at the office of the school.

Each bid must be accompanied by a certified check or draft upon some U. S. Depository or solvent national bank, made payable to the order of the Commissioner of Indian Affairs, for at least Five Per Cent of the amount of the proposal.

For further and full information, apply to

FREDERIC SNYDER,
Supt. Carson Indian School,
Stewart, Nevada.

NOTICE TO CONTRACTORS

(Santa Barbara High School)

The High School Board of the Santa Barbara High School District, County of Santa Barbara, Cal., will receive sealed proposals up to 3 o'clock p. m., on the 18th day of December, 1922, at the office of the High School Board, 1235 Chapala Street, Santa Barbara, Cal., at which time and place said bids will be opened and read in public for furnishing the required labor, material and apparatus necessary for the erection and completion of the New Santa Barbara High School building, Santa Barbara, Cal., in accordance with plans and specifications prepared by Roland F. Sauter and E. Keith Lockard, architect, and W. H. Weeks, architect, and on file in the offices of Roland F. Sauter and E. Keith Lockard, 338 San Marcos building, Santa Barbara, Cal., and W. H. Weeks, 369 Pine Street, San Francisco, Cal.

Proposals will be received on the general construction with its alternate proposals, together with a separate bid on the heating and ventilating.

A cashier's or certified check or bidders bond in the amount of not less than five per cent (5 per cent) of the amount of the bid shall accompany each proposal drawn to the order of the Santa Barbara High School Board. It is a guarantee that the bidder will, within five (5) days after being informed of the acceptance of his bid, enter into a contract with said board in accordance with the said bid and shall furnish the surety bonds as required by the specifications. Said check or bond to be forfeited to the said school board should the bidder fail to execute contract and furnish bond as above mentioned.

All bids must be made out of forms furnished by the architects, and enclosed in a sealed envelope addressed to E. Carlotta Dengate, clerk of the High School Board, Santa Barbara, Cal., and endorsed: "Proposals for High School Building." Plans and specifications for all of the above work may be seen at the office of the architects; and a deposit of twenty-five (\$25.00) dollars must be made with each set of plans taken away from the offices of the architects, which amount will be repaid to the contractor upon returning the plans on or before the date set for opening of proposals.

The said board reserves the right to reject any and all bids and to waive any informality in any bid received.

By order of the High School Board of the Santa Barbara High School district, county of Santa Barbara, Cal.,

E. CARLOTTA DENGATE, Clerk.

November 16, 1922.

BIDS WANTED FOR GYMNASIUM BUILDING

NOTICE TO BIDDERS AND CONTRACTORS

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Gilroy High School District, Santa Clara County, State of Calif., at 2:30 p. m., on the 15th day of December, 1922, in the pres-

San Francisco, Cal.

Telephone Douglas 8-4-9-3

ent high school building of said school district in the County of Santa Clara, State of California, for the erection and completion of a gymnasium building in said school district, for the installation of a heating system therein—for the installation of a plumbing system therein—and for the installation of a central heating plant for the above named district, all in accordance with plans and specifications made for the same by Wyckoff & White, the authorized architects, employed by the Board. Proposals will be received separately with alternate propositions on a general contract, plumbing and heating, including everything specified and shown.

Plans and specifications can be seen at the office of Wyckoff & White, Architects, Growers' Bank Bldg., San Jose, California.

A deposit of Twenty Dollars (\$20.00) cash will be required on all plans submitted out as a guarantee of good faith.

All proposals to be made out on blank forms, furnished by the architects, and must be accompanied by a check for not less than five per centum of the amount of the bid, made payable to E. E. Brownell, Clerk of the Board, and certified to by some responsible banking house. This check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten (10) days to sign the contract and furnish good and sufficient bonds satisfactory to the Trustees, and as required by law.

Bids will be received up to and including Dec. 15, 1922, at 2:30 p. m., and must be addressed to E. E. Brownell, Clerk of the Board of Trustees of Gilroy High School Dist., Gilroy, California.

The Board reserves the right to reject any or all bids.

E. E. BROWNELL, Clerk of the Board of Trustees.

Date of first publication, November 17, 1922.

Date of last publication, December 1, 1922.

BIDS WANTED FOR P. O. ALTERATIONS

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., November 14, 1922.

SEALED PROPOSALS will be received and opened in this office at 3 p. m., Dec. 11, 1922, for furnishing the materials and labor required for changes at Side Entrance at the U. S. Post Office, Oakland, Cal. Drawings and specifications may be obtained from the Custodian, or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

BIDS WANTED FOR OPERA CHAIRS

NOTICE TO CONTRACTORS

Notice is hereby given that sealed bids will be received at the Los Gatos Grammar School and opened by the Board of Trustees of Los Gatos Grammar School, up to 8 o'clock P. M., on December 5, 1922, for opera chairs.

The Board reserves the right to reject any all bids.

LOS GATOS GRAMMAR SCHOOL DIST. L. C. CORNELL, Clerk.

Dated at Los Gatos, this 7th day of November, 1922.

BIDS WANTED FOR P. O. ALTERATIONS

NOTICE TO CONTRACTORS

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., November 14, 1922.

SEALED PROPOSALS will be received and opened in this office at 3 p. m., Dec. 11, 1922, for furnishing the materials and labor required for changes at Side Entrance at the U. S. Post Office, Oakland, Cal. Drawings and specifications may be obtained from the Custodian, or at this office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 545 Forum Building, Sacramento, Cal., until 2 o'clock p. m., on December 11, 1922, at which time they will be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highway as follows:

Siskiyou County, between Granada and Yreka (11-Sis-3-B), about eight and five-tenths (8.5) miles in length, to be graded and paved with either Portland cement concrete, asphalt concrete or asphalt macadam.

Siskiyou County, between 2 miles south of Thurlock and Oregon State Line (11-Sis-3-C), about nine and eight-tenths (9.8) miles in length, to be graded.

Siskiyou County, between Roseville and Lincoln (11-11a-3-A), about five (5.0) miles in length, to be surfaced with asphalt concrete.

Glenn County, between Willows and a point three miles south of Glenn (11-Gle-45-A and B), about eleven and nine-tenths (11.9) miles in length, to be graded and surfaced with gravel.

Glenn County, over the Northwestern Pacific Railroad near Lytton (IV-Son-1-A), a bridge consisting of three 32 foot reinforced concrete girder spans with the necessary bents, abutments and wing walls.

Santa Clara County, between 5 miles east of Gilroy and San Felipe (IV-SC1-22-A), about four and five-tenths (4.5) miles in length, to be graded and surfaced with Gravel.

Fresno County, between Parkfield Junction and Coalinga (VI-Fre-10-C), about eight and nine-tenths (8.9) miles in length, to be graded.

Plans may be seen and forms of proposal, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is located.

The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form and proposal for the directions as to bidding, quantities of work to be done, etc.

The Department of Public Works, acting by and through the California Highway Commission, reserves the right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON, CHIEF CLERK, WHITMORE, GEO. C. MANSFIELD, D. AUSTIN B. FLETCHER, State Highway Engineer.

R. A. MURRAY, Secretary. Dated November 13, 1922.

CALL FOR BIDS FOR CONSTRUCTION OF NORTH SIDE CANAL FOR MERCED IRRIGATION DIST.

Public notice is hereby given that sealed proposals for excavation and earthwork construction of the North Side Canal, and other of the two divisions, will be received by the Board of Directors of Merced Irrigation District, at its office in the Bancroft building, in the City of Merced, State of California, at 10 o'clock a. m., on Tuesday, December 12, 1922, at which time and place all bids so received will be opened in public at the regular meeting of said board.

The board will let said work either in portions or as a whole, to the lowest responsible bidder, but said board reserves the right to reject any or all bids and to construct the work under their own superintendence.

The work for the doing of which proposals are hereby invited is the excavation and earthwork construction of said canal, or one or more divisions thereof, except certain sections particularly described in the specifications hereinafter referred to, which said canal is divided into two divisions as follows, to-wit:

Division No. 1, extending from a point about one-half mile west of the town of Merced Falls, in Merced County, California, in a westerly direction to a point in the North line of Section 5, T. 5 S. R. 14 E., M. D. 15, S. 30, and about 1 1/2 miles west of the northeast corner of said Section 5.

Division No. 2, comprising all the canal system pertaining to and lying within the North Side Unit of the Merced Irrigation District, which North Side Unit is situated near the town of Snelling, in the Northern part of Merced County, California.

All bank slopes are to be 1 1/2 horizontal to 1 vertical and the depths of the excavation are to be determined from the bottom of the canal to the level of the top of the embankments.

Said canal and each division thereof are more particularly described in the specifications therefor, and the route and profile of the highway are delineated upon the plans therefor, which plans and specifications may be seen at the office of said board. Copies of said plans and specifications may be obtained at the office of said board on payment of \$5.00 therefor for those of each division.

Said excavation and earthwork construction will be continuous, except for railroad crossings and stream crossings where siphons are to be constructed and certain sections specifically shown in said plans and specifications.

Any bidder to whom a contract for said work or any portion thereof may be awarded must furnish bonds provided by law, to wit: a bond in the sum of at least one-half of the contract price to secure the payment of claims of material, mechanics and laborers employed upon said work, and a bond in the sum of at least 25 per cent of the contract price, conditioned for the faithful performance of the contract.

Each bid must be accompanied with cash of a cashier's or certified check or a bond for an amount equal to not less than 5 per cent of the total amount of the bid as a guarantee if the bid is accepted the bidder will, within ten days after the acceptance, enter into a contract with the district in the form attached to said specifications and furnish to the district a bond in the sum of at least 25 per cent of the contract price, conditioned for the faithful performance of the contract.

All proposals must be in forms, which will be furnished by the district at the office of said board, and must be in sealed envelopes, addressed to the Board of Directors of Merced Irrigation District.

Dated at Merced, California, November 17, 1922.

By order of said Board of Directors. W. D. WAGNER, Secretary.

SEALED BIDS, indorsed "Proposals for Rip-rapping, Bay Area, Calif.; Specification No. 4700 will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a. m., December 20, 1922, and then there publicly opened, for furnishing and depositing approximately 375,000 tons of hard stone riprap to form a breakwater along Dike No. 12, Navy Yard, Mare Island, Calif. Drawing and Specification No. 4700 may be obtained on application to the Engineer in Charge, Assistant, Navy Yard, Calif. Deposit of \$10 payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawing and specification.

L. E. GREGORY, Chief of Bureau, Nov. 10, 1922.

BIDS WANTED FOR STONE RIPRAP

Engineering News Section

BRIDGES, DAMS & HARBOR WORK

SANTA ROSA, Sonoma Co., Cal.—County Surv. R. Press has preparing spec. for bridge over Sonoma creek in Nordwell Ave., near Boyes Springs.

SEATTLE, Wash.—Until December 8, 10 A. M., bids will be received by the Board of Public Works to construct West Spokane St. bridge; involving the fabrication and erection of the superstructure, machinery, and electrical equipment for the big bascule bridge and two side spans over the West Waterway at West Spokane St. The structure will comprise a double-basculer bascule span approximately 283 ft. center to center of tinnous as per plans, two approach spans each about 140 ft. long and a steel girder span about 136 ft. long. The width of the bascule span will be 45 ft. center to center of trusses and of the side span 52 ft. center to center of trusses, and of the girder span about 40 ft. The bids are to be offered on several plans as follows:

Plan No. 1 calls for the furnishing of materials and erection of bridge ready to operate, at estimated cost of the work is \$140,000.

Plan No. 2 calls for the furnishing of all material delivered on the job at an estimated cost of \$270,000.

Plan No. 3 calls for the furnishing of electrical equipment only at an estimated cost of \$22,000.

Plan No. 4 calls for the work of erecting what is furnished under plans Nos. 2 and 3, at an estimated cost of \$144,000.

CALIFORNIA—Following bids received November 20 by the State Highway Commission to construct a reinforced concrete bridge, consisting of 4 30-ft. reinforced concrete girder spans with necessary bents, abutments and wing walls, over Newhall Creek at Newhall, Los Angeles county, involv. 308 cu. yds. Class A Portland cement concrete in place; 12 reinforced concrete piles in place; 44 Douglas fir piles in place; commission to furnish reinforcing steel in straight bars cut to length and Portland cement:

W. M. Ledbetter, L. A. \$3545.60
Frank H. Green, L. A. 11,111.00
The Wheeler Co., L. A. 11,495.20
Mercer-Ann Bridge Co., L. A. 11,759.38
A. H. de Waard, L. A. 13,031.60
Engineer's estimate \$9216.

SAN ANDREAS, Calaveras Co., Cal.—Supervisors petitioned to construct rein. conc. bridge over O'Neils creek on San Andreas-Calaveras-Esmeralda-Fricot city road. Taken under advisement. W. S. Coulter, county surv.

RIVERSIDE, Cal.—Until 10 a. m., Dec. 4, bids will be received by county supervisors for building a wood trestle bridge 323 ft. long over the Coachella Valley storm water channel on Jackson St., Indio, to be known as Sparey bridge. Plans may be obtained from A. C. Fulmor, co. surv., upon deposit of \$5. Cert. check \$5. D. G. Clayton, clerk.

RENO, Nevada.—City Council will accept ordinance authorizing const. of \$30,000 bridge over Truckee river at Lake St.; total cost, \$60,000; property owners will be assessed \$30,000. Harry Christen, city eng.

SANTA ROSA, Sonoma Co., Cal.—Until Dec. 13, 12 m., bids will be received by W. W. Felt, Jr., county clerk, to const. bridge over Dry Creek on Thompson ranch, involv. 48 cu. yds. class B rein. conc. 6 in. trans structural steel and castings; 23,000 F. B. M. lumber; 8 ft. W. piles. Est. cost \$5625 E. A. Feughm, county surv.

LOS ANGELES, Cal.—W. M. Ledbetter & Co., Pacific Elec. Bldg., submitted low bid to County Supervisors at \$42,300 to construct reinforced concrete girder type bridge on state highway over mouth of San Gabriel river at Alamitos bay. The bridge will consist of ten 54-ft. spans and one 22-ft. span on concrete abutments and concrete piles; 24 ft. roadway with ornamental precast concrete rail and 4 light posts. Other bids were: S. M. Kerns, \$42,600; The Wheeler Co., \$43,672; Mercereau Bridge & Constr. Co., \$45,145; Frank H. Greene, \$49,320.

Frank H. Greene, 1328 S. Western Ave., submitted low bid at \$17,700 to const. rein. conc. girder type bridge on state highway over Topanga river bridge 4 miles north of Santa Monica. The bridge will consist of four 54-ft. spans with conc. piers and abutments on wooden piles; 24-ft. roadway with ornamental precast concrete rail and light posts. Other bids were: The Wheeler Co., \$46,000; W. M. Ledbetter & Co., \$47,600; S. M. Kerns, \$48,000; Mercereau Bridge & Constr. Co., \$48,890.

YUMA, Ariz.—Southern Pacific Ry. plans construction of a \$2,000,000 bridge across the Colorado river at Yuma. The work will include rearrangement of yards at that point. The structure will be located between two buttes known as Prison Hill and Indian School hill. A rock cut will be necessary at both ends, and a viaduct and trestle on the California side spanning the state highway and the Yuma project canal. The main portion of the bridge will probably consist of a single span, 500 ft. long. Chief Engr. G. W. Beschke is in Yuma arranging for right of way and transfer of property. Plans have been prepared and construction will begin as soon as legal arrangements have been completed.

VISALIA, Tulare Co., Cal.—Nate Lovelace, Visalia, at \$4202.98 awarded contract by supervisors to construct Bridge No. 65, county, to furnish materials costing \$3319.79. Other bids: Frank C. Twaddle, Tulare, \$5600.93; Edgar Noble, Visalia, \$2428.56; C. T. Purser and Geo. H. Peterson, Woodlake \$6543.18; R. A. Carson Co., Modesto, \$3816.75; C. R. Gurdy, Porterville, \$4732.95. Engr. est. for labor \$4568.17.

C. K. Gurdy, Porterville, at \$6181.56 awarded contract under Prop. 2, without haul, for bridge No. 63, Salt Creek. Other bids: Nate Lovelace, \$7456.54; Brown and Taylor, Hammond, Calif., \$7392.72; Frank C. Twaddle, Tulare, \$9875.22. Engr. est. labor \$3199.72. Edgar Noble, Visalia, only bidder at \$4737.80 to furnish labor for Bridge No. 60, St. John "Touts", bid rejected. Engr. est. labor \$3583.34.

LOS ANGELES, Cal.—Union Machine Co., 324 Fremont St., San Francisco, submitted low bid to county supervisors at \$11,000 for two sluice gates and operating machinery for the San Dimas dam near San Dimas, and \$2650 for one sluice gate and operating machinery for Live Oak dam near La Verne. Other bids were: Llewellyn Iron Wks., \$11,248; (2) \$1150; Keystone Iron & Steel Co., (1) \$14,248 (2) \$3088.

LUPTON, Ariz.—Midland Bridge Co., Kansas City, Mo., awarded contract at \$5718 to erect steel bridge across Arroyo at station 1225 near Lupton on Holbrook—Lupton highway, involv. 225 cu. yds. excavation at \$5 yd.; 42 cu. yds. appropriate water for irrigation, concrete at \$12 yd.; 1900 lbs. reinforcing steel in place at 3c lb.; steel superstructure in place \$2100; wooden deck in place (approx. 10,000 F. B. M.) at \$750. An alternate was submitted for steel superstructure f. o. b. Lupton; (bridge to be erected by station) at \$1600.

IRRIGATION PROJECTS

SALEM, Ore.—Leon Brown and Jos. A. Lay, Baker, Ore., have filed application with State Eng. Percy Cupper to appropriate water for irrigation district to const. approx. \$14,600. Construction will consist of Big Park reservoir in channel of Beagle creek, tributary to Powder river, to store 1200 cu. ft. water; stone and earth sluice dam, ripped with stone 50-ft. high, 250 ft. long at top and 40 ft. on bottom in addition to a considerable amount of 12-in. pipe.

ROSEVILLE, Placer Co., Cal.—Petition filed with county supervisors seeking formation of Roseville Irrigation District, comprising 25,400 acres west and north of Roseville has been forwarded to State Engineer for approval. On approval election will be called to vote bonds to finance project which will cost approx. \$47,000 an acre.

CROWS LANDING, Stanislaus Co., Cal.—Chas. T. Tulloch, Newman, Calif., at approx. \$11,000 awarded contract by reclamation district recently organized by San Joaquin river farmers, to construct levees to reclaim about 1700 ac. of land. Involves removal of approx. 64,000 cu. yds. earth at approx. \$1.17 yd.

RENO, Nev.—Leon H. Taylor, Irrigation Engineer, Reno, has prepared plans for an irrigation project comprising 40,000 acres in Carson River valley for the Carson River Irrigation District. The project embraces delivery of water to 25,000 acres under partial cultivation and reclamation of 15,000 acres of barren lands. Estimated cost, \$500,000, including construction of storage reservoirs.

BUCKEYE, Ariz.—Charles Kirby Fox, Engineer, 435 I. W. Hellman Bldg., Los Angeles, has completed plans and will begin work shortly on restoring an irrigation system for the South Side Irrigation District. Bonds of \$130,000 for improving the 2000 acre district have been sold; \$25,000 will be expended on the district work which will include 8000 yds. of excavation, 100 yds. concrete motors and 24 miles electric transmission line.

MERCED, Merced Co., Cal.—Until Dec. 12, 11 a. m., bids will be received by W. D. Wagner, secretary Merced Irrigation District, for excavation of earthwork construction of North Side Canal, or either of its two divisions. Cert. check \$5 required with each bid. Spec. may be had from secretary on deposit of \$5. See call for bids under official proposal section in this issue.

SALEM, Ore.—Almond A. White, Alameda, Ore., has application with State Eng. Percy Cupper for permit to const. a reservoir for the storage of 25,000 ac. ft. of water from the South Santiam river; same applicant seeks permit to divert 300 sec. ft. of water from above reservoir to generate 1923 h. p. for running electric locomotives for logging purposes. Construct includes a timber crusher, rock fill dam, timber headgate and a ditch about one mile long; height of temporary dam 18 ft.; length at top 350 ft.; ditch at bottom 476 ft. Total cost, \$247,161.

SALEM, Ore.—Victor H. Reinbeck, 502 Spaulding Bldg., Portland, Ore., representing the Duffey Orchards Co., has filed application with State Eng. Cupper to const. Dead Horse Reservoir, storing 1,500-ac. ft. of water from Eight Mile creek, Tamarack creek and Dead Horse Canyon dam to be of earth fill, protected with rock paving, on solid rock foundation with outlet of 20-in. c. i. pipe. Surface inundated will be 60 acres. Construction to be started Dec. 1. Estimated cost, \$145,000. Applicant also filed with Reinbeck to divert 25 sec. ft. of water from above reservoir and 2 streams to irrigate 1800 acres of land, timber and rock with **wasteway**; timber headgate and a canal to be constructed.

LIGHTING SYSTEMS

PETALUMA, Sonoma Co., Cal.—H. C. Reid & Co., 115 Mission St., San Francisco, at \$4850 awarded contract by council to install electrolights in Main and Third Sts. Other bids: Cornish & Evans, \$4345; H. Weber, \$5710; Clark & Van Ples, Santa Rosa, \$6240.

BERKELEY, Alameda Co., Cal.—Until Dec. 1, R. A. m., bids will be received by E. M. Damm, city clerk, to install electric lighting system consisting of 131 electrolights, transformers & tops, complete with underground conduits in University Avenue, between Grove and 2nd Sts. and in San Pablo Ave., from south city limits to north city limits. 1911 Act. Cert. check 10% payable to city required. Spec. on file in office of clerk, C. L. Higgins, city engineer.

GLENDALE, Cal.—Until 7 p. m., Dec. 1, bids will be rec. by City Clerk Van Vleet to install ornamental lighting system on labels and other streets, involving 64 1-light Marbeite standards.

SANTA BARBARA, Cal.—County supervisor has put the matter before the board, soon in the action of lighting district for Carpinteria. Already sufficient signatures have been secured.

REDLANDS, Cal.—Until 2 p. m., Dec. 6, bids will be rec. by city trustees to const. ornamental lighting system in West State St., consisting of nine posts, with pipe wire, etc., and in Kendall St., consisting of ten posts, complete. C. P. Hook, city clerk.

BAKERSFIELD, Kern Co., Cal.—Redick Mercantile Co. requests city council to select type of electrolight to install in Chester Ave., and 15th Sts., fronting its property; the company to finance the work and the city to pay the lighting. The council is considering the installation of a modern system throughout the business and residence district, the petition was taken under advisement. W. D. Clark, city engineer.

MACHINERY

REDFLY, Fresno Co., Cal.—Until Dec. 5, 8 p. m., bids will be received by Haze Trembley, city clerk, for fuel and del. one Fordson Tractor, with suitable hitch and road grader with 6 or 7 ft. blade. Spec. will be furnished on request.

SAN JOSE, Santa Clara Co., Cal.—Austin-Western Rd. Mach. Co., 26 Fremont St., San Francisco, at \$13,000 awarded contract by city supervisors for fuel and del. one Austin Mammoth Junior Grader, Edw. R. Bacon Co., only bidder at \$1159.50; this bid not comply with specifications.

LOS ANGELES, Cal.—Crane Co., 319 E 3rd St., awarded contract by public service comm. at \$1356 for 30 tons pig lead; bid specified prompt shipment and terms not. Other bids were: Busch Pipe & Supply Co., \$1413; L. H. Howe & Metal Co., \$1365; N. O. Nelson Mfg. Co., \$4452.

LOS ANGELES, Cal.—Baker Iron Works, 922 N. Broadway, awarded contract for riveted sheet steel pipe and fittings, Invol. 9430 ft. 30-in. pipe at \$13.39 per ft.; bends at 3c per lb., additional to price for straight pipe; reducers at 3c per lb. additional; comm. delivery 6 to 8 weeks; complete in 30 days.

LOS ANGELES, Cal.—Mark-Lally Co., 2451 E 37th St. awarded contract by public service comm. for galv. wrought steel pipe, Invol. (1) 25,000 ft. 1/2-in. pipe at \$4.82 per C. ft.; (2) 10,000 ft. 1/2-in. pipe at \$5.50 per C. ft.; (3) 2000 ft. 1/2-in. pipe at \$13.75 per C. ft.; (4) 500 ft. 4-in. pipe at \$57.71 per C. ft., delivery 30 to 60 days from mill; terms net cash. Other bids were: (1) True Co., \$48.82; (2) \$16.30; (3) —; (4) \$70; immediate delivery from stock. Pacific Pipe & Supply Co., —; (1) \$6.35; (2) \$10.85; (3) \$17.50; (4) \$73.75; immediate delivery on first item, 3 weeks on 4th item.

SAN JOSE, Santa Clara Co., Cal.—Until Dec. 4, 11 a. m., bids will be received by Henry A. Hoyer, county engineer, for fur. one 8-ft. model "caterpillar" land leveller, width 8-ft., height 2-ft. 6-in., front to back 3-ft. 3-in. Material highest grade 1/4-in. pinow steel, axel diam. 2 3/16; power required (drawbar) 20 to actual h. p. Further information may be had from county clerk, J. J. Ryder, county surveyor.

TUCSON, Ariz.—American La France Fire Engine Co. awarded contract at \$12,000 to furnish two motor pumpers with hook and ladders, and one latest model aerial ladder. The Pacific Mfg. Co. was awarded contract for fire hose.

LOS ANGELES, Cal.—Mark Lally Co., 2451 E. 37th St., submitted low bid to public service commission for galvan. wrought steel pipe Invol. 20,000 ft. 1/2-in. at \$4.62 per C. ft.; (2) 10,000 ft. 3/4-in. at \$5.59 per C. ft.; (3) 5000 ft. 1-in. at \$7.95 per C. ft.; (4) 5000 ft. 1 1/2-in. at \$10.76 per C. ft.; (5) 5000 ft. 2-in. at \$12.85 per C. ft.; (6) 1000 ft. 3-in. at \$35.76 per C. ft.; (7) 500 ft. 4-in. at \$54.05 per C. ft. Shipment from Pittsburg, Mo., and Jan. 1, 1923. Other bids were: Pacific Pipe & Supply Co., (1) \$6.55; (2) \$7.65; (3) \$10.85; (4) \$17.50; (5) \$21.27; (6) \$18.75; (7) \$73.75; immediate shipment 1. o. h. Los Angeles Shoring Co., \$10.56; (2) \$5.06; (3) \$6.16; (4) \$8.76; (5) \$14.17; (6) \$19.07; (7) \$39.40; (7) \$9.40; delivery 4 to 6 weeks. L. o. h. Youngstown, O., Crane Co., (1) \$4.81; (2) \$5.87; (3) \$8.36; (4) \$13.52; (5) \$19.20; (6) \$37.63; (7) \$56.65. Thos. Haverty Co. — (1) \$4.98; (2) \$6.63; (3) \$8.24; (4) \$13.95; (5) \$18.77; (6) \$38.80; (7) \$58.55; delivery in approx. 60 days.

PORTLAND, Ore.—Until Dec. 29, 2 P. M., bids will be received by S. C. Pier, City Purchasing Agent, for construction of incinerator. Certified check for 10% payable to City required. Specifications on file in Bureau of Purchases, 208 City Hall.

SEATTLE, Wash.—Until Dec. 2, 11 a. m., under Reg. SC-4096, bids will be received by Alaskan Engineering Commission for fur. Pier, Seattle, 24 dipper teeth points, No. 13, for the Melroe No. 60 shoveler, for 2 1/2 yd. dipper. Alternative bids may also be submitted covering del. f. o. b. cars, contractor's point of shipment.

COLTON, San Bernardino Co., Cal.—City Electrician Felger recommends to city trustees purchase of three 200 h. p. transformers to replace 3 of the six 100 h. p. transformers now in use. Recommendation made due to increased number of consumers.

SAN FRANCISCO—City Eng. M. M. O'Shaughnessy has completed spec. for combined motor driven street flushing and sprinkling unit, mounted on a motor driven truck, cost \$9500. Informal bids will probably be taken for furnishing the equipment.

SEATTLE, Wash.—Until Dec. 7, 10 a. m., bids will be received by W. D. Freeman, city purchasing agent, for fur. f. o. b. Seattle 1653 metal street signs. Submit sample with bid.

FAIR OAKS, Sacramento Co., Cal.—Western Pipe & Steel Co., 414 Market St., San Francisco, at approx. \$19,215 awarded contract by Fair Oaks Irrigation District for fur. and del. riveted steel pipe, as follows: 14,000 ft. 14-in. 4300 ft. 12-in. 4200 ft. 10-in. 1190 ft. 9-in. 9100 ft. 8-in. 1000 ft. 6-in. 3800 ft. 4-in. and 4300 ft. 4-in. Stephen E. Kleffer, engineer, 57 Post St., San Francisco.

SAN FRANCISCO—City Engineering Department is completing spec. and bids will be asked in about sixty days to construct the pipe section of the Hetch Hetchy Aqueduct between Tryon and Crystal Springs. Project involves the construction of a pipe line 19 miles in length, 60-in. in dia., either riveted steel or welded and 2050 ft. of submerged pipe at headwater crossing, pumping plant to pump water to Crystal Springs Reservoir. Total cost \$5,000,000. M. M. O'Shaughnessy is city engineer and N. A. Eckart, chief assistant engineer for the Hetch Hetchy project.

RAILROADS

SANTA BARBARA COUNTY, California—Pacific Southwestern Railroad Co. authorized by Railroad Commission to sell at not less than par \$100,000 of its common capital stock and to use the proceeds for obtaining right of way and to construct the railroad of standard gauge from Lompoc, on the line of the Southern Pacific in Santa Barbara county to White Hills, a distance of four miles.

PHOENIX, Ariz.—R. E. McKee Construction Co., El Paso, Texas, awarded contract at cost \$850,000 to erect the new Union Station for the Santa Fe & Arizona Eastern Ry. Companies, has been started and construction will be supervised by E. C. Torrey and G. W. Wynann, of Los Angeles. The structure will be part 2-sto. and 1-sto.; 475 ft. long and large enough to accommodate six tracks. It will be Mission style, with pebble walls and red tile roof.

KLAMATH FALLS, Ore.—Netherton, Bruce, Eckbach Co., American Bank Bldg., Seattle, Wn., at approx. \$175,000 awarded contract to construct 12 miles of Strahorn Railroad, right of way and mainline near Hildebrand to Sprague River.

FIRE EQUIPMENT

SANGER, Fresno Co., Cal.—City trustees will call election to vote bonds of \$90,000 to finance erection of fire house and purchase of equipment.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

FRESNO, Fresno Co., Cal.—Formation of a drain sewage district comprising twenty city blocks and involving considerably more than \$1,000,000 will be sponsored by the Department of Public Works. Project will include the laying of 21-in. drain pipes in Stanislaus St. from the alley bet L and M Sts. to H St. and thence to Merced St., where it will connect with the present outfall system. The capacity of the proposed system will increase the present maximum capacity about 20 times. Wm Stranahan, city eng.

SALEM, Ore.—Metzger and Johnson, Roseburg, Ore., at \$38,334 awarded a contract by State Highway Comm. to const. Unit 2, Service Creek-Valdes Ranch section of the John Day Highway in Wheeler county, 12.1 mi. crushed gravel surfacing. Rajotte-Winters, Inc., Spokane, Wn., at \$84810 submitted low bid for Oregon City-Cannonville section of Pacific Highway in Clackamas county, 34 mi. of grading. Taken under advisement.

EL CENTRO, Cal.—Until 7:30 Dec. 13, separate bids will be received by city trustees for the following improvement work:

Res. of Inten. No. 230, Orange, 3rd Commercial and 4th Sts., involve 154,700 sq. ft. 2-in. asphalt, conc. wearing surface on 5-in. conc. base; 112,500 sq. ft. 5-in. conc. gutter, 1300 ft. curb, 3500 sq. ft. 5-in. conc. gutter, 105 3/4-in., 13 1-in., and five 4-in. water service connections, 101 ft. 4-in. and 500 ft. 6-in. cast iron water main, four 5-in. culverts, 2 catchbasins.

Res. of Inten. No. 241, 6th, 6th, El Centro and Euclid Sts., involve 125,600 sq. ft. 5-in. asphalt, conc. 5100 ft. curb, 2 3/4-in. gutter, 1500 ft. 5-in. water service connections, 50 ft. 4-in. and 542 ft. 10-in. water mains, eight 6-in. Keystone fire hydrants.

Res. of Inten. No. 242, Olive and Beale Sts., involve 169,300 sq. ft. 5-in. asphalt, conc. 9100 ft. curb, 141 3/4-in. water service connections.

Res. of Inten. No. 244, Holt, Holt, Hamilton, Vine, Weinstock and 1st Sts., involve 285,000 sq. ft. 5-in. asphalt, conc. 10,900 ft. curb, 277 3/4-in. water service connections, 636 ft. 4-in. cast iron water mains, 8 type 600 Mariette lighting standards.

Res. of Inten. No. 245, Lenox Ave., involving 22,600 sq. ft. 5-in. asphalt, conc. 2200 ft. curb, 24 3/4-in. water service connections, 623 ft. 4-in. cast iron water service connections, 4350 sq. ft. walk.

Total quantities involved are: 154,700 sq. ft. 2-in. asphalt, conc. wearing surface on 5-in. conc. base, 731,600 sq. ft. 5-in. asphalt, conc. 25,600 ft. curb, 3500 sq. ft. 5-in. gutter, 598 3/4-in., 276 1-in., seven 4-in. water service connections, 1978 ft. 4-in., 670 ft. 6-in. and 5452 ft. 10-in. cast iron water mains, 4550 sq. ft. culverts, 8 lighting standards, four 5-in. culverts, and 2 catch basins.

Plans and spec. are on file at the office of City Engr. F. C. Dyer, from whom information, etc. may be obtained.

LOS ANGELES, Cal.—City Attorney instructed by city council to prepare ordinance for sewer pumping plant to be installed in and serve the Angeles Mesa district.

POMONA, Cal.—Allen P. Nichols, 247 Investment Bldg., Third and Thomas Sts., owner of 125 acres in the San Jose Hills west of Ganesha Park, will subdivide the property and is having plans prepared for improvements. The 125-acre tract is divided into 80 building lots. Roads will be graded 20 ft. with 3-ft. gutters, with water pipes. A reservoir and pumping plant will be constructed. It is planned to care for sewerage by modern septic tanks and a pipe sewer system.

OAKLAND, Cal.—City Council, E. K. Sturges, clerk, declares intention to improve E-27th St. from Peralta Ave. northerly; grading, const. conc. curbs, gutters and walks, paving with oil macadam, 1911 Act. Protests Dec. 14. W. Harmon, city engineer.

SAN DIEGO, Cal.—City Engr. F. A. Rhodes completes spec. to improve following streets:

Laurel, Curlew, Union, Brant, Kalmia and Horton Aves., involve 231,183 sq. ft. 2-in. asphalt, conc. base and 1 1/2 in. asphalt, conc. wearing surface; 2852 sq. ft. curb; 21892 sq. ft. of asphalt surfacing for gutters; 164 1/2 ft. 15-in. corr. iron culvert and 60 2 1/2 ft. 12-in. corr. iron culvert; eleven 4-in. and three 6-in. cem. pipe sewer laterals; 2 conc. in-takes.

Eighteenth St. bet. C St. and Balboa Park, involve 48,014 sq. ft. 3-in. bit. base and 1 1/2-in. asphalt, conc. wearing surface; two 4-in. and two 6-in. cem. pipe sewer laterals.

Elgin St. bet. Imperial Ave. and N. St., involve 11,659.7 sq. ft. 5-in. cem. conc. base, 1-in. binder course and 2-in. asphalt, conc. wearing surface, 108 5/8 ft. curb; 833 lin. ft. of 12-in. inside diameter 10-in. corr. iron culvert; 2 cleanouts to be raised; 1 steel grate for catchbasin, 3 ft. 4 in. by 4 ft. 6 in.

City Engr. has prepared plans for a station on Olmsted & Lowe's addition, involve 125 lin. ft. trench under 4 ft. in depth; 90 lin. ft. trench bet. 4 ft. and 6 ft.; 231 lin. ft. 24-in. D S Conc. pipe.

SACRAMENTO, Cal.—Until Dec. 1, 9 P. M. bids will be received by H. G. Denton, City Clerk, to improve following streets:

43rd bet. J to alley first south of I street; concrete curbs and gutters; cast iron gutter drains with 6-in. vitrified sewer connections; reconstruct manhole; paving with 5 1/2-in. asphalt concrete. 1915 Band Act.

Alley bet. U, 8th and 9th streets; concrete wall and catchbasin; reconstruct curbs and covers with 6-in. vitrified sewer connections; reconstruct manhole; grading and paving with 5-in. hyd. concrete.

Alley bet. J to 26th and 27th streets; concrete catchbasins with cast iron curbs and covers; 6-in. vitrified sewer connections; reconstruct manhole; grading and paving with 5-in. hyd. concrete. Albert Givan, City Engineer.

SACRAMENTO, Cal.—City Council, H. G. Denton, Clerk, declares intention to improve alley bet. K, L 4th and 5th streets; construct 10-in. vitrified sewer with 6-in. vitrified sewer branches; extend 6-in. sewer services from wye to property line; construct concrete manhole; reconstruct catchbasin; remove old manhole and existing brick sewer; grading and paving with 7-in. hyd. concrete. 1911 Act. Protests Dec. 7.

Intention declared to improve alley between J, K 17th and 18th streets; construct concrete curb, walk and catchbasin; 6-in. vitrified sewer connections; grading and paving with 5-in. hyd. concrete. 1011 Act. Protests Dec. 7. Albert Givan, City Engineer.

GLENDALE, Cal.—W. J. Curran, 379 W. Patterson St., Glendale, awarded contract by council at \$7951.55 for paving Myrtle St., involve 1551 lin. ft. grading at 65c ft.; 47,720 sq. ft. 3-in. sewer paving and 8 lighting standards. Fairview and Pioneer Dr., involve 1190 lin. ft. grading at 50c ft.; 35,700 sq. ft. 2-in. macad. paving at 10c ft.; 1224 lin. pipe at \$1.50 ft.

SEATTLE, Wash.—Hauge and Espeland, 1813 No. 50th St., Seattle, at \$96,183 submits low bid to Board of Public Works to construct trestle and pave Railroad Ave.

PASADENA, Cal.—Tracy O'Keefe, 58 S. Fair Oaks Ave., Pasadena, awarded contract for paving Vernon Ave., bet. Colorado and Walnut streets, at 8.75 sq. ft. 2-in. oil macadam paving, 65c lin. ft. paving 50c ft. curb and 26c sq. ft. gutter.

KOEHRING DANDIE

Light Mixer

-yet it is within the price range for light mixers

THE Dandie is a light, easily portable mixer for concrete footings, culverts, floors, and has also proved suitable for mortar mixing.

It is a Koehring mixer—Koehring designed and constructed—and this means that dependability and long service life are the first considerations, not lowest price. No it is not the lowest priced mixer, but is well within the price range for light mixers, making it the greatest *value* in light mixer field. It sets a new standard of efficiency and value for light mixers. Big production, standardization in every part, and automatic shop equipment keeps the price down!

Send Today for Catalog D 000

Get the details of construction—the liberal drum dimensions—double gear drum drive—the drum roller construction—universal bearings, mixing action—the two side discharge control—trouble-proof power—dust-proof housing. Get these details and you will see why the Dandie offers a remarkable value. Write for catalog D 000 today.

KOEHRING COMPANY

MASTER PAINTERS' ASSOCIATION
HOLD LADIES' NIGHT

The annual Ladies' Night of the Master Painters Association of San Francisco was held Saturday evening November 25, at the Fairmount Hotel, San Francisco with an attendance of between 250 and 300. The affair was featured in Rainbow Lane which was elaborately decorated for the occasion.

A. D. Sutherland, president of the Association, started the evening with a brief talk on the activities of the organization, its aims and accomplishments. Following this a well selected program of entertainment and dancing was enjoyed.

A feature of the program was the "Let's Go Revue," composed of twenty accomplished kiddies under the direction of Miss Doris de Fiddes. In addition to presenting one of the most popular numbers of the evening the kiddies revue paid high tribute to President Sutherland when it appeared in painter's garb, equipped with bucket and brush and each labeled with a letter, spelled out "Sutherland."

Piano selections were rendered by Miss Helen Kiesel, "Prelude" by Rachmaninoff and "Butterfly" by Lavalley. Mrs. Fannie Goldberg offered several songs accompanied by Madame Lillian Durini.

As a souvenir of the occasion each lady was presented with a powder box. A door prize of \$26 was won by Miss Grossland, the guest of a member of the association.

Considerable credit for the success of the affair is due to Frank LaTorres, secretary of the Master Painters Association, who devoted considerable time and labor to make it the most successful event held by the organization.

STATE HIGHWAY COMMISSION ANSWERS RICHARDSON

Answering Governor-elect Richardson's charge, as given to the press, that the Highway Commission is letting contracts without having sufficient money in the bank at the present time to completely pay for each contract that is being let, the Commission has the following to say:

"There still remains unsold at the present time \$16,000,000 of State Highway bonds. These bonds are available as required.

"It has been the policy of the Highway Commission since the beginning of the work in 1912 to sell bonds from time to time as the money was needed to carry on the work and this policy is not only legal but is in line with good business practice and has saved to the State hundreds of thousands of dollars in interest charges.

To adopt the plan advocated by Richardson in his statement and sell sufficient bonds before letting a contract to completely pay for that contract notwithstanding the fact that most of the money would not be required for many months and perhaps even a year would result in subjecting the State to the payment of hundreds of thousands of dollars of unnecessary interest charges annually. It is difficult indeed to harmonize a policy of that character with a program of either efficiency or economy.

"The California Highway Commission will turn over to the Richardson administration a highway system in good condition and well maintained. The responsibility for all new construction as well as for the proper maintenance of the present system will rest solely with him and cannot be avoided or shifted.

"A splendid highway engineering organization has been built up composed of able engineers selected solely because of their engineering ability and without regard or question as to their politics. They constitute a heritage which will be invaluable to the incoming administration and it is to be hoped that the same freedom from politics in connection with the highway forces may be continued in the future.

"The Commission is carrying forward the highway work in a regular and orderly fashion and will continue to do so until the new administration takes charge. There would appear to be no real reason for stopping the work at this time nor would such procedure be for the best interests of state.

"It is to be regretted that he deems it necessary to resort to political tactics of this character. A little less politics and a little more constructive effort on his part would be in better taste and more conducive to confidence and of greater value to the state at large."

W. S. FARLEY, ENGINEERS, SUES CITY OF MARTINEZ

W. S. Farley, San Francisco consulting engineer, has filed two suits in the Superior Court at Martinez against the city of Martinez for judgements totaling \$38,616.44. The engineer claims this amount due him for preparation of plans and specifications for various improvements. He contends demand for payment has been made upon the city but his claims have not been approved.

The suit brings up as a live issue

once more Farley's contract with the city, signed on October 17, 1919, and interpretations of it by city authorities and the engineer. Farley's contract specifies that he was to receive five per cent of the estimated cost of certain improvements for preparing plans and specifications and for supervising work. City officials have long taken the stand that Farley is claiming money is due him from the city to which he is not rightfully entitled under his contract. Contention has been made he is not entitled to commission for plans that were not used.

In his suits against the city Farley temizes every improvement and contemplated improvement for which he prepared plans and specifications and included the estimated cost of the work as a basis for figuring his five per cent commission.

The suits fix the estimated cost of improvements for which Farley says he prepared plans and specifications at \$73,551. The suits admit that certain small payments have been made on some of the work.

ILLINOIS SPECIFICATIONS FOR 1923

The following circular has been addressed to all road contractors by the Illinois State Highway Department:

The attention of all contractors who propose to bid on road work advertised for letting October 31, or who propose to bid on work to be advertised at later dates, is called to the new cross-section for concrete pavements.

This cross-section provides for a thickness of nine inches, at its edges of the pavement, tapering to six inches at a distance of two feet from the edges. The remainder of the pavement is to have a uniform thickness of six inches. The amount and arrangement of reinforcement is to be made the same as that heretofore used, with the exception of the center joint material. A new design for which has been provided to correspond with the six-inch center thickness.

This new cross-section was adopted as a result of the Bates Road tests, which show conclusively that the strength of the edges of any rigid pavement, built in accordance with any design heretofore used, is much less than the strength of the interior portion of the slab.

The Bates tests disclosed the fact that a center thickness of six inches, or even perhaps five inches, is ample to support the legal load limit provided by Illinois statutes. The new cross-section takes advantage of this fact. The tests further indicate that even with a six-inch thickness for the main portion of the slab, a seven-inch edge with the three-quarter inch longitudinal bar would still not be as strong as the mid-portion of the slab. The edge thickness has, therefore, been increased.

Particular attention is called to the fact that the new cross section provides one square foot less of cross-sectional area than a slab having a seven-inch uniform thickness. This means that the new cross-section will require 19 1/2 cubic yards less of concrete per mile of pavement than the standard seven inch design heretofore used.

The department believes, therefore, that the new cross-section will provide a pavement which not only is better able to support trucks loaded to the legal limit, but will also reduce the cost per mile.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

The Pacific Gas and Electric Company's water system in the city of Stockton was valued at \$1,400,000 by the railroad commission in a decision announced, settling a dispute between the city and the public utility concern as to the value of the system, which the city of Stockton is taking steps to acquire. This company declared a valuation of \$2,555,185 for its Stockton water system and the appraisals submitted the city by its engineers amounted to \$416,833 and \$1,332,736. The commission figured out that at the utility company's appraisal the net revenue for the year 1921 would have been only 165 per cent. It stated that the system did not appear to be in a particularly prosperous condition but that it had a going-concern value.

Announcement is made of the consolidation, effective November 1, of the Street Bros. Machine Works and the Patten Manufacturing Co., manufacturers of hoisting machinery, of Chattanooga, Tennessee. J. H. Street will continue as president and J. W. Burress, sales manager of the Patten Co., will continue in that capacity.

Meetings are being held in Los Angeles by those identified with the building industry to further the proposition of erecting a down town building to be occupied exclusively by organizations, firms and individuals connected with the construction industry. It is proposed to form a building association to finance the structure.

The membership of the Carpenters' union of the bay counties has increased approximately 5000 during the past six weeks, as the result of an organizing campaign conducted by Abe Muir, general organizer for the United Brotherhood and Joiners of America. It is announced by the San Francisco Building Trades Council.

Work of dredging Oakland harbor above the Harrison street bridge will be begun December 10 by the American Dredging Company, which has the contract from the Federal Government for \$1,100,000. The channel will be both deepened and widened. From a point 600 feet east of the Southern Pacific bridge up to Brooklyn basin, a distance of 4000 feet, the channel will be made 500 feet wide and 30 feet deep. From this point up to Stanford street, Alameda, a distance of 3500 feet, it will be 25 feet deep and gradually narrowed down from 500 feet at Brooklyn basin to 300 feet at the upper end.

Wm. Caplatz has sold his lime rock quarry in Santa Cruz county to F. W. Johnson, formerly of Oakland, for the Lime Rock Products Company. New machinery is to be installed and a finer grind will be produced for paint manufacture and paper filler.

A school for the training of plasterers has been established in Fresno under the guidance of J. W. Hunt, manager of the Valley Industrial Association. E. M. Woods, a teacher from Oakland, will be in charge of the classes. Twelve students have been enrolled and judging from the number of enquiries received this number will be doubled in a short time.

With sixty-four miles of drainage canals finished, approximately fifty per cent of the \$750,000 drainage plan for the Newlands project in Nevada has been completed. It was originally planned to construct 120 miles of drainage but the work has been carried forward at a lower cost than originally figured and extra laterals will be provided.

Building operations totaled \$3,300,000,000 for ten months ending November 1, and \$300,000,000 in October, according to the national building survey of H. Strauss & Co. Reports from important cities throughout the country show a great demand for residential buildings, shortage of office buildings and some demand for extensions to industrial plants and miscellaneous construction.

Following is a list of new patents issued to California inventors: F. C. Brown, Selma, lock; F. W. Grady, Niles, safety device for tools; A. Mills, Sacramento, trailer wheel for trucks; E. B. Prettyman, Porterville, camp oven; F. Rosenlof, Reedley, radiator cap; F. W. Skinner, Taft, gas burner; Wm. Sluyter, Samoa, automatic retainer.

Incorporation of the North American Lumber Manufacturing and Export Co. a \$1,000,000 concern, with 200,000,000 feet of timber available on Vancouver Island, is announced by J. S. Barstad, of Spokane. Wm. A. Shingle mill and dry kilns will be constructed at tidewater near the outlet of Nitinat lake, a salt water inlet on the southwestern corner of the island.

The Mowatt Refrigerator Co. with a capital stock of \$75,000 has filed articles of incorporation with its principal place of business as San Francisco, Directors are: J. Mowatt, Elizabeth Mowatt, H. Wintemute, H. Clancy and W. G. Harkins.

Severe and unreasonable competition has resulted in the steel business being conducted now at a loss, members of the Federal Trade Commission have been told by Judge E. H. Gary, Chairman of the Board of the U. S. Steel Corporation. "The steel business is being conducted at a loss," he says, "because it is a buyers' market and not a sellers' market."

Jos. Wesselse, president of a Los Angeles marble and tile concern, died in that city November 16th.

Articles of incorporation have been filed in Oakland by the Cooley Hardwood Manufacturing Co., capitalized at \$80,000. Directors are: R. Cooley, H. F. Basta and R. C. Ogden.

Architect A. C. Zimmerman has opened an office for the practice of architecture in room 400 San Fernando Bldg., Los Angeles, and desires samples and catalogs of building materials and appliances.

J. Sub Johnson, Dr. Gilbert B. Furness and Walter Drabnick, all of Visalia, have been chosen directors of the Visalia Implement Works, Inc., formerly known as the Dinuba Agricultural Works. The purpose of the company is to erect a plant for the manufacture of farm implements.

Lumber mills of British Columbia are almost daily refusing to quote on lumber deliveries and cuttings for January on the theory that the greatest shortage of lumber in the history of Canadian sawmills will develop in 1923. Substantiating this theory is a report from the rail sawmills of the United States. Practically every sawmill as well as the large plants from the Pacific Coast to the Atlantic Coast is bookm orders well into the spring of next year for car material. Up to November 5 nearly 50,000,000 feet of car material had been placed by the various railroads with these mills, and nearly a similar amount is being allocated for requirement.

Warning to contractors that contracts for the construction of roads entered into with the State Highway Commission for which there are no funds are illegal and will not be recognized by the incoming new administration has been issued by Governor-elect Friend W. Richardson. Richardson warning follows the issuance of a formal statement from the office of the highway commission showing an overdraft of \$290,000 on the estimate cash balance in the state highway fund which will be in the treasury December 1.

The Fair Oaks Home Building Ass'n with headquarters at Fair Oaks, Cal. has been incorporated with a capital stock of \$50,000. Directors are: Jam Tully, William A. Jones, C. E. Weikert, R. A. Rose, H. D. Thompson, B. R. Hill, J. L. Day, C. G. Thompson, W. F. Rudge and W. E. Spangle, all of Fair Oaks.

The J. A. Fay and Egan Co., of Cincinnati, Ohio, manufacturers of power working machinery has leased a building at 260 Spear St., San Francisco and are to open a salesroom and warehouse as soon as alterations are completed. The business will be under the management of Guy D. Reynolds Pacific Coast Manager. Salesmen from this office will cover six western states.

On complaint of the Radio Corporation of America, Judge W. C. Van Fleet of the Federal Court, has temporarily enjoined S. P. Brownlee, a San Rafael road contractor, from felling trees at its right of way. Damages in \$5000 are sought of Brownlee for dropping trees on the company's telegraph wires between Marchall and Bollinas, Mar. county.

The Monarch Tractors, Inc., Watertown, Wis., announces the development of a new stump puller, operated by tractor power.

E. R. Erickson and A. Ryberg have formed partnership and opened office at 408 Seaboard building, Seattle, under the name of West Coast Construction Company.

The Stedman Products Co., South Braintree, Mass., has issued an illustrated catalogue featuring the "Stedman" naturalized flooring. Copies will be furnished on request.

"Paint for Permanence" is the slogan of the Master Painters and Decorators Association of Los Angeles.

(Continued on Page 4)

ALONG THE LINE

Construction of an \$8,000,000 power plant at the Metolus power site on the Deschutes river is planned by the Bend Water, Light and Power Co., of Bend, Ore. Development of 120,000 horse power sufficient to pump water from the Deschutes for the irrigation of 85,000 acres and to afford sufficient power for large industrial use are included in the project.

The Santa Monica Brick Company is completing its new factory for the manufacture of stiff-mud, side-cut common building brick, at 23rd and Michigan Ave., Santa Monica, and reports it will be in operation about November 15, with an initial output of 50,000 brick each working day.

Ray A. Borthick, assistant chief engineer of the Los Angeles County Flood Control District, died October 10, following an operation. Mr. Borthick had been connected with the flood control district about 5 years and was in charge of construction of the Devil's Gate, San Dimas and Live Oak dams.

Articles of incorporation have been filed in Fresno by the Noel Pump & Manufacturing Co., with principal place of business at Orange Cove, Calif. The company is capitalized at \$50,000 and has as its directors: Carl F. Noel of Modesto; C. J. Noel and W. J. Noel of Orange Cove.

Directors of the Santa Rosa Lumber Co. will meet in Vallejo January 8, 1923 to consider increasing the capital stock of the company from \$75,000 to \$200,000. Julius B. Ragatz is secretary of the company.

The Serratt Motor Co., capitalized at \$100,000 has filed articles of incorporation with the County Clerk at Oakland. Directors are: Fred Kickbuch, Al Waddington, C. M. Steves and Harold G. Hinton.

A bill to exempt from taxation the cost of building a home up to \$3000 will be introduced before the state legislature when it convenes in January, Assemblyman William Hornblower of San Francisco announces.

The total cargo shipments of lumber from Puget Sound, Grays Harbor and Willapa Harbor during the month of October amounted to 158,861,444 board feet as compared with 97,747,660 board feet shipped in October, 1921.

MoRiskey Co., of San Francisco, is conferring with San Mateo Chamber of Commerce regarding the establishment of a mattress factory in that city.

Lewiston, Idaho plans the installation of a \$550,000 filtration plant, according to an announcement of E. G. Wagner, City Water Superintendent.

Gus Molms, managing secretary of the National Park to Park Highway Association, was a recent visitor in Sacramento.

Monolith Plastic Waterproof Cement

By Hans Olsen, Chemical Engineer, Monolith Portland Cement Company

Monolith Plastic Waterproof Cement is an improved Portland Cement made by the Monolith Portland Cement Company at their plant at Monolith, California, under the Olson patent of November 5, 1918.

It is in every respect a standard Portland cement; the clinker being identical with that from which regular cement is ground. As the clinker is ground to cement, a special process is used so that the resulting cement particle will almost instantly diffuse in the mixing water to form the colloidal substances from which the cement crystals reprecipitate.

It is a matter of common knowledge to cement engineers and chemists that in Portland cement only a small quantity of the particles diffuse at once on mixing with water, that the process goes on from the time of mixing until the final set takes place, and is then not complete so that a relatively large proportion of cement particles do not hydrate and therefore cannot crystallize.

As has been stated, Monolith Plastic cement is made from a high grade, standard cement clinker which is processed in grinding so that the resulting cement particle will diffuse almost at once a complete hydration of all the particles taking place during the mixing with water or within a few minutes thereafter. The total volume of colloidal matter developed in Monolith Plastic cement has been accurately determined, by micro-photography and other means, to be about twice that of regular Portland cement. To this is due the great plasticity which is one of its notable features. In reinforced concrete work this is a great advantage as a concrete of standard proportions where this cement is used can be mixed so thin that it will flow almost as readily as water without danger of precipitating any of the aggregates. It

has great toughness; a test made by Smith-Emory Company showing that in a concrete mixture of 1 to 2 1/2 to 3 1/2 the concrete made with this cement, the adhesion to a steel re-inforcing rod was about 50% greater than the concrete in which regular cement was used.

On account of its great plasticity and water-proofness this cement is being used almost exclusively for exterior plastering, as it will carry a great deal more sand than regular cement and the resulting mortar is so plastic that it works under the trowel almost like lime mortar, owing to its great toughness it does not "crazy-crack" when used in a thin coating such as floor walks, etc. It has also been shown to be very resistant to soil alkalis and sewage and is unaffected by oils, grease, soapsuds, milk and many other agencies whose destructive effects on concrete are well known.

Considering the comparatively short time (about four years) that this product has been before the public, its record is truly remarkable. It is being specified by architects and engineers on all classes of construction and its use has increased so rapidly during the last year that the Monolith Portland Cement Company, who are exclusive licensees under the Olson Patent, have had to increase their output to double their former capacity to meet the constantly growing demand.

The Monolith Company have inaugurated and are carrying on a program of exhaustive research work, which promises to develop some new and interesting conclusions concerning the chemistry of Portland cement.

In all these tests the Monolith Plastic has shown itself to be so much superior to the regular cement that the officials of the Monolith Company are convinced that eventually all Portland cements will be made by the Olson Process.

BUILDING COSTS IN 1923

Building costs, as affected by building material prices, in 1923 will be higher or lower than they are at present in proportion to the volume of forward business placed now, says the current Dow Service Daily Building Reports. If the building construction industry of the country anticipates the pending building material production jam by forward buying, prices will hold at or about present levels. Should there develop on the other hand, a tendency on the part of investors in general to await possible building material price crashes in December, January or February, the consequent overloading of building material manufacturers' capacity may be expected to put further premiums upon the basic building commodities.

Building material production capacity was nearer its national maximum of orders this year than at any time, so far as records show. Fuel and rail difficulties interposed to prevent complete filling of these orders. There is a tremendous quantity of this backed-up material ready to be shipped, but there is a car shortage of increasing dimensions that is already affecting actual construction work. On October 1 there were buildings all ready for the tenants to move into, but which could not be passed because certain equipment deliveries had been delayed.

Meantime great quantities of construction work projected last spring are now ready for basic materials.

Dealers have less than a week's supply of cement on hand, although they anticipated far back in the early summer just such conditions as now exist. They filled their yards with more basic materials than they had carried in years; and even then finishing line could not be supplied fast enough, brick was frequently unobtainable, certain lumbers were not purchasable because dealers could not get them for immediate delivery, and now cement is becoming difficult to obtain in practically every city along the Atlantic seaboard.

Building costs for 1923 are in the 1922 builders' control. If they will spread their orders for building material requirements over the winter months, so that manufacturers can make up their production schedules early and provide for sufficient capacity, prices of building materials next be kept within reasonable bounds next year. But, if a great avalanche of building material orders is hurled upon the industry after the turn of the building year, there most certainly will follow a condition where demand will so far exceed the supply that anything like price stability will be impossible.

—Boston Transcript.

South Dakota's law providing State aid for residents purchasing or building homes is held unconstitutional by the State Supreme Court. The law was passed by the 1919 session of the Legislature and provided for State loans up to \$10,000 to be amortized by the borrower.

BITUMINOUS SURFACE TRAFFIC TESTS BEGIN AT ARLINGTON

Traffic has been started on the circular track of the Bureau of Public Roads of the United States Department of Agriculture, at the Arlington Experiment Station, in the experiment to determine the cause of waving in bituminous surfaces. The track is composed of 27 sections of asphaltic concrete of different mixtures.

Before starting the traffic, profile measurements of the surface were taken with the autographic profile device especially devised for the purpose. Measurements were taken at frequent intervals and will be repeated from time to time as the tests progress in order to determine the rate of formation of inequalities in the surface.

It is also planned to study the flow of the bituminous concrete under traffic. This will be done by noting the movement of brass plugs placed in the surface both in the upper and lower portions.

At present traffic is being confined to a path $2\frac{1}{2}$ feet wider than the distance between outside edge of tires in order to obtain an accelerated test. This will also leave a space on the track for investigation under summer temperatures.

The wear test on the circular track consisting of 61 sections of concrete and located at the outside edge of the bituminous track has also been commenced. In this test concrete made of a great many different materials and mixes is being subjected to a traffic of two solid rubber-tired wheels loaded with 600 pounds per inch of width of tire or approximately that of a 5-ton truck and travelling at a speed of 20 miles per hour. The device used will be guided by wheels traveling on rails and is electrically driven, the power being transmitted to one of the wheels used to represent the traffic which will make this wheel act as the drive wheel of a truck.

On both the bituminous and the concrete wear test, traffic will run continually during working hours, but from the nature of the tests thousands of trips and a considerable period of time will be necessary before much data is secured.

ASPHALT STREETS

Philadelphia has paved within two years 75 miles of streets, chiefly with asphalt, and 19½ additional miles are nearing completion. The latter mileage is distributed on 140 streets and avenues in different parts of the city. Broad street still retains its reputation as one of the finest asphalt streets in the country. According to F. C. Dunlap, chief of the Philadelphia Bureau of Highways, an analysis of all the city's asphalt pavements indicated that more than 50 per cent are fifteen years of age, or more. The Bureau has adopted sheet asphalt and granite block as standard types for the most heavily traveled streets. In New York City, paving on all heavy traffic streets is now restricted to sheet asphalt and granite block with asphalt filler. In addition, all cuts and openings in the pavement of Fifth Avenue, are being repaired with asphaltic concrete base.

PORTLAND CEMENT STUCCO

The Portland Cement Association, 111 West Washington St., Chicago, has issued "Portland Cement Stucco," a book especially prepared for architects and builders. In addition to the many photographic illustrations of stucco-finished residences and of various types of finishes possible with stucco, it contains instructions recommended for use in the application of this material and drawings of typical construction details for stucco coverings on various types of buildings.

L. A. THIRD IN U. S. BUILDING OPERATIONS FOR OCTOBER

Los Angeles was third among the cities of the U. S. in valuation of building permits issued during the month of October, 1922, her total being nearly three and a half millions less than that of Chicago. Philadelphia was fourth with a total seven hundred thousand dollars less than that of Los Angeles. San Francisco ranked sixth, Oakland was twenty-first in line and Seattle twenty-second. Of 41 cities in the U. S. reporting a total of a million dollars or more for October, six were California cities, the best showing for any state except New York.

October building in 204 cities shows a gain of 21 per cent over the same month in 1921. The total number of permits issued in October, 1922, was 65,170 with an estimated valuation of \$214,978,138. For October, 1921, the number of permits issued in these cities was 54,086 and the estimated valuation \$178,222,030. Compared with September, the October, 1922, permits show a slight gain, 193 cities having reported permits issued during September with an estimated valuation of \$295,780,795. A notable increase in building started during October in the larger cities of the country, indicates a widespread effort to keep construction going to the fullest possible extent during the winter months when construction work has heretofore been very slack. The volume of building, measured by monetary value, for October, 1922, was nearly four times as great as that for October, 1914.

MILK FROM RICE IS NEW SAN FRANCISCO INDUSTRY

P. D. Clayton and Rafael B. Olmos announce the opening of a plant at 615-617 Laguna street, San Francisco, for the manufacture of milk from rice. The concern will be known as the Pacific Rice Products Company and will ship the product to every section of California.

P. D. Clayton, prime mover in the company, declares the product to be purely vegetable, rich in vitamins, lactose, dextrose, dextrine proteins and fats. As a beverage and as a food it is unexcelled. Its use in the making of breads, cakes, candies, etc., is unequalled. As a baby's food and food for invalids it is invaluable.

Rafael B. Olmos, in charge of the company plant, declares that rice milk is the coming of one of the greatest foods known to mankind. Its digestive and nutritive qualities can only be found in the rice kernel from which rice milk is produced, he says.

Already the Pacific Rice Products Company has received a tentative agreement from a San Francisco concern which proposes to enter into a contract for the delivery to them of 25,000 gallons of the product per day.

RANSOME CONCRETE MACHINERY CO. TO ENLARGE PLANT

An increased volume of business, particularly in the paving and small mixer fields, has necessitated a further enlargement of the Ransome Concrete Machinery Company, of Dunellen, New Jersey. Something over a year ago this concern practically doubled its floor space and the decision to erect the new building—adding a third as much more space—augurs well for their belief in not only a continuance, but an increase in present building activities. The structure, one story in height with monitor roof, will be concrete and steel and covers a ground area of nearly 10,000 square feet. Its erection will be commenced immediately.

BUILDING ACTIVITY CONTINUES IN EVERY SECTION

High costs have produced no let down in planning for building during the winter and spring. October building permits issued in 204 cities of the United States as reported to The American Contractor establish a new record for the tenth month of the year and for the tenth consecutive month hold the manifestation of coming activity high above previous levels.

Numbering 65,170 and totaling in valuation \$214,978,138, there is shown a gain of 21 per cent over the 54,086 permits issued in October, 1921, whose estimated valuation for the same 204 cities totaled \$178,222,030. In turn, the October permits of last year exceeded those of the year before by 87 per cent, and gave the first indication of the big volume of activity which was to break in the early months of this year.

Pacific Coast states report construction permits issued during October as follows:

	Oct. 1922	Oct. 1921
Seattle	\$2,249,035	\$,750,115
Tacoma	226,698	251,809
Portland	1,519,185	1,942,510
San Francisco	4,719,394	2,488,523
Oakland	2,316,833	1,245,224
Los Angeles	11,580,427	9,781,394
San Diego	800,000	1,016,373

Late advices from various centers of population of the United States would indicate that there will be as much construction reported for November as was started in October.

FOREST SERVICE BUILDS & MAINTAINS 10,984 MILES OF ROAD AND TRAILS

During the past year the Forest Service, United States Department of Agriculture, constructed 724 miles of minor roads at a cost of \$540,868 and 2959 miles of trails at a cost of \$519,429.

Three hundred and eighty miles of major roads were constructed for the Forest Service by the Bureau of Public Roads at a cost of \$4,620,326. In addition 3007 miles of major and minor projects were maintained at a cost of \$187,162, of which \$65,326 was secured from local authorities. Forty-two hundred and ninety four miles of trails were maintained at a cost of \$113,683. This represents a total expenditure for the construction of roads and trails during the year 1921 of \$6,456,694, which includes \$2,153,522 cooperative funds secured from states and counties.

Expenditures to January 1, 1922, for constructing 3729 miles of major roads total \$15,301,373, of which \$5,681,451 are cooperative funds. Likewise 4356 miles of minor roads were constructed by the Service at a cost of \$2,752,970 including \$773,922 of cooperative funds. To date \$1,917,169 have been expended in the construction and maintenance of 12,448 miles of trails. The total thus far expended upon equipment amounts to \$651,608, while \$220,134 was expended upon overhead and administration by the Bureau of Public Roads and Forest Service.

To date expenditure of \$22,216,724 for the construction of 4786 miles of roads, 6711 miles of trails and the maintenance of 3007 miles of roads and 5737 miles of trails has been made.

HUGE TELEPHONE OUTPUT

In 1921 the Western Electric Company, Inc., the manufacturing organization of the Bell System, turned out nearly 900,000 telephones. This is almost twice the entire number of telephones in the whole of Europe and, excluding Canada, Germany and Great Britain, more than the combined number in any two countries in the world. The greater part of the 900,000 telephones were used in the United States,

LUMBER CUT IN CALIFORNIA, UTAH AND NEVADA REPORTED

The total production of lumber during 1921 by California, Nevada and Utah, according to preliminary statistics released by the Department of Commerce, was 1,368,127,000 feet, which is a decrease of 8.1 per cent when compared with the cut for the preceding year. These statistics are the result of a careful canvass of the lumber and timber products industry in these states by the Bureau of the Census, Department of Commerce, and the Forest Service, United States Department of Agriculture, acting in cooperation.

The reported production of lath was 52,632,000 in 1921, compared with 37,175,000 in 1920, and 54,426,000 in 1919, and that of shingles was 121,345,000 in 1921, compared with 167,555,000 in 1920 and 192,362,000 in 1919.

The cut of redwood timber, a California product, was reported as 469,934,000 feet in 1921, compared with 176,003,000 feet in 1920, and the production of sugar pine lumber in California was 133,757,000 feet in 1921, as against 141,131,000 feet in 1920. California has produced more than 95 per cent of the total output of sugar pine lumber for the last several years.

The Forest Service reports that the decrease in the lumber cut in California and Nevada for 1921 compared with that for 1920 was due to a general business depression, many of the large mills cutting less than 50 per cent of their normal output, but that the indications are favorable for an increased cut for 1922.

MEETING CALLED OF ALL BRANCHES OF SLATE INDUSTRY

Manufacturers, producers, distributors, dealers, roofing and other contractors using slate are planning to gather in New York at the Commodore Hotel, January 25th and 26th, for the slate industry meetings to be held under the auspices of the National Slate Association. Many of the leading concerns in the industry will hold their own sales meetings with their representatives immediately before or after the dates of the sessions devoted to the industry problems. Roofing contractors and other users of slate all over the country have responded well to the need for a co-operative promotion of the use of slate and the betterment of the conditions and relations within the industry, which Secretary Hoover urged the progressive concerns of the industry to undertake at the first meeting last year. The results of the first nine months' effort have more than justified the Secretary's judgment.

R. ZELINSKY, PAINTER, BREAKS INTO PRINT

Says the San Jose News under date of Nov. 23rd:

Contractor R. Zelinsky is spreading \$3000 worth of paint and labor on the county courthouse. The contract calls for three coats of paint and Zelinsky expects to have his job finished in three weeks. Zelinsky is the largest paint contractor on the coast and he paints most of the public buildings. He works as high as 3000 painters during rush seasons and he buys his material in carload lots. His painters he pays \$5 a day and he employs mostly local painters. A painter asked for a job at the courthouse today. He said he was a \$6 a day painter. The foreman asked the man if he could do \$8 worth of work. The man said he thought he could. "Then go to work," said the foreman, "for we don't hire \$6 men."

LUMBER TRAFFIC AND ORDERS IN GAIN

According to the National Lumber Manufacturers' Association reports from eight regional lumber manufacturing associations for the week ending November 11, the lumber movement shows a rather sharp contrast to that of most recent weeks. Production fell off sharply, while shipments increased noticeably and orders gained a little. All three factors were noticeably in excess of the corresponding week of 1921.

Three hundred and ninety-four mills, as compared with a revised total of 410 for the preceding week, report a production of 229,153,806 feet, being a decrease of 18,999,886 feet. Shipments were 199,405,351 feet, a gain of 15,576,337; while orders are 205,315,006, showed a gain of 3,143,579. Shippers for these mills were 87 per cent, and orders 90 per cent of production, being a noticeable gain in shipments and orders on production, as compared with recent weeks. Of the 410 mills, 345 are in associations having established figures of normal production. For the past week this figure is 231,000,000 and relative to it, actual production was 94 per cent, shipments 81 per cent and orders 81 per cent.

AIR-STEAM MIXTURES

The Engineering Experiment Station, University of Illinois, Urbana, has issued Bulletin No. 131, "A Study of Air-Steam Mixtures."

The investigation of air-steam mixtures is the outgrowth of an investigation of the reheating of compressed air by C. R. Richards, former Director of the Engineering Experiment Station and Dean of the College of Engineering, and J. N. Vedder, Research Assistant in Mechanical Engineering, the results of which have been presented in Engineering Experiment Station Bulletin No. 130. In this earlier investigation the employment of steam as a reheating agent was found to result in an increased thermal efficiency for the mixture of air and steam, as compared with the use of either air or steam separately in an engine operating expansively. These results were such as to justify a further study of air-steam mixtures.

It is the purpose of this bulletin to treat the subject of air-steam mixtures in considerable detail both by means of a theoretical discussion and by reporting actual tests made with different proportions of air and steam at different initial air temperatures and under various load conditions. To facilitate the practical application of the results secured, the thermal properties of various mixtures are presented in the form of Mollier charts. These charts will greatly simplify the solution of problems connected with the subject. Copies of Bulletin No. 131 may be obtained without charge by addressing the Engineering Experiment Station, Urbana, Illinois.

SONOMA COUNTY ROAD FUND NEARLY EXHAUSTED

Rising costs of materials and increases in wages paid to labor are said to be responsible for the fact that Sonoma county has spent four-fifths of its 1919 bond issue of \$1,640,000, and has completed only one-half of the county highways and two-thirds of the bridges contemplated under the bond issue. Ninety-one and ninety-one hundredths miles of road have been completed or are in the building out of the 178.4 miles contemplated, and there remains but \$288,693 in the bond funds. These figures are shown in a report by County Auditor J. A. Pool.

PERFECTING ARRANGEMENTS FOR GOOD ROADS SHOW

With an organization that promises to be one hundred per cent effective in perfecting arrangements now under way, the Thirtieth American Good Roads Congress and Fourteenth National Good Roads Show to be held in Chicago, January 15th to 19th next will by far eclipse in program and attendance any good roads meeting in the world. Both events will be held under the auspices of the American Road Builders' Association, the largest and oldest good roads organization in the country. Road builders to the number of 11,000 will hold their twentieth annual convention in Chicago during the congress. Many prominent speakers will attend, including high officials of the Federal Government, several governors, hundreds of state highway officials and mayors of American and Canadian cities as well as thousands of engineers, contractors and good roads enthusiasts. It is the intention this year to separate the congress and show by holding the former at the Congress Hotel and the latter at the Chicago Coliseum. This arrangement will obviate the necessity of shutting down the operating machinery during the sessions and eliminate the noise that has proved so annoying to speakers and delegates heretofore.

NARROW BRIDGES PASSING INTO OBLIVION

It will not be many years before the old time narrow stone bridges crossing streams and ravines on State Highway Routes in Pennsylvania will have passed into oblivion and new structures, or rebuilt old ones widened to meet traffic conditions of today, will grace the highways in their stead. Motor traffic has increased so amazingly within the past few years that the Pennsylvania State Highway Department has sensed the absolute necessity and importance of wider bridge structures on its road system, which will make it possible for automobiles, trucks and other vehicles to pass each other without danger of collision.

A recent survey made by the Department shows a total of 1824 bridges less than sixty feet wide—many of which cannot carry two vehicles at the same time—that are located on roads which have been made a part of the State Highway System. Under the law trucks are permitted a width of ninety inches and, consequently, these old narrow structures constitute an ever present and serious menace to all users of the highways.

A. O' C. ANNOUNCES ELECTRICAL COURSE

Study of both direct and alternating current electricity is to be conducted by the Extension Division of the University of California in classes that meet Tuesday, December 5th, at the San Francisco Polytechnic High School, First Avenue and Frederick St. The instructor is A. L. Jordan, head of the science department of Polytechnic High.

The class in DC meets at 8:20 P. M., and the AC class meets at 7:15 P. M., on Tuesday and Friday evenings. These classes are part of a series of courses in which the whole theory and practical application of elementary electricity is studied.

The classes have not alone attracted electrical workers but salesmen in companies dealing in electrical supplies, and men connected with the electrical industry in general.

Registration for these Extension courses may be made at the San Francisco office of the Extension Division, 140 Kearny street.

HOGAN LUMBER COMPANY CLOSES DEAL ON OAKLAND INDUSTRIAL SITE

An eleven and one-half acre deal in the industrial district near Oakland's waterfront involving a purchase price of close to \$400,000 was consummated when the Hogan Lumber Co. purchased from the California Development Co. the southwest corner at First and Madison streets with a frontage of sixty feet on First street, and a depth of 100 feet, the entire block bounded by Oak, Madison, First and Second streets, and all of the property between First and Sixth streets and Oak to the Fallon street line.

The property purchased is occupied by the Western Fuel Co., Pacific Metal Products Co., Oakland Box factory, Weartax Rug Co., Sherman Paper Warehouses and the Oakland Lumber mills. Southern Pacific and Western Pacific spur tracks go through the property.

This marks one of the largest deals in the southern industrial section consummated in several years. The Hogan Lumber Co. recently figured in another important realty transaction. It purchased the Hunter wharf from D. B. Hunter. This wharf, located on the south side of the estuary east of Webster street, has a frontage of 280 feet. Tilden is now having this property bulkheaded and brought up to grade. Due to the growth of the lumber company this property will be used as a storage yard.

TREMENDOUS ROAD PROGRAM IN THE SOUTHERN STATES

Southern states have embarked upon a road building program involving the construction of several thousand miles of new hard surfaced roads, most of which will be of asphalt. Florida, Texas, North Carolina, Tennessee and Missouri, especially, are building great stretches of asphalt roads.

The extent to which Southern states are appropriating money for highway construction is reflected in statistics compiled by the Asphalt Association, New York, which show that during the first eight months of the present year 343 bond issues amounting to \$86,436,650 have been sold in the 16 Southern states and the funds made available for road construction. Bonds sold in each state were as follows: Alabama, \$4,830,000; Arkansas, \$2,670,000; Florida, \$6,026,000; Georgia, \$2,906,000; Kentucky, \$1,192,000; Louisiana, \$3,786,500; Maryland, 2,319,000; Mississippi, \$1,821,000; Missouri, \$1,846,000; North Carolina, \$25,292,500; Oklahoma, \$1,073,000; South Carolina, \$3,262,000; Tennessee, \$2,034,000; Texas, \$25,436,750; Virginia, \$1,390,000; and West Virginia, \$681,000.

BANKING HIGHWAYS AT CURVES

According to a recent announcement from the offices of the Permanent International Association of Road Congresses in Paris the British Ministry of Transport has directed its divisional road engineers, to see that local officials in constructing highways in England, allow for super-elevation of roadways on corner curves whenever desirable. The action was taken following investigation and recommendations by the British Roads Improvement Association which pointed out the benefits to be gained through banking at sharp curves in the way of safety to traffic. In the event of two vehicles meeting at a curve, it was declared, they could be maneuvered on a banked curve with more certainty and less risk of skidding. It was also declared that there would be much less wear upon the pavement. French road engineers long ago adopted the banked curve and in some parts of the United States they are now in use.

The Observer.

(Continued from Page 4)

January 16 is the date set by the Chico city trustees to decide the question of issuing bonds of \$475,000 to purchase and improve privately owned water companies, to operate as municipal system.

Martin Products Co., manufacturing automobile accessories, have moved quarters at 45th and Holden streets, Emeryville. Company will specialize in the manufacture of "Greaseasy cart-ridges" for use in greasing automobiles.

The Rogers Una Drive Motor Truck Co., of Sunnyvale, Calif., is conferring with the Fresno Chamber of Commerce regarding the establishment of a plant in that city for the manufacture of motor trucks.

W. Harris has started a private school for instruction day and night in bricklaying and plastering at 313 S. Figueroa St., Los Angeles. He expects to employ students in contracting work.

Application for dissolution of the Concrete Pipe & Construction Co. of Riverside, has been filed in the office of the Clerk of Riverside county. The directors of the company are David Ormand, N. M. Ball and H. A. Lubking.

The New York Mason Builders' Assn., has issued a lockout order to its 123 members ordering them to pay off all bricklayers employed by them, effective November 28. The lockout is a protest against the bricklayers refusal to work with independent laborers. The lockout, officials say, will affect 60,000 workers in the building trades in the Metropolitan district immediately and will render idle another 65,000 within a month. About \$100,000,000 in construction work in the Metropolitan area may be tied up through the order.

A new list of inspected electrical appliances has been issued by the Underwriters Laboratories, Chicago. These lists of apparatus and materials of merit for use in the construction of buildings are published under the supervision of the National Board of Fire Underwriters, 76 William street, New York City, and are intended for the information of the public.

W. E. Talbert, general contractor, of Monrovia, has opened an office at 212 American National Bank Bldg., and a show room at 109 W. Orange Ave., Monrovia. He desires trade catalogs and circulars. The office is in charge of an estimator who has been employed for a number of years with a leading Los Angeles firm.

Funds to construct a 300 by 600 feet addition to the Municipal Auditorium will be provided in the 1923 budget according to Albert E. Carter, Public Works commissioner of Oakland.

The Wheeler Company has succeeded to the business of the Edgar T. Wheeler Company, founded by the late Edgar T. Wheeler. C. W. Resnaw is president of the reorganized company; R. V. Leeson is vice president and chief engineer and L. E. Wheeler is secretary. The company will maintain offices at 207-S Los Angeles Railway Bldg., Los Angeles, and will specialize, as heretofore, in general engineering construction, giving particular attention to bridges and similar work.

Charles G. Huber, of Seattle, was elected manager of the Benton-Franklin Intercounty Bridge Company, at a meeting held by the trustees at Walla Walla, Wash., recently.

C. E. Kimball, electrical engineer for the California Industrial Accident Commission, has been named the official California representative upon the committee on lighting legislation of the Illuminating Engineering Society, with headquarters in New York City.

The California Gas Radio Co., 1533 Clay St., Oakland, has been incorporated. The company is capitalized at \$100,000. Directors are H. S. Harris, Walter E. Hettman and H. C. Schroeder.

Election will be held in Modesto December 19 to authorize the issuance of bonds in the sum of \$175,000 to finance school improvements.

Sacramento Pipe Works, 7th and R streets, Sacramento, plans erection of new plant in vicinity of 16th and B streets. Two structures will be erected, each being 148 by 230 feet.

Architect Leonard L. Jones has opened offices at 602-603 Grosse Building, Los Angeles, and desires catalogs and samples of building materials and appliances.

E. L. Macabee, manager of the Hunt Bros. Packing Co., of Hayward, Cal., backs movement to establish a cold storage plant in that city.

Tulare County supervisors planning the purchase of five blocks of city property on which it is proposed to erect a million dollar courthouse.

The Red River Lumber Co. has filed with the county clerk at Redding, Cal., an amendment to its articles of incorporation providing that the company may borrow money to a limit of \$6,000,000, if it chooses to do so.

Pasadena will vote on December 5, the question of issuing bonds of \$500,000 to secure a system of bus transportation and storage and repair shops.

For the purpose of manufacturing and marketing high speed rotatable tools, the Electric Screwdriver Tool Co., Inc., will erect a factory in Oakland.

F. W. McCarten, for the last six years assistant engineer for the Modesto Irrigation District, has been named Modesto city engineer, succeeding George Freitas, resigned.

Tyre Bros. Glass Co., 1314 Broadway, Fresno, will occupy a one-story brick and concrete warehouse to be erected in that city by Trewhitt-Shields. The building will cover an area of 130 by 150 feet.

Union Construction Co., engineering contractors of Oakland, have opened an office at 1025 Van Nuys Bldg., Los Angeles.

The Blue Diamond Materials Co. has opened a limestone plant at Tehachapi, California.

The selection of Frank R. Goodman, of Flagstaff, Ariz., for the post of state engineer to succeed Thomas Maddock, is announced by Governor-elect Hunt, of Arizona. This position pays \$6000 a year.

C. M. Wood, chief engineer for the South San Joaquin Irrigation District has tendered his resignation, effective January 1.

Mr. H. P. Usher, President of the Smith-Blough-Usher Company, has made San Francisco his place of residence and in the future will maintain his permanent business headquarters at the San Francisco office of the company, 50 Fremont street.

Building News Section

APARTMENT HOUSES

Contract Awarded.

APARTMENTS Cost, \$18,000
OAKLAND, Alameda Co., Cal. N E-14th St. 50 E 40th Ave.
 Two-story 12-room tile store and apartment building.
 Owner—Robt. D. Davies.
 Architect—None.
 Contractor—Marshall & Burks, Bacon Bldg., Oakland.

Contract Awarded.

APARTMENTS Cost, \$25,000
OAKLAND, Alameda Co., Cal. E Lagunitas Ave. 100 S Perry St.
 Three-story frame apartments.
 Owner—Feingegen Bros., 522 7th St., Oakland.
 Architect—None.
 Contractor—A. Lochhead, 141 8th St., Oakland.

Contract Awarded.

APARTMENTS Cost, \$18,000
OAKLAND, Alameda Co., Cal. E Broadway 125 N 41st St.
 Three-story frame apartments.
 Owner—Wm. Oszdorff, 282 Ridgeway, Oakland.
 Architect—None.
 Contractor—F. C. Stolte, 3455 Laguna Ave., Oakland.

Contract Awarded.

APARTMENTS Cost, \$15,000
OAKLAND, N E 55th & Grove Sts.
 Two-story 16-room brick apartments.
 Owner—W. E. Withers, 833 55th St. Okd.
 Contractor—Murphy & Hamilton, 825 Santa Fe Ave., Berkeley.

To Be Done By Day's Work.

STORE & APTS. Cost \$16,000
OAKLAND, W Telegraph Ave. 140 N Alcatraz.
 Two-story 30-room frame store and apartments.
 Owner—R. H. Bradshaw, 6429 Telegraph Ave., Oakland.

Contract Awarded.

APTS & GARAGE Cost, \$24,500
E Lakeshore Ave. 50 N Beacon.
 Three-story 18-room apts. & garage.
 Owner—J. J. Brannan, 488 12th St. Okd.
 Architect—Schirmer-Bugbee & Co., Thayer Bldg., Oakland.
 Contractor—Harry Knight, 388 12th St. Oakland.

Contract Awarded.

APARTMENTS Cost, \$13,000
OAKLAND, E 1st Ave. 35 N E-15th St.
 Two-story 12-room apartments.
 Owner—Walter Larkin.
 Contractor—California Builders, 1534 Franklin St., Oakland.

Contract Awarded.

APARTMENTS Cost, \$10,000
OAKLAND, N 40th St. 100 W West St.
 Two-story 12-room frame apartments.
 Owner—L. R. Becker.
 Contractor—California Builders, 1534 Franklin St., Oakland.

Owner To Take Sub-figures Shortly.

APARTMENTS Cost, \$50,000
SAN FRANCISCO, N Powell 100 S Pine Street.
 Six-story and basement class C 12 apts.
 Owner—Herman Hogrefe, 625 Powell St.
 Architect—Edw. E. Young, 251 Kearny Street.

Contract Awarded.

APT. HOUSE Cost, \$20,000
OAKLAND, Alameda Co., Cal. 35th & Grove Streets.
 Two-story class C brick store and apt. house.
 Owner—W. G. Witter.
 Architect—Hutchinson & Mills, 1214 Webster St., Oakland.
 Contractor—M. F. Hamilton, 825 Santa Fe Ave., Berkeley.

Plans Being Figured.

APARTMENTS Cost, \$75,000
LOS ANGELES, Los Angeles Co., Cal. No. 822 S-Parkview Ave.
 Three-story frame apartments (30 apts.)
 Owner—O. A. Brown & Co.
 Architect—J. J. Donnellan, Lissner Bldg., Los Angeles.

Plans Being Prepared.

APARTMENTS Cost, \$—
SAN FRANCISCO.
 Three-story frame apartment house (24 2 and 3 room apts.)
 Owner—Withheld.
 Architect—R. R. Irvine, 507 Call Bldg., San Francisco.

Plans Being Prepared.

BUNGALOW COURT Cost, \$35,000
OAKLAND, Grand Ave. and Rose St.
 Frame and stucco bungalow court.
 Owner—Mrs. S. Roberts, 139 22nd Ave., San Francisco.
 Architect—W. E. Schirmer, Thayer Bldg., Oakland.

Sub-Figures Being Taken by Owner—

To Be Done By Day's Work.
APARTMENTS Cost, \$50,000
SAN FRANCISCO, S O'Farrell 87-6 W Hyde.
 Four-story and basement reinforced concrete (82) apartments.
 Owner—Percy D. Tyler, 1458 Cabrillo St.
 Architect—Woodworth, Wethered, 755 Mission Street.

Plans Completed.

APT. HOUSE Cost, \$50,000
OAKLAND, Claremont Ave.
 Three-story frame and stucco apartment house (15 3-room apts.)
 Owner—Fred Adams.
 Architect—W. E. Schirmer, Thayer Bldg., Oakland.

Plans Being Prepared.

APARTMENTS Cost, \$200,000
LOS ANGELES, Los Angeles Co., Cal. NE Bonnie Brae and Orange Sts.
 Four-story Class A apartment house, 115 rooms.
 Owner—O. A. Brown & Co.
 Architect—Allen & Hillier, Union Bk. Bldg., Los Angeles.

Contract Awarded.

APT. HOUSE Cost, \$125,000
LOS ANGELES, L. A. Co., Cal., Gower St. and Franklin Ave.
 Three-story class C apt. house bldg.
 Owner—C. A. Keeler.
 Architect—Monaco & Bordeaux, Bank of Italy Bldg., Los Angeles, Cal.
 Contractor—Richardson Bldg. & Eng. Co., Story Bldg., Los Angeles.

Plans Being Completed.

APARTMENTS Cost, \$35,000
SAN FRANCISCO, Fillmore Street near California St.
 Three-story and basement frame and stucco apartment house (2, 3, and 4-room apts.)
 Owner—Withheld.
 Architect—Allen & J. Fabre, 110 Sutter Street, San Francisco.

Note—Plans are being enlarged as the owner has purchased the adjoining lot.

Plans Completed.

APT. HOUSE Cost, \$80,000
LOS ANGELES, L. A. Co., Cal., N E MacArthur and Bixel Sts.
 Three-story frame apt. house 138x100, 113 rooms, 50 apartments.
 Owner—Dr. D. E. Foster.
 Architect—W. S. Haggard, Fay Bldg., Los Angeles.

Contract Awarded.

APARTMENTS Cost, \$14,000
OAKLAND, N W E-15th St. and 4th Av.
 Alterations and additions to apts.
 Owner—L. Nathanson, 350 E-15th St., Oakland.
 Contractor—F. E. Stanley, 1748 23rd Ave., Oakland.

Grading Bids Being Taken.

APT. HOUSE Cost, \$200,000
SAN FRANCISCO, N Market B. Gough.
 Six-story class C reinforced concrete market and apt. house (40 2 and 3 room apartments).

Owner—Jas. B. Gaffney and Raymond A. Luce, of the Daylight Market.
 Architect—Walter C. Falch, Hearst Bldg., San Francisco.

Bids on the balance of the work will be taken in two weeks.

LOS ANGELES, Cal.—M. A. and D. A. Hamburger, proprietors of Hamburger's Dept. Store, contemplate the erection of a 12-story class A apt. house on the east side of Hill St. bet. 14th and 15th Sts., L. A. The site is 120x150 ft. and the bldg. will contain about 150 apts. An archt. has not yet been selected.

SEATTLE, Wn.—Puget Sound Bridge and Dredging Co., Seattle, will commence construction immediately on \$550,000, 6-story and basement, masonry and steel, apartment house at University Way and 47th St., for the Corinne Simpson Wilson Co. Will contain 99 apartments of one to five rooms each, with bath and kitchenette. Frank H. Fowler, Central Bldg., Seattle, architect and engineer.

BANKS

EUREKA, Humboldt Co., Cal.—Until Dec. 12, 2 p. m., bids will be received by Fred M. Kay, county clerk, to furnish and install burglar proof door in vault of county treasurer's office. Cert. check 5% required with each bid. Spec. on file in office of county clerk.

BONDS

PIEDMONT, Alameda Co., Cal.—Election will be held Dec. 15 in Piedmont School District to vote bonds of \$240,000 for school improvements. Trustees of district are: H. D. Bellis, Walter S. Drann and Harriet A. Haas, clerk. W. H. Weeks, 369 Pine Street, is the architect.

MODESTO, Stanislaus Co., Cal.—Dec. 15 is date set to vote bonds of \$175,000 to construct new grammar school or additions to standing buildings. W. H. Weeks, architect, 369 Pine St., San Francisco, is conferring with school board regarding issue.

CHICO, Butte Co., Cal.—January 16 is date set by city trustees to vote bonds of \$475,000 to finance purchase and improve systems of Chico Water Supply Co., Chico Water Supply Co., and Vacino Water Company. About \$100,000 will be used in financing improvements. F. S. Robinson, city eng.

LOS ANGELES, Cal.—City council adopts ordinances calling special elections Jan. 23 for water distributing systems as follows: \$100,000 in Angeles Mesa dist. (Municipal Imp. Dist. No. 14), and \$200,000 for the Palms dist. (Municipal Imp. Dist. No. 18). A special election will be held Dec. 12, in Sawtelle district, to vote a \$250,000 bond issue for a distributing system.

pervisors will open bids Dec. 12 for the purchase of the \$67,000 bond issue of the Healdsburg Elementary School District; proceeds to finance school improvements.

CROCKETT, Contra Costa Co., Cal.—Election will be held Dec. 15 in Carquinez School District to vote bonds of \$240,000 to finance construction of new school. Trustees of district are: J. H. Martin, F. A. Wenn and J. C. Anderson, A. B. Brown, 120 Market St., S. F., is the architect.

HANFORD, Kings Co., Cal.—Bonds of \$8000 voted in Rustic School District to finance construction of one classroom with auditorium school.

SANTA ROSA, Sonoma Co., Cal.—County supervisors reject the bid of the Bank of Italy for the purchase of the Santa Rosa high school bonds due to the fact that the bank accepted the issue with the assurance of the supervisors that the issue was legal. New bids will be asked. Plans for the proposed school to be financed through the issue have been prepared by Architect W. H. Weeks, 363 Pine St., San Francisco.

TULARE, Tulare Co., Cal.—Election will be held Dec. 2 to vote bonds of \$100,000 to construct intermediate school and additions to primary building. W. H. Weeks, architect, 363 Pine St., San Francisco, will prepare plans.

LODI, San Joaquin Co., Cal.—Election will be held December 19 to vote bonds of \$100,000 to finance construction of new sewage disposal plant. L. F. Brazellotti, city engineer.

LOMPOC, Cal.—The \$30,000 bond issue to purchase the Lompoc Light & Power plant carried at the recent election.

PIEDMONT, Alameda Co., Cal.—Election will be held Dec. 15 in Piedmont High School District to vote bonds of \$60,000 to finance additions to high school. Trustees of district are H. D. Bells, Walter S. Brann and Harriet A. Binas, clerk. W. H. Weeks, 359 Pine St., S. F., is the architect.

TACOMA, Wash.—School Board plans to call election to vote bonds of \$2,000,000 to finance construction of new schools and additions to present structures.

CHURCHES

Plans Being Figured Cost, \$70,000.
CHURCH
LOS ANGELES, Los Angeles Co., Cal.
15th and Georgia Streets.
One-story and basement frame and plaster church with tile roof, 94x102.
Owner—Gospel Tabernacle Church.
Architect—Arthur G. Lindsey, Wright & Callender Bldg., Los Angeles.

VISALIA, Tulare Co., Cal.—Church of St. Ed. Rev. E. E. Cully, pastor, will campaign for \$12,500 to finance construction of new church.

ASTORIA, Ore.—Arch. Geo. Durham, Northwestern Bank Bldg., Portland, has prepared plans for First Church of Christ Scientist to be erected here. Brick and concrete construction, seating 350; est. cost \$25,000. Excavation contract has been let to Ostrom Const. Co., of Astoria.

LODI, San Joaquin Co., Cal.—Until December 11, bids will be received by St. Peter's Lutheran Church to construct new church building. Plans on file at Uneda Creamery, 45 N-Sacramento St., Lodi.

LOS ANGELES, L. A. Co., Cal.—Archts. Johnson, Kaufman & Coate, 60x Union Bank Bldg., L. A., have completed plans and are taking bids for erecting the Cathedral and parish house for St. Paul's Pro-Cathedral on Figueroa St., bet. 6th and Orange Sts., L. A. Brick constr., structural steel, stucco and Tufa stone exter., clay tile and comp. rfg., etc., \$400,000.

FRESNO, Fresno Co., Cal.—Methodist Episcopal Church, Rev. E. E. Marshall pastor, has had preliminary plans prepared for a new church. Building committee will be appointed shortly to outline plans for financing.

FACTORIES & WAREHOUSES

Low Bidder On Concrete Work.
WAREHOUSE Cost, \$100,000.
SAN FRANCISCO, N. E. 8th and Natoma Streets.

Two-story and basement reinforced concrete showrooms and wharf (flat slab construction).
Owner—Tailor Investment Co.
Lesses—Gen. H. Tay Co., 2nd and Mission Street.

Alfred H. Vogt, 185 Stevenson St., submitted the lowest bid for the concrete work. The reinforcing steel contract was awarded to Badt-Falk Co., Call Bldg.

Contract Awarded.
ADDITION Cost, \$100,000 to \$150,000.
STOCKTON, San Joaquin Co., Cal.
Church Street bet. McDougall and Stockton Streets.

Tulare City, Nov. 30, 1922.

"CLARENCE SAND Pratt is here.
EATING TULARE corned turkey.
AND HOME-MADE mince pies.
AND ALL it cost Clarence.
IS HIS car fare.
TO TULARE and return.
FOR SANDY (alias Clarence) Pratt.
President.
OF THE Pratt Building Material Co.
DUNGLAS 300—"easy to remember."
HAS A brother here.
HE DID not follow.
IN THE sand business.
AND SHIP clean, sharp sand.
LIKE CLARENCE Sand Pratt.
ALIAS SANDY Pratt.
BUT DRIETED into the lumber game.
SELLING TWO-BY-FOURS.
RUSTIC LUMBER and everything.
HE SAYS.
PEOPLE "PINE" to buy from him.
AND MOST of his doors.
ARE "A jar" (ajar).
SANDY PRATT never could.
SEE THROUGH his glass.
AND HIS nails.
NEVER "DRIVE" home.
SANDY NEVER saw his board walk.

BUT REDWOOD (red would).
BUT THERE is a great difference.
IN CHILDREN.
OF THE same family.
THIS LUMBERMAN brother of mine.
SELLS STICKS, knots and all.
BUT SANDY Pratt.
WASHES and screens.
ALL THE knots, sticks, etc.
FROM HIS sand.
BEFORE IT is shipped.
TO DIFFERENT points in California.
"I THANK you."

Country school house in Tulare County where Clarence Sand Pratt, President of the Pratt Building Material Co., and producer of clean, sharp sand, taught school when he was 19 years old. The clerk of this same school, at the request of the judge, spent 20 years in San Quentin for stealing hogs. No one ever blamed Clarence because the school clerk stole

NOTICE TO CONTRACTORS

(Santa Barbara High School)

The High School Board of the Santa Barbara High School District, County of Santa Barbara, Cal., will receive sealed proposals up to 3 o'clock P. M., on the 14th day of December, 1922, at the office of the High School Board, 1235 Chapala Street, Santa Barbara, Cal., at which time and place said bids will be opened and read and public for furnishing the required labor, material and apparatus necessary for the erection and completion of the New Santa Barbara High School building, Santa Barbara, Cal., in accordance with plans and specifications prepared by Roland F. Sauter and E. Keith Lockard, architect, and W. H. Weeks, architect, and on file in the office of Roland F. Sauter and E. Keith Lockard, 338 San Marcos Building, Santa Barbara, Cal., and W. H. Weeks, 369 Pine Street, San Francisco, Cal.

Proposals will be received on the general construction with its alternate proposals, together with a separate bid on the heating and ventilating.

A cashier's or certified check or bidder's bond in the amount of not less than five per cent (5 per cent) of the amount of the bid shall accompany each proposal drawn to the order of the Santa Barbara High School Board as a guarantee that the bidder will, within five (5) days after being informed of the acceptance of his bid, enter into a contract with said board in accordance with the said bid and shall furnish the surety bonds as required by the specifications. Said check or bond shall be forfeited to said school board should the bidder fail to execute contract and furnish bond as above mentioned.

All bids must be made out of forms furnished by the architects, and enclosed in a sealed envelope addressed to E. Carlotta Dengate, clerk of the High School Board, Santa Barbara, Cal., and endorsed: "Proposal for High School Building." Plans and specifications for all of the above work may be seen at the office of the architects, and a deposit of twenty-five (\$25.00) dollars must be made or each set of plans taken away from the offices of the architects, which amount shall be returned to the contractor upon returning the plans on or before the date set for opening of proposals.

The said board reserves the right to reject any and all bids and to waive any informalities in any bid received.

By order of the High School Board of the Santa Barbara High School district, county of Santa Barbara, Cal.
E. CARLOTTA DENGATE, Clerk.
November 16, 1922.

BIDS WANTED FOR GYMNASIUM BUILDING

NOTICE TO BIDDERS AND CONTRACTORS

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Gilroy High School District, Santa Clara County, State of California, on the 15th day of December, 1922, in the present high school building of said school district in the County of Santa Clara, State of California, for the erection and completion of a gymnasium building in said school district, for the installation of a heating system therein—for the installation of a plumbing system therein—and for the installation of a central heating plant for the above named district, all in accordance with plans and specifications made for the same by Wyckoff & White, the authorized architects, employed by the Board. Proposals will be received separately with alternate propositions on a general contract, plumbing and heating, including everything specified and shown.

Plans and specifications can be seen at the office of Wyckoff & White, Architects, Growers' Bank Bldg., San Jose, California.

A deposit of Twenty Dollars (\$20.00) cash will be required on all plans loaned out as a guarantee of good faith.

All proposals to be made out on blank forms, furnished by the architects, and must be accompanied by a check for not less than five per centum of the amount of the bid made payable to E. E. Brownell, Clerk of the Board, and certified to by some responsible banking house. This check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten (10) days to sign the contract and furnish good and sufficient bonds satisfactory to the Trustees, and as required by law.

Bids will be received up to and including Dec. 15, 1922, at 2:30 p. m., and must be addressed to E. E. Brownell, Clerk of the Board of Trustees of Gilroy High School Dist., Gilroy, California.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees,
E. E. BROWNELL,
Clerk of the Board of Trustees.

Date of first publication, November 17, 1922.

Date of last publication, December 1, 1922.

Post Office, Oakland, Cal. Drawings and specifications may be obtained from the Custodian of the office, in the discretion of the Supervising Architect, Jas. A. Wetmore, Acting Supervising Architect.

Engineering News Section

RIDGES, DAMS & HARBOUR WORK

SAN RAFAEL, Marin Co., Cal.—Until December 5, 3 P. M. bids will be received by Rob. E. Graham, County clerk, to construct 6 culverts on Bonas and Oelma county road; alternate bids will be taken for concrete or corrugated iron pipe. Specifications obtainable from County Surveyor on deposit of \$10.

SANTA ROSA, Sonoma Co., Cal.—Specifications being completed by County Surveyor E. A. Peugh for three concrete bridges on Santa Highway, between Santa Rosa and Schellville; concrete bridge at Windsor; bridge on Upper Dry Creek, another over Pena creek and a structure over Matanzas creek on the Bennett Valley road.

PRESCOTT, Ariz.—Until 11 A. M., December 5, bids will be received by E. Moore, Engineer, Yavapai county highway commission, to construct a double span riveted steel truss bridge across the Agua Fria river near Canon, bridge to be 231 ft. long, with concrete piers and abutments, involving 1100 cu. yds. excavation unclassified, 307 cu. yds. A concrete, 108 cu. yds. B concrete, 33,100 lbs. reinforcing steel in place, steel superstructure in place. Plans and specifications may be obtained from the Yavapai county highway commission upon deposit of \$5. Certified check, 5%.

CALIFORNIA.—Until Dec. 26, 2 p. m., bids will be received by State Highway Commission, Forum Bldg., Sacramento, to construct a reinforced concrete bridge over the Feather River near Hamilton City, Glenn county, consisting of 4 10-ft. steel truss spans and 20 30-ft. reinforced concrete girder approach spans.

Separate bids, same date, to construct bridge across San Francisco-Sacramento R. R. near Denver, Solano county, consisting of 2 34-ft. and one 39-ft. reinforced concrete and girder approaches. See call for bids under official proposal section in this issue.

SAN MATEO, San Mateo Co., Cal.—Until Dec. 11 3 p. m., bids will be received by E. W. Foster, city clerk, to construct, concrete arch and slab top culvert across San Mateo creek bet. B and Griffith Ave., with retaining walls and for certain backfilling into above area; work to be done in connection with widening of Baldwin Ave. Cert. check 10% payable to city required. Plans obtainable from city engineer, G. S. Whitehead.

COQUILLE, Ore.—Until Dec. 21, 10 a. m., bids will be received by Coos County Court, C. R. Wade, judge, to construct two steel bridges, as follows: Steel girder draw bridge over Clatsop slough near Marshfield, involv. 66,000 lbs. structural steel; 62 ft. M. ft. M. lumber; 11,000 lin. ft. piling; 725 lin. ft. trestle and 6500 lbs. machinery. Steel bascule bridge over Coal Bank slough at Marshfield, involv. 220 cu. yds. conc.; 3600 lbs. metal reinforcement; 45,000 lbs. structural steel; 7500 lin. ft. piling; 25 M. ft. B. M. lumber; 210 lin. ft. trestle; 100 cu. yds. excavation and 15,000 lbs. machinery. Cert. check 5% required with each bid. Plans on file with County Roadmaster, Coquille, Ore., and office of State Highway Commission, Salem.

OAKLAND, Cal.—Approx. \$15,000,000 will be necessary to outfit the Oakland harbor on an efficient working basis, according to tentative estimates submitted to the City Council by Harbor Engineer Ralph Beebe. A number of municipal engineers are now working

on a general development survey of the entire waterfront from the Santa Fe holdings to Government Island and within a few months will have a report ready for submission to Public Works Commissioner Albert E. Carter for consideration for the 1923-24 budget.

SACRAMENTO, Cal.—At request of contractors the time for opening bids for levee improvements in Reclamation District No. 1660 has been extended by the State Reclamation Board from Nov. 23rd to Dec. 7. Est. cost \$1,500,000.

SANTA ANA, Cal.—Wells & Bressler Santa Ana, submitted low bid to supervisors at \$12,846 for const. earth levee and a pipe and wire mesh protection fence on the west bank of the Santa Ana river near the Orange county farm, in the fourth road district, involving 17,000 cu. yds. dirt fill at 30c yd., 1300 lin. ft. Elwood fencing at \$1.80 ft. This bid was for type F Elwood fencing as specified. This bid was taken under advisement until Nov. 28, all others were rejected. Other bids were: Hewitt & Feley, La Habra, 26c lin. ft. fencing; total, \$12,633. (This was a regular as pricing specified was used A Elwood). Chas. G. Frisbie Co., 27c lin. ft. fencing; Frank Hudson, 26c lin. ft. fencing; total, \$13,614. C. C. McMurphy, 35c lin. ft. fencing; total, \$13,350. W. M. Ledbetter & Co., 35c lin. ft. fencing; total, \$16,485. Mercereau Bridge & Constr. Co., 50c lin. ft. fencing; total, \$18,046. Southern Cal. Fence Constr. Co. submitted a bid of \$2.08 per ft. for fencing only.

CALIFORNIA.—W. M. Ledbetter, Los Angeles, at \$445.60 awarded contract by State Highway Commission, to construct reinforced concrete bridge across Newhall creek at Newhall, Los Angeles county, inv. est. \$-216.

LOS ANGELES, Cal.—Residents of the district near Pacoima have asked the city council for a reinforced concrete bridge across the Pacoima wash. It is said the county is willing to share a part of the cost. The proposed bridge would be 260 ft. long, costing \$40,000.

SONOMA COUNTY.—As previously mentioned bids will be received by State Highway Commission, Forum Building, Sacramento, to construct bridge over Northwestern Pacific R. R. near Lytton Sonoma County, consisting of 3 32-ft. reinforced concrete spans, with necessary bents, abutments and wing walls. Project involves 360 cu. yds. class A Port. cem. cone. in place; comm. to furnish 3 in. steel in straight bars, cut to lengths and Port. cement.

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

The Diamond "J" Mixer

The Newest of The Barrel Type of Mixer

Rapid in Mixing Action---Easily Charged and
Discharged---Can be rapidly moved from
place to place---Always ready
to go to work

Barrel 33 Inches
From Ground
Easy to Feed

Rubber Tire Truck
Tracks With Auto
Quick to Move

Hook it right on behind your Auto

When a job is finished it is possible for one man to wheel it back of the auto and by the use of one bolt couple it ready for the road.

Contractors do not realize the yardage capacity and the money-making power of the Diamond "J" Mixer. It is capable of turning out from 25 to 30 yards of concrete per 8-hour day, with 4 to 5 men, and the concrete is as well mixed as can be done by any machine, regardless of size.

The Diamond "J" Mixer is adopted to nearly all

sizes and kinds of concrete jobs from the small repair jobs to the large basements and foundations. In fact, a number of contractors now prefer to have 2 or 3 of these small machines rather than one large machine. They can be used separately on small jobs, or two or more on the larger jobs.

The Diamond "J" is built strong throughout, made of the very best material, and will stand years of hard service.

The Diamond "J" Mixer complete with engine weighs about 775 pounds. Write for prices.

NORTHERN CALIFORNIA CONTRACTORS WILL DISCUSS LABOR SHORTAGE

More than 100 construction contractors of Northern California will assemble in convention at the Hotel Whitcomb December 15 and 16. They are facing a serious problem, to carry out projected construction enterprises throughout the State, because of an absolute shortage of labor, and will strive to solve the situation at the San Francisco convention.

Discussing the labor problem, C. H. Gray, Secretary of the Contractors' Association of Northern California, says: "The shortage of skilled contract building labor has become so acute at other points than San Francisco and Los Angeles in this State that both plasterers and bricklayers are now commanding \$16 daily."

BIDS ASKED FOR AMERICAN LAKE HOSPITAL PROJECT

Bids to construct twenty-eight buildings of reinforced concrete, tile and brick construction at American Lake, Tacoma, Wash., comprising the Neuro-Psychiatric Hospital, have been asked by the Quartermaster General, U. S. Veterans' Bureau, 2306 Munitions Bldg., Washington, D. C., from whom plans may be obtained on deposit of \$100. The bids will be opened January 16. The work will include the water, lighting and heating systems, roads and walks. Plans are on file with the Constructing Quartermaster at Fort Mason, San Francisco, and the Quartermaster Supply Officers at Stacy Street Terminal, Seattle, Wash., and New Post Office Bldg., Portland, Ore.

ENORMOUS GAINS NOTED IN BUILDING CONSTRUCTION THROUGHOUT UNITED STATES

In a survey of the general building situation throughout the United States, S. W. Straus Company, says:

"Another month of the most successful year in the history of the building industry of the United States has added new accomplishments to the records.

"With material and labor costs still holding firm, in fact, revealing an upward trend in many localities, the volume of building operations for the whole country, during November, has maintained substantially the same percentage of increase over the corresponding period of 1921 as shown in October, approximately 20 per cent.

"The figures indicate the increase for November over last year to be about \$38,000,000 for the entire country. Based on the most accurate information obtainable at this time total building operations for the same were approximately \$278,000,000, making a total for the eleven months period, January 1 to December 1, of about \$3,578,000,000.

"With a continuation of building operations at the rate which now seems probable, the year 1922 will stand as the greatest period in the annals of the building industry, having to its credit a total of about three and three-quarter billion dollars or more than twice as much as the year 1916, generally accepted as the pre-war normal period.

"Practically every state and city of importance in the country has, during the eleven months of the present year, surpassed its total of building for the entire year of 1921. The seasonal decline, which is usually pronounced in November, has this year been exceptionally light throughout the country.

"Despite some apprehension in other industries as regards approaching shortage of labor, with a possible increase of wages, reports on the labor situation in the building industry indicate that conditions generally become decidedly more stabilized during November.

"While building costs are high, in comparison to pre-war levels, it is worthy of special note that these conditions have neither retarded present activities, in the aggregate, nor, to any serious extent, influenced building plans for the immediate future.

"Conservative forecasts reveal an enormous prospective volume of construction in nearly every section of the country.

"The building material situation is holding firm, with tendencies in certain sections toward slight advances. As in October, building material prices were maintained in November largely by reason of continued transportation congestion."

NEW CEMENT PLANT

The first cement plant to be built in Mexico since 1913 has been completed near the city of Monterey by the Portland Cement Co., at a cost of over \$1,000,000. A railroad spur connects the plant with the main line of the National Railway. The product of this new mill has already been placed on the Mexican market, and the local demand is certain to increase with the return of normal conditions and the undertaking of much-needed construction work.—Exchange.

ENGINEERS OPPOSE TWELVE-HOUR DAY

Engineering leaders agree with John D. Rockefeller, Jr., in his declaration against the 12-hour day. Results of a nation-wide survey of 10 continuous industries made by the committee on work periods in continuous industry of the Federated American Engineering societies bear out the contention that the two-shift system is socially unwise and economically unnecessary.

In a statement issued by Dean Mortimer E. Cooley, of the University of Michigan, it is asserted that the views of Mr. Rockefeller represented "a tendency prevailing throughout the world," and that the United States was falling in line with Europe and Asia. The findings of the engineering committee, according to Bradley Stoughton, chairman of the iron and steel committee of the American Institute of Mining and Metallurgical Engineers, applied generally to the steel industry.

Mr. Stoughton, formerly adjunct professor of metallurgy in Columbia University, conducted a special inquiry into hours of labor in the steel industry and reached the conclusion that three shifts of eight hours each should be adopted both from the standpoint of the industry itself and of the general public.

Others quoted in the statement as opposed to the 12-hour day are Horace B. Drury of Washington, Dr. H. E. Howe of Washington, J. Parke Channing and L. P. Alford.

PORTLAND COMPANY PURCHASES KLAMATH LUMBER MILL

Establishment of another large lumbering operation at Klamath Falls, Ore. is seen in the announcement of the purchase by J. E. Wheeler, of Portland, a member of the timber firm of Sopher Wheeler Co., and part owner of the Portland "Telegram," of the sawmill and site of the defunct Klamath Fine Manufacturing Co. at the south end of Klamath lake and adjoining the plant of the Pelican Bay Lumber Co.

It is understood that the enterprise will be in the hands of a company headed by Wheeler and that the plant will be enlarged and a box factory and planing will be added. According to figures available, Wheeler, of Portland, already owns 29,000 acres of timber land in Klamath county, containing 505,000,000 feet of timber, making them the seventh largest timber owners in the county. The plant, it was said, will be overhauled immediately to prepare for spring operations.

NOVEMBER BUILDING SUMMARY

Building operations in San Francisco for the month of November, 1922, totaled \$2,621,471, according to figures compiled by Chief Inspector of Buildings John P. Horgan, of the Board of Public Works. During the past month Horgan reports the issuance of 638 building permits, of these 385 were for alterations, repairs and additions to standing structures.

Following is a segregated report covering the operations for November:

Class	No. Permits	Est. Cost
C	30	\$ 877,742
Frames	222	1,191,794
Alterations	385	629,839
Public Buildings	1	22,186

Total 638 \$2,621,471

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

ALONG THE LINE

Chas. Jones, prominent lumberman, died in Tacoma, Wn., November 28, after thirty-five years in the lumber industry of Western Washington. Jones was one of the Minnesota lumbermen who came to Tacoma in 1884 and organized the St. Paul and Tacoma Lumber Company. He was interested in many enterprises in Southwest Washington, though he had been retired from active business for several years.

According to a statement given out by the mill owners of Klamath County, Ore., all labor will be put on an eight-hour basis beginning December 15. This will end the controversy over hours which started last spring and which resulted in the timber workers' strike. Greatly increased activity in the lumber industry here for the coming year is forecast by Klamath lumbermen.

Officials of the Santa Fe Railroad have authorized the double-tracking of 68 miles of road between Bagdad and Daguerre, San Bernardino county, at a cost of \$3,000,000. The project, the largest extension program in the Santa Fe's history in California since the laying of the transcontinental line, will connect the final gap of double track between Hicks, a desert station twelve miles south of Barstow, and the Arizona boundary.

August G. Heaman, San Francisco architect, has filed suit in the Superior Court at Marysville against Arthur C. Powell of that city for \$300, alleged due for preparation of plans and specifications for an apartment house to be erected in Marysville at a cost of \$25,000. Bids were taken for construction but Powell decided not to proceed with the structure and refused to pay the architect for services rendered.

Ben H. Covell, Sacramento building inspector, reports the issuance of 211 building permits during the month of November. Construction carried on under these permits represent an expenditure of \$445,770. During the month of October 301 permits were issued, the improvements having a valuation of \$1,375,456.

According to word from Madera, Cal., damages and costs to the amount of 20 thousand dollars are asked by Henry Sandberg versus the McMillan-Raymond Granite Company, et al, for injuries alleged to have been received by 18 year old Sulo Sandberg while riding on a quarry train in April, 1921. The boy died about an hour and a half afterwards. The case will be tried in the court of Superior Judge Stanley Murray.

E. A. Bradley of Los Angeles, was elected a member of the Board of Directors of the National Paint, Oil & Varnish Association at its recent meeting at Atlantic City. Lewis R. Atwood of Louisville, Ky., is the new president of the association.

Tim Ryan Jr., for the past six years in the employ of the Sunset Lumber Co. at Salinas as assistant bookkeeper, has been appointed general manager. Ryan succeeds A. F. Wilkes, who is leaving for the north.

Suit for \$2984.70, alleged to be due for building materials, has been brought in the Superior Court of Santa Clara county by the Dudfield Lumber Co., a corporation, against Monte Vista Canning Co. The plaintiff claims that no part of the amount due has been paid and asks the court to declare the judgment prayed for, a lien against the defendant. The Monte Vista Canning Co. is a new company which this year opened a large cannery at Monte Vista, twelve miles west of San Jose.

Northern Pacific Railroad, with headquarters at Seattle, Wash., will expend \$5,500,000 in the purchase of equipment during 1923, including 3000 box cars, 33,000,000 worth of new locomotives including sixteen of the large freight engine type, ten new passenger engines and twenty-five mikados.

The Reno, Nevada, Builders' Exchange will hold its first annual banquet in the Odd Fellows Lodge Building, Reno, Saturday evening, December 6. Among the speakers will be Charles S. Knight, president of the Reno Chamber of Commerce; A. W. Norris, president of the Sacramento Builders' Exchange, and Charles W. Gompertz of San Francisco, president of the California State Builders' Exchange.

Goaded into action by the growing practice of various municipal corporations and public organizations calling for bids for big projects, then accepting their engineer's "estimate" and carrying out the work under the day labor plan, the executive of the Contractors' and Masters Builders' Assn. of Vancouver, B. C., has called a general meeting towards making a strong protest against this practice which threatens to involve the very existence of the contracting industry in that section.

That the mining of asbestos has not been attended with any large degree of profit is indicated by the action of the American Ores and Asbestos Co., which now is dismantling its furnace works and plant in the Sierra Ancha mountains, north of Globe, Ariz. The work is being done by the Southwestern Wrecking Co. of El Paso, under the supervision of Homer C. Hirsch.

Engineering Experiment Station, Urbana, Illinois, has issued Bulletin No. 133, a study of explosions of gaseous mixtures, by A. P. Kratz and C. Z. Rosecrans. Copies will be furnished on request without charge.

The Paraffine Cos., Inc., has purchased forty acres of land adjoining the present plant in Emeryville on which it will construct additions to handle increased business.

The Western Refrigerator Line of San Francisco, organized for the purpose of icing fruit cars for eastern joints, has filed articles of incorporation. Company is capitalized at \$100,000.

A large tract of government timber in Washington and comprising about 111,300,000 board feet of Douglas fir, cedar, white pine and hemlock, has been awarded by the Forest Service to the Elsworth-Bishop Logging Co., according to word from Portland, Ore.

Geo. W. Nielson, Sacramento contractor, died in that city December 1.

Establishment of a school in Fresno for the training of plumbers is proposed by J. W. Hunt, manager of the Valley Industrial Association. Matt Spear, master plumber of Fresno, will be in charge of the school.

The Ward Lumber Co., of Modesto, has purchased the Modesto Lumber Company holdings at Waterford. The consideration is said to be in the neighborhood of \$50,000.

The Cooley Hardwood Manufacturing Company has purchased a two-acre site at Nineteenth Avenue and Dennison street, Oakland, and will engage in the sale of hardwood flooring and other hardwood products.

The \$250,000 bond issue of the Yuba City Union High School District has been sold for a premium of \$17,826. Proceeds of the sale will finance construction of a new high school.

Carl Haase has been appointed building inspector of Santa Barbara in addition to his duties as purchasing agent. H. J. Miller is the new electrical inspector, and J. McPeak the new plumbing inspector.

T. D. Martin, City Engineer of Merced, has been granted a leave of absence to make a European trip. Engineer Martin will be in distant lands for about a year.

The question of issuing bonds of \$100,000 to finance construction of sewage disposal plant will come before Lodi voters December 19.

Dr. C. H. Bulson, of Napa, heads company which proposes to erect a \$300,000 tubercular sanitarium overlooking Capell Valley, seven miles from Napa. Construction will be started next Spring.

The R. S. Leafless Co. of Fresno has been incorporated. Company is capitalized at \$150,000. Directors are: Frank Waterfield, Jefferson J. Robbe and Dave Schuler all of Fresno. Company will manufacture vehicle springs.

Plasterers working on the additions to the high school at Tonopah, Nevada, are on strike for \$12 a day. They were receiving \$10.

Berkeley contemplates a bond issue for several million dollars to improve water front lands.

Tacoma, Wash., will call election to vote on bonds of \$2,000,000 to finance school improvements.

Lieut. Col. Geo. M. Rice, formerly of the 18th Engineers and in charge of considerable construction work in France during the world war, has been elected Superintendent of the Streets and Sewers Department of the City of Seattle.

California Must Refinance or See Cessation of Highway Construction During Coming Year, Says Commission

California faces a minimum expenditure of \$135,000,000 on its State highway system, taking into account only the roads now in the system, and with no regard to new mileage that may be brought in by legislative action or vote of the people.

Funds made available for highway construction out of the \$40,000,000 bond issue will either be spent or obligated before the end of 1923.

The people of California must either finance the work or be prepared to see a cessation of highway construction at the close of the coming year. These are the outstanding features of the biennial report just submitted by Governor Stephens by the California Highway Commission.

The \$135,000,000 is made up of \$100,000,000 estimated to complete the present unimproved mileage now in the State highway system, and \$35,000,000 which it is estimated will be needed to widen and thicken arterial highways of the State and to eliminate railroad grade crossings from the highway system. Credited against this estimate of \$135,000,000 are funds remaining of the \$40,000,000 bond issue. Aid funds that will be available under future Congressional appropriations, and allotments to projects now under way but not completed.

Major Recommendations
Major recommendations included in the report follow:

1. While another bond issue appears to be imperative, the users of the roads should be made to bear a larger share of the highway burden than has been placed upon them in the past.
2. Future bond issues should not contemplate providing funds for completion of the entire system. The public should realize that the completion of the State highway system is many years in the future and that as California grows, its road system must grow with it. Disappointment can only follow any bond issue which the people are asked to vote with the promise that it will be the last one.
3. The preferable method is to ascertain the amount of work that can be economically and efficiently undertaken by the California Highway Commission each year, and under normal building conditions. With this ascertained, the work should then be financed for a period of not less than five years. In the opinion of the Commission, \$12,000,000 represents the maximum annual construction program that should be undertaken under present building conditions and costs. Such a plan would require a rigid budgeting of the funds of a bond issue. Some financial flexibility is absolutely necessary in the conduct of the work. This can be secured if federal funds are left unbudgeted.
5. The gasoline tax and an increase and equalization of the motor vehicle fees offer a practical and fair method of raising a larger share of highway costs upon highway users.
6. The legislature should definitely and rigidly refuse to designate roads as State highways unless at the same time financial provisions for their improvement and maintenance are provided; nor should any roads be included in a bond issue unless a definite allotment for the construction of these roads is made.
7. The maximum permissible weight on State highways should not exceed 22,000 pounds. It is now 30,000 pounds.
8. An adequate force of State motor police be authorized for the enforcement of traffic laws on State highways.
9. The above police be under the authority of the State Highway Commission, the body responsible for the protection and maintenance of highways.
10. Where portable scales reveal that a truck is overloaded, traffic of-

ficers be authorized to demand the removal before the truck proceeds on the highway; the so-called Maryland plan.

Budget Protected
Despite abnormal building conditions and costs, and despite continued attempts to force the Commission to abandon the budget, the Commission has so safeguarded the expenditure of funds that every budget obligation has been and is protected.

Highway Financing Methods
Much of the report is devoted to a discussion of highway financing necessities and methods. Three plans for financing are outlined, namely the pay-as-you-go plan, the bonding plan and the third plan combining features of the first two, which is declared by the Commission to be the best suited to California's need at this time.

Transition Period
Discussing highway construction policies the Commission declares that "The fact should not be forgotten that the highway transportation system of the state and nation is undergoing just such a change as the railroads experienced."

"Under the traffic that they themselves created," the railroads passed from a period of light construction to a period of heavy construction; from the 40 pound rail to 110 pound rail; from single track to the double track; from the C. & P. Huntington engine, which today looks like a toy, to the giant Mallets.

"In 1910 when State highway construction was first started in California, the total registration of motor vehicles was 44,142 and in 1922 to date is in excess of 816,000. If figures were available for the two years in motor vehicle miles or in ton miles, the comparison would be even more astounding."

"The problem before the Highway Commission was and has been to develop a type of road that would give a serviceable mileage to the State; that would take care of traffic increasing in an almost unbelievable manner; and that could be widened and thickened as the volume of traffic requires without the loss of the original investment."

"The success with which this difficult problem was met constitutes a triumph of the engineering department of the California Highway Commission that has won for the department an enviable position in engineering councils the world over."

Widening and Thickening Highways
The report states that all available funds for widening and thickening highways have been exhausted, and that this work must stop unless specific funds for its continuation are made available by the next legislature and the incoming Governor. Discussing this problem and the change in types of roads to meet increasing traffic, the Commission reports as follows:

"Beginning with the slab fifteen feet wide and four inches thick, the condition of California roads were progressively bettered as traffic increased. The minimum thickness was increased to five inches with greater thickness where subgrade conditions demanded it. "Steel reinforcement has been used in increasing quantities. Super-elevation has taken the place of the flat curve. Roads have been widened to the extent that California permits; the edge of the road, always a weak spot, has been thickened and strengthened. "The traffic has become so enormous now, however, that the Highway Commission desires to repeat its warning of four and two years ago, that the state must proceed to widen and in many places thicken its main highways unless approximately 150,000 miles of main state highways are widened and thickened within the next five

years, the loss through traffic impact and traffic congestion will be very great."

The Commission states that if roads are widened and thickened at the proper time "in California hardly a section can be found where a pavement slab, weakened by unforeseen traffic, will not show a salvage value of from 75 to 90 per cent of its initial cost if it is made a part of a thicker and wider roadway."

What Is a Permanent Highway?
The Commission emphasizes what it declares to be the "need to educate the public mind as to the component parts of the road, that people may know that the surface pavement is but a part and in fact the least permanent part of an improved road. The public needs to be informed that pavement is always liable to show distress under excessive traffic, and that the really permanent portions of a highway are, the graded road bed, which usually improves with years under traffic; and the drainage structures."

Big Building Program
Certain very definite reasons made it imperative in the opinion of the Highway Commission, to undertake a large building program during the period covered in the report. In ten years' time the registration of motor vehicles in California has increased over 1750 per cent, and the demand for additional improved highways was increasing in intensity. The peak of excessively high building costs that followed the war passed, and prices showed a sharp decrease. Contractors were easier to work. Unemployment was prevalent, and the fact that highway work employed a large volume of unskilled labor and was distributed over the entire State made it particularly desirable to undertake a large amount of highway construction. The extent of the road building activity of the past two years will be realized when it is stated that in November, 1920, there were 25 contracts and day labor jobs under way on the State highway system involving 250 miles. On July 1, 1922, there were 152 contracts by day labor jobs with a total of 1063 miles. During the period 600 miles of State highway have been completed and 89 miles of highway widened and thickened.

Contracting Policy Favored
In pursuance of its policy of contracting highway work wherever it was feasible so to do, the Commission during the period under discussion has awarded \$13,500,000 worth of work and has undertaken \$4,700,000 in day labor jobs.

Road Types
Concerning road types the report says:

"While the prevailing type of road constructed in California has been of the cement concrete base type, the Highway Commission is strongly of the opinion that there is no one universal type of road."

"The type of improvement to be selected for any road depends primarily upon subgrade conditions, the probable traffic to which the particular road will be subjected and the amount of money available for its construction."

Tests Vindicate California Plan
The report calls attention to the Pittsburg road tests and declares that this test proved beyond question "that the tonnage carried on this test road developed beyond question that the highways built under California specifications afford a traffic service that makes the investment a most profitable one. Once more it is proved that Cali-

fornia's policy of building the roads to suit the traffic and without (over-designing) them is the right plan, economically. The easy way would have been to have made the pavement slabs (over massive) ten years ago but it would have been a wasteful policy."

Battling With The Adobe

Under the caption "Battling with the Adobe" the report refers to the study of the California Highway System made by the U. S. Bureau of Public Roads in which it was found "that 87 1/2 per cent of the paved highways of California were in good serviceable condition. Pavement constituting 12 1/2 per cent of the entire mileage was designated under six classes varying from a condition where travel was somewhat impeded to one where the road was considered impassable. THE ABOVE-WORTHY FACT THAT OF 12 1/2 PER CENT, WHICH CONSTITUTED THE IMPAIRED HIGHWAY, 70 PER CENT WAS ON ADOBE SOIL."

Experiments now under way in which the California Highway Commission and the U. S. Bureau of Public Roads have joined in an effort to solve the adobe problem are outlined. Other experiments now under way are described. These include the treatment of adobe subgrades with oil, cement, lime, sand, gravel; the use of pre-cast slabs for pavement; treatment of asphaltic roads to increase their rigidity and to reduce the danger of skidding; methods of increasing the even riding qualities of pavement, in order that both comfort and riding may be increased and impact damage reduced; construction of various types of roads under similar traffic, subgrade and climatic conditions, so that field comparisons of the cost and service of these types may be obtained.

Roads Built by Convict Labor

Describing convict labor on roads, the Commission says:

"During the past two years, convict labor has been used on the state highways to the maximum extent that it has been possible so to do. In the early months of this period, the use of such labor was made particularly desirable by the shortage of free labor. It is the belief of the Commission, however, that even under normal labor conditions the value of convict labor on highways to the state and to the convicts themselves is such that all available labor of this kind should be employed. There are certain difficulties inherent in this work but these can be overcome when to firm control is added kindness of treatment and generous attention to physical comforts."

"The state is securing excellent roads from convict labor. Experience has shown convicts work best on original construction and that they are apt to lose interest if assigned to the more monotonous work of reshaping or widening a road already constructed. Accordingly, the men are concentrated on sections where first construction is under way. A total of 132 miles of state highway has been built by convicts."

"Experience has also shown the civilian residents of the sections in which these men are employed have little to fear from the proximity of convict camps. In the past two years there have been 92 escapes from the convict camps. Of these escapes 60 men have been captured. Remembering that 1906 convicts had been released on highways during this same period, the number of escapes is exceedingly small."

"Equally important as the saving to the state by convict labor is the value of the work to the convicts themselves. This labor affords an opportunity for men convicted of crime to step gradually from prison to free life. The eagerness with which convicts seek this work and their general good behavior in camp reflects the worthwhileness of the work to the men."

"The Highway Commission believes that the policy of employing the maximum available convict labor in highway work should be continued not alone because of its saving to the state, but also because of the saving in human values that constructive em-

ployment in an out-of-prison environment makes possible."

New Roads and Bridges
Everywhere in the State, says the report, cities and counties are asking the inclusion in the State highway system of a large mileage of highway not now a part of the system, but for the inclusion of which very valid arguments are offered. The counties also are showing an increasing unwillingness to construct bridges on State highways, and the time appears to be not far off when bridge construction must be undertaken by the state along with the construction of the road bed proper.

Highway Beautification

Other points developed in the report are:

The beautification of the highways by planting shade trees pays not only from the increased enjoyment that the trees give but the protection of the shade to the pavement itself justifies the maintenance of these trees.

Roadside Advertising

The efforts of the Highway Commission in keeping the right of way clean of advertising is largely nullified by the willingness of property owners to permit this advertising immediately across the right-of-way line. Newspapers' women's clubs and civic clubs generally should join in creating a sentiment against the "Nightmare of turistic advertising that renders unsightly the vicinity of state and county highways."

Grade Crossings

Since the inception of state highway work 163 grade crossings with railroads have been eliminated. There are still 250 grade crossings on the state highway system. Funds should be provided to permit the complete elimination of these grade crossings on a wholesale removal plan.

Camp Sites

The large and increasing volume of recreational travel on the State highways is bringing to the front a new problem, that of ways and means of caring for this travel. The problem of sanitation is in many places already perplexing authorities. With this large travel the fire hazard to forest and field has also increased. Apparently the state and forestry officials will be forced eventually to concentrate camping on the more largely traveled routes at selected camp sites.

Snow Plows For Roads

"Increasing travel upon the roads requires that they be kept open either through the winter or for a much longer period that has hitherto been the practice. Following the heavy snowfall which closed the Ridge Route last winter, arrangements were made by the California Highway Commission to keep available there snow plows to prevent the necessity of again closing the road because of snow. In the Sacramento River Canyon the heavy travel has occasioned a demand for an all-year route. A snow plow accordingly will be kept in service there."

"It would seem that the time is not far distant when mountain roads will be kept open as long as there is sufficient travel to justify the expense. This development is of further importance inasmuch as if the highway snow plow proves a success, mountain roads may be routed over higher elevations, at a saving of millions of dollars in construction costs."

Traffic Census

The California Highway Commission is now engaged with the United States Bureau of Public Roads in a complete traffic census of the state highway system, the cost of which will be equally shared. This study should give an approximately correct estimate of the volume of traffic on the state highways, the tonnage the highways carry, the peaks and the depressions in the traffic load. Most counties having

improved systems are cooperating in this work by taking a traffic census on important county thoroughfares.

Governor Stephens on Highways

The report closes with appreciation expressed toward Governor Stephens and other officials and boards who have cooperated with the Highway Commission. The closing paragraphs are taken from a statement on California Highways issued by Governor William D. Stephens:

"We must not forget that in ten years time California has created a road system that has challenged and received the admiration of the world. We should not be forgetful of the fact that this system of highways has been so laid out that it serves today not only the large cities of the state but in addition 66 per cent of the population of California, not including San Francisco and Los Angeles, are directly served by state highways. We should not be unimpaired of the economic value of these highways, and should appreciate the importance of the economic service of these roads, a service estimated by the Bureau of Public Roads at \$20,000,000 in 1926 on a total expenditure of \$42,000,000. Nor should we be forgetful of the fact that California's highway system, involving as it does the expenditures of many millions of dollars, has been constructed without a breath of scandal or a suspicion of graft. The highways of California are today making the lives of our people infinitely more happy, and are making our state the playground of the nation."

"I strongly feel that the good road forces of the state should join hands and in the words of former Secretary of Agriculture, Hiram Bingham, in the report of the United States Bureau of Public Roads on the California highway system, this state should 'continue the program of highway development upon which such splendid advancement has already been made'."

The report is signed by N. D. Darlington, Chairman of the California Highway Commission, and Chas. A. Whitmore and George C. Mansfield, Commissioners.

U. S. AGENTS COMPLETE S. F. BUILDERS' INVESTIGATION

An investigation by Department of Justice agents into an alleged criminal conspiracy on the part of San Francisco building contractors and building supply firms to monopolize the market in supplies and to restrain trade, has been completed and the evidence laid before United States Attorney John T. Williams.

The investigation was started two months ago when the defendants were proceeded against in the State courts on charges of violating the Cartwright anti-trust law. The prosecution was the result of the introduction of the so-called American plan or open shop into the building industry here.

Williams states that while he had not been instructed to proceed against the contractors and building supply firms for alleged violations of the Sherman anti-trust law, it is likely that such a course will be adopted if the investigation warrants.

WESTERN ELECTRIC COMPANY HAS BIG YEAR

Charles G. DuBois, president of the Western Electric Company, announces that the sales of that company for the ten months ended October 31 last, amounted to \$170,000,000. This is more than the total sales for 1920, which were the largest in the company's history.

During the first ten months in 1932 orders received have aggregated \$152,000,000, which is about \$24,000,000 more than for the corresponding period in 1921. Western Electric on October 31, 1932 had on its payrolls 50,177 employees which is the largest number in the history of the company, and an increase of almost 5000 compared with the first of the year.

ORGANIZATION NEWS

Co-operation Is Watchword of Sacramento Builders' Exchange

(By A. W. Norfls, President Sacramento Builders' Exchange)

Standing as the authorized representative of the building industry in Sacramento, the Sacramento Builders' Exchange has done much and is laying plans to do more to advance the prosperity and industrial well being of the city.

The one word upon which the exchange is founded is co-operation. Co-operation between members in the same line of business is to be expected, but the big exchange is gained through its acting as the proverbial watchdog over everything pertaining to the building industry. The average citizen who builds his modest home or the business man who erects his hotel, department store or warehouse, probably does not realize the extent to which the exchange enters into his particular construction job.

Directors Represent Members

The exchange is composed of 95 per cent of the contractors, in all lines, in the city of Sacramento. Each of these members, through a governing body of 11 directors, has a definite hand in shaping the policies of the exchange. The directors, through familiarity with the requirements of the various crafts making up the exchange, are able to intelligently regulate the manner in which these crafts do business and the manner in which they deal with the public.

Membership in the Sacramento Builders' exchange is limited to those contractors of the city who can convince the directors that they are able to successfully finance and handle such contracts as may be offered to them. When a member accepts work from the public it is practically an assured fact that the work will be completed rapidly, economically and satisfactorily.

Regulate Wages and Conditions

Possibly the most important work of the Builders' exchange with respect to its effect upon the building public, is the method in which wage scales and working conditions are regulated.

The Sacramento Builders' exchange has in effect at the present time an agreement with the Building Trades Council, which represents the great bulk of organized labor in the city. This agreement has a three-fold purpose.

In the first place, the Sacramento Builders' exchange is assured of wages and working conditions which will prevail over a considerable period of time. In other words, each contractor in the organization is able to intelligently and safely figure jobs with the assurance that there is not likely to be variations in wages paid during the progress of the job.

Agreement Aids Workmen

The laboring man is, through this agreement, able to secure a fair and

equitable payment for his services.

The building public probably secures the greatest benefit through an agreement of this nature, because of the fact that it tends to stabilize building conditions. Contractors are able to figure jobs more intelligently and closer than would be the case if he were not able to tell during the progress of the job what demands were going to be made upon him by organized labor.

The public benefits through this agreement because it specifically states that there shall be no rules or practices countenanced by either party to the agreement whereby production may be limited or restricted, and it is left to the employer to determine the amount and quality of production and the tools which are to be used. It further states that production must not be hampered by restraining rules or practices on the part of any employees.

No Limit On Apprentices

The agreement further provides that no limitations shall be permitted to be placed upon the right of any person to learn a trade, and it is well to mention here that the exchange is in the midst of a campaign at present to increase the number of apprentices in all trades. An active committee is at work on this matter and it is co-operating with a similar committee from the Building Trades Council and the Sacramento school department.

The agreement of the exchange with organized labor is the Magna Charta of the building industry. It assures the average citizen of a square deal when he is spending his money for building purposes.

The entire organization of the exchange is at the services of any citizen who cares to use it. An office is maintained at 1015 1/2 Tenth street, with a secretary in charge. Statistics and data relative to the building industry are on file and publications and magazines having to do with construction work are available.

Interested in Progress

The exchange is active in the interest of all things which will advance Sacramento as a city, and it stands ready to assist in any way possible to further the best interests of the city or its citizens.

It is the belief of the directors of the exchange that in the work of the city council, the chamber of commerce and other industrial and commercial organizations to further the industrial growth of the city one point must not be lost sight of, that home building is one of the finest forms of home industry.

America's most famous exponent of thrift, Andrew Carnegie, has said: "Real estate is undoubtedly the very best investment for small savings."

of \$100,000 to finance roadwork and paving projects.

Eastern interests are in conference with the Hayward Chamber of Commerce regarding the establishment of a motor truck assembling plant in that city.

HUTCHINSON LUMBER COMPANY HAS ELECTRICALLY OPERATED PLANT

Electrical logging has been established as an unqualified success in the forest holdings of the Hutchinson Lumber Company, east of Oroville. This is the verdict of P. N. Webber, field superintendent of the company. The mill at Oroville and twenty-five miles of railroad are also electrically operated.

At the present time four big donkey engines are hauling logs to the railroad, and a fifth is to be installed. The railroad is constantly being extended further into the forest, several grading crews now finding employment.

Two hundred men are employed in the woods at the present time, and the company is planning to continue its logging operations through the winter months. The mill in Oroville will remain in operation continuously.

Webber states that the operation of the electric donkeys offers no special or particular problems, while the ease, rapidity and economy with which they may be handled offer many advantages.

The Hutchinson Timber Company is the second electrically operated lumbering concern in America. The mill in Oroville was put in operation in May, 1932, the date of its completion. It employs 400 men, day and night shifts.

HOUSING SHORTAGE STILL PRO- NOUNCED

There still exists in the United States a general shortage of both residence and business property and although the past year has seen a tremendous building activity, there is as yet no overbuilding. This is the report of the bureau of information and research of the National Association of Real Estate Boards following compilation of a report made after a complete survey of real estate business conditions throughout the country. The survey was made through national committees of the 184 real estate boards and the compilation is a resume of their findings.

The report also clearly indicates that in all parts of the country the amount of building permits issued this year is far ahead of last year, although in some instances the cubic feet of actual production is less than last year. The report indicates that mortgage money is becoming available steadily in increasing amounts and that 7 and 6 per cent are the general prevailing rates.

STRUCTURAL SALES SHOW DECLINE

A marked seasonal decline in the sales of fabricated structural steel in October is announced by the United States Department of Commerce. October sales amounted to 54.9 per cent of shop capacity, compared with 61.6 per cent in September.

Reports received from 149 identical firms from April through October, with a shop capacity of 221,790 tons per month, show the following actual tonnages booked each month and the percentage of shop capacity represented by these bookings:

	Tonnage booked	Per cent of capacity.*
April	191,895	86.5
May	172,268	77.7
June	153,278	69.1
July	143,997	64.9
August	143,515	64.7
September	136,547	61.6
October	121,763	54.9

*The inclusion of additional firms this month has made slight revisions in the per cent of capacity reported previously.

October sales prorated for one firm which failed to report and represented about 1 per cent of the total.

Construction of \$500,000 cement plant on the W. E. Baker Farm at Baker, Ore., is planned by parties whose names are withheld until negotiations are completed.

San Diego County Supervisors contemplate calling election to vote bonds

APARTMENT HOUSES

Permits Arch. 4 For.

APARTMENTS Cost, \$20,000
SAN FRANCISCO, N Sacramento 200 W Franklin.

Three-story and basement frame and plaster apartments (6 4-room apts)
Owner—A. F. Frick, 2006 Mission St.
Architect—A. J. Horstmann, 303 Anglo Bldg., San Francisco.

Completing Plans—Ready For Bids In Two Weeks.
APARTMENTS Cost, \$25,000
OAKLAND, Alameda Co., Cal. nr Lake Merritt.

Three-story and basement frame and stucco apartments (6 4 and 5-room apartments).
Owner—Withheld.

Architect—Louis M. Upton, 454 Montgomery St., S. F.

To Be Done by Day's Work.
APARTMENTS Cost, \$24,000
OAKLAND, Alameda Co., Cal. SE Park Blvd. and Kingsley.

Two-story 22-room frame apartments.
Owner—W. E. McChesney, 1315 San Luis Ave., Oakland.
Architect—None.

Sub-Figures Being Taken—To Be Done by Day's Work.
APARTMENTS Cost, \$100,000
SAN FRANCISCO, S Sutter 137-6 W Leavenworth Street.

Five-story and basement concrete apartments (29 apts.)
Owner—A. F. Falvey, 2059 Lake St., San Francisco.

Plans Being Prepared.
APT. HOUSE Cost, \$1,000,000
LOS ANGELES, L. A. Co., Cal. N E Wilshire Blvd.

12-story (4 8 A apt. house 150x130 320 rooms).

Owner—Min. Critchfield, E. Tropp and A. C. Blumhardt.

Architect—H. J. Bond and Condit, 234 Pine St., S. F.

Contracts Awarded.
APARTMENTS Cost, \$80,000
SAN FRANCISCO, N Bush 135 W Mason

Five-story and basement brick apartments (20 apartments).
Owner—Mrs. D. Bessy.

Architect—W. H. Crim, Jr., 425 Kearny, Marble & Mesole Work awarded to Henry Adams, 1727 Mission Street 1419.

Mill Work to Empire Planing Mill, 750 Bryant St., S. F.

Brick Work, Hollow Tile & Pipes to C. B. Hook, 130 Jessie, 29475.

BERKELEY, Alameda Co., Cal. Arch St.

Two-story and basement frame and stucco apartment house, 27 rooms, 8 apartments.

Owner—J. O. Davis.

Architect—W. H. Ratcliff, Jr., First Natl. Bank Bldg., Berkeley.

Figures are being taken for a general contract.

BANKS

Sketches Being Prepared.
APT. HOUSE Cost, \$12,000
BERKELEY, Alameda Co., Cal. Shattuck Ave.

One-story class C store and bank bldg.

Owner—Withheld.

Architect—Louis M. Upton, 451 Montgomery Street.

BONDS

RICHMOND, Contra Costa Co., Cal.—Bonds of \$150,000 voted at recent election to finance purchase and equip playgrounds. H. D. Chapman, City Engineer.

STOCKTON, San Joaquin Co., Cal.—Proposition to issue bonds of \$1,300,000 for the construction of the Calaveras flood control project was defeated at a recent election.

BERKELEY, Alameda Co., Cal.—City Council will be petitioned to call election to vote bonds of several million dollars to finance improvements to the Berkeley harbor.

EUREKA, Humboldt Co., Cal.—City council adopts resolution to call election to vote bonds of \$100,000 to purchase of ties, rails, cars and other equipment for Municipal Railway system. Harry Hannah, city eng.

STOCKTON, San Joaquin Co., Cal.—Proposition to issue bonds of \$19,000 for the Oak Park extension project failed to carry at recent election.

EUREKA, Humboldt Co., Cal.—City Council adopts resolution to call election to vote bonds of \$100,000 to purchase and improve park lands.

MARYSVILLE, Yuba Co., Cal.—Election set for November 29th in Honcut-Yuba Irrigation District to vote bonds to finance construction of irrigation works called off by directors of district. Another election will be held under a plan acceptable to the State Engineer and the State Bond Commission who failed to endorse the project under which the cancelled election was slated.

SAN DIEGO, Cal.—City Mgr. F. A. Rhodes announces that a \$100,000 bond issue will be required for the new street improvement program. New pipe for water mains will involve over \$250,000.

RICHMOND, Contra Costa Co., Cal.—Proposition to issue bonds of \$50,000 for public building, gymnasium and recreation place failed to carry at recent election.

RICHMOND, Contra Costa Co., Cal.—Proposition to issue bonds of \$50,000 to finance municipal auditorium failed to carry at recent election.

RED BLUFF, Tehama Co., Cal.—Election will be held in Red Bluff School District to vote bonds of \$27,500 to finance construction of school to replace the Lincoln school which has been condemned.

RICHMOND, Contra Costa Co., Cal.—Proposition to issue bonds of \$100,000 to finance construction of city hospital failed to carry at recent election.

MIDDELTOWN, Lake Co., Cal.—Election will be called shortly to vote bonds to finance construction of a new grammar school.

SAN JOSE, Santa Clara Co., Cal.—Supervisors sell \$13,000 bond issue of Saratoga School District for premium of \$408; proceeds of sale to finance construction of new school building.

LIVINGSTON, Alameda Co., Cal.—Election will be held January 20 in Washington Union High School District to vote bonds of \$150,000 to finance construction of new high school.

HOLLISTER, San Benito Co., Cal.—Supervisors sell 20,000 bond issue of Pacheco School District for premium of \$700; proceeds of sale to finance construction of new school.

TULARE, Tulare Co., Cal.—January 9 is date set to vote bonds of \$50,000 to purchase site, build and equip fire house and improve city hall.

FULLERTON, Cal.—An election will be held Dec. 18 to vote on the proposed sewer bond issue of \$250,000 to provide for Fullerton's share in the outfall sewer.

SAN FRANCISCO.—Public Utilities Committee of Supervisors contemplate calling election to vote bonds to finance construction of extensions to Municipal Railway system. M. M. O'Shaughnessy, city engineer.

SAN DIEGO, Cal.—County supervisors are planning to submit to the people at an early date, a bond issue of \$1,000,000 for roadwork and paving.

PASADENA, Cal.—Proposal to issue bonds of \$500,000 to secure a system of bus transportation with storage and repair shops, etc., failed to carry at recent election.

PASADENA, Cal.—Bonds of \$200,000 voted to provide water distributing system and \$250,000 to acquire existing water system.

CHURCHES

Commissioned To Prepare Plans
CHURCH Cost, \$500,000
PASADENA, L. A. Co., Cal.—N. W. Union Street and Marengo Ave.
Church.
Owner.—First Baptist Church.
Architect.—Carleton M. Winslow, 1134 Van Nuys Bldg., L. A. and Frederick Kennedy, Jr., Chamber of Commerce Bldg., Pasadena.

Plans Being Prepared.
SYNAGOGUE Cost, \$50,000
FRESNO, Fresno Co., Cal.—Calaveras & "N" Streets.
Synagogue (Community Center and School).
Owner.—Temple Beth Israel.
Architect.—Robt. B. Hotchkiss, Powell Bldg., Fresno.

EASTON, Fresno Co., Cal.—Building committee has been appointed by Methodist Episcopal Church to raise funds to finance construction of \$30,000 church building at Elm and Humboldt avenues.

STEVE, Contra Costa Co., Cal.—Rev. R. L. Webb, pastor Steve Presbyterian Church, has had plans prepared for a one-story concrete block church 25 by 190 ft., with auditorium seating 300. Estimate cost \$13,000. Funds are now being raised.

SAN FRANCISCO, Cal.—Herman Bosch, 429 Fulton St., has been awarded a contract by the Roman Catholic Archbishop of S. F. for the metal framing, lathing and plastering for a church building on the north side of Filbert St. 137-5 E. Powell St. Contract price \$657.57. Chas. Pantoni, 559 Montgomery St., is the architect.

brown, croscote oil, acetone, glue, box
car siding, etc. Copies of Circular No.
1502 may be had from ATIS, Purchasing
Agent, Fort Mason, San Francisco.

LIONS ENJOY VISIT FORMER TULAREAN

Tulare Lions yesterday heard two interesting talks, one vocational by Nevin Seamonds, the other reminiscent by Clarence F. Pratt, former resident of Tulare and described by his brother, Leonard Pratt, the lumberman, as the first "white" child born in the city. It is said many Indians arrived ahead of Clarence. George Burnett, Rotarian, was also a guest.

Mr. Pratt announced that he and Roy Hodges are full cousins, and told how while boys they tried to become broncho busters, eliciting much laughter and a retort from Mr. Hodges. As an ardent Rotarian, Mr. Pratt delved deep into the purposes of the service clubs and told the younger Lions what is expected of them and how they may accomplish much. He said his ambition is to drive six horses down Market street, San Francisco, although he has little hopes of ever achieving it.

At request of Jim Smith, chairman of the Goodfellowship Committee, Clarence Pratt gave interesting details of the sand business, in which he is one of the biggest factors in California. He said his company sells annually 200 tons of fine sand at \$1.50 a ton, which goes into cartons to feed canary birds and retails for \$200 a ton. He also explained the modern method of cutting lettering in marble and granite, removing paint from cars and buildings and smooth iron by sand. His pits, he said, are replenished daily by tide from the sea, the flowing waters of rivers, insuring an inexhaustible supply.—Tulare Daily Advance.

SAN FRANCISCO SPEAKER AT TULARE LION LUNCHEON

TULARE (Tulare Co.), Dec. 1.—Clarence F. Pratt, San Franciscan, well known in Mystic Shrine circles, was the speaker at a luncheon of the Tulare Lions Club here during the noon hour today.—Fresno Bee.

BESIDES HELPING eat three turkeys.

EATING A Spanish dinner.

AT VISALIA, world famous.

FOR ITS Spanish dinners.

AND "SITTING IN."

ON A fried chicken dinner.

CLARENCE SAND Pratt, President.

OF THE Pratt Building Material Co.

DOUGLAS 300—"easy to remember."

MADE A speech.

BEFORE THE Lions Club.

AT TULARE CITY.

WHERE SANDY (alias Clarence) Pratt.

SPENT HIS Thanksgiving vacation.

THEY STUFFED the turkeys.

BEFORE SANDY Pratt appeared.

AND AFTER Sandy arrived.

ALL HE did.

WAS TO stuff, stuff, stuff.

IT IS some contract.

TO TRY and consume.

A FLOCK of turkeys.

A SMALL hand of chickens.

AND A mammoth Spanish dinner.

IN FOUR days.

BUT OUTSIDE.

OF SELLING Clean, sharp sand.

SANDY PRATT thinks.

HE IS the best eater.

OF TURKEY, chickens, etc.

THAT WAS ever born.

IN TULARE.

TULARE IS a wonderful city.

ESPECIALLY AFTER Sandy Pratt.

MOVED AWAY.

AND BEGAN selling sand.

FROM PRATTCO, Monterey County.

AND FROM Sacramento and Marys-

ville.

"I THANK you."

Referring to the above story from the Tulare Advance, this is the only kind of a horse that Clarence Sand Pratt and his Tulare cousin, Roy Hodges, self-styled boy horse breaker could "break" and then they would have to use a hammer. Clarence Sand Pratt, famous sand producer and shipper, and his cousin tried to break Nevada mustangs, when they were kids in Tulare, but the wild west horses broke the cart, most of the boys' legs, also their hearts, when they were disqualified as horse breakers by their guardians.

Bids To Be Called for in About a Week.
CLUB LODGES. Cost, \$200,000 approx.
TANFORD RACE TRACK, San Mateo Co., Cal.
 Two-story frame and plaster club building.

SAN FRANCISCO FIRMS LOW ON SEATTLE BRIDGE PROJECTS

Two San Francisco firms and one Seattle firm submitted the lowest combination bid to the Seattle Board of Public Works to construct the West Spokane street bridge over the West Waterway. The bid is \$390,686.29. The bid was submitted by the following concerns: Bethlehem Shipbuilding Corp., Ltd., Twentieth and Illinois Sts., San Francisco, for furnishing steel and delivering same at bridge site, \$260,863.30; Gerriek & Gerriek, Central Bldg., Seattle, for erecting steel, \$105,400.09; Butte Electric & Manufacturing Co., 534 Folsom St., San Francisco, for furnishing electrical equipment, \$24,422.

Jahn & Bressi, Thompson Bros., Seattle, submitted the lowest lump sum bid at \$444,923.90 for a structure of the Strauss type at \$460,700.51 for a structure as proposed by the City of Seattle. The combination bid is \$70,014.22 lower than that of the Seattle contractor.

ROAD FUNDS VOTED

The Sacramento county supervisors have voted to pay \$175,000 as their share of the cost of constructing a \$600,000 highway connecting Sutter and Sacramento counties. The road will join the present paved highway in Sutter county, 2½ miles north of Tudor, running south to the Nicolaus bridge, thence to the east side of the Feather river to the town of Verona. In Sutter county, thence down the Feather river levee to the north end of the Natoma Boulevard, in Sacramento county. The Sacramento supervisors are of the opinion that construction will not be started for at least a year. The tax for the road will be levied next September, and after that period much time will be taken over legal complications.

Rapid Progress In Selecting Roads For Federal-Aid System

The selection of the roads to compose the system of Federal-aid highways which will reach into practically every county of the United States is progressing rapidly, according to the Bureau of Public Roads of the United States Department of Agriculture. State and Federal engineers have held numerous conferences during the past summer in all sections of the country.

The system is being outlined in accordance with the requirements of the Federal Highway Act of last November, which contemplates a system of highways to be built with Federal-aid such as no other nation has ever possessed and which, once built, will be continuously maintained in serviceable condition. Eighteen feet will be the minimum width of roadway unless conditions justify a lesser width and such cases must be given special approval. The system will consist of not more than 7 per cent of the total road mileage in any one State, not more than 3/7 of which will be primary or interstate highways and the remainder secondary or inter-county highways. The total mileage of primary and secondary roads will be approximately 187,000 miles.

Work has progressed rapidly on the system during the past year and 10,-

000 miles of road have been completed in conjunction with Federal-aid. These have been projects of such importance that there is no doubt as to their being included in the system as finally outlined.

The accompanying table gives the approximate mileage of the primary and secondary system in the various States. In 13 States the figures are based on the total mileage of highways in the State while the remainder are based on the maps submitted.

From the present outlook it is thought that this program of road construction will cover a period of from 15 to 20 years. Many States will complete their mileage in a much shorter time as they have included in the system a considerable mileage of improved road. They will then enlarge the Federal-aid system by including additional mileage.

When the system is complete the total improved road mileage of the country will be far greater than the 187,000 miles included in the system. How much greater it is hard to say, but in all of the States the system has been outlined, keeping in mind that State roads independent of Federal aid will connect with it.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Although the November-December period is ordinarily the slackest part of the year for the lumber industry, with the exception of February, reports to the National Lumber Manufacturers' Association from eight regional lumber manufacturing associations tell a story of exceptional activity for the week ending November 25. Shipments of lumber gained roundly 36,000,000 feet over the preceding week or about 20 per cent, and orders increased by about 21,000,000 feet, or 10 per cent. Even production, which has stood up well through the period of transportation shortage, gained 13,000,000 feet—about 5 per cent.

The report of M. C. Woodruff, building inspector of San Jose, for the fiscal year ending December 1 shows a total of 991 building permits granted representing improvements totaling \$1,921,289 of which \$1,689,195 is for new buildings. Increased activity is shown by the comparison with the report for the fiscal year ending December 1, 1921, when 756 permits were issued at a value of \$1,171,796, of which \$873,311 was for new work.

State timber sales in Montana by the end of the present year will probably reach 30,000,000 feet for 1922, according to estimates given at the office at the capitol by the state forester. Thus far the sales have reached 29,500,000 feet, which include 12,000,000 feet of timber sold in Lincoln county, the Stillwater sales in Flathead county have totaled 12,650,000, and the Flathead lake sales in the vicinity of Kalispell total 4,850,000 feet.

W. E. Wood, president of the W. E. Wood Co. of Detroit, Mich., who had been nominated for national president of the Associated General Contractors, was killed in an automobile accident recently. There was no opposition to Wood for the office and plans had been started for his installation as president at the National Convention to be held in Los Angeles, January 30 to February 2, 1923.

Well authenticated reports are circulating at Orofino, Idaho, that a deal has been closed at Portland, Ore., by which the Weyerhaeuser Lumber Co. acquires 293 acres at Lewiston from A. L. Porter of that city for a saw mill site. Purchase of this land is believed to mean consummations of plans by the Weyerhaeuser interests to build at Lewiston a milling plant of 200,000,000 feet yearly capacity.

Want to win \$100? Why is a contractor? Should contracting organizations take on the functions of the architect, if so, why? Should architects take on the functions of the general contractor, if so, why? The Associated General Contractors of America, 1038 Munsey Bldg., Washington, D. C., wants to know and will pay \$100 for the best opinion. The contest closes Dec. 31.

D. B. Farquharson, of the San Francisco Builders' Exchange, addressed the Merchants, Manufacturers and Employers Assn., of Stockton, at the annual banquet of the association in the Hotel Stockton December 11. Farquharson talked to the 234 members present on "How the American Plan in San Francisco is Being Carried Out."

Engineer Erle L. Cope of San Francisco has been commissioned by the Sutter County Supervisors to make plans for the proposed 2000 ft. concrete causeway to span the low lands between the new steel bridge over the Feather River at Nicolaus and the west levee. The causeway will be a link in the proposed Sacramento-Sutter joint boulevard which is to cost \$175,000.

C. H. Holt of the real estate firm of Leonard & Holt, San Francisco, backs movement to build electric railway from San Francisco down the Peninsula. It is proposed to have the Burlingame-San Mateo Real Estate Board finance the survey for the proposed road and at a later date to interest private capital to finance the work.

F. F. Foster has been appointed sales manager of the California Glazed Cement Pipe Co. of Los Angeles, assuming his duties December 1. Foster was for some time executive secretary of the Southern California Cement Pipe Manufacturers' Association and will continue as a director in that organization.

H. D. Churchill Co., civil engineers and contractors, has moved from 218 Byrne Bldg., to 350 Merrick St., Los Angeles. Rogers Bros. Co., formerly had their yard and office at this location and the Churchill Company has taken over the plant to provide facilities for increased business.

The Peninsula Building and Loan Association of San Mateo have been organized with a capital stock of \$100,000. Directors are: Dr. N. D. Morrison, J. R. Fairbanks, J. R. Murphy, Frank H. Truall, J. E. McCurdy, E. S. Irving, H. A. Thayer, P. A. Oliver and E. S. Litchfield. Offices will be maintained in the Cook Building, San Mateo.

A resolution authorizing the Interstate Commerce Commission to give priority in car service in the interest of equitable distribution to building materials intended for immediate consumption has been introduced by Representative Zihlman, of Maryland.

The West Coast Pulp & Paper Co., organized by the same interests owning the Hawley Pulp & Paper Co. plant at Oregon City, Ore., will construct a paper mill at Olympia, Wash. About \$1,000,000 will be spent in buildings and machinery.

Construction has been started on a three-story reinforced concrete warehouse at South Park and Second Sts., San Francisco, for the Kohler Co. of Kohler, Wis., manufacturers of plumbing and sanitary fixtures supplies.

The National Stone-Tile Co. of San Francisco is arranging to establish a plant at Salinas, Monterey County, for the manufacture of stone-tile hollow concrete brick.

The Henry Cowell Lime and Cement Co. will hold its annual Christmas Tree dance at the plant in Cowell, Contra Costa County, on December 23. W. H. George is in charge of the affair.

Weed Lumber Co., operating at Weed, Siskiyou county, will resume activities December 1, on an eight-hour day basis.

ALONG THE LINE

Chas. G. Comstock and Fred W. Howard, formerly associated with the Scofield Engineering Construction Co. of Los Angeles announce the formation of a partnership under the name, Comstock & Howard to engage in general building construction. Offices are maintained in the A. G. Bartlett Bldg., Los Angeles.

C. C. Cottrell, former Nevada State Highway Engineer and head of the California State Automobile Association has been endorsed by the Lassen County Board of Supervisors and the Lassen County Chamber of Commerce, for the position of California State Highway Engineer, succeeding A. B. Fletcher, resigned.

A. N. Johns who for the past several years has been connected with the Engineering Department of the California State Railroad Commission, has severed his connections with that organization to assume the position of chief engineer with the Associated Telephone Co., of Long Beach, Calif.

H. E. Wilson, president of the State Association of Highway Patrolmen, will head a delegation at the San Francisco convention in January, asking that Fresno be selected for the 1924 meeting place. Wilson is chief traffic officer of Fresno county.

Jas. J. Keegan, San Mateo contractor, has accepted the position of superintendent of construction and Frederick Van Doren, recently from Portland, Ore., the position as architect for the Burlingame Building Company, operating in San Mateo County.

The U. S. Zinc Co., the zinc smelting subsidiary of the American Smelting and Refining Co., has purchased forty acres at Amarillo, Texas, and will erect a \$400,000, five-block zinc smelter. Natural gas will be used in smelting zinc ores.

Chas. H. Windham has been selected for the position of city manager of Long Beach, Calif., succeeding Chas. Hewes, recalled. Windham is the present postmaster and an ex-mayor of the city of Long Beach.

Palo Alto city council plans election to vote bonds of \$150,000 to finance construction of sewer and water main extensions; \$110,000 for water extensions and \$50,000 for sewers.

W. C. Clayton, San Jose banker, will receive an appointment to the State Highway Commission, according to rumors in that city.

The J. G. Wilson Corp., New York, has issued a number of new folders describing in detail their sectionfold partitions, automatic rolling fire doors and wardrobes.

STOCKTON ARCHITECTS REPORT
BUSY SEASON

Stockton architects are confident of a big building year in 1923. In addition to an extensive building program as proposed by the Stockton city council and the San Joaquin county supervisors, a considerable amount of large construction of a private nature is planned.

The City of Stockton proposes to construct a civic center which will involve the laying out parking space, street improvements and the erection of several large buildings, including a new city hall, civic auditorium and library. Plans for these improvements are nearing completion in the offices of the Stockton Architectural Commission composed of Architects Glenn Allen, president; Wm. J. Wright, vice president; Louis S. Stone, chairman; Franklin E. Warner, secretary; Ivan C. Satterlee, treasurer, and J. M. Burke, engineer.

In addition to these improvements the San Joaquin County supervisors contemplate the erection of a modern courthouse which will probably be erected as part of the civic center plan.

Davis-Heller, Pearce Co., maintaining offices in the Delta Building, Stockton, have been commissioned to prepare plans for the proposed College of the Pacific buildings to be erected on a 50-acre tract in Stockton. The group will comprise seven two-story reinforced concrete, brick and terra cotta structures of the Collegial Gothic type of architecture and will be known as the Liberal Arts, Administration, Auditorium, Conservatory of Music, Men's Dormitory, Women's Dormitory, and Gymnasium. A large swimming tank is also included, in addition to considerable landscape work which will be done by the architects. The project will cost in the neighborhood of \$650,000.

The same firm has prepared plans and is taking sub-bids for a reinforced concrete and brick addition to the National Paper Products plant in Church street, Stockton. These improvements will cost about \$150,000.

Plans have been completed by Davis-Heller, Pearce Co. for a one-story brick garage to be erected for the Western States Gas and Electric Company in East Channel street at a cost of \$26,000.

Architect Glenn Allen, 37 S. Aurora street, Stockton, reports the preparation of plans for a three-story reinforced concrete theatre and hotel building to be erected in Lodi at a cost of \$150,000. The structure will have a pressed brick exterior and Polychrome terra cotta trim. Bids for construction will be asked the earlier part of February.

Architect Allen is completing plans for a concrete church to be erected at Center and Flora streets, Stockton, for the First Church of Christ Scientist. The building will have a terra cotta finish and purple glazed roof. Construction is estimated at \$100,000.

Architects Wright and Satterlee and L. S. Stone, associated, Bank of Italy Building, Stockton, have completed plans and bids will be asked immediately to erect two buildings for the Lodi Union High School District, the total value of the improvements being \$250,000. The buildings will consist of a two-story science structure, a one-story manual training building and a swimming tank. Alterations to the present structures are also included. Construction will be of brick, steel and concrete. All buildings will have pressed brick exteriors.

Building Trades Council, Portland, Ore., has asked a general increase of 10 per cent in wages to restore the scale to the basis of 1920 when a 10 per cent cut was brought about through arbitration.

1922 Breaks all Records for
Road-building, Says Report

All records for road construction in the United States were broken during the fiscal year 1922, according to the annual report of the Bureau of Public Roads, United States Department of Agriculture. During that period 10,000 miles of Federal-aid roads and more than an equal mileage of highways without Federal assistance were constructed.

From the viewpoint of Federal-aid progress the year divides itself into two periods, one before and the other after the passage of the Federal highway act. The first period was a season of great construction activity during which the greater part of the work of completing the 10,000 miles was done. It was also one of almost complete stagnation with respect to the initiation of projects.

When the year opened there was an unobligated balance of \$18,793,544 of the Federal-aid appropriations and the projects initiated since the beginning of the work aggregated 35,492 miles. By the end of October, 1921, the unobligated balance had been reduced to \$11,714,323, the lowest it had been since 1918. Only two states at that time had a balance of more than \$1,000,000 to draw upon for new projects, and a number were so reduced that their balance was not sufficient to pay for another mile of road.

Just before the passage of the Federal highway act the mileage submitted by the states had not grown during the fiscal year but had actually diminished as a result of the withdrawal and substitution of projects. The total mileage proposed was only 35,373 miles as compared with the 35,492 miles of four months before. Immediately upon the approval of the act the initiation of projects took on new life and in the months of March and June reached the unprecedented total of 1250 miles a month. At the close of the year the

submitted mileage was 39,940 miles, 1538 miles greater than at the close of the preceding fiscal year.

At the close of the preceding year projects completed aggregated 7169 miles and there were 17,975 miles under construction, which were estimated as 76 per cent complete. In one year the completed mileage has grown to 17,716 miles, an increase of more than 10,000 miles, and there still remain under construction 14,513 miles which are estimated as 55 per cent complete. The Federal aid earned by the states on completed projects amounts to \$194,560,135, of which \$166,911,552 have actually been paid.

The total length of projects in all stages, including those which have been completed and those which are in the stages preliminary to construction is 39,940 miles.

The roads brought to completion during the year average over 200 miles for each state. The greatest increase in completed mileage is in Texas, which has added during the year 933 miles to its completed highway. Arkansas, Georgia, Iowa, Minnesota, and North Carolina, each with an increase of more than 500 miles, and Montana and Wisconsin, with more than 400 miles, made notable advances toward the goal of a completed highway system.

A number of smaller states, such as Louisiana, Maryland, Massachusetts, and Rhode Island, made very substantial increases in proportion to their size.

The largest payment of Federal aid during the year also went to Texas, which received from the Government \$5,915,046 and earned nearly \$2,500,000 more. Other large payments were made to Illinois, Iowa, Ohio, and Pennsylvania, each of which received from \$4,000,000 to \$5,000,000 or more during the year.

FIRES EXACT HEAVY TOLL IN CALIFORNIA NATIONAL FORESTS

More than a thousand forest fires occurred in the national forests of California during the past season, according to the preliminary report just made public by the United States forest service headquarters in this city. These conflagrations, numbering 1034, burned over a total of 290,800 acres, of which 192,000 acres was Government land. The damage to timber and reproduction at the Federal forests is estimated at \$134,000. Severe damage also resulted on some of the most important watersheds of the state through the destruction of their forest cover, with impending floods, soil erosion and damage to irrigation and water systems.

Seventy-five per cent of the fires on the national forests were man-caused and therefore preventable. Lightning set twenty-five per cent of the fires. The effective fire detection and suppression organization of the forest service made possible the extinguishing of 80 per cent of the fires which started before they had covered an area of 10 acres each. \$150,000 was expended by the Government during the year in fire suppression work.

The Shasta National forest leads the list with 142 fires. The Plumas forest had 103 fires and the Lassen 97. In Southern California, on the Angeles, Cleveland and Santa Barbara national forests, there were 195 fires which burned over 100,000 acres of Government land, largely covered with brush and chaparral, but exceedingly impor-

tant from a watershed protection standpoint.

The largest fire of the year started September 11 on the chamise-covered slopes of the California national forest. Within four days it had swept over an area of 40,000 acres. 300 men were employed on this fire, which cost the forest service \$22,000 to suppress.

Compared with 1921, the national forest fire record for this season shows a decrease of 97 in the total number of fires, but an increase of approximately 75,000 acres in the area burned over, due largely to the extensive brush fires in Southern California.

PAINT AND VARNISH ASSETS

San Francisco has a number of industries that provide surprises when they are surveyed with respect to what might be called their civic significance—the roles they play as payroll-makers and as community assets.

The paint and varnish manufacturing establishments of the San Francisco Bay district are among these industries. These plants are now turning out products in the neighborhood of \$15,000,000 annually, and their consolidated payrolls approximate something like \$3,000,000.

Markets for these products have been found in many distant regions both in this country and abroad, and the paint and varnish manufacturers have displayed an enterprise of characteristic Western resourcefulness.—S. F. Business.

ORGANIZATION NEWS

SACRAMENTO CHAPTER A. A. E.

By their deeds, ye shall know them. Sacramento Chapter, American Association of Engineers, at its last meeting, voted \$10 to the fund being collected by the Sacramento Bee for the purpose of bringing Christmas cheer to the children of poor families in Sacramento. The Chapter has been advised that A. B. Fletcher, state highway engineer, has been elected a certified member of the association. (The association will benefit much by having a man who stands so high in his profession elected to its membership. The chapter is to be congratulated upon being in touch with a man of such high ideals and mature judgment.)

Preparations are being made for a banquet and dance to be held by the Chapter December 30. Committee are working on an elaborate program to close the social activities of the association for the year 1922.

RENO BUILDERS BANQUET

Fourteen different crafts represented by one hundred men, were present at the annual get-together banquet given by the Washoe County Builders' Exchange at Reno, Nevada, December 9. Speakers discussed building conditions and the value to be derived by any city or community where the builders were organized into an exchange for the protection of the public as well as themselves.

W. E. Lyons, president of the Washoe County Builders' Exchange, presided and the speakers of the evening were: Charles W. Gompertz, of San Francisco, president of the California Builders' Exchange; A. W. Norris, president of the Sacramento Builders' Exchange; R. Dickson, president of the Master Plumbers' Association of California; W. W. Gardiner, John W. Brooks, Mayor H. E. Stewart and C. S. Knight.

A spirit of optimism prevailed and men connected with the building industry proclaimed a bright outlook for 1923. The success of the banquet was largely due to the committee composed of C. R. Hill, chairman; J. C. Dillard and John Pellizzari.

CONCRETE CLUB IS ORGANIZED AT LOS ANGELES

The latest addition to the growing list of Los Angeles trade organizations intended to advance the multifarious interests comprising the construction industry, is the Concrete Club, embracing all those elements related to the production and use of concrete. The club will hold weekly luncheons to promote friendship and further the use of concrete.

The aim of the club is indicated by the following extract from "The Concrete Mixer," a four-page publication issued at the first regular meeting:

"Know Your Game! We are organized to make popular the use of Concrete; to keep busy the men and firms connected with the industry; the cement men and supply houses; the sand and gravel men; the concrete products manufacturers and the construction men themselves. Work and profit can only be obtained through orders from the buying public. They won't buy until they have faith in you and the industry at large. Now all of us can advertise to the limit, and talk our heads off selling the public, and then defeat our own ends by ignorance of the best practices of the business. In

short, giving poor service. It is not enough that you hustle. It is not enough that you sweat. It isn't enough that you think. You must know."

HIGHWAY ASSOCIATION ORGANIZED

The Coloma Mother Lode Highway Association has been organized in El Dorado county, to promote the interests of the highway route direct from Placerville to Coloma and thence to Auburn instead of from Placerville to Garden Valley and Cool to Auburn. Officers of the association are: John D. Wagner, of Pilot Hill, president; G. S. Metcalfe, Coloma, secretary; directors: J. H. Gallagher, Coloma; J. H. Ryms, Pilot Hill Hall, and William Deerkamp of Gold Hill.

SANTA CRUZ ENGINEERS CLUB ELECTS OFFICERS.

The Santa Cruz Engineers Club at a banquet December 7 held an election of officers with the following results: President, H. O. Beck; vice-president, Noel Patterson; secretary-treasurer, E. V. Tronoff; directors, W. H. Oliver, W. C. Hughes and J. K. James, City Engineer of Santa Cruz. Among those present included: H. O. Beck, W. C. Hughes, C. E. Wasgatt, J. W. McCreary, R. D. Perry, E. R. Muttersbach, Lloyd Bowman, W. H. Oliver, J. K. James, H. E. Godegast and Theo. V. Tronoff.

RICHMOND BUILDERS EAT GOOSE AND OUTLINE PLANS TO BUILD

Charley Brown, the most active member of the Contra Costa County Builders' Exchange, was the host to members of that organization at a duck and goose stew held in the Elks Building, Richmond, December 11. Brown had been promising the dinner for some time and on his return from a hunting trip he was prepared to entertain his co-workers.

In an elaborately decorated hall the tables were set in the form of a "U" and the sixty who sat at the feast declared it to be "fit for a king." Short speeches were made by P. M. Sanford, president of the Contra Costa County Builders' Exchange, as chairman of the evening; E. M. Tilden, W. L. Ballenger, H. A. Johnston, J. T. Nabert, architect; G. E. Milnes, R. D. Noble, A. P. Hill and Jos. Burdon. Archie Winchcole rendered a number of songs.

A feature of the evening was the announcement of E. M. Tilden that the exchange had closed a deal to purchase a site on Fourteenth street near Macdonald avenue, Richmond, on which it is proposed to erect new exchange quarters. The site covers an area of 60 by 122 feet and a one or two-story structure is contemplated, the cost of which will exceed \$15,000. The building, Tilden declared, will be modern in every respect containing a meeting room, private office for the secretary and private quarters for use of the members to figure plans and discuss projects with clients. A portion of the structure will be given over to a material exhibit. The building will be financed by the sale of stock to members of the exchange.

Those present at the banquet were: Charles H. Brown, P. M. Sanford, E. M. Tilden, Clinton Smith, W. J. Richards, Jr., S. C. Rogers, Joseph J. Burdon, R. G. Armistead, G. E. Milnes, J. L. Eakle, W. D. Rihm, George L. Spaulding, Louis Brown, C. Pederson, F. A. May-

field, M. A. Milrad, Eugene H. Truax, M. A. Hays, J. B. Weir, James Walker, F. W. Cleary, Carl Overaa, A. O. Dugan, A. P. Hill, Robert Irwin, H. J. Capion, G. B. Warner, George Ingram, A. H. Winchcole, James T. Nabert, E. A. Marshall, F. C. Spierisch, L. Spierisch, L. L. Higgins, V. G. Blake, George Edwards, K. J. Henning, L. C. Dexter, R. P. Dunn, E. G. Vaughn, Herbert D. Baker, R. D. Noble, Dr. H. Vestal, H. A. Johnston, George B. Lauritzen, C. E. Marshall, B. J. Ballantyne, C. V. Miere, E. H. Higgins, F. Ausez, John J. Ross, G. C. Gorman and J. A. Fagerstrom.

S. F. GENERAL CONTRACTORS' ASS'N DISSOLVED

Stockholders in the General Contractors' Association of San Francisco, incorporated April 6, 1911, and dissolved March 30 of this year, held their farewell assembly and dinner December 6 at the Palace Hotel, San Francisco. Chas. A. Day of the Industrial Department of San Francisco Chamber of Commerce, was the first president of the association, which numbered among its supporters forty prominent contractors. In March the association merged with the General Contractors of San Francisco, amalgamated with the Builders' Exchange.

FINESUAL BUILDING ACTIVITY IN NORTHEAST STATES

More than the usual amount of winter activity in building with residential work taking a prominent part, is indicated in a survey of activities made by the American contractor, in 27 states forming the main northeastern part of the United States.

Valuation of the 2141 contracts awarded for the week ending October 28, reached a total of \$64,348,400 and was but slightly lower than the weekly average for the first nine months of this record-breaking year, says the publication.

"The volume of contracts awarded during the last two weeks of October, which are normally dull, shows that there is expectation of less let-up than usual during the winter period," the paper states. "There are incontrovertible facts which show that building activity is in no danger of a slump for months to come."

"Contemplated work reported for the week ending October 23 totaled \$100,662,900. For the corresponding week of 1921, this total was only \$86,922,000 and the valuation of contracts awarded was only \$51,718,600. Yet the fall of 1921 was considered a good opener for the spring season of 1922."

"Of the contemplated work for that week, \$16,191,200 is for residential building. While the demand for residence building has not diminished and will not diminish for some time, there is little business and industrial building going on and a period of business expansion will add these projects to the field. In addition there is much educational and governmental building in abeyance which must be done soon."

"Skilled labor will be scarce next year as it is now. Indications are that no reduction will be made in wages of common labor which is all absorbed. Material men are producing at increased costs. The demand for labor and materials in the spring will equal the supply. From such facts, a definite logical conclusion regarding future building costs can be drawn by anyone."

Building News Section

APARTMENT HOUSES

To Be Done By Day's Work and Sub-Contracts.
APARTMENTS Cost, \$50,000
SAN FRANCISCO, N E Baker St. and Golden Gate Ave.
 Three-story and basement frame (15) apartments.
 Owner—W. H. Joost
 Architect—Arthur G. Scholz, 839 Phelan Building.

Completing Plans.
APARTMENTS Cost, \$150,000
ALAMEDA, Alameda Co., Cal. Grand St. and Central Avenue.
 Three-story frame, stucco and brick veneer apts. (21, 3, 4 & 5-room apts).
 Separate garage in rear.
 Owner—L. Kolisky, Strand Theatre, Alameda.
 Architect—A. A. Cantin, 68 Post St., San Francisco.

An enclosed roof garden is to be one of the novel features of the proposed building and will have a large ball room, men's club room and women's tea garden. Sunken gardens and tennis courts are also contemplated as part of the plans for the grounds.

Contract Awarded on a Percentage Basis.
APARTMENT HOUSE Cost, \$1,000,000
LOS ANGELES, L. A. Co., Cal., S E Wilshire Blvd. and Berondo St.
 Ten-story and basement class "A" apt. house 145x145 (325 rooms, 4 to 10-room apartments).
 Owner—A. C. Elmhuth.
 Architect—Alex Curlett & Claud Beelman, Union Bank Bldg., L. A.
 Contractor—Macdonald & Kahn, Loew's State Bldg., L. A.

Contract Awarded.
APARTMENTS Cost, \$15,500
OAKLAND, Alameda Co., Cal., N E Fruitvale Ave. and E-16th.
 All work except wall beds, light fixtures, wall paper and finish hardware for 2-story 15-room frame apartments.
 Owner—Mrs. August Erhart.
 Architect—Martin J. Rist.
 Contractor—Alex C. Wieben, 839 Rosemont, Oakland.

Plans Being Figured.
APARTMENTS Cost, \$25,000
SAN FRANCISCO, S W Gough and Rose Streets.
 Three-story and basement frame (23) Apartments.
 Owner—Elvira Felix, 925 Leavenworth Street.
 Architect—R. R. Irvine, Call Bldg.

Plans Being Prepared.
APT. HOUSE Cost, \$600,000
LOS ANGELES, L. A. Co., Cal., S W 4th and Oak View Streets.
 Eight-story and basement class A apt. house 120x150, 250 rooms divided into 2 and 3-room apts.
 Owner—Lange & Bergstrom, Washington Bldg., L. A.
 Architect—Walker & Eisen, 325 Pacific Finance Bldg., Los Angeles.
 Construction will be started on January 15 by the owners, who are general contractors.

Contract Awarded.
APARTMENTS Cost, \$1,000,000
LOS ANGELES, Cal. Kenmore Avenue and Wilshire Blvd. Cor., 155x150.
 Thirteen-story and basement Class A apartment house (425 rooms, tapestry brick and terra cotta facing).
 Owner—Paul B. Fletcher and J. R. Lilly, Third and Western Ave., Los Angeles.
 Architect—Walker & Eisen, Pacific Finance Building.
 Contractor—Lange & Bergstrom, 803 Washington Bldg., Los Angeles.

Sub-Figures Being Taken By Owner—To Be Done By Day's Work.
APARTMENTS Cost, \$75,000
SAN FRANCISCO, 68-6 E Hyde.
 Six-story and basement class C apts. 36 2 and 3-room apartments.
 Owner—C. W. Higgins, 1306 Shrader Street.
 Architect—Edw. E. Young, 251 Kearny.

Contract Awarded.
APARTMENTS Cost, \$10,500
SAN FRANCISCO, E Ramona 205 S Fourteenth Street.
 Two-story and basement frame (4) apartment.
 Owner—Geo. R. and Katherine Newson, 37 Ramona St., San Francisco.
 Architect—None.
 Contractor—Geo. R. Newsom, 37 Ramona St., San Francisco.

Sub-Figures To Be Taken By Owner—To Be Done By Day's Work.
APARTMENTS Cost, \$55,000
SAN FRANCISCO, California St. west of Polk.
 Three-story frame and stucco store & apartment house, 19 2 and 3-room apts. and 4 stores.
 Owner—Mrs. I. W. Cohen.
 Architect—E. E. Young, 251 Kearny Street.

Figures To Be Taken In a Week.
APT. HOUSE Cost, \$30,000
SAN FRANCISCO, N Geary & Hyde.
 Five-story and basement reinf. conc. apt. house bldg. 20 2 and 3-room apartments.
 Owner—Geo. Cohn.
 Architect—S. Helman, 57 Post St., S. F.
 Figures will be taken for a general contract.

Grading Contract Awarded—General Contract to be Figured Next Week.
APARTMENTS Cost, \$200,000
SAN FRANCISCO, N Market Street E Gough Street.
 Six-story Class C reinforced concrete-market and apartment house (40 2 and 3 room apts.)
 Owner—Jas. B. Gaffney and Raymond A. Luce, of the Daylight Market.
 Architect—Walter C. Falch, Hearst Bldg., San Francisco.
 Mechanical Engineer—A. A. Coddington, Phelan Bldg., San Francisco.
 Structural Engineer—Pierre Zucco, 166 Geary St., San Francisco.

LOS ANGELES, Cal.—Lange & Bergstrom, 863 Washington Bldg., were low bidders at \$440,750 on the general contract for erecting an 8-story and basement class A apt. house at S. e. cor. of Wilshire Blvd. and Carondelet St. for Wilshire-Carondelet Holding Co. Low bidders on the other contracts were: L. Z. Brown on steam heating at \$21,883; J. Hokom on plumbing at \$53,217; Bernhard Skoog on painting at \$23,200; Richard Starry Electric Co. on wiring at \$13,425; Edell Engineering Co. on refrigeration at \$21,885; and Baker Iron Works on elevators at \$750. Russell & Alpaugh, 1108 Broadway Bldg., L. A., also bids. The Bldg. will contain 376 rms., 188 apts., lobby, ball room, locker room, reinf. conc. constr., press, brick and cast stone ext., hardwood trim, mastic and tile work, steam heating, wall beds, 2 pass. elevators, vacuum cleaning, etc.

BANKS

Segregated Figures to Be Taken Next Week.
BANK BUILDING Cost, \$—
OAKLAND, Alameda Co., Cal., E Fourteenth St. and Fruitvale Ave.
 Two-story reinforced concrete bank building.
 Owner—Central National Bank, Okd.
 Architect—Wm. Knowles, Hearst Bldg., San Francisco and Central Bank Bldg., Oakland.

BONDS

VISALIA, Tulare Co., Cal.—Supervisors receiving bids until January 3, for purchase of \$20,000 bond issue of Visaliover School District; proceeds of sale to finance school improvements.

SACRAMENTO, Cal.—City Eng. Albert Given has completed estimates for improvements to be financed through a \$1,250,000 bond issue, the election to be held in February. Improvements will include subways on approaches to city, street lighting, sewer and water main extensions and work on roads leading to city.

EAST SAN DIEGO, Cal.—The Fairmont Water Co. has applied to state railroad comm. for permit to sell its water distributing system to the city for \$21,000. O. W. Cotton, pres. City will purchase on assessment plan.

SAN BERNARDINO, Cal.—City council is considering Jan. 23 as election date for resumption of the Devil Canyon \$140,000 bond issue. S. W. McNamee, mayor, states it is necessary to pass the bonds at once in order that present legislature may act on them.

SAN RAFAEL, Marin Co., Cal.—Until Jan. 9 bids will be received by supervisors for purchase of the \$10,000 bond issue of the Fairfax School District; proceeds of sale to finance school improvements.

CALIFORNIA—No bids received for the purchase of the \$5,000,000 state highway bond issue, due to slump in bond market. The bonds will again be placed on sale, probably in January.

SPOKANE, Wash.—Spokane county commissioners will sell \$750,000 in bonds early in January to finance construction of county roads.

SANTA ANA, Cal.—Charles H. Chapman, water commissioner, has suggested a bond issue for \$100,000 to provide for 34 mi. of water mains required to supply new subdivisions and streets where paving is being laid.

Eng. 21

WOODLAND, Yolo Co., Cal. — Until Jan. 2, bids will be received by county supervisors for purchase of \$95,000 bond issue of Esparto Union High School District; proceeds of sale to finance construction of new high school. (44150) 1st report Oct. 30; 3rd Nov. 20.

VISALIA, Tulare Co., Cal.—Trustees of Visaliover Union High School District will confer with the trustees of the Woodland High School District to decide the question of establishing a junior high school.

FOWLER, Fresno Co., Cal.—Election held to vote bonds of \$15,000 to purchase site and make park improvements failed to carry.

LOVELOCK, Nevada—Pershing county will bond Jan. 20 for \$40,000 to finance drainage of the Lovelock district in the lower portion of the Humboldt valley.

LEMOORE, Kings Co., Cal.—Election will be held Dec. 30 in Lemoore Irrigation District to vote bonds of \$420,000 to finance purchase and construction of canals and ditches in district.

TRACY, San Joaquin Co., Cal.—Bonds of \$27,000 voted to finance enlargement of water system. W. D. Harrington, city engineer.

TRACY, San Joaquin Co., Cal.—Proposition to vote bonds of \$18,000 to erect and equip firehouse in section south of S. P. tracks failed to carry.

TRACY, San Joaquin Co., Cal.—Bonds of \$65,350 voted to finance improvement of sewage system; will include septic tank and pipe line. W. D. Harrington, city engineer.

RED BLUFF, Tehama Co., Cal.—Dec. 21 is date set in Red Bluff School District to vote bonds of \$97,200 to finance erection of new two-story concrete grammar school. Trustees of district are: W. A. Armstrong, Olive L. Bagley and J. G. Leard. Architect, W. H. Weeks, 399 Pine street, San Francisco, has been conferring with the school Board.

SANTA ROSA, Sonoma Co., Cal.—Supervisors sell \$57,000 bond issue of Healdsburg School District for premium of \$716; proceeds of sale to finance school improvements.

WATSONVILLE, Santa Cruz Co., Cal.—Board of Aldermen take under advisement bid of Pajaro Valley Natl. Bank for purchase of \$255,000 bond issue to finance purchase of privately owned and improvement of water system. Premium offered, \$5,130.

CHURCHES

Bids to be Asked March 1, 1923.
CHURCH Cost, \$50,000
MERCED, Merced Co., Cal. M and 19th streets.

Hollow tile and stucco church.
Owner—Bethel Methodist Church, John R. Kennedy, Pastor, Merced.
Architect—Mayo, Cowell & Bissell, Merced and Stockton.

Auditorium will seat 338 on main floor and 125 in gallery. Plans provide for installation of \$5,000 pipe organ. Gymnasium, locker rooms, club rooms, etc., will be housed in the basement.

Contract Awarded.
UNDERTAKING PARLORS, ETC. Cost, \$11,973

SOUTH SAN FRANCISCO, San Mateo Co., Cal. Maple and Linden Aves. Two-story reinforced concrete undertaking parlor and flat.
Owner—S. Neri, South San Francisco.
Architect—Ernest L. Norberg, Balboa Bldg., San Francisco.
Contractor—M. E. Green, 180 Jessie St., San Francisco.

Plans Being Prepared.
CHURCH Cost, \$500,000
LOS ANGELES, L. A. Co., Cal. Adams and Figueroa Streets.
Brick and reinforced concrete & stone church.
Owner—St. Vincent's Church.
Architect—Albert C. Martin, Higgins Bldg., L. A.

Completing Plans—Ready for Figures in Two Weeks.
CHURCH Cost, \$100,000
STOCKTON, San Joaquin Co., Cal. Center and Flora Streets.
Concrete church building (terra cotta finish and purple glazed roof).
Owner—First Church of Christ Scientist.
Architect—Glenn Allen, 37 S-Aurora St., Stockton.

FACTORIES & WAREHOUSES

Low Bidders.
RETAINING WALL Cost, \$11,250
SAN FRANCISCO Lot bounded by Lombard, Greenwich and Van Ness Avenue.

Concrete retaining wall.
Owner—Bothin Real Estate Co.
Architect—Arthur L. Bugbee, 26 Montgomery St., San Francisco.
Contractor—Cabill Bros., 110 Sutter St., San Francisco.

Figures Being Taken From a Selected List of Contractors.
CANNERY BLDG. Cost—
OAKLAND, Alameda Co., Cal. First & Philbert Streets.
Two 1- and 2-story reinforced concrete and brick factory and warehouse buildings.
Owner—California Packing Corp., 101 California St., S. F.
Engineer—Philip L. Bush, 101 California St., San Francisco.

Plans Being Figured—Bids Close Dec. 13, 1922, 3 p. m.
OFFICE & LOFT BLDG. Cost—
SAN FRANCISCO, N W 5th and Clementina.
Two-story class "C" office and loft building 75x275 ft.
Owner—Lurie Co., Mills Bldg.
Architect—O'Brien Bros., 240 Montgomery Street.
Lessee—Folies Supply Co., 523 Mission.
Figures are being taken for a general contract with separate bids for the elevator.

Contract Awarded.
LOFT BLDG. Cost, \$12,250
SAN FRANCISCO, N Tehama 137-6 E Fourth.
Two-story class "C" loft bldg. (except wiring, hardware & whitewashing).
Owner—H. A. A. Muhs, 25 Stockton St.
Architect—Dodge A. Reidy, 550 Pacific Building.
Contractor—Fred Moller, 150 Jessie St.

Contract Awarded.
BOILER Cost, \$18,900
OAKLAND, E Market St., bet. 1st and Water Streets.
Boilers.
Owner—Pacific Gas & Elec. Co., 445 California St., S. F.
Contractor—C. C. Mode Co.

Plumbing Bids Wanted—Concrete Work.
Contract Awarded.
WAREHOUSE Cost, \$100,000
SAN FRANCISCO, N E 8th and Natoma Streets.

Two-story and basement reinforced concrete showrooms and whse. (except slab construction).
Owner—Talbot Investment Co.
Lessee—Geo. H. Tay Co., 2nd and Mission Street.
Architect—J. E. Krafft & Sons, Phelan Building.

As reported before, Alfred Vogt, 185 Stevenson St., has been awarded the concrete work, and Badt-Palk Co., Call Bldg., the reinforcing steel.

Figures to be Taken Shortly.
ALTERATIONS Cost, \$100,000
PETALUMA, Sonoma Co., Cal.
Alterations, additions and equipment for cold storage plant (reinforced concrete construction).
Owner—Petalum Ice & Cold Storage Co., a branch office of National Ice & Cold Storage Co., Postal Telegraph Bldg., San Francisco.
Architect—Engineering Dept of Owner Mr. Howell, in charge.

Sub-Figures Being Taken.
ADDITION Cost, \$100,000 to \$150,000
STOCKTON, San Joaquin Co., Cal. Church Street bet. McDougall and Stockton Streets.
Reinforced concrete and brick factory additions.

Owner—National Paper Products Co.
Architect & Contractor—Davis-Hecker-Pearce Co., Delta Bldg., Stockton.

Figures to Be Taken in Ten Days.
FACTORY BLDG. Cost, \$30,000
SAN FRANCISCO, S Brannan W 3rd St.
Two-story and basement class C factory building.
Owner—Lurie Co., Mills Bldg.
Architect—S. Heiman, 57 Post St.

To be Done by Day's Work.
ADDITION Cost, \$11,000
SACRAMENTO, Cal. On W. P. R. Hickman Trt E of Freeport Road.
Reinforced concrete addition to ice plant.
Owner—Consumers Cold Storage Co., 8th and D Sts., Sacramento.

Plans Being Prepared.
WAREHOUSE Cost—
LOS ANGELES, S. L. A. Co., Cal. San Bernardino Rd. near Barranca St.
Five-story and basement class A warehouse 250x150, reinf. concrete.
Owner—W. L. Fulle & Co.
Architect—Morgan Walls & Morgan, Van Nuys Bldg., L. A.

Plans Being Prepared.
LOFT BLDG. Cost, \$200,000
LOS ANGELES, L. A. Co., Cal. S W 8th and Los Angeles Sts.
Ten-story and basement class A loft building 30x16.
Owner—McComas Dry Goods Co.
Architect and Contractor—John M. Cooper, Marsh-Strong Bldg., L. A.

KLAMATH FALLS, Ore.—Chiloquin Lumber Co. will erect a box factory, planing mill, in addition to the present mill.

SAN DIEGO, Cal.—Bids for the construction of the first section of the city's municipal pier will be called about Dec. 20. Plans are being completed under the supervision of Frank G. White, chief engr. of the port of San Francisco. The work will include dredging of slips, erecting of concrete retaining walls, conc. curtain wall. The length of the new pier will be 1000 ft., and 400 ft. wide. Two tracks will be erected on each side and four in the center. The est. cost of the first section is \$200,000. The war dept. is planning to dredge approx. 377,000 cu. yds. from Area C, west of the new pier site. About 300,000 cu. yds. will be dredged by the city. Joseph Brennan, harbor-master. The plans are in the hands of the city commission now and a portion of the work advertised at once.

OLYMPIA, Wash.—West Coast Pulp and Paper Co., organized by the interests which owns the Hawley Pulp and Paper Co. plant at Oregon City, Ore., will construct a new mill in Olympia to be ready for operation January 1, 1924. About \$1,000,000 will be expended in buildings and the purchase of machinery. Clancy M. Lewis, secretary of the Manufacturers' Assn., announces the company has also purchased the brewery at Tumwater and will remodel the structure for the manufacture of paper.

YUBA CITY, Sutter Co., Cal.—Ellsworth Ellis, San Francisco financial expert representing the Kings Food Products Co., has advised the Sutter County Chamber of Commerce that his company is planning to erect a \$500,000 dehydrating plant in Yuba or Sutter county. The plant will employ from 200 to 400 persons.

SAN BERNARDINO, Cal.—Shell Oil Co. is negotiating a lease for 33,000 sq. ft. ground at foot of F St., south of Riata Ave., from the Pacific Elec. Co. as a site for a \$75,000 distributing and storage station. The capacity will probably be about 25,000 gals.

EVERETT, Wash.—Manning-Wyman Overall Co., of Butte, Mont., has purchased 900 lots in Snohomish county and will erect a factory for the manufacture of overalls.

RIVERBANK, Stanislaus Co., Cal.—Businessmen propose to finance \$25,000 cannery building for which C. L. Flack, of the First National Bank, Riverbank, has donated a site on the Santa Fe tracks, 100x400 ft.

AMARILLO, Texas.—U. S. Zinc Co., zinc smelting subsidiary of the American Smelting and Refining Co., has purchased 200 acres here and will construct a five-block smelter to cost \$400,000. Natural gas will be used in smelting the ores.

WOODLAND, Yolo Co., Cal.—J. W. Coons, manager of local branch of Pacific Gas & Electric Co., announces the company will erect a warehouse and office building at 4th and Main Sts. When construction will be started has not been decided, as plans have not been prepared.

FLATS

Contract Awarded.
FLATS Cost, \$20,000
BERKELEY, Alameda Co., Cal. No. 1271-73-75-77 Grove St.
Four two-story flats.
Owner—E. H. Williams, 2014 Central Ave., Berkeley.
Architect—None.
Contractor—C. A. Doyle, P. O. Box 84, Berkeley.

Contract Awarded.
FLATS Cost, \$15,000
SAN FRANCISCO, S Clement 30 E 23rd Avenue.
Three two-story frame stores and (2) flats.
Owner—Tony Aralozio, 2528 20th St.
Architect & Contractor—A. M. Hardy, 518 24th Ave.

GARAGES

Plans Being Prepared.
GARAGE, ETC. Cost, \$50,000
SAN FRANCISCO. S Ellis Street 137
 W Taylor Street.
 Two-story and basement reinforced
 concrete garage and store building
 3 or 4 stores (designed for 6-story
 building.)
 Owner—George Hackett.
 Architect—O'Brien Bros., 240 Mont-
 gomery St., San Francisco.

Contract Awarded.
GARAGE. Cost, \$26,000
STOCKTON. San Joaquin Co., Cal. No.
 26 East Channel Street.
 One-story brick private garage.
 Owner—Western States Gas & Electric
 Co., Channel & Sutter Sts., Stockton.
 Architect & Contractor—Davis-Heller-
 Pearce Co., Delta Bldg., Stockton.

Contract Awarded.
ALTERATIONS. Cost, \$15,000
SAN FRANCISCO. NW Jackson and
 Post Streets.
 Extensive alterations to two-story
 concrete garage (erect two run-
 ways, take out elevator, painting,
 plumbing, electrical work, etc.).
 Owner—Anglo Bank.
 Lessee—Sherwood Garage, Inc., 246
 Phelan Bldg., San Francisco.
 Architect—Not Given.
 Contractor—R. McLeran Co., Hearst
 Bldg., San Francisco.

VALLEJO. Solano Co., Cal.—Lamb &
 Lund, Vallejo, have contract at approx.
 \$7,000 to erect garage building for
 Rump and Kennedy, 729 Marin St., Val-
 lejo, to construct at Sonoma and Ken-
 tucky Sts.

SEATTLE. Wash. — Sylliason and
 Sando, Maynard Bldg., Seattle, at ap-
 prox. \$35,000 awarded contract to erect
 3-story brick and terra cotta garage
 and auto sales rooms for E. P. Sweney,
 L. C. Smith Bldg., Seattle. Will be erect-
 ed at Westlake Ave. and Roy St., and
 will cover an area of 430 by 108 ft.
 Warren L. Miller, architect, Haight
 Bldg., Seattle.

Plans Being Prepared.
GARAGE. Cost, \$50,000
STOCKTON. San Joaquin Co., Cal., Hun-
 ter and Channel Streets.
 One or 2-story reinforced concrete
 garage 100x80x150.
 Owner—Henry Cowell Estate, W. H.
 George, mgr., 2 Market St., S. F.
 Architect—Henry H. Meyers, Kohl
 Bldg., San Francisco

Plans Being Prepared.
GARAGE. Cost, \$16,000
SAN FRANCISCO. W 9th St. nr. Bryant
 One-story reinforced concrete garage.
 Owner—Withheld.
 Architect—S. Heiman, 57 Post St., S. F.

Contract Awarded.

 Francisco.
 Architect—Arthur S. Bugbee, 26 Mont-
 gomery St., San Francisco.
 Contractor—Fred L. Hansen, 251 Kear-
 ney St., San Francisco.
 (4401) 1st report Oct. 28; 2nd Nov.

Sub-Plans Being Taken.
GARAGE. Cost, \$26,000
STOCKTON. San Joaquin Co., Cal. No.
 26 E-Channel Street.
 One-story brick Class C private garage
 Owner—Western States Gas & Electric
 Co., Channel & Sutter Sts., Stockton
 Architect & Contractor—Davis-Heller-
 Pearce Co., Delta Bldg., Stockton.

GOVERNMENT WORK AND SUPPLIES

WASHINGTON, D. C.—Until January
 16, 11 A. M., bids will be received by
 U. S. Veterans' Bureau, Office of the
 Quartermaster General, 2306 Munitions

Bldg., Washington, D. C., to construct
 Neuro-Psychiatric Hospital at Ameri-
 can Lake, Tacoma, Wash. Work will
 include construction of 28 buildings of
 reinforced concrete, tile and brick,
 complete with water, lighting, heat-
 ing and sewer systems, roads and
 walks. Plans may be obtained from
 Quartermaster General at Washington
 on deposit of \$100 and are on file at
 office of Constructing Quartermaster at
 Fort Mason, San Francisco, and the
 Quartermaster Supply Offices at Stacy
 Street Terminal Bldg., Waco, Tex., and
 New Post Office Bldg., Portland, Ore.
**See call for bids under official proposal
 section in this issue.**

PEARL HARBOR, T. H.—Until 11 a.
 m., Jan. 24, bids will be received by
 Bureau of Yards and Docks, Navy Dept.,
 Washington, D. C., for refrigerating
 and ice-making plant at naval opera-
 tions base at Pearl Harbor, Spec.
 4735 may be obtained upon application
 to the bureau of yards and docks,
 Washington, D. C. Commandant, Navy
 Yard, Mare Island, and Commandant,
 Naval Operating Base, Pearl Harbor, T.
 H., by deposit of \$10. The work con-
 sists of refrigerating and ice-making
 equipment, using as refrigerant any
 suitable substance except ammonia
 and consisting of two motor-driven
 condensers, liquid receiver, two mo-
 tor-driven brine pumps, a motor-driven
 circulating water pump, a combination
 freezing and brine-cooling tank with
 expansion coils, a water pre-cooler
 tank with coils, a pressure filter, brine
 agitator, water agitator system by
 compressed air, automatic can filler,
 hand-operated crane, automatic can
 dump and ice chute, ice cans, oil and
 scale traps, piping and other accessori-
 es; also brine piping for existing cold
 storage rooms and cook's boxes and
 the construction of an ice-storage room in
 the Subsistence Building. The capacity
 shall be 3000 pounds per 24 hours.

CHEMAWA, Ore.—Department of the
 Interior U. S. Indian Field Service, Sa-
 lem Indian School, Chemawa, Ore., is
 about to construct a large dormitory
 and desires to communicate with Cali-
 fornia architects having experience in
 brick and cement. Bids for these ma-
 terials will be asked for shortly.

WASHINGTON, D. C.—Bids are being
 received by Bureau of Supplies and Ac-
 counts, Navy Department, for fur and
 del. supplies to Navy Yards as fol-
 lows: date for opening bids as noted
 at end of each paragraph.
 Schedule 336, San Diego, 2000 ft. cot-
 ton fire hose, Dec. 19.
 Schedule 342, Philadelphia and Mare
 Island, 221,000 pounds white zinc, De-
 cember 19.
 Schedule 343, Puget Sound, 1 switch-
 board, Dec. 19.

Schedule 344, various eastern and
 western yards, a miscellaneous quan-
 tity of flashlights and batteries, De-
 cember 19.

Schedule 347, for Puget Sound, Wash.,
 6000 ft. No. 3 single conductor cable and
 6000 ft. 3-conductor cable, Dec. 19.

Schedule 354, various eastern and
 western yards, a miscellaneous quan-
 tity of magnesia pipe covering and as-
 bestos plaster, Jan. 9.

Schedule 359, Mare Island, 130 sheets
 plate glass, Jan. 9.

WASHINGTON, D. C.—Navy budget
 carries an appropriation of \$1,500,000
 for further improvements at Mare Is-
 land, Cal., navy yard, including docks
 and dredges and \$330,000 for con-
 struction of the San Diego naval training
 station. For Pearl Harbor, H. T. \$693,-
 000 is available to improve and increase
 the activities of the naval station, sub-
 marine base and ammunition depot.

POSITION WANTED — Young
 man experienced in manufactur-
 ing of sheet metal products seeks
 an opening in charge of plant;
 experienced in building sheet
 metal work, doors, heating and
 ventilating; irrigation work;
 tanks and specialties; estimator.
 Able to design products and or-
 ganize plant and furnish list of
 references. Address "Engineer"
 Building and Engineering News,
 560 Mission Street, San Francisco.

SEATTLE, Wash. — Following bids
 received by U. S. Engineer Office, for
 fur, thrust bearings and pump shafts:
 (1) for bearings; (2) for shafts:
 (1) Helsor Machine Works, Portland,
 Ore., (1) \$300, (2) \$100, accepted 30
 days; Smith & Watson Iron Works,
 Portland, (1) \$500 accepted, (2) \$750,
 30 days; Draper Engine Works, Seattle,
 (1) \$600, (2) \$600; Marks Machinery
 Co., Seattle, (1) \$825, (2) \$470, 30 days.
 Washington Engineer Sales Co., Seattle
 (1) \$665, (2) \$815, 23 days; Willamette
 Iron and Steel Works, Portland, (1)
 \$750, (2) \$740, (2) \$100, Olympic Foundry
 Co., Seattle, (1) \$1134, (2) \$714, 15
 days; Enterprise Machine Works, Seat-
 tle, (1) \$586, (2) \$1418.

WASHINGTON, D. C.—Following is
 a list of prospective bidders for pro-
 jects to be constructed under the su-
 pervision of the Bureau of Yards and
 Docks, Navy Department:

Pearl Harbor, T. H.—Refrigerating
 and ice making plant; spec. No. 4735,
 bids to be opened Dec. 20:

Wittmayer Machinery Co., \$50 N.
 Spaulding Ave., Chicago, Va.; Van
 Works, 1849 Kearny St., San Francisco;
 Vilter Mfg. Co., 935 Clinton St., Mil-
 waukee, Wis.; Armstrong Cork and In-
 sulating Co., foot 24th St., Pittsburgh;
 Iden Mfg. Co., 1000 So. Co. 5 W. Leab-
 ard St., Baltimore; Kroeschel Bros.,
 Inc., Machine Co., 39 Church St., New
 York City; American Carbonic Machi-
 nery Co., The Arctic Ice Machine Co.,
 514 Market St., Canton, Ohio; The Ch-
 sel Refrigerating Co., 61 Bldwy., New
 York City; Erick Co., Washington;
 Buffalo Refrigerating Machine Co., 39
 Lafayette St., Brooklyn, York Mfg. Co.,
 Munsey Bldg., Washington; General
 Electric Co., Schenectady, N. Y.

San Diego, Cal.—Garage, fence and
 pavement, Spec. No. 4741; bids to be
 opened Dec. 20; Puget Sound, Wash.,
 14th N. W., Washington, D. C.

Pearl Harbor, T. H. — Constructing
 piers; Spec. No. 4687; bids to be opened
 Jan. 2, P. O. Carlis Const. Co., Grand
 Central Terminal Bldg., New York City
 Puget Sound, Wash. — Extension to
 pier; Spec. No. 4707; bids to be opened
 Dec. 20; R. E. Anderson Co., Equitable
 Bldg., Tacoma, Wash.

SEATTLE, Wash. — Following bids
 received by U. S. Engineer Office for
 fur, dredging sleeves; U. S. Rubber Co.,
 Seattle, \$960, 30 days; f. o. b. Raymond,
 accepted; Pioneer Rubber Mills, San
 Francisco, \$1096.80, 30 days; f. o. b.
 \$978, f. o. b. Pittsburgh, Calif.; New
 York Belting and Packing Co., New
 York City, \$1042, f. o. b. Raymond, and
 \$957.69, f. o. b. Raymond.
 B. F. Goodrich Rubber Co., Seattle,
 \$1042.04 Raymond, and \$997.20 Akron;
 Boston Vio-n Hose and Rubber Co.,
 Seattle, \$1042.04, f. o. b. Cambridge, Mass.
 Goodyear Tire and Rubber Co., Seattle,
 \$1139.76 Raymond, and \$1026 f. o. b.
 Akron.

SEATTLE, Wash. — Following bids
 rejected by U. S. Engineer Office for
 fur, turbo generator; A. H. Cox, Ray-
 mond, Wash., \$475, 30 days; Westinghouse
 Electric and Mfg. Co., \$57.35, 30
 days; Thompson & Castleton, Inc., \$350
 f. o. b. Seattle, Wash.; General Electric
 Co., \$1045 f. o. b. Raymond, Wn.

WASHINGTON, D. C.—Representative
 Samuel S. Arentz has introduced
 a bill providing for appropriation of
 \$100,000 to finance construction of a
 new Federal building at Lovelock,
 Nevada.

PLACERVILLE, El Dorado Co., Cal.—
 Chamber of Commerce backs movement
 to secure appropriation of \$100,000 to
 erect Federal building to house post
 office and Forest Service Departments.
 The Government already contemplates
 the purchase of a site for the structure.

HALLS AND SOCIETY BUILDINGS

LOS ANGELES, L. A. Co., Cal.—Ar-
 chitects Allison & Allison, 1305 Liber-
 nian Bldg., L. A., have completed plans
 for the 5-story class A women's club
 building to be erected to the corner of
 near 10th St., for the Friday Morning
 Club. Bids will be taken on segregated
 contract basis as soon as plans have
 been approved by city bldg. dept.

Plans Being Figured—Bids Close December 27, 1922, 10 a. m.
FACULTY BLDG. Cost—
BERKELEY, Alameda Co., Cal., University grounds.
 Three-story frame and stucco woman's Faculty Bldg.
 Owner—University of California.

 Bids are being called for a general contract. See official proposals for notice to contractors.

BERKELEY, Alameda Co., Cal.—Masonic Temple Association has purchased property 50x135 ft., adjoining the present structure in Bancroft Way on which it is proposed to construct additions to the present quarters.

FRESNO, Fresno Co., Cal.—The Fraternal Order of Eagles, Fresno Aerie No. 33, has organized a building association and plans the erection of a six-story fireproof office, store and lodge building at M and Fresno Sts., to cost \$500,000. Mark J. Hall, 921 Terrace St., Fresno, is treasurer of the building association. Other members are: Roy Harrington, E. C. Preston, M. Sullivan, A. Anderson and C. H. Yurk, secretary. Construction will be started early in 1923.

HOSPITALS

Plans Being Prepared.
OAKLAND, Alameda Co., Cal., 14th Ave. and E-27th St. (Highland Hospital)
 Two-story reinforced concrete and terra cotta administrative bldg for county hospital.
 Owner—Alameda County.
 Architect—Henry H. Meyers, Kohl Bldg., San Francisco.
 Plans will be complete in March or April of 1923.

LOS ANGELES, Cal.—The Santa Fe Railway Co. is having plans prepared by its engineering dept. for a 4-story class A hospital building to replace the present hospital building at 10th and St. Louis Sts. L. A. Steel frame constr., brick and hollow tile walls, reinf. conc. floors, stucco ext., clay tile and comp. roofing, marble and tile work, steam heating, elevators, hospital equipment, \$200,000.

FAIRFIELD, Solano Co., Cal.—American Ice Machine Co., 38 Sutter St., San Francisco, submits low bid to supervisors to install refrigerating plant in county hospital, Johns-Manville Co., San Francisco, bid \$3,305. Taken under advisement.

REDWOOD CITY, San Mateo Co., Cal.—Bids received by supervisors to fix and install kitchen equipment in county (community) hospital have been taken under advisement until December 15.

SEATTLE, Wash.—Hans Pederson, Alaska Bldg., Seattle, at approx. \$1,000,000 awarded contract to erect St. Vincent's Home for Aged and House of Providence on 10-acre tract on 10th St. E., southwest bet. West Edmunds and West Hudson Sts. Bids for sub-contracts, electric work, plumbing, heating, etc., will be taken by Architect John Graham, Smith Bldg., Seattle, shortly. Structure will be of brick and reinforced concrete construction, 5 sto. high, 275 by 294 ft., housing 400 persons.

REDWOOD CITY, San Mateo Co., Cal.—County supervisors reject bids to install piping and tanks for water supply for county (community) hospital. Bids for landscape work also rejected. New bids will probably be asked. W. H. Toepeke, architect, Call Bldg., San Francisco.

REDLANDS, San Bernardino Co., Cal.—Arch. Myron Hunt, 1107 Hibernian Bldg., L. A., has been commissioned to prepare plans for a new bldg. to be erected at Redlands for Redlands Sanitarium. It will be designed to accommodate 40 beds and will be a 3-story reinf. conc. structure. Further details not determined.

REDWOOD CITY, San Mateo Co., Cal.—Engineering Structures Co., Call Bldg., San Francisco, at \$956 awarded contract by supervisors for electric work at county (community) hospital.

UPLAND, San Bernardino Co., Cal.—Arch. Myron Hunt, 1107 Hibernian Bldg., L. A., is completing plans for the new hospital and nurses' home bldgs. to be erected at Upland for San Antonio Hospital Assn. The hospital will contain accommodations for 35 beds; 1-story, hollow conc. wall constr., tile or shingle roofing, terrazzo floors, steam heating. The nurses' home will contain 14 rooms and sleeping porch; 1-story, hollow conc. wall constr. Bids will be taken shortly after Jan. 1.

EVERETT, Wash.—Architects Bebb & Gould, Securities Bldg., Seattle, representing Eastern firm of Architects, will ask bids immediately for three-story general hospital to be erected at Everett. Will have capacity of 72 beds. A. H. B. Jordan, Everett, represents owners of project.

Ye Building Gossip or Pratt's Concrete Mix

VICTORY HIGHWAY ASSOCIATION
 Harvey M. Toy, Director for the San Francisco Bay District
 Manx Hotel, San Francisco, Nov. 29, 1922.

Clarence F. Pratt,
 Rock, Sand & Gravel Producers,
 518 Hearst Bldg.,
 City.

The Victory Highway development is progressing very rapidly. It looks as though this great highway with its terminus at San Francisco would be opened for through travel during 1923, and in very good shape by 1924.

We must complete the fund of \$50,000 that San Francisco is raising and I am making a very urgent request to you to endeavor to get your quota together as soon as possible. It seems fair to us that the Rock, Sand & Gravel Producers should contribute \$250 a year for three years. There is nothing that will so aid the development of San Francisco as the completion of this transcontinental highway over which thousands of tourists coming to California will travel—even those whose ultimate destination is the southern part of the State.

From every angle San Francisco is the great beneficiary. I am devoting a great deal of time to this matter and would appreciate your adopting some strenuous methods of getting this money together as quickly as possible. We must act now if we are going to bring about satisfactory results.

Very truly yours,

HARVEY M. TOY, Western Director.

THIS IS something.
 THAT THE Builders' Exchange.
 AND EVERY businessman.
 IN SAN Francisco.
 SHOULD INTEREST themselves in.
 IT WILL bring tourists.
 BY THE hundreds.
 INTO NORTHERN California.
 AND THE bay district.
 IT IS true.
 THAT THESE tourists.
 WILL PASS the sand plants.
 OF CLARENCE Sand Pratt, President.
 OF THE Pratt Building Material Co.
 DOUGLAS 300—"easy to remember."
 IN FACT the sand plant.
 ON THE American River.
 AT SACRAMENTO.
 IS LESS than 100 feet.

FROM THE highway.
 AND AS the tourists.
 PASS THIS sand washing plant.
 THEY WILL read the sign.
 WHICH TELLS how.
 IN THE days of '49.
 THE MINERS washed this sand.
 FOR GOLD and everything.
 "I THANK you."

Tourists along the Victory highway will not only see the wonderful sand washing and screening plants of the Pratt Building Material Company, but hundreds of other scenes like the above will also present themselves for California is noted for its pretty girls and sand plants.

Preliminary Plans Being Prepared.

HOTEL Cost, \$—
LOS ANGELES, Los Angeles Co., Cal.
 Adj. No. 426 S-Hill Street.
 Two-story and basement Class A hotel building, 73x166 (250 rooms).
 Owner—E. P. Clark of Clark Hotel, Los Angeles.
 Architect—E. J. Add and Richards, Brack Shops Bldg., Los Angeles.

Plans Being Prepared.

HOTEL Cost, \$125,000
DINUBA, Tulare Co., Cal., NW Cor. of Fourth and J Streets.
 Five-story fireproof hotel.
 Owner—Dinuba Improvement & Investment Co., Clarence Wilson, President, Dinuba, Cal.

 Means of financing have worked out and bids for construction will be asked for early in 1923.

Preliminary Plans Being Prepared.

HOTEL Cost, \$500,000
LOS ANGELES, L. A. Co., Cal., 5th and San Pedro Streets.
 Seven-story class A hotel bet. 600 and 800 rooms, 150x150.
 Owner—Seymour Hotel Corp. (operator of the Baltimore Hotel, L. A.)
 Architect—Peil & Verge, 358 New High Street, L. A.

Plans Complete.

REMODELING Cost—
STOCKTON, San Joaquin Co., Cal., Weber Ave. bet. Hunter and San Joaquin Sts. (Tretoway Bldg.)
 Complete remodeling of 3-story brick complete building.
 Owner—Henry Cowell Estate, W. H. Gebre, mgr., 2 Market St., S. F.
 Architect—Henry H. Meyers, Kohf. Bldg., S. F.

Sketches Prepared.

HOTEL Cost, \$150,000
SANTA BARBARA, Santa Barbara Co., Cal., St. and Carrillo Sts.
 Three-story brick woman's hotel (100 rooms, tapestry brick exterior).
 Owner—Recreation Center.
 Architect—Miss Edith Morgan, Merchants Exchange Bldg., S. F.

A large lounging room for general gatherings, smaller reading and rest rooms, dining room, kitchen, sewing rooms and laundry and even a place for the guests to shine their own shoes.

FAIRFIELD, Solano Co., Cal.—Thos. Mohamed will erect a two or three story concrete hotel on the property occupied by the Fairfield Emporium. The building will contain about 30 rooms and will be steam heated.

EUGENE, Ore.—Archts. Tourtelotte & Hummel, 311 Failing Bldg., Portland, Ore., preparing plans for 4 and 9 story reinforced concrete and stone hotel to be erected at Villamette and 10th Sts. for Frank Berger, of Eugene, and James Clark; est. cost \$300,000. Will have frontage of 160 ft. on Willamette St., and 120 ft. on 10th St.

LOS ANGELES, Cal.—Llewellyn Iron Works, of L. A., has been awarded a contract at about \$113,000 for fur and erecting a 12-story steel hotel for the 12-story class A hotel addition to be erected at 5th and Main Sts., L. A., for Hart Bros., proprietors of the Rosslyn Hotel, John Parkinson and Donald E. Parkinson, 420 Title Ins. Bldg., Los Angeles, architects.

ROSEVILLE, Placer Co., Cal.—Chambers of Commerce is conferring with private parties who propose to erect a modern hotel building in this city. Details will be available when negotiations are further advanced.

BUTTE, Montana.—Bids are being received by J. Bruce Kremer, chairman of committee of businessmen in charge, to erect a fireproof hotel building; total cost with furnishings \$1,000,000.

LOS ANGELES, L. A. Co., Cal.—Arch. C. C. Rittenhouse, 449 Wilcox Bldg., L. A., is preparing plans for a 20-story concrete office and hotel building to be erected at the northeast corner of 7th St. and Central Ave. for Cohn-Goldwater Co. It will contain 21 stories in the first story, 73 offices, 4 hotel rooms, 20 baths and 6 showers in the upper stories, 220x250 ft. and 75 ft. deep.

PORTERVILLE, Tulare Co., Cal.—The contract to erect a 2-story class A steel and concrete bath house 68x50, for California Hot Springs. The main floor will have shower, steam and hot water baths, two small hot water plunges, treatment rooms, lobby and rest room. The upper story will contain glass sun parlors for men and women. The basement will have dressing rooms, drying, laundry and boiler rooms.

POWER PLANTS

CALIFORNIA—See Applications filed with State Division of Water Rights, under heading of Irrigation, in this issue.

TAMPICO, Mexico.—The Compania Terminal de Lobos de Tampica has presented a petition to the Mexican Government for permission to use the waters of the Rio Colorado for industrial purposes. It is planned to build a hydro-electric plant at Tanchisun, State of Vera Cruz. The amount of water sought in the petition is 387,577 cubic meters annually.

SAN JOSE, Santa Clara Co., Cal.—The De-Hi Food Products Co. will erect a dehydrating plant on a 5 acre site on Union Ave. at the intersection of the S. P. Railroad. A. P. Marston, trustee of the California Prune and Apricot Growers, Market and San Antonio Sts., San Jose, is the president.

SACRAMENTO, Cal.—Nevada-California Electric Corp. plans to expend about \$5,000,000 within the next ten years for construction work and addition to present system. Included in the new construction work of the corporation, which now supplies power to the mining industry of Nevada and industrial and agricultural districts in southeastern California, will be seven new hydro-electric plants which will give an added capacity of 46,500 horsepower, which with the present capacity of 42,380 horsepower will give the company a total of 190,830 horsepower.

PUBLIC BUILDINGS

Completing Plans.
TEMPLE Cost, \$100,000
ALAMEDA, Alameda Co., Cal. Alameda and Park Streets.
 Two-story reinforced concrete temple.
 Owner—Masonic Temple Ass'n.
 Architect—Carl Werner, Santa Fe Bldg. San Francisco.

Plans for the new building calls for a large auditorium hall, ballroom, banquet halls, kitchens, several large rooms, besides the main hall, smokers, club rooms and locker halls.

Preliminary Plans Accepted.
HALL Cost, \$14,000
PARLIER, Fresno Co., Cal.
 Two-story brick and stucco Community Hall, club rooms, auditorium, etc.
 Owner—American Legion, Parlier Rains Post No. 36, Parlier, Cal.
 Architect—Swartz & Ryland, Rowell Bldg., Fresno.

Contract Awarded.
ALTERATIONS Cost, \$12,143
KINGSBURG, Fresno Co., Cal.
 Remodel passenger station.
 Owner—Southern Pacific Co., Frem.
 Architect—None.
 Contractor—C. H. Hansen, Fresno.

OROVILLE, Butte Co., Cal.—O. A. Jones, of Chico, at \$3000 awarded contract by supervisors to construct branch county jail at Durham.

Official Proposals

INFORMATION FOR CONTRACTORS (Official)

The District Engineer of the Bureau of public roads, U. S. Department of Agriculture, 881 Mills Building, San Francisco, California, advises that it has been found necessary because of delay in preparation of plans, to postpone the dates of advertisement and opening of bids of the following National Forest Road projects listed in his preliminary announcement of Oct. 16, 1922. Revised dates, which are still approximate and subject to possible further change, are listed below together with additional projects not previously noted. Detailed advertisements covering each project when ready, will be sent to contractors and published in highway periodicals or daily papers. Final plans and specifications for each project will be furnished when ready on deposit of check for \$10.00 payable to the Secretary of Agriculture. Check to be returned on return of plans and specifications.

Salmon River, Siskiyou County, California.—To be advertised about January 10, 1923. Bids to be opened about February 6. Project is located about 6 miles below Forks of Salmon and consists of approximately 130,000 yards of heavy grading and minor drainage structures. The length is 4 miles. Work is a benching in rock job with approximately 90% over-cast. The 12 ft. road width is too narrow for steam shovel but it will make an excellent station job. Major equipment including an air compressor and jack-hammers sufficient for working one end of the job, is available at the job for rental to the contractor. Preliminary plans are now ready and are furnished contractors at cost of blue-printing. Mail check for \$2.46 payable to Hoffman Blueprint Co., Fine Plans ready about January 10th. Approximate total cost \$115,000. Clearing already done.

Mineral Project, Tehama County, California.—To be advertised about Feb. 1st for opening of bids about Feb. 27. This project is on the Red Bluff-Susanville Road about 40 miles east of Red Bluff. Preliminary plans are now ready and are furnished contractors at cost of blue-printing. Mail check for \$1.71 payable to the Hoffman Blueprint Company. Final plans ready about February 1. Project 10 to 12 miles long, consists of grading, structures, unclassified excavation 150,000 cu. yds., one steel truss bridge 70 ft. span. A combination station-man and team job. Approximate total cost \$175,000.

Curran Creek, Nye County, Nevada.—On Ely-Tonopah Road 40 miles southwest of Ely; length 18 miles; to be advertised about March 15. Opening of bids about April 15th; grading and drainage structures; about 80,000 yards unclassified excavation. A good team job; water and alfalfa available along Curran Creek; about 1 miles through scattered juniper, and the rest through open sage-brush country.

Austin-East, Lander County, Nevada.—On Austin-East Road about 12 miles east of Austin; to be advertised about April 1 for opening of bids about May 1; length 18 miles; grading and drainage structures; about 30,000 yards excavation common; open sage-brush country. A team job throughout.

Meadow Creek, Elko County, Nevada.—A portion of the Meadow Creek-Jardine Project, 2 miles north of Elko; to be advertised about April 15 for opening of bids about May 15th; an 18 mile project consisting of grading and drainage structures, unclassified excavation about 90,000 yards. A good team job; open country, very little clearing required. Elevation 5500-5900.

C. H. SWARTZ, Dist. Engineer.

NOTICE TO CONTRACTORS

(Sealed Alaska Veterans' Hospital)

Sealed proposals will be received and publicly opened by the Director, U. S. Veterans' Bureau, in the Office of the Quartermaster General, 2396 Munitions

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate, 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Building, Washington, D. C., at 11 A. M., January 16, 1923, for construction of a Neuro-Psychiatric Hospital at American Lake, Tacoma, Washington, for the Veterans' Bureau. Work will include construction of twenty-eight buildings of reinforced concrete, tile and brick, complete with water, lighting, heating and sewer systems, roads and walks. Plans and specifications may be obtained after December 9, 1922, from the Quartermaster-General, Room 226, Munitions Building, Washington, D. C., upon deposit of \$100. One set of plans and specifications will be on exhibition at each of the following stations: Constructing Quartermasters at Whitehall St., New York City, and Fort Monmouth, California, and Quartermaster Supply Officers at 1819 West Pershing Road, Chicago, Ill., Second and Arsenal Sts., St. Louis, Mo., Stacy Street Terminal, Seattle, Washington, and New Post Office Building, Portland, Oregon.

BIDS WANTED FOR HIGHWAY IMPROVEMENT

NOTICE TO CONTRACTORS

Sealed proposals will be received by the undersigned on **December 27th, 1922**, for constructing portions of the State Highway System as follows:

(1) Bids received until, and opened at 1:30 P. M. for grading, construction of culverts and placing a gravel surface in Clark County between two (2) miles southwest of Dry Lake and Crystal.

(2) Bids received until, and opened at 2:30 P. M. for grading, construction of culverts and placing a gravel surface in Lincoln County between Pony Springs and Dutch John. Work on this Project need not begin until the spring of 1923 when work shall be commenced within fifteen (15) days after notice to commence work is sent to the contractor by the State Highway Engineer.

(3) Bids received until, and opened at 3:30 P. M. for grading and construction of culverts in Churchill County between Fallon and Grimes.

Plans may be examined and form of Proposal, Contract and Specifications secured at office of undersigned. May also be examined at the County Clerk's office in Las Vegas for the Clark County work, Pioche for Lincoln County work, and Fallon for Churchill County work. May also be examined

at the Division Engineer's office in Las Vegas, Elko or Reno, and District office of the Bureau of Public Roads, Mills Building, San Francisco, California.

Cash deposit of Fifteen dollars (\$15.00) with the undersigned required for copy of plans which will be refunded on their return in good condition. Bids must be on Proposal form of Highway Department, and must be accompanied by a certified check in the amount of 5% of the bid.

Each bidder must accompany his bid with a certificate from a Surety Company, duly authorized to do business in this State, stating that such Surety Company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Right is reserved to reject any or all bids.

GEO. W. BORDEN,
State Highway Engineer.

BIDS WANTED FOR U. OF C. BLDG.

(3-Story Frame & Stucco Structure)

PROPOSAL FOR BIDS

SEALED BIDS will be received at the office of John Galen Howard, Architect, First National Bank Building, San Francisco, California, at or before **10 a. m., Wednesday, December 27, 1922**, for general contract including all work for the construction of the Women's Faculty Club on the grounds of the University of California, at Berkeley.

Drawings and specifications may be obtained at the office of John Galen Howard, Architect, First National Bank Building, San Francisco, on deposit of \$50.00 for each set of drawings and specifications taken out. Checks given as deposits are to be in favor of the undersigned. Deposits will be refunded on submission of a regular bid for the work and on return of said drawings and specifications in good condition. No bids will be considered unless accompanied by a certified check or bond in favor of the undersigned, equal to 10% of the bid to secure execution of the contract by the successful bidder. The right is reserved to reject any or all bids.

BUILDING COMMITTEE WOMEN'S FACULTY CLUB, UNIVERSITY OF CALIFORNIA.

NOTICE TO DITCHING AND PIPE LAYING CONTRACTORS

(Terra Bella Irrigation District)

Notice is hereby given that the Board of Directors of the Terra Bella Irrigation District will receive sealed bids or proposals up to 11 o'clock a. m. on **January 2, 1923**, at their office in the office in the First National Bank Building, San Francisco, California, for ditching and laying about two miles of four inch, six inch, seven inch, eight inch, riveted steel water pipe as per specifications on file in the office of the Superintendent of the Terra Bella District. The amount of the pipe to be laid is estimated and may vary from fifty per cent to one hundred and fifty per cent of the amount given.

Bids will be received for ditching or for laying, separately, or combined.

Each bid must be accompanied by a certified check in the sum of five per cent of the total amount of the bid and made payable to the Terra Bella Irrigation District.

The Board of Directors reserves the right to reject any or all bids and waive defects.

All bids must be addressed to Earle R. Clemens, Secretary, and plainly marked "Bids for Ditching," "Bids for Pipe Laying," and "Bids for Ditching and Pipe Laying."

BRIDGES, DAMS & HARBOR WORK

CALIFORNIA—See Applications filed with State Division of Water Rights, under heading of irrigation, in this issue.

YUBA CITY, Sutter Co., Cal.—Eng. Eric L. Cope, 55 Sutter St., San Francisco, preparing spec. for 2000-ft. conc. causeway to span low lands bet. the new steel bridge over the Feather r. at Nicolaus and one west levee. The structure will be a link in the proposed Sacramento-Sutter joint boulevard which is to cost approx. \$175,000.

REDWOOD CITY, San Mateo Co., Cal. Until Jan. 2, 10 a. m. bids will be rec. by Eliz. M. Nash, county clerk, to const. road levee and bridge over the Arroyo known as "Bean Hollow," 2 miles south of Pescadero, in 5th Dd. Dist. Est. cost \$24,000. Cert. check 10% payable to county required. Plans obtainable from clerk.

SAN RAFAEL, Marin Co., Cal.—S. P. Rafael, at \$996 awarded contract by county supervisors to construct rein. conc. culvert on Middle Two Rock road, T. A. McDougal & Son, Tomales, bid \$153.

Brownlee at \$2200 awarded contract to construct six crru. pipe culverts on the Bolinas and Olema county road.

SANTA BARBARA, Cal.—Nat'l forest supervisors recommend rebuilding of Gibraltar dam road before rains. The portion to be repaired is the 13 miles from the foot of the San Marcos road to the dam. Supervisor Jordan of the Santa Barbara National Forest, recently completed a tour of inspection.

PLACERVILLE, El Dorado Co., Cal.—Until January 4, 2 P. M. bids will be received by Arthur J. Kozletzky, County Clerk, to construct reinforced concrete girder bridge over Dry Creek crossing the Colorado and Green Valley road, on the Colorado and Green Valley road. Certified check for 10% payable to Chairman of the Board of Supervisors required. Specifications obtainable from Clerk on deposit of \$10, returnable. Henry Lahiff, County Surveyor.

LOS ANGELES, Cal.—Until 11 A. M. January 2, bids will be received by the County Supervisors to construct 2-arch concrete bridge on state highway over the Santa Monica canyon storm drain.

OAKLAND, Cal.—Plans of the Southern Pacific Co. to develop the Western waterfront at Oakland are being completed by the company engineers and work is expected to be started within the next few weeks. The work will require an expenditure of approximately \$7,000,000 and includes the filling-in by the city, under a contract with the company, of a large portion of the 289 acres recently purchased by the railroad from the Key Route System.

TURLOCK, Stanislaus Co., Cal.—Chief Engineer R. V. Melkile of Turlock Irrigation District, completes plans for bridge over canal at extension of North Broadway. Turlock. Proposed that city of Turlock pay \$200 and Stanislaus county 50% of cost, the balance to be paid by the district.

LONG BEACH, Cal.—The Wheeler Co. 402 L. A. Ry. Bldg., submitted low bid to city mgr., at \$6175 to const. timber trestle bridge across the Los Angeles river at Anaheim St. Other bids were: Frank H. Greene, \$6250; S. M. Kerns, \$7591; W. M. Ledbetter & Co., \$7790; Mercereau Bridge & Constr. Co., \$7950; Jas. L. Frazier, \$8828.30; Ross & Ritchey, \$13,000.

PRESCOTT, Ariz.—Bids rec. by city council to const. bridge across Granite creek on Turkey St. rejected. Bids will be called again until Mar. 15, on not account of weather conditions.

PRESCOTT, Ariz.—Hodges Bros. awarded contract by Yavapai County Highway Commission at \$30,001 to construct a double span riveted steel truss bridge across the Agua Fria river near Black Canyon, bridge to be 231 feet long, with concrete piers and abutments, involving 1100 cu. yds. excavations unclassified, 307 cu. yds. A concrete, 108 cu. yds. B concrete, 33,100 lbs. reinforcing steel in place, steel superstructure in place. J. H. Kennedy submitted a bid of \$31,220.

SANTA ROSA, Sonoma Co., Cal.—W. L. Proctor, Santa Rosa, at \$6451 awarded contract by supervisors to const. bridge over Dry Creek on Thompson ranch, involving 48 cu. yds. class B rein. conc., 6½ tons structural steel and castings; 23,000 E. B. M. lumber; 8 R. W. pilings. Other bidders: Cal. Const. Co., \$7,211; D. E. Albers, \$8,500.

PITTSBURG, Contra Costa Co., Cal.—Lanteri Shipyards at approximately \$20,000 awarded contract by city organized Pittsburg-Sacramento Auto Ferry, Inc., Oscar H. Klatt, Secretary, for dredging and constructing roadway and making fill at channel approach. Ferry operations will be started in April.

SAN DIEGO, Cal.—Until 11 A. M. December 22, bids will be received by U. S. Engineer's office, 722 Central Bldg., San Diego harbor, including area designated as "area C," lying northwest from the municipal pier at the foot of Broadway, San Diego, involving approximately 300,000 cu. yds. material to be removed. The maximum allowable overdepth dredging is estimated to be 13,000 cu. yds. place measurement.

SEATTLE, Wash.—Jahn and Bressi, Thompson Bldg., Seattle, at \$44,923.30 submits low "lump sum bid" to Board of Public Works to const. West Spokane bridge. The bid was for a Strauss design. For the structure, as per plans of Board of Public Works, the same contractors bid \$460,700.51. A combination bid submitted by three separate concerns—the Bethlehem Shipbuilding Corp., Ltd., 18th and Illinois Sts., San Francisco, the Gerrick and Gerrick Co., Central Bldg., Seattle, the Butt, Electric & Manufacturing Co., 534 Folsom St., San Francisco, is \$70,011.22 lower than that of the Seattle contractors for the Strauss design. Combination bid follows: Furnishing steel and delivering at bridge site: Bethlehem

Shipbldg. Corp., \$260,863.30; erecting steel, Gerrick and Gerrick Co., \$105,400.05; furnishing electrical equipment, Butt Electric & Manufacturing Co., \$24,422; total combination bid \$390,486.29. Bids taken under advisement.

SONOMA COUNTY.—Following bids received by State Highway Commission Dec. 11, to const. bridge over Northwestern Pacific R. R. near Lytton Sonoma County, consisting of 3 32-ft. rein. conc. girder spans, with necessary bents, abutments and wing walls, involving 350 cu. yds. class A Port. cem. conc. in place; comm. to furnish rein. steel in straight bars, cut to lengths and Port. cement.

C. H. Gildersleeve, Ukiah and	\$7560.00
San Francisco	7740.00
Lord & Bishop	7740.00
O. B. Channey & Son	7884.00
Walter L. Proctor	8640.00
Reinhold & Johnson	1324.00
T. M. Barnes	10,080.00
John H. May	10,987.20
Tiehaus Bros.	11,970.00
Rosca & Coletti	12,420.00
Engineer's estimate	9,900.00

SAN PEDRO, Cal.—Harbor improvements planned by oil companies include a wharf with loading platform, storage and pumping station, costing \$200,000 for the Union Oil Co., a 600-ft. wharf near the drawbridge in the west basin, costing \$85,300, for the Standard Oil Co., a \$1,000,000 storage and refining plant in the west basin for Associated Oil Co., a similar plant for the Mexican Petroleum and Pan-American Petroleum Companies, and shipping facilities along 800-ft. frontage on Mormon island for Dutch Royal Shell Co.

SAN DIEGO, Cal.—Until 11 a. m., Dec. 22, bids will be received by city purchasing agent, Wm. P. Bates, to const. first unit of municipal pier No. 2, to be known as Contract A. The work to be done consists of the construction of a solid fill embankment including the dredging of the adjacent slips and the driving of piles and the construction of roinf. conc. curtain retaining walls. The approx. quantities are: 305,000 cu. yds. dredging, 12,000 tons rock fill, and concrete curtain walls complete. Work to be started in 15 days and completed in 275 days. Plans, spec., etc., may be obtained from the purchasing agent's office or from the office of the engineering room 13, Ferry Bldg., San Francisco, upon a deposit of \$10. Cert. check 5% on San Diego Bank.

STOCKTON, San Joaquin Co., Cal.—City council petitioned to const. bridge at East St. over Mormon channel. Taken under advisement. W. E. Hogan, city engineer.

CALIFORNIA—Following are approx. quantities of materials for bridge projects for which State Highway Commission, Forum Bldg., Sacramento, will open bids Dec. 26:

Glenn county, over Stony creek near Hamilton City, 4 100-ft. steel truss spans and 20 30-ft. rein. conc. girder spans, involving 4 100-ft. steel spans, erected in place and painted, complete except rein. conc. floor; 1220 cu. yds. class "A", and 580 cu. yds. class "B" conc. in place; 160 Douglas fir and 80 rein. conc. piles in place.

Solano county, over San Francisco-Sacramento R. R. near Denverton, bridge of 2 31-ft. and 1 39-ft. rein. conc. girder spans and grading approach, involving 420 cu. yds. class "A" conc. in place; 6400 cu. yds. embankment without classification.

IRRIGATION PROJECTS

SEBASTOPOL, Sonoma Co., Cal.—City trustees authorize Water Committee to purchase and lay water pipe from Maple to Palm Streets.

SACRAMENTO, Cal.—P. F. Engh, Los Angeles, (bid withheld for publication) submits only bid to State Reclamation Board to construct east and south levees of Reclamation District No. 1660 in Sutter County. Work is estimated to cost \$1,000,000.

CARSON CITY, Nevada.—Application for permit to build a dam in Diamond Valley, Cal., for the irrigation of 45,000 acres in Carson Valley has been forwarded to the California State Department of Public Works, Division of Water Rights by the Carson Valley Irrigation District of Nevada. A dam 106 ft. high and 630 ft. across the top is included in the project. The irrigation district has also applied to Nevada state engineer for permission to take enough water from the Carson river to irrigate 24,000 acres. Twenty thousand acres of sugarbush land will be reclaimed by these two projects.

TERIA BELLA, Tulare Co., Cal.—Until Jan. 2, 11 a. m., bids will be received by Erle R. Clemens, sec., Teria Bella Irrigation District, for ditching and laying approx. 2 miles of 4, 6, 7 and 8 in. riveted cast-iron water pipe. Bids will be considered for ditching, or laying, separately, or combined. See call for bids under official proposal section in this issue.

GLENDALE, Cal.—Until 7 p. m., Dec. 14, bids will be received for 9500 ft. 12-in. class B cast iron pipe, 450 ft. 16-in. pipe, and 5 tons 12-in. class "D" cast iron fittings. Alternate bids will be received on item 1 for 9500 ft. 12-in., 0.134 thickness, clipped ends, gate joint welded steel pipe, cert. check 10% A. J. Van Wic, city clerk.

SMARTSVILLE, Yuba Co., Cal.—Executive for Water and Mining Co., Smartsville, has had plans made to extend approx. 5 miles of its ditches into the Erle district, take over the present Erle Irrigation ditch, install gates and generally improve the service.

MERCED, Merced Co., Cal.—C. R. Adams, Planada, Cal., at \$65 yd. (approx. \$94,125) submits only bid for irrigation ditches to be constructed north side canal, Division No. 1.

On Division No. 2, Hewitt and Felch, Los Angeles, bid \$32 with \$65 overpayment, total \$72,072.96 and Blumenkranz and Vernon, Commercial and Savings Bank Bldg., Stockton, bid \$29 and \$93, total \$65,793.62. Bids taken under advisement. R. C. Starr, ch. eng.

CALIFORNIA.—Following is a partial list of applications filed with State Department of Engineering, Division of Water Rights during the month of November, 1922, as reported by H. A. Kluegel, chief of the Division:

App. 3108 (Butte Co.) Frank Tade and Ray Powell, Clippert Mills, Cal., for .075 cu. ft. per sec. from spring, for irrigation of 10 acres. Est. cost, \$1200.

App. 3109 (Madera Co.) Harry Barnes for proposed San Joaquin Water Storage Dist., Madera, Cal., for 300 cu. ft. per sec. and 25,000 ac. ft. per annum, from Fresno River, for agricultural purposes in proposed San Joaquin River Water Storage Dist.

App. 3110 (Mendocino Co.) John F. Williams, Fortuna, Cal., for 137,385 ac. ft. per annum from North Fork of Eel river, for agricultural purposes in proposed project to develop 22,580 T. H. P. Dam to be 300 ft. high. Est. cost, \$2,000,000.

App. 3111 (Santa Clara Co.) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Atty., Bank of San Jose Bldg., San Jose, Cal., for 50 cu. ft. per sec. and 7000 ac. ft. per annum from Stevens Creek for agricultural purposes in proposed Santa Clara Valley. Propose to irrigate 150,000 acres.

App. 3112 (Santa Clara Co.) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Atty., Bank of San Jose Bldg., San Jose, Cal., for 50 cu. ft. per sec. and 6000 ac. ft. per annum from Guadalupe Creek, for irrigation of 150,000 acres in Santa Clara Valley.

App. 3113 (Santa Clara Co.) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Atty., Bank of San Jose Bldg., San Jose, Cal., for 200 cu. ft. per sec. & 120,000 ac. ft. per annum from Coyote River & Las Animas Creek, for irrigation of 150,000 ac. in Santa Clara Valley.

App. 3114 (Santa Clara County) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Bank of San Jose Bldg., San Jose, Cal., for 20 cu. ft. per sec. and 1500 ac. ft. per annum from Calabazas Creek, for irrigation of 150,000 acres in Santa Clara Valley.

App. 3115 (Santa Clara Co.) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Atty., Bank of San Jose Bldg., San Jose, Cal., for 30 cu. ft. per sec. and 6000 ac. ft. per annum from Almaden Creek, for irrigation of 150,000 acres in Santa Clara Valley.

App. 3116 (Santa Clara Co.) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Atty., Bank of San Jose Bldg., San Jose, Cal., for 30 cu. ft. per sec. and 25,000 ac. ft. per annum from Uvas Creek, for irrigation of 150,000 acres in Santa Clara Valley.

App. 3117 (Santa Clara Co.) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Atty., Bank of San Jose Bldg., San Jose, Cal., for 30 cu. ft. per sec. and 8000 ac. ft. per annum from Arroyo Calero, for irrigation of 150,000 acres in Santa Clara Valley.

App. 3118 (Santa Clara Co.) Santa Clara Valley Water Conservation Committee, care L. D. Bohnett, Atty., Bank of San Jose Bldg., San Jose, Cal., for 30 cu. ft. per sec. and 8000 ac. ft. per annum from Arroyo Calero, for irrigation of 150,000 ac. in Santa Clara Valley.

App. 3119 (San Diego Co.) E. W. Campbell, Julian, Cal., for .20 cu. ft. per sec. from a spring, for domestic and agricultural purposes. Est. cost, \$1300.

App. 3120 (Siskiyou Co.) Percy E. Rulon, Gortville, Cal., for 37 cu. ft. per sec. from Beaver Creek, for mining purposes at Gravel Placer mines in Sec. 30, Est. cost, \$6000.

App. 3121 (Inyo Co.) H. M. Thurman, Randsburg, Cal., for one cu. ft. per sec. from Birch Creek Spring and Jail Canyon Stream, for power purposes in T. 20 S. R. 4 E. Proposes to develop 200 t. h. p.

App. 3125 (Sacramento Co.) Frank Tade, Sacramento, Cal., for 115 cu. ft. per sec. from Sacramento River for agricultural purposes to irrigate 92 acres in Secs. 27 and 34. Est. cost \$1000.

App. 3127 (San Bernardino Co.) F. M. Myrick, Randsburg, Cal., one cu. ft. per sec. from Two Springs, for mining and milling purposes.

App. 3128 (Placer Co.) American River Water and Power Co., Auburn, Cal., for 10 cu. ft. per sec. from American River, for agricultural purposes to irrigate 130,000 acres.

App. 3129 (Tuolumne Co.) Ernest O. Sylvence, Confidence, Cal., for 25 cu. ft. per sec. and 70,000 ac. ft. per annum from North Fork of Tuolumne River, for agricultural purposes.

App. 3130 (Tuolumne Co.) Ernest O. Sylvence, Confidence, Cal., for 25 cu. ft. per sec. and 70,000 ac. ft. per annum from North Fork of the Tuolumne River, for power purposes near point of diversion.

App. 3138 (Tulare Co.) August E. Guhl, Bakersfield, Cal., for 16 ac. ft. per annum from Marshall Meadow Ranch, for irrigation and domestic purposes. Propose to irrigate 30 acres. Est. cost, \$1000.

App. 3139 (Stanislaus Co.) Turlock Irrigation Dist., Turlock, Cal., for 1725 cu. ft. per sec. and 100,000 ac. ft. per annum from Tuolumne River, for power purposes. Est. cost \$480,000.

App. 3140 (Siskiyou Co.) Electro Metallurgical Co., Francisco, Cal., for 12,500 cu. ft. per sec. from Klamath River, for mining purposes. This application was filed under the provisions of Sec. 12 of the Water Conservation Act.

App. 3141 (Ventura Co.) Montecito Oil Producers Co., Los Angeles, Cal., for 1 cu. ft. per sec. from East Fork of Rincon Creek, for agricultural and domestic purposes. Propose to irrigate 10 acres. Est. cost \$3000.

App. 3142 (Ventura Co.) Montecito Oil Producers Co., Los Angeles, Cal., for 1 cu. ft. per sec. from East Fork of Rincon Creek for drilling oil wells, etc. in Sec. 13, T. 4 N. R. 25 W. Est. cost, \$3000.

App. 3143 (Mono Co.) E. S. Berney, Fallon, Nevada, for 100 cu. ft. per sec. from west Walker River, for power purposes.

App. 3144 (Mono Co.) E. S. Berney, Fallon, Nevada, for 100 cu. ft. per sec. from West Walker River, for power purposes.

App. 3145 (Mono Co.) E. S. Berney, Fallon, Nevada, for 100 cu. ft. per sec. from West Walker River, for power purposes.

App. 3146 (Mono Co.) E. S. Berney, Fallon, Nevada, for 100 cu. ft. per sec. from West Walker River, for power purposes.

App. 3148 (San Bernardino Co.) City of Redlands, Cal., for 10 cu. ft. per sec. from Mt. Red Creek, for municipal purposes in Redlands. Est. cost \$10,000.

App. 3149 (Inyo Co.) Geo. B. Warren, Big Pine, Cal., for 8 cu. ft. per sec. and 360 ac. ft. per annum from Sloughs and natural drainway, tributary to Owens River system, for agricultural purposes to irrigate 640 acres.

App. 3150 (Sutter Co.) Sutter Basin Improvement Co., Sacramento, Cal., for 9.37 cu. ft. per sec. from Drainage Water, for agricultural purposes to irrigate 393.9 acres of rice.

App. 3152 (Sutter Co.) Sutter Basin Improvement Co., Sacramento, Cal., for 14.62 cu. ft. per sec. from East Dredge Cut, Sutter By-Pass, for agricultural purposes to irrigate 534.87 acres of rice. Est. cost, \$5500 for dam.

App. 3154 (Sutter Co.) Sutter Basin Improvement Co., Sacramento, Cal., for 4.65 ft. per sec. from East Dredge Cut and Gelschauer Slough, to irrigate 185.35 acres of rice.

App. 3155 (Sutter Co.) Sutter Basin Improvement Co., Sacramento, Cal., for 24.38 cu. ft. per sec. from East Dredge Cut, Sutter By-Pass, for irrigating 575 acres of rice.

App. 3157 (Sutter Co.) Sutter Basin Improvement Co., Sacramento, Cal., for 23.09 cu. ft. per sec. from Willow Slough and East Dredge Cut, for irrigating 575 acres of rice.

App. 3160 (Placer Co.) Henry Worth, Auburn, Cal., for 2040 cu. ft. per sec. from American River, for agricultural purposes to irrigate 290,000 acres northwest of Sacramento.

App. 3161 (San Joaquin Co.) Ren Featherston, Stockton, Cal., for 2.50 cu. ft. per sec. from Mokelumne River, for agricultural purposes to irrigate 200 acres in Secs. 15 and 16. Est. cost, \$5500.

App. No. 3162 (San Joaquin Co.) P. H. and R. G. Megerle and Louisa A. Plasse, Clements, Cal., for one cu. ft. per sec. from Mokelumne River, for agricultural purposes to irrigate 68.65 acres near point of diversion. Est. cost, \$4000.

App. 3163 (San Bernardino Co.) A. Billa, Los Angeles, Cal., for 12 cu. ft. per sec. from springs, for mining purposes. Est. cost \$1000.

App. 3135 (Riverside Co.) James I. Gulick, Glendale, Cal., for 12 cu. ft. per sec. and .25 ac. ft. per annum from seepage, for agricultural purposes to irrigate 15 acres.

App. 3137 (San Bernardino Co.) Bert D. James, Isabella, Cal., for one cu. ft. per sec. from an unknown spring for mining, domestic and stock purposes. Est. cost \$2000.

Permits Granted
Following permits were issued by Division of Water Rights during the month of October:

Permit 1193 (Tehama Co.) to L. W. Warmoth and N. E. Kerling, Paskenta, Cal., for 25 cu. ft. per sec. from Thomas Creek in Sec. 4, for irrigation of 20 acres.

Permit 1184 (Inyo Co.) to Chas. Markle and S. F. Hopkins, Box 8, Trona, Ark., for 15 cu. ft. per sec. from Water Canyon, for mining purposes in Surprise Canyon, Panamint Range. Est. cost, \$2000.

Permit 1185 (Los Angeles Co.) to John La Belle, Box 451, R. 5, Los Angeles, Cal., for 12 cu. ft. per sec. from Spring in Snake Canyon Trail for domestic purposes.

Permit 1189 (Alpine Co.) to F. C. Spring, Box 115, care George R. Montrose Atty., Gardnerville, Nevada, for one cu. ft. per sec. from West Fork of Carson River, for irrigation of 720 acres.

Permit 1190 (Mono Co.) to August Amend, Berry Creek, Cal., for 2 cu. ft. per sec. from Carters Ravine Creek, for mining purposes in Section 4.

Permit 1191 (Trinity Co.) to Edward H. Hill and Tacie C. Hill, Mendocino, Cal., for one cu. ft. per sec. from East Fork for irrigation of 80 acres.

Permit 1192 (Plumas Co.) to D. N. Jones, Wheatland, Cal., for 2 cu. ft. per sec. from Bucks Creek for irrigation of 99.27 acres. Est. cost, \$350.

Permit 1193 (Eldorado Co.) to H. C. Aden et al., 931 Alameda St., Vallejo, Cal., for 1 cu. ft. per sec. from a feeder of the Alameda River for domestic purposes of summer resident

sites of 46 mile-stone groups. Est. cost \$300.

Permit 1194 (Orange Co.) to Mr. and Mrs. Edward B. Hunter, El Toro, Cal., for .085 cu. ft. per sec. from Mlickey Canyon for irrigation of 5 acres. Est. cost \$1500.

Permit 1195 (Tulare Co.) to D. R. O'Connor, Little Lake, Cal., October 31, 1922, for 12 cu. ft. per sec. from Spring in Sec. 36, for irrigation of 10 acres.

LIGHTING SYSTEMS

TRACY, San Joaquin Co., Cal.—Tracy Chamber of Commerce and property owners propose to install 30 electrolites in Central Ave., and 6th St.

LOS GATOS, Santa Clara Co., Cal.—Town trustees contemplate installation of cast iron electrolites in business district.

HAYWARD, Alameda Co., Cal.—Town trustees will inspect lighting systems in bay cities to determine type to be installed in portion of Castro, Main, First, A and B Sts., about 60 standards; property owners to finance cost of installation.

LONG BEACH, Cal.—Until 9:30 a. m., Dec. 19, bids will be received by city council to construct ornamental lighting system complete in 3rd St., bet. Pine and American Aves. Spec. C-37. H. C. Waughop, city clerk.

ALHAMBRA, Cal.—Until 8 p. m., Jan. 2, bids will be received by city commission to construct ornamental lighting system in Garfield Ave., bet. Hellman Ave. and 210 ft. of E. Ramona Blvd., 1911 Act. R. B. Wallace, city clerk.

SACRAMENTO, Cal.—City Eng. Albert Givan has completed spec. for installation of electrolites in 1 St., bet. 2nd and Sixteenth Sts.; will be 1-light type of arm style, 5-light standards now in use. Property owners will finance installation.

MACHINERY

CALIFORNIA—See Applications filed with State Division of Water Rights, under heading of irrigation, in this issue.

CHICO, Butte Co., Cal.—American Rubber Co. at \$72 ft. awarded contract by the City Trustees to furnish 1500 feet fire hose. Original specifications provided for the purchase of 2500 feet.

TURLOCK, Stanislaus Co., Cal.—City Trustees will ask bids for pump and motor, bids to be opened in January. Horace Hall, City Engineer.

SAN DIEGO, Cal.—City Hydraulic Eng'r. Savage estimates cost of salvaging \$30,000 worth of wooden pipe line from the Harvey diverting dam to the Lower Otay filtration plant at \$10,000.

BAKERSFIELD, Kern Co., Cal.—Until Jan. 2, bids will be received by B. R. Fitzgerald, secretary Kern County Union High School District, for fur. light truck equipped for light towing.

TURLOCK, Stanislaus Co., Cal.—Osterberg Bros., Turlock, awarded contract by City Trustees to drill well in Lots 27 and 28 Blk 57.

MERCED Merced Co., Cal.—Llewellyn Iron Works, North Main St., Los Angeles, at \$2923 awarded contract by Merced Irrigation District to fur. and install pumps and motors for Booster Plant No. 2 and at \$2747 for Booster Plant No. 3.

FORTLAND, Ore.—As previously reported, bids will be received until December 29, 2 p. m., by S. C. Pier, city purchasing agent, to construct garbage incinerator, bidder to furnish plans and specifications and specify time to complete work. Bids are desired on four alternates, as follows: (a) repair and enlarge present incinerator plant by relining furnaces; combustion chamber and other portions in addition within the same building a complete incinerator with 100 tons daily capacity;

(b) tear out present furnaces and install complete 200-ton capacity incinerator within present building; (c) to construct 200-ton new incinerator at a site to be selected, complete with building and other accessories; (d) to construct a new 100-ton incinerator with a site to be selected, complete with building, furnace and other accessories. In the above alternates when a complete incinerator is spoken of it means that not only furnaces should be constructed but all accessories, such as combustion chambers, settling chambers, stacks, power development, if any, runways, dumping facilities, building sewer connections, pump, forced drafts, dump cars and any and all other features which would make a complete plant ready for operation upon completion.

SAN JOSE, Santa Clara Co., Cal.—County Surv. Irving Ryder instructed to secure estimates of cost to install and operate a plant to construct and repair bituminous roads.

SANTA BARBARA, Cal.—Until 10 a. m., Jan. 2, bids will be received supervisor to fence 1000 ft. of Las Viras road, where the same passes through the lands of J. McWilliams, E. L. Patterson and E. M. Patterson, 6th road dist. Cert. check 10%. Owen H. O'Neil, county surv.

INGLEWOOD, Cal.—Until 8 p. m., Dec. 26, bids will be received by city trustees for one self-propelling gasoline or distillate motor road roller, not less than 10 tons weight nor more than 12. Spec. on file with Otto H. Dueke, city clerk. Cert. check 10%.

LOS ANGELES, Cal.—Until 10 a. m., Dec. 26, bids will be received by Board of Public Works for sewage pumping machinery and equipment at Harris Place Pumping Plant, Wilmington.

FRESNO, Fresno Co., Cal.—City council, R. Y. St. George, clerk, will ask bids immediately for: (1) collecting garbage to be disposed of at city dump; (2) collect and dispose of garbage. Wm. Stranahan, city eng.

SEATTLE, Wash.—Until Dec. 22, 10 a. m., bids will be received by C. B. Bagley, secretary Board of Public Works, for fur. one 12-ton steam road roller. Cert. check, money or bond 5% required. Spec. may be had from above.

REDWOOD CITY, San Mateo Co., Cal.—County Supervisors on recommendation of Architect W. H. Toepke, Call Bldg., San Francisco, will accept offer of American C. I. Pipe Co., Balboa Bldg., San Francisco, to furnish 1200 ft. of 4-in. class C, and 2200 ft. 4-in. class B, c. i. water pipe for use at county hospital.

REDWOOD CITY, San Mateo Co., Cal.—J. J. McLeod, 1246 Golden Gate Ave., San Francisco, at \$997 awarded contract by supervisors to construct incinerator for county (community) hospital.

RAILROADS

KLAMATH FALLS, Ore.—Chillicoquin Lumber Co. will extend its logging railroad for a distance of 10 miles.

MILES CITY, Montana — Montana Railway Co., capitalized at \$5,000,000, has been incorporated and proposes to finance construction of a standard gauge railroad to follow the Tongue river south to Sheridan, Wyoming. The articles of incorporation have been filed with F. E. Bohling, county clerk and recorder of Custer County. Five directors are named: Scott Ferris, Lawton, Okla.; William E. Alluan, New York City; F. D. Saklatvala, New York; C. J. Haskell, Tulsa, Okla.; and J. S. O'Brien, of New York City. The route proposed to be used has already been surveyed, the maps having been made in 1919. No information is available as to when construction will be started.

SAN BERNARDINO, Cal.—W. J. Burton Co. has contract to build about half of a proposed double track line between Redlands and Pasadena, 68 miles, for Santa Fe Ry. Est. cost of entire project \$3,000,000. Grading will start immediately.

KEISO, Wash.—As previously reported, bids will be received by Longview, Portland & Northern Ry. Co. to construct 3½ miles of railroad the first unit of 26 miles for which contracts will be let during 1923. Wesley Vandercook, chief eng. See call for bids under official proposal section in this issue.

SAN FRANCISCO — C. H. Holt, of Leonard and Holt, 33 Montgomery St., heads movement to finance by city capital the construction of an electric railway down the Peninsula. It is proposed that the Burlingame-San Mateo Real Estate Board arrange to finance a survey for the new route and at a later date take up the matter of financing.

FIRE EQUIPMENT

TURLOCK, Stanislaus Co., Cal.—Following bids received by City Trustee for furnishing and delivering fire hose: U. S. Rubber Co., for 80 ft. \$140 ft.; Turlock Hardware Co., 66c ft.; American Rubber Co. of Calif., blue line hose, 72c ft. Taken under advisement.

MADERA, Madera Co., Cal.—County Supervisor Owens authorized to construct by day labor bridge over Cottonwood creek in Road District No. 1, cost not to exceed \$280. No bids were received for the work.

GRASS VALLEY, Nevada Co., Cal.—City Council will install special police electric call system. Dan Stewart, city electrician, will purchase and install materials.

SEWERS, STREET WORK, ROADS & WATER SYSTEMS

CALIFORNIA — Following bids received by State Highway Commission December 11:

Siskiyou county bet. Granada and Yreka, 8.5 miles, graded and paved with either Port. cem. conc., asph. conc. or asph. macadam; involves 36,000 cu. yds. excavation without classification 12,900 class A Port. cem. conc. pavement; 470 cu. yds. class A Port. cem. conc. culverts and monuments; 250 lin. ft. 12-in. corr. metal pipe; 85 monuments; alternate item—12,490 cu. yds. asph. conc. mixture pavement; 14,950 cu. yds. broken stone asph. macad.; 480 tons asphalt grade E spread asph. macad. Commission will furnish rein. steel, corr. metal pipe and cement for conc.; asph. cem. and stone dust for asph. conc.; asphalt grade E for asph. macad.

(1) Concrete, (2) asphaltic macadam,

(3) asphalt.

V. R. Dennis Constr. Co. McMinnville, Ore., (1) \$—, (2) \$158,645, (3) \$186,575.

Kaiser Laying Co., Oakland, (1) \$162,095,545, (2) \$181,444,500, (3) \$187,400.

principally fir, altogether has large quantity of alder available. Also would like to contract for direct sale of railroad ties.

D-305—Salt Lake City, Utah. Representative specialty company manufacturing sanitary radiator hangers desires distributor this market.

THEATRES

(Continued from Page 13)

SAN DIEGO, San Diego Co., Cal.—Arch. William H. Wheeler, San Diego, is completing plans for a Spanish renaissance type, class A steel and reinf. conc. theatre building, to be erected at southwest corner 4th and E Sts., for E. E. Hicks, lessee, owner of the Ca-brille theater. It is reported that Sid Grauman will be associated with the lessee. The completed theater will represent an investment in the neighborhood of \$600,000. It will be 100x150 ft. in dimension, and have a seating capacity in the main auditorium of 2000. The auditorium will be 56 ft. high, with balcony and mezzanine floor, with ornamental marquise on corner entrance. The exterior will be cream colored tile with tower of variegated tiles. The ground and structure will cost \$450,000, equipment \$150,000 and pipe organ, \$50,000. Southern Title Co. and J. R. Barkley, investment broker, represent the owners, and Lane D. Webber is agent for Mr. Hicks.

EVERETT, Wash. — Architect H. Ryan, People's Bank Bldg., taking figures to remodel Everett Theatre for Star Amusement Co. of Everett, Wn. Est. cost \$100,000. Work will include steel, terra cotta, marble, plastering and ornamental plaster, electrical work, plumbing, heating and ventilating system. Seating capacity will be increased from 800 to 1500.

A new Columbia Theatre, which may be located near the site of the old Columbia on Powell street close to Market, is being planned by J. J. Gottlob and A. L. Erlanger, of New York, and likely will be opened in the autumn of 1924. The structure, costing about \$700,000, will have a seating capacity of 1750.

The new Columbia Theatre will be a duplicate of the Biltmore in Los Angeles, plans for which have been completed already by Ralph Pincus, local manager of the Columbia, and approved by Mr. Erlanger, who is bringing his personal architect from New York for the construction of these buildings. The Metropolitan Theatre in Seattle will also form a link in the west coast circuit.

Upon the expiration of Mr. Gottlob's lease on the present Columbia, January, 1925, Louis R. Lurie will assume control of the theatre.

OFFICIAL PROPOSALS

(Continued from Page 14)

NOTICE TO BIDDERS

(Longview, Portland & Northern Railway Company)

Sealed proposals for the construction of road bed, bridges and culverts for approximately eight and one-half (8½) miles of railroad in Coville County, Washington, will be received by the Longview, Portland & Northern Ry. Company at its offices at Kelso, Washington, up to 2 o'clock p. m., January 1st, 1923, when they will be opened and read, eight and one-half (8½) miles being regarded by the Company as the first unit of contemplated construction expected to total twenty-six (26) miles, contract expected to be let early in 1922.

Drawings, specifications and form of proposal, contract and bond are on file in the office of the Chief Engineer, Kelso, Washington, and may be inspected by prospective bidders; or same will be furnished to interested parties on deposit of Ten Dollars (\$10.00), which will be refunded upon return of papers in good condition.

Bids must be made on proposal form to be furnished by the Company and in the case of designations therein, same to be inclosed in sealed envelope bearing the name and address of the bidder and to be marked "Bid for Railroad Construction."

The principal quantities involved are approximately as follows:
 153,580 cubic yards excavation.
 39,300 cubic yards loose rock excavation.

59,300 cubic yards solid rock excavation.
 222,660 cubic yards embankment borrow.

649,710 station yards overhaul.
 324 lin. ft. 18-in. concrete culvert pipe.
 672 lin. ft. 24-in. concrete culvert pipe.

60 lin. ft. 30-in. concrete culvert pipe.
 380 lin. ft. 36-in. concrete culvert pipe.
 70 lin. feet 42-in. concrete culvert pipe.

43,863 lin. feet piling.
 514,500 ft. B. M. lumber for trestles.

Each proposal must be accompanied by a certified check payable to the Longview, Portland & Northern Ry. Company for not less than five (5) per cent of the total amount of the bid as a guarantee that contract will be entered into if awarded.

The person or persons, if any, to whom the contract is awarded will be required to file a bond not less than 50% of the total amount bid, with good and sufficient sureties, to guarantee the faithful performance of the contract.

Special attention of the bidder is called to "Information for Bidders" included in the proposal forms.

The right is reserved to reject any and all bids.
 LONGVIEW-PORTLAND & NORTHERN RY. COMPANY.

By WESLEY VANDERCOOK,
 Title Chief Engineer.

NOTICE TO PIPE MANUFACTURERS

(Terra Bella Irrigation District)

Notice is hereby given that the Board of Directors of the Terra Bella Irrigation District will receive sealed bids or proposals up to 11 o'clock a. m., on January 2, 1923, at their office in the First National Bank Building, Terra Bella, Calif., for the furnishing, F. O. B. Ultra, Calif., on or before February 1, 1923, riveted steel water pipe, as per specifications on file in the office of the superintendent of the Terra Bella Irrigation District, of the following sizes and quantities:

4 inch 700 ft.
 6 inch 6700 ft.
 7 inch 700 ft.
 8 inch 2700 ft.

Quantities are estimated and may vary from fifty to one hundred and fifty per cent of the amounts given.

Each bid must be accompanied by a certified check in the sum of five per cent of the total amount of the bid and made payable to the Terra Bella Irrigation District.

The Board of Directors reserves the right to reject any or all bids and waive defects.

All bids must be addressed to Earle R. Clemens, Secretary, and plainly marked "Bids for Pipe."

EARLE R. CLEMENS, Secretary

NEW CARPENTER'S LEVEL

The Commercial Laboratories, manufacturing and research chemists, Maplewood, N. J., will market a unique and novel form of a carpenter's level. The instrument will be known as "Barber's Automatic Level" and reads horizontally as well as vertical deflections from one scale and can be applied in a dark place without the use of artificial light, allows duplication of work, within 2 degrees and is simple in design.

A "Pittsburg" Automatic Gas Water Heater installed in the Home indicates high quality throughout.

Recommended and specified by all of the leading architects, plumbers and builders.

Consider the high merit of the Pittsburg coupled with "Pittsburg Perfect Service."

KOEHRING DANDIE Light Mixer

—yet it is within the price range for light mixers

THE Dandie is a light, easily portable mixer for concrete footings, culverts, floors, and has also proved suitable for mortar mixing.

It is a Koehring mixer—Koehring designed and constructed—and this means that dependability and long service life are the first considerations, not lowest price. No it is not the lowest priced mixer, but is well within the price range for light mixers, making it the greatest *value* in light mixer field. It sets a new standard of efficiency and value for light mixers. Big production, standardization in every part, and automatic shop equipment keeps the price down!

Send Today for Catalog D 000

Get the details of construction—the liberal drum dimensions—double gear drum drive—the drum roller construction—universal bearings, mixing action—the two side discharge control—trouble-proof power—dust-proof housing. Get these details and you will see why the Dandie offers a remarkable value. Write for catalog D 000 today.

HARDWOOD LUMBER MARKET ACTIVE

"Great numbers of buyers for the furniture, hardwood flooring, automobile, sash and door, and many other lines of wood-consuming industrials, are in the market actively for hardwoods," according to "Lumber" of Chicago. "In the face of an unusual demand, lack of shipping facilities at loading points, and a scarcity of the more staple items of dry hardwoods, prices of oak gum, birch, maple and basswood are on the upward trend, with some sharp advances during the past fortnight.

"The hardwood flooring factories have bought heavily of 4x4 oak in the No. 1 and No. 2 common grades, and with the furniture buyers now coming to the market strong for the same items, they are finding it difficult to place orders for their requirements, and in many instances are paying high prices for suitable stocks available for immediate shipment. The furniture people are in the market for sap and red gum, and there have been advances in the more staple items of that particular species, with the demand far in excess of the supply.

It is explained by the lumbermen in this market that the present situation is due to an unusual demand coming at the same time from the furniture, automobile and hardwood flooring manufacturers, the three industries consuming probably 75 to 80 per cent of the output of the annual oak and gum production. In the present situation the local lumbermen also see a revival in industry, with many wood-consuming plants fast getting back to normal in consequence of a better demand for the manufactured products.

M. C. VAUGHN, OAKLAND CONTRACTOR, DRAWS \$16,000 AND DISAPPEARS

M. C. Vaughn, Oakland contractor, and the successful bidder on the \$480,000 second unit of the Highland (Alameda co.) hospital and the \$110,000 Alexander Hamilton high school, has disappeared and the Globe Indemnity Co. has commenced an audit of his accounts.

Vaughn, according to newspaper reports, gave up his offices in the Oakland Builders' Exchange Friday, December 15, after cashing a warrant for \$16,000 from the Alameda County supervisors. He has not been heard from since.

S. E. Jackson, manager of the Globe Indemnity Co. which is on Vaughn's bonds to guarantee the completion of the county hospital and the high school has applied for a warrant for his arrest on a charge of felony embezzlement, according to the Oakland newspapers. Announcement is made, however, that it is not possible to issue the warrant because under the law the money he received was his own money given for services rendered and material purchased. The fact that he acted as trustee for subcontractors is not covered by law.

L. A. WILL USE S. F. SCHOOLS AS MODELS

San Francisco school buildings of recent construction are to be taken as a model for schools in Los Angeles. City Architect John Reid, Jr., has received a request from Robert H. Lane, assistant superintendent of the Los Angeles schools, for the floor plans of the new Grant school on Pacific avenue and for photographs of the building. The plans are to be used in the building program of the Los Angeles department. In a letter to Reid the Los Angeles school head states:

"I have recently been on a tour of inspection of the many newer school buildings in San Francisco. We have nothing in this city to compare with the buildings which have been designed by you."

Assistant Superintendent Lane declares that the employment of a school architect by San Francisco is a "big step in advance of our local scheme, which farms out our new buildings to a dozen different architects, many of whom have had no experience in school work."

TWENTY MILLION DOLLAR STEEL COMPANY IS FORMED

The Columbia Steel Corporation, capitalized at \$20,000,000 and formed to consolidate the Columbia Steel Company operating at Pittsburg, Cal., and Portland, Ore., with the Utah Coal and Coke Company and certain ore properties in Utah, has completed its organization, according to an official announcement by President Wigginton E. Creed.

The new company will expand the Pittsburg plant by increasing its open hearth capacity and adding sheet and wire mills to its equipment. The object is to meet all requirements of Pacific Coast markets.

In addition the corporation will build a blast furnace and by-product coke oven at a site in Utah between Provo and Springville for making pig iron to supply the pig iron requirements of the new mills and general coast market.

The capital stock of the corporation is divided into two lots of common and preferred stock, each totaling \$10,000,000.

The newly elected officers of the corporation are: W. E. Creed, president; J. D. Grant, first vice president; Joseph Sloss, vice president and treasurer; D. H. Botenford, vice president; L. F. Rains, vice president; John D. Fenstermacher, secretary. Directors: Wallace M. Alexander, W. W. Armstrong, D. H. Botenford, Albert E. Boynton, E. F. Eurrell, W. E. Creed, C. G. Dall, W. W. Crocker, John S. Drum, A. C. Ellis Jr., Herbert Fleischacker, J. D. Grant, S. F. B. Morse, L. F. Rains and Joseph Sloss.

URBAN HOMES IN NATION NOW TOTAL 17,600,000

The total number of homes in the United States, not including homes on farms, was 17,600,000 in the year 1920, according to figures recently issued by the census bureau at Washington. Of this number 7,195,000, or 40 per cent, were owned by their occupants and of these 2,855,000 or 39.7 per cent, were mortgaged.

The total amount of these mortgages is estimated by the bureau to be \$6,000,000,000, while the total value of the homes is placed at \$14,099,000,000. The ratio of the indebtedness to the value is 42.6 per cent.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

The E. T. Chapin Pole Co., of Spokane, Wn., has acquired in the Weippe district of Clearwater Co., Ida., the timber, mill site and other interests of the Scofield-Mariner syndicate. E. T. Chapin, head of the company, closed the deal. The reported consideration is \$150,000. The purchasing company will spend \$100,000 in mill installation at Weippe and other works necessary to inaugurating milling operations. The timber embraces 3300 acres. The stand is estimated at 100,000,000 feet, of which more than one-third is white pine. The yellow pine is estimated at 10,000,000 feet and the mixed timber, including fir, black pine, tamarack and cedar, at 55,000,000 feet. The stand includes 2,500,000 feet of cedar poles.

Wage plasterers, bricklayers, hod-carriers and building laborers will be increased 10 to 20 per cent in the Pacific Northwest January 1, according to word from Seattle. Plasterers have been raised from \$9 to \$10 a day and are working on a five-day week basis. Bricklayers have had their wages raised from \$8 to \$9 a day on a tentative arrangement extending to January 1. Seattle has the report that tile-setters have been offered as high as \$74 a week in southern California cities.

A three year extension of time has been granted by the State Railroad Commission to the Sacramento Northern Railroad Co., successor in interest of the Vallejo and Northern Railroad Company, to install a subway on Union Avenue at Fairfield, Solano County, where the line crosses the Southern Pacific tracks. It is pointed out that the estimated cost in 1913 was \$96,000 while the cost today would be approximately \$150,000.

E. F. Pray, resident manager for the Red River Lumber Co., at Westwood, Calif., has resigned to accept a position as general manager of the Hutchinson Lumber Co., a new concern entering the Northern California lumber field. Pray entered the service of the Red River Lumber Company thirty years ago as bookkeeper, and since 1913 has been resident manager at Westwood. He is also a director of the First National Bank of Westwood.

More than 19,000,000 feet of lumber was loaded at British Columbia ports during October for shipment to foreign markets. The lumber was for Eastern Canada, the Atlantic States, Japan, California, Fiji and France. Of the total 1,155,568 feet was loaded on the Fraser river, 1,875,000 feet at Coonah bay, 550,000 at Chemainus and the balance at Vancouver.

Japanese members of Federated American Engineering Societies, mechanical, electrical, civil and mining, who have returned to their own country, have formed an association to promote the interest of their profession. Many of these men spent years in America.

Arrangements are being completed to construct a 50-ton cyanide mill at the Bellehelen Merger Mines at Tonopah, Nevada. Construction has been started on a 9000-ft. pipe line and contracts have been let for hauling 225 tons of machinery and building material for contemplated improvements.

The usual decline in sales of fabricated structural steel is reported for November in statistics issued by the Department of Commerce, showing the total sales for the month to have been about 16.3 per cent of the shop capacity of firms manufacturing the commodity. October orders were about 57 per cent of the shop capacity.

A. H. Landram, president of the Tacoma Lumbermen's Club, proposes to advertise Tacoma, Wn., as the "Lumber Capital of America." Full page advertisements in 13 lumber publications and descriptive material will be mailed to 20,000 lumber dealers in addition to folders to be issued in clubs and public places.

Offenbach Electric Co. has opened quarters at 1452 Market St., San Francisco, and will engage in a general electrical supply business.

Initial steps in the preparation of the plan for a proposed civic center for Fresno, which officials describe as an amplification and glorification of the "Cheney plan" adopted in 1918, will be taken at a gathering of architects of Fresno to be held within the next few days. The meeting will be called by Miles O. Humphreys of the City Planning Commission.

It is reported that the Eastern and Western Lumber Co., of Portland, has purchased approximately 1,000,000,000 feet of timber in the Cascade range in Marion and Clackamas counties, Oregon, from the Foster Timber Company, of Milwaukee, Wis. The tract lies north of the Silver Falls Timber Company holdings.

Lassen county holds the record in the state of California for lumber production, according to the recent report of the Federal Forest Service and the State Forest Service. The past year has been unusually profitable for Lassen county lumbermen while the prospects for next year are even better.

The California State Railroad Commission has authorized the Palermo Land and Water Co., and the South Feather Land and Water Co., of Chico, to sell their water systems to the Oroville-Wyandotte Irrigation District of Butte County. The price to be paid each selling company is \$200,000.

A pamphlet entitled "Waste Eliminated in the Production and Consumption of Hardwood Lumber," has been issued by the Hardwood Manufacturers' Institute. It explains conditions regarding present grading rules, their inadequacy, and suggests methods for improvement.

Routt Lumber Co., of Fresno, is manufacturing factory built garages that can be put together on location in three hours time. The structures are built in several sizes from single garages, ten by sixteen feet up to sixteen by twenty feet, to house two cars.

Pritchard Bros., general contractors, 1214 Van Ness Ave., Fresno, will open a branch office in Los Angeles to handle contracts in the southern section of the state.

ALONG THE LINE

F. S. Keever, Los Angeles manufacturer, has purchased the creditors' claims and is arranging to purchase the machinery of the Dow-Herriman Co., plant at Petaluma. He plans to operate the plant for the manufacture of pumps and mining machinery. Murray Herriman, who was a member of the Dow-Herriman Co., will be associated with Keever as engineering engineer.

G. I. Batelle, formerly with the engineering department of the city of San Francisco; Chas. J. Worden, of the firm of Lloyd and Worden, and E. W. Roberts, formerly with the Western States Gas and Electric Co., are now in the employ of the California State Highway Commission.

The Bethlehem Shipbuilding Corp., Ltd., shipbuilders and engineers, has established an office in the H. W. Hellman Bldg., Los Angeles. C. C. McRae, who has been associated with the engineering profession of the Pacific coast for some years, is in charge of the Los Angeles office.

The Shasta County Grand Jury in its final report recommends that the county undertake the construction of a system of roads to the Lassen Volcanic National Park in addition to improving other roads in various sections of the county.

Frank Mayo, Stockton architect, has been elected president of the Stockton City Planning Commission. John Kasper, appointed by the city council to serve on the commission, was elected vice president and Mrs. Kathryn E. Smith was chosen secretary.

H. J. Sarter, surveyor of Siskiyou county, has resigned to open an office in Los Angeles for private practice. Sarter was county surveyor of Siskiyou county for twelve years and for four years was a deputy in that office.

The Universal Tractor Co., Inc., of Oakland, has been incorporated and will engage in the manufacture of a light tractor, approximately 2500 pounds with weight on traction wheels.

J. A. Walls, of the architectural firm of Morgan, Walls and Morgan, Los Angeles, died in that city December 12 of heart disease.

The National Stone-Tile Co., of San Francisco will establish a plant at Menlo Park for the manufacture of building materials.

P. B. Hackley, 625 Market Street, will represent Wm. Ruddock, Los Angeles steam shovel sales agent, in Northern California.

Western Apple Vinegar Co., of Sebastopol, has purchased a site adjoining its present plant in Sebastopol and will erect a dehydrator early in 1923.

Plant of Washington Wood Products Co., Tacoma, Wn., suffers \$57,000 fire loss, December 17.

DRASTIC WAGE CUTS WILL HINDER INDUSTRY

(American Contractor)

The time to prepare the building trades wage scales for 1923 will soon be at hand. Already news comes from San Francisco that hearings are being held by the Impartial Wage Board which was appointed last year by the Industrial Association. This board determined the rate of wages paid in the San Francisco building trades during 1922.

The San Francisco Builders' Exchange has presented to the Impartial Wage Board its recommendations that during 1923 the same rate of wages shall continue as was in effect during 1922 except in the instances of the lathers and bricklayers who were mentioned for a rate of 12½ cents an hour over the prevailing rate.

In open shop cities and in mixed open and closed shop towns, as well as in solidly closed shop communities, the setting of the wages is vital to the development of the construction industry during the coming year.

The San Francisco Builders' Exchange seems to have made its recommendations in accord with all the current economic facts. There is no tendency towards decreased living costs apparent. The shortage of certain classes of mechanics creates a precarious situation that is liable to affect any community that attempts to pull down the high rates of wages that these favored groups are receiving. Any attempt to make drastic wage reductions is liable to react to the detriment of the industry at the present time, for as wholesale price levels remain fixed or advanced there is little cause to cut the wages of those workers who are now receiving a rate commensurate living needs, while those classes of mechanics who have been receiving wages above the rate of a dollar an hour are not liable to take a cut with any good grace owing to the current shortage in craftsmen that allowed these wages to rise so high in the first place.

Next year looks like a big construction year. Yet the upward tendency in general construction costs should be checked as much as possible. Diplomatic methods of the present time to be proper tactics in trying to prevent any greater rise in costs. If wholesale prices continue to advance it may well be the part of wisdom to grant raises to some of the lowest paid men commensurate with the advance in living costs where such action will not precipitate a general struggle for more wages all along the line.

In any event, the subcommittees that have charge of the work of preparing next year's wages should gather in all the economic data that is available on the subject, for gathering the facts about wages may prevent some costly delays next summer. Last year was comparatively quiet among workmen in the building trades field. Let us assure ourselves of another year of productive peace by understanding the economic and the wage situation throughout the country before we make any moves.

NOVEMBER CEMENT PRODUCTION

Portland cement production in November was smaller than in any month since June, while shipments were less than any month since April. Production was 11,349,000 barrels, compared with 12,287,000 in October and shipments were 10,167,000 barrels, compared with 12,854,000 in October.

ROAD CHIEFS OPPOSED TO NARROW HIGHWAYS

National highway congestion and the "billion dollar limitations" that are beginning to appear in Uncle Sam's mammoth transportation system are due for the concentrated attack of automobile and roads authorities this winter. Following the annual conventions of highway leaders in Chicago and other construction centers, engineers predict that at least two basic features of the federal highways already completed will be eliminated from future plans.

The first is the generally adopted 18 foot pavement width, which authorities declare is at least two feet too narrow for safety on main traveled roads. The second is the recognized fallacy of running through state and federal routes into towns and cities when it is possible to avoid congested city streets and traffic dangled by routing them along the border of corporate limits.

Dangerously narrow roads are gradually disappearing as a result of widening the shoulder work throughout the east and near traffic centers in Illinois. Builders explain that the laying of as great a mileage of all season pavement no matter what limit lack of building funds set for their width, has been the vital item in the last five years. They expect to see the development of 24, 50, and 100 foot pavements as traffic requires them, and to establish separate freight and passenger car highways by the same gradual method.

The routing problem is considered more difficult. In the majority of states main road pavements have been laid out through the heart of every village and town within striking distance, although state and federal funds cannot be used to improve streets in any of the larger communities. The traveler thus

enjoys smooth running and economical operation everywhere in the open country, but meets irritating delays, rough and unprepared roads, and careless route markings the moment he reaches the edge of most towns.

A tour of the Illinois bond issue system strikingly illustrates this recent construction mistake. The "Valley Way" leading from Chicago through Joliet, Peoria, and Springfield to St. Louis, is honeycombed with community barriers. Scores of motorists have complained to the state concerning the rough pavements and danger in Lemoine, Joliet, Marseilles, Ottawa, Peoria, Springfield, and several of the larger towns to the south. In some instances the towns are improving streets used by the state route, but conditions were found to be uniformly bad by a recent inspection tour. Lack of proper markings through the towns and congestion in the business districts, where the routes invariably center, add to the delay and danger. The state highway department has no jurisdiction over this condition.

Like conditions were found at the outskirts of Bloomington, Decatur, Danville, and other population centers, along the various state routes, and on practically every Chicago street carrying state road traffic into Chicago.

Many of the good roads captains, among them the men responsible for the projected 60 million dollar state highway system in Missouri, plan to launch a national campaign against the future routing of state and federal highways through towns along their line, this winter. The Missouri routes avoid all towns wherever possible, connecting communities with the main highway by spur pavements.

CHICAGO TRIBUNE DESIGN AWARD—ED N. Y. ARCHITECT

John Mead Howells, New York architect, son of William Dean Howells, the novelist, won the \$50,000 prize offered by the Chicago Tribune for the best design for the \$7,000,000 building which it will erect on North Michigan Boulevard, Chicago. Raymond M. Hunt, of New York, was associated with Mr. Howells in the development of his design. The winning design is for a Gothic structure with 20 stories in the lower 250 ft. and additional 140 ft. of buttressed tower, making the total height 400 ft. Second prize of \$20,000 went to Ellet Saariner of Helsingfors, who won second prize in the Hague Palace competition. Third prize of \$10,000 was awarded Theodor Holabird & Roach, architects of the skyscraper temple of the First Methodist Church of Chicago. Other prize winners divided \$20,000.

\$24,000,000 CONSOLIDATED CANAL PROJECT PROPOSED

The Board of Directors of the Sacramento Valley Development Association has been advised of the ultimate result of an investigation into the proposed building of the Sacramento River ship canal, installation of a lock system and building of a salt water dam to keep fresh the waters of the Sacramento River, should result in the consolidation of the projects into one gigantic \$12,000,000 proposition.

This was contained in the progress report of W. A. Beard, president and general manager of the association.

The estimates of cost were based on enough figures supplied by the war department engineers. The feasibility of each project will be investigated thoroughly by a committee which Beard has been authorized to appoint to carry out the work.

MEXICAN LUMBER IMPORTS

The importation of lumber into Mexico for the fiscal year ended June 30, 1922, according to official statistics, was only 60 per cent of the total quantity imported during the previous year. One of the most important dealers in Mexico City has made the statement that at present the sales of lumber do not exceed 50 per cent of the average sales four months ago. The only lumber used in quantities of commercial importance in building consists of floor and ceiling beams, according to estimates of lumber producers and dealers. The production of lumber in Mexico is now approximately 750,000,000 feet, and another producer has just begun operations with the expectation of cutting from 1,000,000 to 2,000,000 feet per month.

PROPOSE HIGHER BUILDINGS FOR CHICAGO

The builders of sky scrapers in the Windy City are expecting to be able to hoist their flags to greater heights than ever before if the new zoning and building laws are approved. The new laws figure vertical distance in terms of the cubical contents of the buildings, and the proposed maximum elevation to be permitted in the downtown district will be extended another 20 feet, or to the peak of 280 feet from the street level.

The designer may take advantage of this increase if more space is provided for light shafts. The tentative rule limits the cubical contents to twenty times the lot area. A building line 15 per cent of the depth of the lot back from the lot line will be established in zones limited to detached residences. For apartment districts the figure is 10 per cent.

ORGANIZATION NEWS

EIGHTEEN INCREASES ARE ALLOWED BY IMPARTIAL WAGE BOARD IN 1922 SCALE

The impartial wage board appointed by the Industrial Association of San Francisco to establish a wage scale in the building trades of San Francisco has completed its findings and fixed a minimum wage scale in all building crafts for 1923.

The new scale calls for eight increases and no decreases. Otherwise the scale remains the same as for 1922.

The board points out that the reason for the increases and no decreases lies partially in the fact that there is no apparent possibility of an early decrease in the cost of living.

It is also pointed out that the scheduled building operations of San Francisco for 1923 totals \$50,000,000, and that with this building boom there will be a shortage of mechanics.

The board points out that the scale is established only as a minimum and that contractors are at liberty to pay higher wages to workmen of superior ability as they see fit.

The board's report says in part: "The wage scale now established differs from that of the year 1922 only in the case of a very few crafts, and in such crafts the change in the scale has been by way of increase and not by way of decrease.

"In no instance has the board made any decrease because there is no indication of any likelihood of any sufficient lowering of the cost of living to warrant such a decrease."

The members of the wage board are Archbishop Edward J. Hanna, H. U. Brandenstein and C. F. Michaels.

	1922	1923

S. F. CHAPTER A. A. E. ELECTS OFFICERS AND REVIEWS YEARS' ACTIVITIES

(Albert J. Capron, Secretary)

At the regular election of officers for the ensuing year, the San Francisco Chapter, American Association of Engineers placed in office the following: President, Geo. Mattis; first vice president, Chas. H. Lee; second vice president, E. H. Herbert; treasurer, Geo. W. Whittle; secretary, Albert J. Capron; Board of Directors: G. Chester Brown, E. E. Carpenter, Wm. H. Phelps and Chas. C. De Wolf.

During the past year the Chapter has had a large measure of prosperity beginning with a heavy indebtedness this has been wiped out and a handsome surplus to the credit of the Chapter is on hand.

Many large problems have been handled including the investigation of the Water and Power Act, research of which extended from Ontario through the Dakotas, up and down the State, wherever any data might be found concerning the proposed matter. After six months of hard work the Committee returned a document of some ten thousand words full of statistics and information which during the campaign was distributed among the electorate and contributed much to defeat the measure.

The proposed unmerger of the C. P. S. P. Railroads called for another equally valuable study, the findings of which have become a source of information pertinent to the subject matter.

An engineers' license law is being prepared for submission to the coming Session of the Legislature. The American Association of Engineers has secured the passage of similar laws, a model law, in eighteen states with several more pending and it is hoped to secure the passage of some measure of protection to the engineer during the coming winter in the State Legislature.

Nearly five hundred engineers have been placed on jobs this year, the value in money of the services of these engineers on a yearly basis amounts to a million and a quarter dollars, all this having been accomplished without expense to the engineer, no fees being charged.

All in all the Chapter has become a factor in the body politic of the profession and with a committee now working on the vehicular traffic problem further contribution to the public may be expected in the near future.

FRESNO BUILDERS' EXCHANGE VOTES TO ESTABLISH SCHOOL FOR BRICKLAYERS

Extension of its industrial school, to include a bricklayer's school for apprentices, was voted at joint meeting of the Valley Industrial Association and the Fresno Builders' Exchange boards of directors.

The school, training 25 students, is confined at present to plasterers and plumbers' apprentices. J. W. Hunt, manager of the association, says. The bricklayers' school will be started as soon as an instructor can be obtained.

Excellent building trade conditions for 1923 were predicted by R. F. Felch, chief of the Builders' Exchange, and head of the industrial relations committee, who predicted that the record building program of this year would be eclipsed.

SANTA CLARA COUNTY SURVEYORS ORGANIZE

Organization of the Santa Clara County Society of Surveyors and Civil Engineers has been perfected.

Henry B. Fisher has been elected president for the ensuing year; Geo. F. Wakefield, vice president; Frank Herrmann, secretary-treasurer; J. G. McMillan, Irving L. Ryder and Frank A. Herrmann, directors.

The organization has for its purpose the fostering of engineering and surveying upon a higher plane, the development of the ethical and social side of the profession, and mutual assistance among the membership. It will also devote time to the study of civic and county engineering and surveying problems with a view of benefiting the entire community.

The charter of the society will be open until February 1, 1923. Those applying for membership must be residents of Santa Clara county and must have had at least two years' experience in directing engineering or surveying work or be graduates of some technical university.

GOVERNMENT AGENTS COMPLETE RENO BUILDERS' INVESTIGATION

Operatives of the bureau of investigation of the United States department of justice have been investigating activities of the Washoe County Builders' Exchange (Reno, Nevada) and have submitted reports on the facts as disclosed to them, it became known when United States Attorney George Springmeyer stated that there is a possibility of a federal grand jury airing of the methods employed by the exchange in the conduct of its affairs.

The reports by agents of the department will be passed upon by the United States attorney for Nevada and by the attorney general's office with a view to determining whether or not there has been any violation of federal law. Springmeyer said, and if the circumstances warrant, the United States grand jury, which, under present plans, will go into session next month, will be called upon for an official scrutiny of the facts.

The investigation of the activities of the Washoe County Builders' Exchange was precipitated by J. H. Cahill, who encountered difficulties with the exchange in connection with construction by him of a hotel building on West street. Cahill addressed a communication to the United States attorney complaining of the practices of the exchange and the latter requested the bureau of investigation to send agents to Reno to check the circumstances surrounding the controversy and to investigate other complaints. This resulted in a comprehensive inquiry which has been in progress for a month or more.

Fifty-six new industries, large and small, have located in Oakland this year through the efforts of the industrial department of the Oakland Chamber of Commerce according to Joseph H. King, retiring president of that organization.

E. C. Whalen, sanitation engineer from Los Angeles, after a two-day inspection of San Francisco's plumbing and sewage facilities, declared this city was the most sanitary he had visited in the United States.

APARTMENT HOUSES

Contract Awarded.
APT. HOUSE Cost, \$28,000
BEIRCKLEY, Alameda Co., Cal., W. Hill-
 eague 126 N. Ashby Ave.
 Three-story apartment house.
 Owner—Mrs. Olive A. Watson, 2921
 Hillcress Ave., Berkeley.
 Contractor—California Builders Co.,
 1531 Franklin St., Oakland.

To Be Done By Day's Work.
APARTMENTS Cost, \$12,000
OAKLAND, E. Kingsley Ave., 300 N. Ex-
 ceisor.

Two-story 16-room apartments.
 Owner—W. E. McClesney, 1315 San
 Luis Ave., Oakland.

Plans Being Prepared.
APARTMENTS Cost, \$135,000
SAN FRANCISCO, NE Leavenworth
 and O'Farrell Sts.
 Seven-story and basement Class A
 apartment and store building.
 Owner—Ackerman & Harris.
 Architect—Weeks & Day, California
 Ins. Bldg., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$125,000
SAN FRANCISCO, SE Jackson and
 Taylor Streets.
 Two three-story and basement frame
 and plaster apartments (22 apts.).
 Owner—Joseph Bauer, Wigwam Thea-
 tre, 2555 Mission St., San Francisco.
 Architect—J. M. Gutters, 278 Post
 St., San Francisco.
 Contractor—Chas. W. Heyer Jr., Mills
 Bldg., San Francisco.

Plans Being Prepared.
APARTMENTS Cost, \$50,000
BEIRCKLEY, Alameda Co., Cal., Col-
 lege Ave. and Russell St.
 Two-story and basement brick
 and concrete store and apartment bldg.
 Owner—Dr. Stover.
 Architect—W. H. Weeks, 369 Pine St.,
 San Francisco.

Owner Taking Segregated Figures.
APARTMENTS Cost, \$10,000
SAN FRANCISCO, S Green St., 120 E.
 Pierce St.
 Two-story and basement frame (4)
 apartments.
 Owner—J. B. R. Cooper, 711 22nd Ave.,
 San Francisco.
 Architect—E. H. Denke, 1317 Hyde St.,
 San Francisco.

Low Bidder.
APT. HOUSE Cost, approx. \$27,500
BERKELEY, Alameda Co., Cal. Arch. St.
 Two-story and basement frame
 and stucco apartment house, 27 rooms,
 8 apartments.
 Owner—J. O. Davis.
 Architect—W. H. Ratcliff, Jr., First
 Natl. Bank Bldg., Berkeley.
 Low Bidder—H. D. Nelson.

To Be Done By Day's Work.
APARTMENTS Cost, \$18,000
SAN FRANCISCO, SE Bartlett and 24th
 Street.

Two-story and basement frame (6) apts.
 Owner—J. H. Verner, 1991 23rd St. S. F.

Plans Being Figured.
STORE & APTS. Cost, \$18,000
SAN FRANCISCO, Geary bet. 17th and
 18th Aves.

 Architect—Carl Werner, Santa Fe Bldg.,
 San Francisco.

THIS TIME of the year.
 ALWAYS BRINGS back memories.
 TO CLARENCE Sand Pratt, President.
 OF THE Pratt Building Material Co.
 DOUGLAS 300—"easy to remember."
 BECAUSE WHEN Sandy (alias
 Clarence).
 WAS A small boy.
 IN THE wonder city, "Tulare."
 HE ALWAYS enrolled.
 IN A Sunday school class.
 ABOUT NOVEMBER 1st of each year.
 HIS ATTENDANCE was fair.
 DURING NOVEMBER.
 BUT IN December.
 IT WAS always 100%
 BECAUSE EACH child.
 THAT WAS on the roll.
 RECEIVED at the Christmas tree.
 A BAG of candy.
 BESIDES A personal interview.
 WITH SANTA Claus.
 AND IN those days.
 THERE WERE few Santies.
 IN FACT, Clarence understood.
 THAT THERE was but one.
 IN THE entire Santa Claus family.
 AND THAT Santy.
 HAD TO visit every home.
 IN THE whole world.
 ON CHRISTMAS Eve.
 SO CLARENCE Sand Pratt figured.
 THAT THE Methodist Church.
 WAS THE surest place

TO SEE Santa Claus.
 AND BESIDES every Sunday school
 child.
 RECEIVED A bag of candy.
 HALF FULL, however.
 OF PINK and white pop corn.
 SO SANDY Pratt.
 SELLER OF clean, sharp sand.
 FOR EVERY purpose.
 CAN LOOK back with pride.
 TO HIS 100% attendance.
 AT SUNDAY school.
 DURING EACH December.
 OF HIS young life.
 "I THANK you."

The above picture shows Clarence
 Sand Pratt in his early youth telling
 one Anna Briggs how to please Santa
 Claus and win one bag of candy at the
 Sunday school Christmas Tree.

THEATRE Cost, \$300,000
LOS ANGELES, Los Angeles Co., Cal.—Pico St. and Morton Ave.
Three-story class A reinforced concrete theatre, 110x216.
Owner—B. & H. Circuit, Inc., 336 Title Ins. Bldg., Los Angeles.
Architect—E. J. Borgmeyer, 1002 California Bldg., Los Angeles.
Contractor—Lawrence Durck Constr. Co., 325 S-11th St., Los Angeles.

Santa Barbara, Santa Barbara Co., Cal.—Edward M. Johnson, president of the California Theatre Co., has announced that he and his associates will erect a theatre and office bldg. costing approx. \$500,000 on upper State St. The purchase of the property was consummated through A. F. Watkins. The proposed bldg. will be built in the shape of a U, the front portion to be 8 stories, 50 ft. wide by 46 ft. deep, back of which will be the auditorium. The stage will be 60x33 ft. It is planned to seat 2,000-2,200 downstairs and 800 on the second floor. The style will be of Spanish Corinthian architecture, the

exterior to be terra cotta 2 stories, with cream yellow brick on 5 stories above. The roof will be of red tiles, and galvanized wrought iron work will be used for railings, balconies, etc. Reinforced concrete will be used throughout. Work will start at once.

BUSINESS OPPORTUNITIES

SAN FRANCISCO—Further information regarding these opportunities may be had from Domestic & Foreign Trade Union, Chamber of Commerce, Merchants' Exchange Bldg.
625—San Francisco. Firm desires to communicate with the exporters or manufacturers of incense cedar slats used in the making of pencils.

626—Hagen, Westphalia, Germany. Manufacturer of bronze wire claims to have perfected a superior process for manufacturing the same and wishes to communicate with interested American producers.

653—San Francisco. American with seven years' experience in charge of large organization in South America desires to communicate with a reliable local firm which desires an executive or sales representative in Latin America or the Philippines. He possesses college training and excellent references.

654—San Francisco. 17 tractors and 5 motor cultivators, besides miscellaneous parts and attachments, are available for export.

654—Hartford, Conn. Large demand is reported for building hardware.

655—Ceylon, India. A large market exists for kerosene lamps and lanterns.

655—San Francisco. Communication is desired with California importers of narrow gauge railroad materials.

656—Minneapolis, Minnesota. Inventor of certain paints and stains desires connection with manufacturing concern to produce their paints here in San Francisco.

657—Philadelphia, Pa. Manufacturer of Locomotive Machinery desires agent in San Francisco.

657—Richmond, Va. Manufacturing concern desires contact with suppliers of California Incense Cedar lumber cut in bitches suitable for manufacture into pencil slats.

657—St. Louis, Mo. Concern desires to get in touch with manufacturers of steel and asbestos theatre curtains.

657—San Francisco. Party desires to get in touch with handlers of Raw Rubber.

HIGHWAY COMMITTEE NAMED

James K. O'Brien, of Yuba county, president of the Tahoe-Ukiah Highway Association, has announced the appointment of a committee of 50 which will meet and draft a highway program for submission to the next legislature. O'Brien was authorized by the association last summer at a meeting at Upper Lake, Lake county, to name this committee.

The committee named by O'Brien includes men from all parts of California who are interested in highway improvement and maintenance.

The committee at a meeting in San Francisco named O'Brien its chairman. J. E. Taylor, of Grass Valley, is secretary. He also is secretary of the Tahoe-Ukiah highway association.

MASTER PLUMBERS OF EAST BAY TREAT KIDDIES

Santa Claus, bearing a pack heavily laden with candy, toys and other Christmas goodies, paid a visit to the children of the Master Plumbers of the Eastbay region in the Merchants Exchange Bldg., Oakland, December 18. The plumbers' association sponsored the affair, which is an annual event given for the kiddies. George Stoddard of Berkeley enacted the role of Santa Claus and distributed the gifts. A program of music and literary numbers was presented and dancing and games followed.

Official Proposals

NOTICE TO FURNITURE & SCHOOL EQUIPMENT DEALERS

(Owens Valley Union High School District)

The Board of Trustees of the Owens Valley Union High School District, Inyo County, California, will receive sealed proposals and samples up to and until **Tuesday, Jan. 2, 1923, 7:30 p. m.**, at Independence, California, at which time and place said samples will be examined and said bids will be opened and read in public for furnishing the following school furniture and equipment:

1. School desks.
2. Domestic science equipment.
3. Physics room furniture.
4. Lockers.

6. Window shades.
7. Teachers desks.
8. Teachers chair etc.

Cashier's or certified check or bid deposit for an amount not less than 5 per cent of amount of bid shall accompany each proposal drawn to the order of the Clerk of the Board of Trustees of the Owens Valley Union High School District, as a guarantee that the bidder will within ten days (10) after being notified that said bid has been accepted shall enter into a contract therewith, and shall furnish surety bonds to the Board of Trustees, as requested by them. Said check or bond shall be forfeited to the said High School District should the bidder fail to execute the contract and furnish bond as above mentioned.

Specifications for any or all of the above equipment may be secured from the Clerk of the Board of Trustees of the Owens Valley Union High School District, Independence, California.

The said High School Board reserves the right to reject any or all bids, and to waive any informality in any bids received.

By order of the Board of Trustees, Owens Valley Union High School, Independence, California.

Dated Dec. 12, 1922.

By C. J. WALTERS, Clerk.

NOTICE TO CONTRACTORS FOR THE INSTALLATION OF HEATING EQUIPMENT IN THE LONGFELLOW SCHOOL (Berkeley School District)

The Board of Education of the City of Berkeley and of Berkeley School District in the County of Alameda, State of California, invites and the Clerk of the Board, at his office, 2133 Allston Way, Berkeley, California, up to the hour of 4 o'clock P. M., December 29, 1922, sealed proposals for furnishing the necessary materials, tools and labor for the installation of heating and ventilating equipment in the Longfellow School, situated on Berkeley, California, Ward 1, and Derby Streets, in Berkeley School District, in accordance with plans and specifications adopted by said Board of Education on May 23, 1922, and now on file in the office of the said Board of Education, 2133 Allston Way, Berkeley, California.

Copies of said plans and specifications may be obtained from the offices of William C. Hays, 1325 First National Bank Building, San Francisco, California, and from the Board of Education, 2133 Allston Way, Berkeley, California, upon depositing the sum of Ten (\$10.00) dollars cash. Plans and specifications must be returned within six (6) days from date of receipt or said deposit must be forfeited on any plans not returned to Architect on or before 4 o'clock P. M. January 2, 1923.

Bids must be on blank forms furnished by and obtained from said William C. Hays. Work on the contract must commence within 48

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

hours from notification of the Board of Education to commence said work, and be diligently prosecuted until completion thereof, unless otherwise ordered by said Board of Education and the Architect.

All bids must be accompanied by a cash deposit or a certified check on a responsible bank and payable to the Board of Education for an amount equal to ten (10%) per cent of the amount of the bid.

If the bidder to whom the contract is awarded shall for five (5) days after such an award fail or neglect to enter into a contract and file the required bonds for the faithful performance of the contract and the furnishing of materials and labor, the cash deposit or certified check of said bidder may be declared forfeited to the Board of Education and shall be collected and paid into the General Fund of said Board of Education.

The Board of Education reserves the right to reject any and all bids. By order of the Board of Education of the City of Berkeley, County of Alameda, State of California.

CLYDE BLANCHARD,
Secretary of said Board of Education.

NOTICE TO BIDDERS ON THE LODI UNION HIGH SCHOOL BUILDING, LODI, CALIFORNIA

Notice is hereby given by the High School Board of Trustees of the Lodi Union High School District that sealed bids will be received at the High School Building, in said town of Lodi, County of San Joaquin, State of California, up to the hour of Five o'clock (5) P. M. on the 3rd day of January, 1923, at which time all bids will be publicly opened. Said bids to be for the furnishing of labor and material and erecting of a Two-story Science Building, an Auditorium Building, and making alterations to the present Buildings, all of which buildings constitute a Group of buildings, known as The Lodi Union High School, located in the City of Lodi, County of San Joaquin, State of California.

Bids shall be for:
Division (1) One—General Contract, Heating and Ventilating.
Division (2) Two—Electric Clocks and Program System.

And shall be for all work according to plans and specifications which may

be obtained at the office of Wright & Satterlee, and L. S. Stone, Architects, for the Board, Bank of Italy Building, Stockton, California, during business hours.

All bids must be accompanied by a certified check or certificate of deposit for Ten (10%) per cent of the amount of bid tendered, made payable to Perry Clark, Clerk of the High School Board, and conditioned that each successful bidder under each division shall enter into a contract in accordance with said bid and file with said High School Board, two (2) approved bonds within six days after the acceptance of his bid, one of which bonds shall be for 50% of the contract price and shall be conditioned for the faithful fulfillment of the contract entered into, and to be done thereunder, and one for Fifty (50%) per cent of the contract price for the protection of all persons performing labor or furnishing materials for the construction of said buildings.

In case the said contractor shall fail to execute the bonds above mentioned which are acceptable to the Board within the said six days, due notice having been given him, then shall the contractor forfeit all claim to the said amount, said certified check for Ten (10%) per cent of his bid and it shall become the property of the Lodi Union High School District.

All bids must be submitted upon forms obtained from the Architects.

Contractors must make a deposit of Fifteen (\$15.00) Dollars with the Architects when taking plans and specifications from the office.

The Board reserves the right to reject any or all bids.

Dated December 16, 1922.

By order of the High School Board.
W. S. MONTGOMERY, Pres.

PERCY M. MERRITT,
THEO. BECKMAN
J. E. NELSON

PERCY O. CLARK, Clerk.
As and constituting the Lodi School Board of Lodi Union High School District.

NOTICE TO CONTRACTORS

(Hanford Union High School District)

Pursuant to an order of the Board of Trustees of the Hanford Union High School District, duly passed and entered on its minutes of December 11, 1922, notice is hereby given that said board will receive sealed proposals for the following branches of work:
1—General bid for furnishing material, digging and filling trenches and installation of underground sprinkling system.

2—Separate bid for material, only, delivered at high school.

3—Separate bid for digging and filling trenches.

Plans and specifications are on file with the clerk of said Board. Copies may be obtained at the office of Cotton and Co., Inc., 638 New Call Bldg., San Francisco, California.

All bids must be in the hands of G. W. Armstead, clerk of the Board of Trustees, at the High School Building, Hanford, California, on or before 7:30 p. m. January 6, 1923.

Bidders may figure any one or more of the segregations, separately, or all of them together.

A certified check or bidders bond equal to ten per cent of the amount of the bid submitted must accompany each proposal.

The Board reserves the right to reject any or all bids submitted. Of the bidder and branch of work must be marked on the outside of the envelope.

BOARD OF TRUSTEES,
Hanford Union High School,
G. W. Armstead, Clerk,

KOEHRING DANDIE

Light Mixer

- yet it is within the price range for light mixers

THE Dandie is a light, easily portable mixer for concrete footings, culverts, floors, and has also proved suitable for mortar mixing.

It is a Koehring mixer—Koehring designed and constructed—and this means that dependability and long service life are the first considerations, not lowest price. No it is not the lowest priced mixer, but is well within the price range for light mixers, making it the greatest *value* in light mixer field. It sets a new standard of efficiency and value for light mixers. Big production, standardization in every part, and automatic shop equipment keeps the price down!

Send Today for Catalog D 000

Get the details of construction—the liberal drum dimensions—double gear drum drive—the drum roller construction—universal bearings, mixing action—the two side discharge control—trouble-proof power—dust-proof housing. Get these details and you will see why the Dandie offers a remarkable value. Write for catalog D 000 today.

4 and 7 cu. ft. capacities mixed concrete, steam and gasoline. Low charging platform, power charging skip. Automatic water tank and light duty hoist.

LOS ANGELES THIRD IN BUILDING FOR 1922

Los Angeles ranks third among the cities of the U. S. in building for the year 1922. New York City reports permits issued during the first eleven months of the year with a total estimated valuation of \$543,201,183; Chicago's total for the same period is \$193,238,810; while that of Los Angeles is \$112,251,190. Philadelphia is close behind Los Angeles with a total of \$108,911,180, but it is not likely that the December figures will change the position of these two cities. For 11 months of the year Detroit shows a total of \$87,550,261; Boston, \$15,398,861; Washington, D. C., \$13,846,904; San Francisco \$12,887,648; Baltimore, \$37,343,420; Pittsburgh, \$32,934,735 and Milwaukee, \$30,237,647. Oakland's total for 11 months is \$22,397,641. Portland's \$21,925,875; and Seattle's \$17,091,156. Long Beach reports for the same period \$15,193,158 and San Diego, \$11,441,560.

Building activities throughout the U. S. held up well during November. A total of 202 cities reported 53,372 permits with an estimated valuation of \$212,252,108 issued during the month as compared with 43,252 permits with a valuation of \$148,581,363 for November, 1921. This is a gain of 41 per cent. For October, 1922, 204 cities reported building operations aggregating \$214,978,138. Thirty-five cities reported building permits with a valuation of more than one million dollars for November. Thirteen of these reported less than a million a year ago. Los Angeles was fourth among the cities of the country in building for November, Philadelphia nosing her out of third place by a margin of about \$60,000. San Francisco was fourteenth in the list. Oakland was seventeenth and San Diego twentieth in the line.—Southwest Builder.

November Building Reports From 202 American Cities Show Nation-Wide Activity

Intense construction activity in November is unusual even in years of great building. A record of permits granted by building departments of 20 important cities reaching back to 1914 shows that only in November, 1915 and in November of this year has the October total been overshadowed.

Building permits taken out in November are good evidences of work planned for the first part of next year. At the present time the permits issued as far back as June and July are assuming form day by day in the shape of structures, and all men in the construction industry from the workers in brick yards to the interior finishers are busy. A remarkable keeping up of permit volume during the last three months, therefore, means more than if the figures were built up from a slump.

Just two months of this year, January and February, are exceeded by the highest month volume of last year, which occurred in April and until the advent of this year set a record above that of any previous month in any year for 1914.

New York City permits for November do much to bring the total above the October level. In October, permits granted in the metropolis totaled \$411,606,254 in estimated valuation, while those of November totaled \$52,918,225. Chicago valuations jumped from \$11,996,150 to \$20,443,000. Philadelphia jumps from \$9,876,025 to \$11,416,730, taking third place for November volume. Los Angeles holds fast to the eleven million mark and but slightly

below the actual figures for Philadelphia. Actual figures for all cities running one million or more dollars average monthly valuation are appended in a tabulation whose totals for November and for October show a substantial November gain.

This gain in the totals, however, is shrank considerably by the fact that 29 out of the 47 cities included show November loss. Detroit, Baltimore, San Francisco and Boston show appreciable drops.

The total number of cities reporting to the American Contractor on November construction is 202. The total number of permits issued in these cities is 53,372 as against 43,252 issued in November, 1921. The estimated total valuation of the permits for November is \$212,252,108 as against \$148,581,363 for November of last year. This is an increase of 43 per cent over last year's figures.

October returns for this year from 204 cities gave a total of \$214,978,138 in valuation, which was a 21 per cent gain over October of last year.

Pacific coast cities report as follows for November construction activity:

	Nov., 1922	Nov., 1921
Seattle	\$1,255,610	\$ 593,000
Tacoma	297,983	285,432
Portland, Ore.	1,858,550	1,371,615
San Francisco	2,621,471	2,314,606
Oakland	2,584,752	1,235,471
Los Angeles	11,355,710	8,685,775
Long Beach	1,046,465	1,254,560
San Diego	2,427,170	816,995

COAST LUMBER ACTIVITIES

One hundred and forty-six mills reporting to West Coast Lumbermen's Association for the week ending December 16 manufactured 87,062,273 feet of lumber, sold 39,115,678 feet and shipped \$97,149,155 feet.

Production for reporting mills was 13 per cent below normal. New business was 14 per cent above production. Shipments were 2 per cent below new business. Thirty-eight per cent of all new business taken during the week was for future water delivery. This amounted to 37,855,678 feet, of which 28,224,365 feet was for domestic cargo delivery and 9,631,313 feet for over-seas shipment. New business for delivery by rail amounted to 2042 cars.

Forty-four per cent of the week's lumber shipments moved by water. This amounted to 42,869,155 feet, of which 32,084,345 feet moved coastwise and intercoastal and 10,884,810 feet export. Rail shipments amounted to 1806 cars.

Unfilled domestic cargo orders total 157,291,317 feet. Unfilled export orders amount to 70,132,886 feet; unfilled rail trade orders, 9183 cars.

In fifty weeks production has been 4,275,749,659 feet; new business, 4,040,493,289 feet; shipments, 3,945,007,667 ft.

\$10,000,000 NEEDED FOR NEW STATE HIGH SCHOOLS

The problem of housing the high school students of California is one difficult of solution, according to information made public after a meeting in Los Angeles of a committee of 15 educators appointed to study the situation at the meeting of the State High School Teachers' associations at Pasadena several months ago.

Preliminary reports estimated 40 million dollars would be required in the next two years for new buildings, and the declaration was made that the school population is twice as large as 1916. It was said that 228 thousand of the 750 thousand pupils in the state are attending high schools.

DRAFTSMEN FOR GOVERNMENT SERVICE

The U. S. Civil Service Commission has announced the following open competitive examination: Junior mechanical draftsman, \$1400 to \$1800 a year; assistant mechanical draftsman, \$1800 to \$2400 a year; associate mechanical draftsman, \$2400 to \$3000 a year. To fill positions in the Ordnance Department at Large, Rock Island, Ill. Applications will be rated as received until March 1, 1923.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

A conference will be held in Santa Rosa January 13 for the purpose of discussing ways and means to bridge San Francisco Bay. Representatives from six northern California counties are to constitute the conference. Mayor James Rolph, Jr., will represent San Francisco, Sonoma, Marin, Humboldt, Lake and Napa counties will also be represented.

The city of Richmond plans construction of a storm water sewer system. Preliminary plans for such a system were prepared before the war, the work being estimated at \$125,000. To construct the system at this time the cost will be increased to a figure between \$300,000 and \$400,000. Bonds will probably be issued to finance construction.

Edward Rhodes has filed a complaint in the Superior Court at Merced against Bates and Rogers, highway contractors, and E. B. Skeels for injuries alleged to have been sustained in an automobile accident on July 9, 1922, asking damages of \$20,000, in addition to a doctor's bill of \$1000, nurse's bill \$300 and hospital and other medical treatment \$200; loss of wages \$750.

Surplus revenue of \$1,298,877 was turned over to the city of Los Angeles by the Municipal Bureau of Power and Light as profits for the past fiscal year, being a quarter of a million dollars higher than the previous year's profits.

H. H. Martin Lumber Co. is erecting a \$100,000 mill at Centralia, Wn. The mill replaces the structure recently destroyed by fire and will be equipped electrically with modern sawmill machinery, averaging about 100,000 feet a day.

The Fresno city commissioners contemplate an election in April to vote bonds of \$300,000 to finance the purchase of fire equipment and the erection of additional buildings to house the department.

Large concessions have been obtained at Cave City, above San Andreas in Calaveras county by Wm. McNider and others of San Francisco, who have begun development at the immense lime deposits said to exist in that section.

The Delta Bridge Corporation of San Francisco has been organized with a capital of \$1,000,000 and proposes to build a toll bridge over the San Joaquin River near Antioch in addition to the erection of a series of warehouses in the vicinity of the bridge project. Directors are: John I. Whitmore, R. M. Baceoli, C. M. Greene and E. W. Wedge, of San Francisco and J. J. Brown, of Sausalito.

The North Pacific Lumber Company's plant at Portland, one of the oldest lumber manufacturing institutions in the Northwest, which has been idle for several years is to be taken over by a syndicate of logging interests headed by Henry Trautish of the Western Timber Company. Negotiations which have been pending for the past month will be closed shortly. The opening of this plant, which cuts nearly 300,000 feet each hour's shift, will furnish work to 600 men.

Articles of incorporation have been filed with the Secretary of State of Sacramento by the Columbia Steel Corporation, a Delaware concern, with a capital stock of \$20,000,000. California headquarters of the corporation are to be in San Francisco. W. E. Creed, Piedmont, is president, J. J. Grant and Joseph A. Sloss, of San Francisco, are directors.

Among the new members admitted to the Fresno Builders' Exchange recently R. W. Chrouh, manager, reports the following: Catherina Brothers, plasterers; G. Adams, brick mason; G. J. Drummond, specialties; G. W. Todd, painter and the Fresno Steel Construction Company.

Lieut. Gen. Hunter Liggett, retired, who ranked next to General Pershing in the American expeditionary forces, is to be chairman of the board of directors of the Little Coyote Point Transbay Bridge Corporation. Col. Frank Elbridge Webb, engineer of the bridge, in making the announcement, said the directorate of the bridge, not yet chosen, will be nine-tenths Californian. The company proposes to build the bridge from Little Coyote Point near San Mateo, to Alvarado in Alameda county. Col. Webb says the actual building will be done by the Keystone State Construction Company of Philadelphia.

The Astoria Shoji Brick Co., of Astoria, Ore., has purchased a site and will erect a plant with an 8-hour production of 35,000 common brick or 15,000 face brick. The plant at the start will employ from 25 to 30 men.

Harvey M. Toy, of San Francisco, has been named president of the Utah-Nevada-California Highway Association whose purpose is to raise \$150,000 to aid the states of Utah and Nevada to build their section of the Victory Highway.

Sacramento county grand jury will recommend the construction of a new county jail or an addition to the present building.

Public officials of Seattle and officials of the Washington University are conferring on a proposal to submit an election early in 1923 to vote bonds of approximately \$650,000 to finance construction of the Montlake bridge project.

M. C. Routt, Dr. L. R. Packwood and Virgil S. Routt have organized the Builders Finance Company of Fresno and will maintain offices in that city. The company is capitalized at \$100,000 and plans early construction of fifty modern homes in Fresno.

Budget requests for a total of \$1,164,030, an increase of \$28,590 over the previous biennium have been presented to the State Board of Control by A. B. Fletcher, director of the State Department of Public Works. The requests are divided as follows: Division of Engineering and Irrigation, \$762,220; Division of Water Rights, \$183,760; Division of Architecture, \$218,110. The largest item of increase, \$125,000, is asked for rectification of river channel.

SIZE OF STEAM PIPES IS BASIS OF RESEARCH WORK

A study of unknown laws governing the size of steam pipes carrying steam at low pressure was the basis of research work conducted during the summer at Carnegie Institute of Technology, Pittsburgh, according to an announcement from the institution. The study of critical velocities of steam of low pressure is an old one, yet still unsolved, and the investigations at the Carnegie Tech laboratories will be watched with interest.

The research study, which will be continued next summer, was carried on in the heating and ventilation department of Carnegie Tech by Prof. L. S. O'Bannon of the University of Kentucky. The work was financed by Carnegie Tech, on its own initiative, as a further step in its plan to tie up its educational facilities with outside industry.

The technical title of Professor O'Bannon's problems was: Capacities of Steam Heating Mains as Affected by Critical Velocities of Steam and Condensate Mixtures. His particular work during the past summer was a study of the effect of the shape of pipe entrance on critical velocity. He also attempted, in an experimental way, to go deeper into the theory of flow of steam in one-pipe system heating mains in order to find an empirical law which may be used for purposes of general design.

From this point of view he has shown tentatively, but not conclusively, that the maximum velocity in vertical pipes is equal to the acceleration due to gravity modified more or less, depending upon the size of the pipe and the nature of the internal surfaces.

In the experiments to determine the effect of variously shaped entrances, such as squared, rounded, flanged, and contracted entrances due to the use of cutters without reaming, the results seem to lead to the conclusion that the capacity of a pipe with a restricted entrance is no more than, and very nearly equal to the capacity of a pipe of uniform cross section throughout its length with an area equal to the area of the constriction in the larger pipe. There is only slight advantage in rounding or reaming a pipe further than removing sufficient metal to leave the entrance of the pipe free from any constriction.

Heating contractors and manufacturers of special steam equipment will have more than a passing interest in this work at Carnegie Tech if, from it come the long-sought conclusions governing the size of pipe and the size of valves in one-pipe heating systems.

BRITISH STEEL COMMERCE

London advices state that imports of iron and steel have declined to almost one-half those of a year ago, using the figures of October as a basis. Only 90,638 tons were brought into Great Britain last month, as against 172,769 tons in October, last year. However, imports increased in October, 1922 over those of September, the same year, or as 90,638 tons compared with 70,553 tons. For the ten months ended October 21, 1922, total imports were 657,974 tons, compared with 1,359,766 tons the corresponding period of 1921.

Exports in October had increased to over double those of that month last year, or as 347,128 tons compared with 155,848 tons. October exports this year were also greater than those for the preceding month, which were 279,168 tons. For the ten months period this year's exports were 2,657,960 tons, compared with 1,301,513 tons for the corresponding period of 1921.

APPELLATE COURT GIVES RULING ON BUILDING RESTRICTIONS IN DEED

Provisions of building restrictions in deeds may not be evaded on a technicality where it is clear that they were made for a mutual benefit of property owners, according to a decision of the appellate court which reverses a ruling of the superior court of Los Angeles County. The case at issue was A. N. McBride and others vs. H. and Georgina Freeman, a suit to enjoin the erection of a duplex house on Willard Ave., Los Angeles, which, it was claimed, was in violation of building restrictions. When the case came up in the superior court, plaintiffs were denied the right to submit evidence in support of their contentions and judgment was given for the defendants. On appeal the ruling of the lower court was held to be in error and the judgment was reversed. Unless the appellate court decision is reversed by the supreme court, the duplex house cannot remain on the lot.

The restriction in the deed, over which the controversy was waged, provided "no offices, stores, flats, lodging houses, or apartment or any business building of any description to be erected, kept or maintained on said property, but a residence," but it was not specifically stated for whose benefit the restrictions are made. "The main contention made," says the appellate court in its opinion, "and which it may be inferred chiefly influenced the decision of the trial judge, is that the restrictive covenants in the deeds were not sufficient in form to confer a mutual right for the enforcement of the conditions as between successors in interest of the original grantor." Various decisions cited were reviewed by the court, establishing the principle that a building restriction is equivalent to an easement.

"We come then," said the court, "to the bald question as to whether a restriction contained in a deed like that here exhibited, made under the circumstances alleged, is of any effect as conferring any right to enforce it upon others of the tract owners holding under like restrictions, because of the fact that it is not expressly stated in the deed that the restriction is created for the benefit of all the lot holders. Whatever view may have been taken by the courts when considering such a restrictive contract in the light of the common law rules alone, courts of equity have almost from the time of their establishment extended aid to persons other than those actually named in like covenants and caused to be secured rights which existed as a duty owing, regardless on whether a strictly legal action could be predicated as for breach of contract. Hence, there have been recognized for a long time, both in England and America, equitable easements."

Referring to the claim of the defendants that the general plan of improvement was not carried out, the court says:

"It appears by the allegations of the complaint that the lots acquired by the plaintiffs and that acquired by the defendant Georgina Freeman were not full sized lots, according to the lines delineated upon the plat of the tract, but were fractional lots. The fact that the lines of the lots held by the plaintiffs and defendant Georgina Freeman did not coincide with the plat lines, does not weaken the effect of the restrictive clauses as they were alleged to have appeared in each several deed by which title to the property was acquired. The restriction (especially as to the character of the building to be erected, applied to the property conveyed, irrespective of whether the conveyance covered a fractional lot, or a lot and a portion of another, as the case might be."—Southwest Builder.

Office Building Costs Compared-- S. F. Has Lowest Operating Expense

Cost of operation as well as the income derived from office and mercantile buildings was on the up-grade in 1921 as compared with 1920, according to a survey just completed by the National Association of Building Owners and Managers. Taxes, depreciation and insurance accounted for the increased operating costs.

Comparison of 75 buildings which contributed to the survey of 1920 and 1921 shows an increase in operating expenses of 2.2 per cent, an increased income of 1.6 per cent. The report for 1922 is based on 152 buildings located in 47 different cities including New York, Chicago, Cleveland, San Francisco and Seattle.

The report shows that rents range from 80 cents per square foot for loft buildings to \$4 per square foot for the highest type of office building, with a mean average of \$1.56 per square foot. It is explained that while this average is less than the prevailing market price for office buildings, this fact is due to long time pre-war lease made at low rates.

The tax valuation of land and building averages \$9.95 per square foot, according to the report. The average relationship between total tax valuation and rent shows the latter to be approximately 15.30 per cent of the tax valuation, and in reality, 5.9 per cent earning for office buildings. The highest net income reported was from Oklahoma, due to apparent low land valuation, says the report.

Among the factors increasing operating costs were increases, repairs and alterations, insurance, taxes, depreciation and fixed cost. Little Rock, Ark., has the lowest tax rate, 1.57 per cent, with Cleveland the highest, 3.55 per cent, and Chicago a close second with 3.27 per cent, the report shows.

Heating is an important factor in building costs, the report showing an average of 83 pounds of steam per square foot must be furnished during the year, costing on an average of 7.5 cents and consuming 17.5 pounds of coal.

The highest operating expense was recorded in Duluth, with the lowest reported in San Francisco. While Duluth had the highest insurance rate, New York and Seattle registered the lowest rates. Duluth also showed the highest depreciation charges, with Omaha reporting the lowest.

Labor conditions treated in the report shows that while the per diem in Chicago is the highest, the cost per square foot in maintenance is much less than in many other cities. The matter of keeping a building clean varies according to the city, showing that in Pittsburgh it requires 210 days of labor for each thousand feet, while in Indianapolis only 57 days are needed, with Chicago using 118. The report also discloses that power can be purchased from central plants at less expense than manufactured on the premises, exclusive of depreciation to the power plant.

The survey in Chicago shows that it has 11.4 square feet of rented space for each square foot of ground. Detroit, with 8.2 feet, is second. Average rent per square foot for both store and office rent is \$2.60 in New York, \$2.48 in Detroit and \$2.21 in Chicago. The building values for each square foot of rental space was highest in San Francisco.

In discussing the question as to whether office buildings are profitable beyond a certain height, the report states "that it has been discovered that both gross and net, income increase with the height of building up to 24 stories, with the gross income increasing faster than the net, indicating that expenses also increase with height." It would therefore seem that a limit might be reached at a point where the increase in expenses have offset the increase in income. Such a limit, however, would probably depend more upon the size of the lot than the height of the building, that is for very tall buildings on small lots the economical height would be reached at a much lower point than for tall buildings on large lots."

OREGON DRAINAGE ASSN. MEETS

The eighth annual meeting of the Oregon Drainage Association was held December 19 in the Green Room of the Portland Chamber of Commerce. Land settlement and state-wide development were discussed. Plans of the Oregon Development Board and the Portland Chamber of Commerce were explained by General Manager W. D. B. Dodson, of the Chamber, and James Kyle, president of the Oregon Irrigation Congress. Each emphasized the need of cooperative markets for the farmers so that they will receive the largest returns possible for their produce. No development can succeed, they said, without settlers on the land are provided with a market for their produce and good living conditions for their families. The convention continued all day and was concluded with a dinner in the chamber dining room. Various phases of drainage were discussed and there were discussions on soil conditions and best methods of cultivating reclaimed lowlands. Among the speakers were Director J. T. Jardine of the Oregon experiment station; State Engineer Percy A. Cupper; W. L. Powers, J. O. Elrod, W. W. Johnston, M. J. Lee and others.

WORK STARTED ON SUN PORTLAND CEMENT PLANT

Work has been started at Huntington, Ore., on the plant for the Sun Portland Cement Company which has been organized and will be incorporated for \$1,000,000. The plant will be located on the Northwestern Railroad and will be one of the most modern in the West. Officers of the company are H. A. Ross, president; L. C. Newlands vice president; G. MacDonald, secretary and H. L. Knappenburger, treasurer. The plant will have a daily capacity of 1100 barrels and shipments of the product will be started in the spring.

L. C. Newlands and G. MacDonald are officers in the Oregon Portland Cement Company and Ross is a stockholder in the same. The following are some of the stockholders: Edward Cockingham, J. C. Ainsworth, F. T. Griffith, A. L. Mills, A. H. Devers, F. C. Malpas, Dr. Chester Moore, J. N. Neal, George Lawrence, Jr., W. C. Lawrence, Chester Dolph, B. C. Lamb, of Tillamook; Chester Thorne and F. Van Sant of Tacoma; Herbert Fleischacker San Francisco, and J. H. Booth of Roseburg, Ore.

ORGANIZATION NEWS

OPEN SHOP ORGANIZATION IS PERFECTED AT FRESNO

The Valley Contractors' Association, an open shop organization, comprising twenty-six firms engaged in the building business, has been organized in Fresno and will maintain permanent offices at 2225 Fresno street, that city. George Armstrong is secretary of the association.

Speaking of the aims of the organization, Secretary Armstrong, says:

"The Valley Contractors' Association has not been organized to fight the unions, but there are many people in Fresno who would build, were they not afraid of being harassed. The man with the money to build does not have to do so, and the purpose of this organization is to give building service to those who desire. The membership includes all crafts, and all members are men of experience."

In a letter to various organizations throughout the Fresno district the objects of the association are outlined, as follows:

"Our objects are to establish a closer point of contact among the contractors who are operating under the open shop conditions and thereby insure a continuity of employment among our employees; to elevate the standard of efficiency in the open shop by paying a wage commensurate to the work performed; to insure the building public against waste and extravagance in building operations; to preserve the right of individual contract and to promote co-operation among our members."

The officers of the association are as follows: B. A. Goodenough, president; W. E. Sims, treasurer; George Armstrong, secretary; F. C. Adams, G. M. Griegs, Paul Bourzac, E. A. Goodenough, Robert Johnson, C. J. Keese, T. J. King, B. W. Murrell, S. J. A. Fifer, W. E. Sims, J. L. Welliver and J. H. Whitt, members of the board of directors.

NORTHWEST A. G. C. TO MEET

Walter N. Clist, a member of the contracting firm Rounds-Clist Co., Seattle, Wn., has been named head of the Associated General Contractors convention committee to arrange the program for the annual meeting of the Northwest Chapter of the A. G. C. to be held in Seattle February 9 and 10. The convention promises to be the most important gathering of contractors ever held in the Northwest and will be attended by hundreds of men engaged in construction work and in general contracting.

HIGHWAY OFFICIALS HOLD CONVENTION

State highway officials from all over the union met in convention December 1-6, at Kansas City, Mo., in the Hotel Baltimore. Nearly three hundred persons attended, among them representatives of the Federal Highway Commission, who discussed the importance of state roads as links in the federal system. Engineers of the several states spoke on what their own states are accomplishing and methods of financing. "The Spirit of Transportation," as conceived by twelve artists of national reputation, was represented by twelve paintings hung on the walls of the Francis I. Room.

AMERICAN SOCIETY OF ENGINEERS L. A. SECTION, ELECTS OFFICERS

Franklin D. Howell, transportation engineer, has been elected president of the Los Angeles Section, American Society of Civil Engineers. Other officers elected were: W. H. Code, of the firm of Quinton, Code & Hill, consulting engineers, first vice president; Franklin Thomas, professor of civil engineering, California Institute of Technology, second vice president; F. G. Dessery, consulting engineer, secretary; E. R. Bowen, consulting engineer, treasurer. These officers, together with Past Presidents H. W. Dennis, chief engineer of construction for Southern California Edison Company and Ralph J. Reed, chief engineer of construction for Union Oil Company, comprise the board of directors.

Lloyd Aldrich, who was the engineer in charge of the experimental road test at Pittsburg, Calif., instituted by the Columbia Steel Company, at a recent meeting of the section gave a descriptive lecture illustrated by moving pictures, covering the construction of the road and the progress of the tests. He said that the tests were not final and are being continued by the U. S. bureau of public roads and the California highway commission. A formal report on the experiments is now in the press and a limited number of copies will be distributed.

RAILWAY COMMISSIONERS ELECT OFFICERS

The National Association of Railway and Utilities Commissioners at its annual convention in Detroit, Mich., elected the following officers to serve for the ensuing year: President, Dwight N. Lewis, of the Iowa Commission; first vice president, Alexander Forward, of Virginia; second vice president, H. G. Taylor, of Nebraska; secretary, James E. Walker, of New York; assistant secretary, J. H. Corbitt, of Tennessee, and general solicitor, J. E. Benton, Washington, D. C.

ELECTRICAL MEN TO ORGANIZE ASSOCIATION

Definite plans for the organization of an electrical development association for northern California for the purpose of educating the people to the necessity of better co-operation between company and public, were outlined at a meeting of electrical men in the banquet room of the Hotel Land, Sacramento, on December 13.

A delegation of members of the Electric Development association of San Francisco was present. William Shreve of the General Electric company spoke at length on the benefits of the organization. He stated there is a greater need than ever for a constructive electrical organization, and that such an organization is essential to good business principles.

Over sixty men signified their intention of joining the organization. A committee consisting of J. L. Toly, J. A. Davis, Carl Beaten, Fred Bennett, E. H. Lang, H. A. Shearer, A. P. Broton, W. H. Evans, T. J. Fletcher, Carl Lamus, R. B. Brewster, Clifford Padhome and James A. Woods was appointed by J. C. Hobrecht, chairman of the meeting, to perfect the plans of the organization.

SLATE ASSOCIATION TO MEET

The Slate industry will hold meetings in New York at the Commodore Hotel January 22 and 23 under the auspices of the National Slate Association. Dr. Oliver Bowles of the U. S. Bureau of Mines, will preside at the opening session devoted to an exchange of experience by producers on quarry and production problems and the new uses of slate which were developed in 1922 to commercial stages and those still under investigation and trial or which should be undertaken. Opportunity will be given equipment manufacturers for demonstrations of any new apparatus or methods which are applicable to the slate industry. Another session will be devoted to a discussion of common problems by roofing contractors and other users of slate with producers and distributors.

LUMBERMEN APPOINT STANDARD COMMITTEE

A central committee on lumber standards, representing about 150 lumber organizations throughout the country met in Chicago recently to perfect a national lumber standard.

Wilson Compton, manager of the National Lumber Manufacturers' Association, was selected as chairman of the committee, which aims at uniformity of grades and sizes of lumber throughout the country.

This committee, appointed as a result of cooperation of the National Lumber Manufacturers' Association and the Departments of Agriculture and Commerce, will hold further meetings after the holidays, to work out its plans.

INDUSTRIAL ACCIDENT REPORT

The outstanding fact in the Annual Report of the Industrial Accident Commission of the State of California, as submitted to Governor William D. Stephens, is that there was a decrease of 42 industrial deaths in 1921 as compared to 1920 the totals respectively being 559 and 592. The statistics further show a reduction of 38.39 per cent in the industrial death rate of California for the calendar years 1914 to 1921, inclusive.

There were 1613 permanent injuries reported in 1921 to the Commission, as compared to 1920 in 1920. There was also a reduction in temporary injuries, as shown by the totals of 123,336 in 1921 and 131,587 in 1920. In 1921 temporary injuries to the total of 69,685 did not cause loss of time from work.

PLACER COUNTY JURY REPORTS ON ROAD BUILDING POLICY

The Placer County Grand Jury in its report recently submitted urges that some permanent policy of county road building be adopted. The construction of roads on the one-unit plan is advocated. The jurors would abolish the present system of having the supervisors superintend their individual district. The policy favored would mean the employment of a county superintendent of roads who would be accountable to the board of supervisors. It was pointed out that this method would mean the speedy construction of roads.

Forest fires in the United States average 32,500 annually, says the U. S. Forest Service. Based on a six-year average 7,088,000 acres are each year burned over and the immediate property loss is \$16,424,000.

Uniform Highway Traffic Regulations Will Be Subject of American Good Roads Show

A movement likely to result in the enactment of uniform highway traffic regulations throughout the United States is expected to develop at the Chicago Thirteenth American Road Builders' Congress and Exposition, which is to be held in Chicago under the auspices of the American Road Builders' Association. This subject is naturally one of the field of highway traffic regulations, and it is expected that the regulations are that it will be taken to a head through a proposed bill, T. J. Wasser, of the road builders' organization, in his annual address Tuesday, January 16. Mr. Wasser will propose joint action by the American Road Builders' Association, the American Society of Automotive Engineers, the American Automobile Association, the National Automobile Chamber of Commerce, the American Association of State Highway Officials and the United States Bureau of Public Roads and possibly other agencies, with a view to working out a solution of the question along national lines.

The subject of Mr. Wasser's address will be "Highways—Their Use and Abuse." The road builders' president will discuss such questions as more adequate ways for roadways, marking roads with direction signs and numbers, gasoline filling stations, the bill-board nuisance and uniform traffic rules and restrictions. At present, according to Mr. Wasser, each of the forty-eight states is operating its highways independently of the others and there is much conflict and confusion.

"I want the American Road Builders' Association," said he, "to take the leadership in promoting interstate cooperation in securing better and more uniform traffic regulations and I am sure that we can organize a movement

of Chicago that will sweep the subject through the Congress. The American Road Builders' Association will exhibit a large display of road building equipment and materials, and will also have a large display of road building equipment and materials. The American Road Builders' Association will exhibit a large display of road building equipment and materials, and will also have a large display of road building equipment and materials.

The exhibit of road building equipment and materials will be held in the Chicago Coliseum and adjacent buildings. The exhibit of road building equipment and materials will be held in the Chicago Coliseum and adjacent buildings. The exhibit of road building equipment and materials will be held in the Chicago Coliseum and adjacent buildings.

During the congress, convocations will be held in Chicago by the Asphalt Association, the Midwest Section of the American Association of Engineers, the National Sand and Gravel Association, the National Crushed Stone Association, the Illinois Highway Contractors' Association, and the Illinois Association of General Contractors.

The entertainment to be provided during the week for delegates and visitors will include a stag party to be given Tuesday night, January 16, by the exhibitors at the show, with orchestral music, songs, dancers and boxing contests. On Wednesday evening, January 17, the annual banquet of the American Road Builders' Association will be held at the Congress Hotel. Men of national prominence will address the banquet and a high class musical and vaudeville program will be rendered. On Thursday evening, January 18, the American Road Builders' Association will entertain delegates and visitors with a dinner party at Terrace Garden, during the performance of "The Terrace Garden Review."

CALIFORNIA BUILDING LAW COMMITTEE NAMED

The State Housing and Immigration Commission has practically completed its hearings on formulating amendments to the California building laws, which are to be presented at the next session of the California Legislature. The following have been appointed a committee to define the proposed changes and present them at a meeting of the commission on January 3: J. J. Backus, Los Angeles; John E. Horgan, San Francisco; Robert Green, Berkeley; Ballou Chief, M. J. Keams, San Francisco; A. C. Horner, Stockton; A. M. Edelman, Sacramento; and Felton Taylor, San Francisco.

SYSTEM FOR NUMBERING OF STEELS TO BE DEVELOPED

A system of designating kinds or qualities of steels by code numbers, each of which would represent a definite specification, will be developed as a result of the decision of a conference of the principal producers and users of steel held at Washington, D. C., December 6, at the call of the American Engineering Standards Committee. The conference recommended that this code be developed under the procedure of the A. E. S. C. and suggested to that organization the appointment of the Society of Automotive Engineers and the American Society for Testing Materials as joint sponsors for the code.

1920 LUMBER SHIPMENT

The nation's lumber shipment in 1920, a recent U. S. Forest study shows, was no less than 2,670,000 carloads; and the average haul for each carload was 485 miles. According to the best estimate the Forest Service is able to make, the freight bill on lumber for that year was \$275,000,000. A fraction of this sum wisely invested each year in forest protection and rehabilitation would grow timber where it is needed, reduce the nation's freight bill, cheapen lumber and release vast amounts of railroad equipment and labor for unavailing transport. Coal and iron cannot be grown, but timber can be.

PROBLEMS RELATED TO THE HARDENING OF STEEL

One of the most fascinating and yet obscure subjects in the metallurgy of iron and steel is the hardening of steel. The hardening of steel is a process which is usually carried out by heating the steel to a temperature of about 1,000 degrees Fahrenheit and then cooling it rapidly. The process of hardening is usually carried out by heating the steel to a temperature of about 1,000 degrees Fahrenheit and then cooling it rapidly. The process of hardening is usually carried out by heating the steel to a temperature of about 1,000 degrees Fahrenheit and then cooling it rapidly.

The process of hardening is usually carried out by heating the steel to a temperature of about 1,000 degrees Fahrenheit and then cooling it rapidly.

WORLD'S FOREST RESOURCES

Forest Service investigators have recently completed a unique and exhaustive compilation of the forest resources of the world, says Colonel William B. Greeley, Chief of the Forest Service. Not the least startling of its revelations is that so far as our great structural and all-purpose woods—the softwoods—are concerned, we must become self-sufficient or go without. If all the available Siberian timber were put at the undisputed call of the United States the yearly export would hardly supply one-fourth of our annual timber needs. There is an immense reservoir of hardwoods in the tropics, hardwoods which can be used for limited and special purposes and secured at moderate prices. But the struggle for the world's supply of softwoods will become more and more intense, and these nations will fare best that can afford to conserve their waste lands for growing coniferous woods. This study surely shatters the dream of those who rely on importing the timber we need when our own is gone.

PLAN ROAD DEVELOPMENT FOR NATIONAL DEFENSE

Road development needed for national defense as planned by the General Staff of the Army has recently been indicated to the Department of Agriculture by the Secretary of War and the information has been placed in the hands of the engineers of the Bureau of Public Roads who are at the present time getting into final shape the plan for the system of Federal-aid highways. This system will consist of approximately 180,000 miles of road, so laid out as to serve all parts of the country and will be built by the States in conjunction with Federal aid.

The General Staff has been investigating the subject since 1919 the Bureau of Public Roads collaborating. Briefly summarized, the report made is as follows: There are certain vital areas along the boundaries of the United States against which any invasion will probably be directed. These areas have been outlined by the General Staff. For military purposes they should be connected with the centers of production and storage and industrial centers. The roads will then become strategic lines of supply and will usually conform with roads located for other purposes. Transcontinental routes are of no particular value for military purposes.

The plan submitted by the War Department shows important centers that should be connected, but does not give detailed routes. Engineers of the Bureau state that these points can be connected by roads without any serious dislocation of the plan of development for other purposes and that in general the military need for roads conforms with surprising closeness to the commercial and economic needs. It is thought that the plan submitted can be embodied into the Federal-aid highway system and thus make the system an important factor in our plan of national defense.

Roads of purely military nature such as those leading to coast fortifications have not been included in the plan submitted and will be handled by the War Department as heretofore.

WAGES WILL NOT RETURN TO PRE-WAR LEVELS

Wages will never return to the levels in effect before the war, Julius H. Barnes, president of the chamber of commerce of the United States, asserts. The advance since 1921, he says, "is not a war time inflation, but a real increase of individual earning power," and he declared that an economic system which can give us more for every one—more automobiles, more general education, more plumbing, more graphophones and bigger real wages—must be preserved.

Barnes declares the decrease of 1,790,000 in the number of farm workers since 1900 was not "evidence of decadence of agriculture," because improved machinery "has enabled fewer workers to get more production than the men who have been relieved, and have been able to supply the brawn for the great industrial developments in the last twenty years—automobiles, electricity, motion pictures and chemical work."

During the calendar year 1921, a total of 1104 miles of road and 2959 miles of trail were constructed or improved within and adjacent to the National Forests, according to statement of the U. S. Forest Service. Three thousand and seven miles of road and 4294 miles of trail were maintained.

Reclamation Service Denies "Robbing" California

Positive denial that California was being robbed by the Reclamation service by diverting money derived from the sale of California public lands to pay for reclamation projects in other States is contained in a letter received by Senator Shortridge from the director of the Service.

During his recent visit to California Senator Shortridge heard from many sources that the State was being discriminated against by the Reclamation service in this respect and it was one of the first things he looked into upon his return to Washington. He called on Mr. Morris Bien, the acting director of the service, and requested a full and complete explanation of the situation. This was given and for the sake of various California interests which have complained of the Government's policy the Senator asked the acting director to put the facts into a letter. This was done and the letter submitted follows.

"Your reference of December 2, 1922, enclosed a letter of November 24, 1922 from Eli P. Plaugher, of Coalinga, Cal., who attached a clipping from the Coalinga Daily Record of November 16, 1922, relative to the statement of Mr. A. R. Kanaga, irrigation expert of San Francisco, Cal., who gives his views relative to the use of the moneys received from the sale of public lands in the State of California.

"In effect, he claims that the moneys received from the sale of public lands in California should be used in the State of California and not for the construction of irrigation works in other western States.

"Section 9 of the original Act of June 17, 1902 provided that the funds derived from the sale of lands in any State should be used within that State to the extent of 50 per cent provided that feasible projects existed therein, with certain conditions for adjustment. This Section of the Act was repealed June 25, 1910 (36 Stat., 855) because it was found to be impracticable.

"The 21st Annual Report of the Reclamation Service just issued shows that the proceeds from the sales of public lands in California since the period covered by the Reclamation Act to June 30, 1922 was \$7,123,840.13 and that of this sum \$1,057,000 was spent on the Orland Project, California, \$8,942,000 was spent on the Yuma Project Arizona-California. As about one-seventh of this area lies within the State of California, approximately \$1,277,000

of this sum was expended for the benefit of California lands.

"On the Klamath Project, Oregon-California, the total expenditures have been \$2,540,000. As about one-third of the land is in California we may regard \$1,180,000 as having been expended for the benefit of California lands.

"In addition, \$139,000 have been expended for investigations of possible projects in California, being a total of \$3,655,000 expended for the benefit of California lands. You will note that this is more than one-half of the proceeds of the sales of public lands which under the provisions of Section 9 of the original Reclamation Act would be within the requirements of that Section if it had continued in force.

"It will be observed that the discrepancy between the total receipts from California lands during the period of the Reclamation law and the total expenditures in California is not nearly as large as the \$14,000,000 asserted in the statement attributed to Mr. Kanaga, which is transmitted with Mr. Plaugher's letter. Moreover, investigations indicate the existence of a feasible project in the Sacramento Valley known as the Iron Canyon Project on which very large sums are likely to be expended in case the project is undertaken. There are also possibilities for the extension of the Orland Project, besides a considerable feasible development in the Imperial Valley section. Legislation is now under consideration in Congress for the last named proposition, which if authorized will be one of the largest irrigation developments in the country.

"It is evident, therefore, that ultimately very much larger expenditures will be made on account of California lands than are likely to be returned from the sales of public lands therein.

"It may not be amiss also to call attention to the fact that California is benefiting largely from expenditures out of the Reclamation fund in the neighboring States through the increases in business.

"It is not profitable to undertake a discussion of the questions, first as to the right of Congress to provide for the expenditures of the receipts from the sales of public lands in any way which it may deem wise, and second, that no State has any claim in its own right to any part of the funds derived from the public land sales."

LUMBER CUT DECLINES 34% FROM RECORD—WASHINGTON PRODUCES GREATEST TOTAL

The total production of lumber in 1921 by Washington and Oregon was 5,829,598,000 ft. compared with 8,846,607,000 feet in 1920 which was the record year so far. The 1921 production was 34 per cent less than the record. In 1920 Washington produced 5,524,509,000 feet and Oregon 3,316,098,000 feet of the total.

The reported production of lath was 753,045,000 in 1921, compared with 578,674,000 in 1921 and 461,906,000 in 1919, and that of shingles was 5,736,760,000 in 1921, compared with 5,135,826,000 in 1920 and 7,625,188,000 in 1919.

Washington has been the chief lumber producing state for many years and Oregon ranked second in 1920. Douglas fir is the principal species cut in both states and for several years their combined output of lumber from this wood has comprised about 95 per

cent of the total for the United States.

The forest service reports that the decrease in the lumber cut in Oregon and Washington in 1921 compared with that for 1920 was due to lack of demand, low prices and unsatisfactory shipping facilities, and that the indications are that the 1922 cut, while larger than that of 1921, will also be somewhat less than the cut for 1920.

CAN'T SMOKE—PLUMBERS QUIT

Said to have objected to a rule prohibiting smoking while at work, and opposition to an order requiring them to check on and off work, the plumbers employed on the annex being added to the Golden Hotel at Reno, Nevada, have quit work. Labor leaders state that no strike has been called, and that the men left the job as individuals. Contractor P. C. Walker states that unless the men return to work in three days, he will engage other plumbers and complete the installation of equipment.

NEW METHOD OF MEASURING SAND MAKES CONCRETE MORE RELIABLE

The reliability of concrete construction is likely to be increased, and the cost in some cases reduced, by the application of a newly developed method of measuring sand, which is now being tested at the Bureau of Standards of the Department of Commerce. The method has been termed the "inundation method" and consists of measuring sand in a container which has been partly filled with water before the sand is put in, so that when the sand is in, the water is up to the top and the sand completely soaked.

The volume occupied by a given amount of sand when shoveled into a measuring device varies with the moisture content of the sand; the difference in measured volume between dry and moist sand being usually from 10 to 15 per cent and occasionally running as high as 50 per cent. But it is found that if the sand is completely soaked or "inundated" uniform measuring results can be obtained no matter how much the original moisture content may have varied.

In making concrete the proportions of cement, sand, stone, and water are so chosen to get the required strength and workability with a minimum of cement, since the cement is the chief factor in the cost. Inaccurate measurement of the sand may result in too large a proportion of sand, in which case the concrete is too weak, or in too small a proportion of sand and hence a concrete too rich in cement.

But the rich concrete is not necessarily stronger than the concrete the contractor intended to make for the sand has brought in some water in addition to that which is added on purpose, and if this extra water is not allowed for and the amount of water added correspondingly decreased the concrete will contain too much water. It will be sloppy and when set will not be dense enough to give the necessary strength. The contractor therefore is merely wasting cement and doing good to no one.

It is hoped that with the inundation method it may be possible to specify concrete by the strength required rather than by arbitrary proportions. The contractor can then find the proportions of the materials he is using that will give the requisite strength and can adhere closely to these proportions. The result will be a concrete whose proportions are more nearly what they were intended to be, and with which a lower factor of safety can be used.

Formanek's Farmers Supply House Co., of Fresno has been incorporated with a capital stock of \$100,000 and will engage in the buying and selling of farm machinery. Directors are: H. A. and Enille Formanek, L. M. Houston, C. Edwin Oyster and Auda Shaffer, all of Fresno.

Reports are current in Portland, Ore. that the Robert Dollar Lumber and steamship interests will take over a deal whereby they will take over the Portland Lumber Company's plant in South Portland. The mill is one of the largest in the Portland district and is modern throughout. It is proposed to cut lumber for the export trade.

Due to increased business and the enlargement of its membership the Builders' Exchange of Portland, Ore. will spend \$5,000 in rearranging the present quarters and installing additional fixtures. The exchange is now enjoying the largest money reserve in the history of the organization.

555,400 Acres Of Irrigated Land In State Of Washington, Report Shows

The biennial report of Marvin Chase, supervisor of hydraulics of the state of Washington, to Director Dan A. Scott, of the Department of Conservation and Development shows the use of water for 555,400 acres of irrigated land which produces an annual wealth of \$75,000,000 to \$90,000,000, together with the use of water by 71 hydro-electric plants generating 419,860 horsepower.

The regulation of water for use in these enterprises is done by water masters covering various districts throughout the state under the direction of the supervisors of hydraulics. About 90 per cent of the expense of these officials is borne by the water users and 10 per cent by the counties. However, the water code provides that the counties carry the entire expense, but through efforts of the supervisor where this expense is comparatively high it has been greatly reduced to the county by the organization of water users, who pay for services of a water master according to benefits.

Determination and adjudication of water rights is one of the important duties impelled upon the supervisor of hydraulics. On some streams where water rights have not been adjudicated much conflict and confusion occurs, frequently causing enmities among neighbors. In many instances these differences are settled through efforts of the supervisor of hydraulics through agreements and willingness of the parties to abide by his decision. When these problems are large and cannot be handled in a diplomatic manner, as a last resort action is started by that officer to determine the various water rights in a manner provided by the water code. Proceedings of this nature have been completed on 16 streams, involving 38,965 acres, affecting 738 separate water rights.

Proceedings are now pending before the supervisor, involving 10 streams with 329 separate rights for irrigation of 25,700 acres of land. It is probable that 14 streams will be taken up in the next biennium.

STEWARTSON MEMORIAL SCHOLARSHIP IN ARCHITECTURE AWARDED

Otto M. Olsen, a post graduate student at Carnegie Institute of Technology, Pittsburgh, has been awarded the John Stewartson Memorial Scholarship in Architecture, for 1922. In winning this—most coveted prize for young architects in Pennsylvania—Carnegie Tech students have won the scholarship for two consecutive years, and three times in the last five years. H. L. Rubin won it in 1917 and Russell F. Simpson was the holder last year.

The scholarship, valued at one thousand dollars, is a memorial established on the basis of a fund donated by John Stewartson, noted architect of Philadelphia, who died 23 years ago. Candidates are restricted to architects, 22 to 30 years of age, who have completed at least one years office experience and two years in an approved school of architecture, and must have studied or practiced architecture in the State of Pennsylvania for the period of at least one year immediately preceding the scholarship award. The scholarship includes a year's travel in Italy, France, Greece, and Spain.

More than 120 architects entered the competition this year, from whom five

During the biennium 313 applications to appropriate water have been received, making a total of 833 now pending, of which 292 were for irrigation of 1,055,500 acres which will produce a wealth of \$200,000, with a possibility of producing \$100,000,000 annually in crops. One hundred and fifteen applications are for the development of 60 hydro-electric plants with an estimated output of 3,875,000 horsepower. Forty-five applications are for municipal use supplying water for 49 towns and cities with a total population of 150,000. Ten other applications are for logging and fish hatcheries. The total estimated cost of projects in which this water is to be used is \$297,000,000.

Gathering of hydrographic data is the fourth branch of the supervisors work. This is for the purpose of obtaining an inventory of the state's wealth in water resources. Data has been accumulated, recorded and published of 397 streams. These streams are supplying water for the irrigation of 70,000 acres of land and have an additional water supply to irrigate 50,000 acres.

Seventy-five per cent of the work in connection with the office of the supervisor of hydraulics must be done in the field. Aside from gathering hydrographic data on 397 streams, 210 field examinations and reports were made in connection with applications for permits to appropriate water. One hundred and thirty-five water problems where rights conflicted or where advice was desired were taken up on the ground. Five hundred additional water problems are of such nature that they can be handled by correspondence.

The report shows that there is a sufficient water supply in the state to irrigate 255,000 acres of its arid and non-productive lands, being five times greater than the area now irrigated.

The potential horsepower exceeds any state in the union, being estimated at 6,445,860, and is 16 per cent of the total potential horsepower of the United States.

Only 7 per cent of the water power of the state is developed, while water for irrigation is 17 per cent developed.

candidates and two alternates were selected to enter final competition. A jury of New York architects made the award the judgment including the problem "National Tennis Club." Of the seven highest ranking applicants, Carnegie Tech was represented by three, Boswell Olsen, the winner, George N. Panley was one of the first five, and C. W. Hunt was one of the two alternates. Olsen was awarded his B. A. in Architecture at Carnegie Tech in June, 1922, and prepared for college in Central High School, Duluth, Minn. He returned to Carnegie Tech this year to take work leading to a Master's degree.

All signs, with the exception of possible European difficulties, point to the biggest production and biggest pay rolls in the history of southern Oregon lumbering, according to H. D. Mortensen, manager of the Pelican Bay Lumber Company of Oregon. New ocean lines have been established between Oregon and New York. Mortensen says, which will treble the 1923 shipment over 1922. This year half a billion feet of lumber was shipped by water from Portland. Next year it is estimated a billion and a half feet will be shipped

FRESNO, Fresno Co., Cal.—City commissioners will call election in April to bond for \$300,000 to purchase fire equipment and erect new quarters for department.

CHURCHES

FRESNO, Fresno Co., Cal.—St. Paul's Methodist Church, Rev. G. W. Fletcher, Pastor, will erect new church at Maple and Illinois streets, a deal for the site having been closed. A building committee will be appointed to secure plans.

FACTORIES & WAREHOUSES

Plans Being Prepared.
ADDITION Cost, \$100,000
SAN RAFAEL, Marin Co., Cal., 4th St. Two-story reinf. concrete addition to ice plant.
Owner—National Ice Co., Postal Tel. Building, San Francisco.
Architect—Engineering Dept. of owner, Mr. Howell in charge, Postal Tel. Building, San Francisco.

Contract Awarded
WAREHOUSE Cost, \$75,000
SAN JOSE, Santa Clara Co., Cal., Orchard St., bet. Santa Clara and San Fernando.
One-story brick warehouse.
Owner—Costa Bros.
Architect—Wolfe & Higgins, Auzerais Bldg., San Jose.
Contractor—Dick Sherman, San Jose

Ready For Figures Next Week.
FACTORY BLDG. Cost, \$30,000
SAN FRANCISCO, S. Brannan W 3rd St. Two-story and basement class C factory building.
Owner—Lurie Co., Mills Bldg.
Architect—S. Heiman, 57 Post St.

Contract Awarded.
STORAGE PLANT Cost, \$30,000
FRESNO, Fresno Co., Cal., Mono & P Streets.
Storage plant.
Owner—Fresno Consumers Ice Co., Fresno.
Architect & Contractor—Davis-Heller Pearce Co., Delta Bldg., Stockton.

LOS ANGELES, L. A. Co., Cal.—Hamm & Grant, Engineers, Bldg., L. A., have completed plans and are commencing work on the erection of a 1-story factory bldg., at 51st St. and Santa Fe Ave., for California Enameling Co. It will be 300x50 ft., brick constr., steel sash, structural steel, comp. roofing, cement floors.

VANCOUVER, B. C.—H. C. Hill, district representative for the Carnation Milk Co., is in this city to investigate sites on which it is proposed to locate a milk and cream company plant. Offices of the company are maintained in Chicago. P. G. Kinger is general superintendent of the company.

YUBA CITY, Sutter Co., Cal.—Engineers of the King Food Products Co. are in this city investigating sites on which the company proposes to erect a plant for the packing of fruits and vegetables. The proposed plant will cost in the neighborhood of \$250,000. Sites in the vicinity of Marysville, Yuba county, will also be investigated.

SAN FRANCISCO—The Delta Bridge Corp. of San Francisco has been incorporated with a capital stock of \$1,000,000 and proposes to finance construction of a toll bridge over the San Joaquin river near Antioch and the construction of a series of warehouses in the vicinity of the bridge project. Directors of the company are John L. Whitmore, B. M. Baccoli, C. M. Greene and E. W. Wedge of San Francisco and J. J. Brown of Sausalito.

CHICO, Butte Co., Cal.—Chico Chamber of Commerce proposes to establish cooperative cannery. Size of the plant will be determined when a report is submitted by County Assent H. E. Probst as to the extent of the fruit and vegetable output of the county.

SAN DIEGO, Cal.—San Diego Consolidated Gas & Electric Co. applies to Railroad Comm. for permit to sell \$500,000 preferred stock for extensions and additions, to cover the outlying districts of San Diego.

FRESNO, Fresno Co., Cal.—Robert Hulme, of the California Products Co., Butler and O Sts., Fresno, has applied to Prohibition Commission Haynes for a permit to establish a plant at Fresno for the manufacture of industrial alcohol from sweet potatoes, watermelons, peaches and figs.

TONOPAH, Nevada.—Tonopah Extension Co., will increase capacity of its mill from 415 to 500 tons per day in addition to other minor extensions.

FIREHOUSES AND JAILS

SACRAMENTO, Cal.—Sacramento County Grand Jury in its report to the supervisors will recommend the construction of a new county jail or an addition to the present structure. In addition to jail quarters provision would be made in the addition for a hospital for prisoners and offices for county officials having a connection with the jail.

FRESNO, Fresno Co., Cal.—City Commissioner Dillon recommends erection of firehouse in Broadway to replace structure in H St. Structure will be three stories high with quarters on upper floors to house chiefs' offices and quarters for members of department.

FLATS

Plans Completed.
FRAME FLATS Cost, \$18,000
SAN FRANCISCO, E. Arguello Blvd 77 California St. Three-story and basement frame (2) flats.
Owner—Ben Black, 1352 Haight St., San Francisco.
Architect—W. L. Schmolle, 40 Montgomery St., San Francisco.

Contract Awarded.
FLAT Cost, \$12,350
OAKLAND, Alameda Co., Cal., Lots 32 and 33, blk J Park Broadway.
Two-story frame flat bldg. (all work except light fixtures).
Owner—Fanny Schlancker.
Architect—Hutchinson & Mills, 1214 Webster St., Oakland.
Contractor—S. W. Jones, 5829 Lawton Street, Oakland.

Contract Awarded.
FLATS Cost, \$13,470
SAN FRANCISCO, NW Albion Ave. & 11th
Two-story frame (4) flats, except sewer connections, lighting fixtures, wall paper, window shades, hot water heater and finish hdw.
Owner—Harry J. & Margaret Lewis, 23 Lexington Ave.
Contractor—Thos. M. Jones, 3767 Army Street, S. F.

GARAGES

To Be Done By Day's Work.
RESIDENCE & GAR. Cost, \$10,500
SAN FRANCISCO, S. Geary 40 E. Blake. Two-story concrete garage and residence.
Owner—Thos. Hamill, 6140 Geary St.
Architect—John J. Foley, 770 5th Ave.

A. E. Leitch Fred Clark

CLARK & LEITCH
ROOFING CO.

Successors to E. S. Warner

Office and Warehouse:

1116 SECOND ST., SACRAMENTO

Phone Main 726

Plans Being Prepared.

GARAGE Cost, \$24,000
SAN FRANCISCO, Richmond District. One-story reinforced concrete garage and auto service building.
Owner—Auto Service Co., of Los Angeles.
Architect—O'Brien Bros., 210 Montgomery St., San Francisco.

To Be Done By Day's Work.
GARAGE Cost, \$16,000
SAN JOSE, Santa Clara Co., Cal. W St., James near 1st St. One-story concrete commercial garage.
Owner—C. A. Letcher.
Architect—Wolfe & Higgins, Auzerais Bldg., San Jose.

Bids Opened.
GARAGE Cost, Approx. \$70,000
SAN FRANCISCO, S. Stevenson St. bet. Ecker and Second Sts., running through to Jessie St. Two-story reinforced concrete garage and service station (300 cars) 150 ft. on Stevenson and 120 ft. on Jessie.

Owner—Stevenson Garage, Inc.
Architect—Arthur S. Hughes, 26 Montgomery St., San Francisco.
The following is a list of the bidders according to the amount of their bid, the lowest appearing first:
Cahill Bros., 110 Sutter St.
Adam Arras.
Busky & Brown.
Vukobratich & Bagge.
H. L. Hansen.
L. Vannucci.
Nelson.

The contract will in all probability be awarded to Cahill Bros.

GOVERNMENT WORK AND SUPPLIES

WASHINGTON, D. C.—The following bids were received December 18 by the director of the U. S. Veterans' Bureau, Washington, for the construction of 29 reinforced concrete buildings for the U. S. Veterans' Hospital, Livermore, Calif. All these bids have been rejected on account of being over the estimate.
Architect—Matthew O'Brien, 68 Post St., San Francisco, will leave for Washington immediately and it is his opinion that slight changes will be made in the plans and new bids called for immediately.

Construction

Bid 1. James E. Walsh, 85 2nd St., San Francisco.
Bid 2. I. M. Sommer & Co., 401 Balboa Bldg., San Francisco.
Bid 3. Lange & Bergstrom, 722 Sharon Bldg., San Francisco.
Bid 4. Robert C. Smith, 26th and Howard Sts., San Francisco.
Bid 5. Clinton Construction Co., 923 Folsom St., San Francisco.
Bid 6. Hamah Bros. & C. L. Wold, 142 Sansome St., San Francisco.
Item 1. 29 buildings—**Bid 1.** \$1,559,800; **2.** \$2,225,000; **3.** \$1,881,495; **4.** \$1,770,723; **5.** \$1,938,000; **6.** \$1,784,156.
Item 2. Ductwork, omitting building No. 1—**Bid 1.** \$19,800; **2.** \$24,000; **3.** \$20,000; **4.** \$21,498; **5.** \$23,000; **6.** \$20,680.
Item 3. Do building 6—**Bid 1.** \$75,710; **2.** \$110,000; **3.** \$81,000; **4.** \$86,875; **5.** \$91,000; **6.** \$74,250.
Item 4. Do building 7—**Bid 1.** \$75,740; **6.** \$74,250.
Item 5. Do building 8—**Bid 1.** \$69,880; **2.** \$110,000; **3.** \$67,000; **4.** \$75,855; **5.** \$81,000; **6.** \$67,200.
Item 6. Do building 12—**Bid 1.** \$41,000; **2.** \$30,000; **3.** \$50,000; **4.** \$51,790; **5.** \$67,000; **6.** \$45,975.
Item 7. Do building 14—**Bid 1.** \$73,600; **2.** \$93,000; **3.** \$76,700; **4.** \$83,519; **5.** \$88,000; **6.** \$74,200.
Item 8. Do building 15—**Bid 1.** \$95,500; **2.** \$128,000; **3.** \$113,000; **4.** \$109,291; **5.** \$117,000; **6.** \$101,171.
Item 9. Do building 16—**Bid 1.** \$21,400; **2.** \$24,100; **3.** \$21,700; **4.** \$18,274; **5.** \$23,000; **6.** \$21,149.
Item 10. Do building 18—**Bid 1.** \$12,080; **2.** \$16,000; **3.** \$12,600; **4.** \$13,943; **5.** \$11,000; **6.** \$12,640.
Item 11. Do building 19—**Bid 1.** \$12,850; **2.** \$15,600; **3.** \$12,400; **4.** \$12,191; **5.** \$12,600; **6.** \$12,688.
Item 12. Do building 21—**Bid 1.** \$9,800; **2.** \$15,500; **3.** \$12,400; **4.** \$13,435; **5.** \$14,000; **6.** \$13,068.
Item 13. Deduct if one or more of buildings 23 to 25 and buildings 27 to 30,

inclusive, are omitted—Bid 1, \$14,540; 2, \$11,100; 3, \$17,400; 4, \$17,850; 5, \$19,900; 6, \$17,430.

14. Deduct if one or both of buildings 31 and 32 are omitted—Bid 1, \$12,250; 2, \$9,700; 3, \$15,100; 4, \$16,150; 5, \$17,000; 6, \$14,300.

15A. Excavation—Bid 1, \$160; 2, \$2; 3, add \$2.25, deduct \$1; 4, \$1.50; 5, add \$2.50, deduct \$1; 6, \$2.

15B. Concrete—Bid 1, \$15; 2, \$12; 3, add \$20, deduct \$12; 4, \$12; 5, add \$15, deduct \$10; 6, \$15.

15C. Reinforced concrete—Bid 1, \$22; 2, \$25; 3, add \$29, deduct \$23; 4, \$30; 5, add \$35, deduct \$25; 6, \$30.

15D. Steel—Bid 1, \$612; 2, \$75; 3, \$60; 4, \$70; 5, add \$70, deduct \$60; 6, \$80.

15E. Structural steel—Bid 1, \$109; 2, \$108; 3, add \$120, deduct \$100; 4, \$110; 5, add \$125, deduct \$100; 6, \$130.

15F. Brickwork—Bid 1, \$40; 2, \$120; 3, add \$55, common, deduct \$45; 4, \$45; 5, add \$50, deduct \$30; 6, \$60.

15G. Gravel road—Bid 1, \$125; 2, \$11; 3, add \$30, deduct \$120; 4, \$60; 5, add \$125, deduct \$50; 6, \$150.

15H. Concrete sidewalks—Bid 2, \$45; 3, \$60; 4, \$20; 5, add \$25, deduct \$50; 6, \$30.

Time—Bid 1, start 7 days, complete 400 days; 2, start 5 days, complete 545 days; 3, start 10 days, complete 400 days; 4, start 10 days, complete 400 days; 5, start 20 days, complete 550 days; 6, start 15 days, complete 540 days or 400 working days.

Plumbing, Heating and Ventilating
1. Carl T. Doell, 467 21st St., Oakland, Calif.

2. The Turner Co., 272 Natoma St., San Francisco, including plumbing, heating, and electrical work; rock excavation not included.

3. Austin Engineering Co., 121 W. 42nd St., New York City; rock excavation not included.

4. James Smyth Plumbing and Heating Co., Spokane, Wash.

5. Latourrette-Fical Co., Sacramento, Calif.

6. S. W. Rittenhouse, 1327 Taylor St. N. W., Washington.

7. The Turner Co., 272 Natoma St., San Francisco.

Item 1 29 buildings—Bid 1, \$488,870; 2, \$580,000; 3, \$523,000; 4, \$358,000; 5, \$327,200; 6, \$394,199; 7, \$350,000.

2. Deduction for omitting building No. 1—Bid 1, \$2,826; 2, \$35,000; 3, \$3,375; 4, \$2,808; 5, \$1,900; 6, \$1,768; 7, \$2,100.

3. Do building 6—Bid 1, \$9,475; 2, \$14,400; 3, \$7,860; 4, \$10,027; 5, \$8,400; 6, \$9,240; 7, \$9,600.

4. Do building 7—Bid 1, \$9,397; 2, \$15,000; 3, \$7,860; 4, \$10,027; 5, \$8,400; 6, \$9,240; 7, \$10,200.

5. Do building 8—Bid 1, \$10,598; 2, \$13,400; 3, \$5,600; 4, \$8,904; 5, \$6,700; 6, \$8,000; 7, \$9,600.

6. Do building 12—Bid 1, \$7,753; 2, \$8,400; 3, \$6,565; 4, \$6,165; 5, \$5,700; 6, \$5,663; 7, \$5,600.

7. Do building 14—Bid 1, \$17,449; 2, \$13,400; 3, \$8,800; 4, \$16,498; 5, \$10,800; 6, \$12,759; 7, \$14,800.

8. Do building 15—Bid 1, \$20,157; 2, \$34,000; 3, \$10,700; 4, \$31,763; 5, \$22,000; 6, \$20,444; 7, \$20,000.

9. Do building 16—Bid 1, \$3,827; 2, \$4,800; 3, \$1,600; 4, \$2,688; 5, \$2,900; 6, \$2,243; 7, \$2,600.

10. Do building 18—Bid 1, \$183; 2, \$1,160; 3, \$1,100; 4, \$395; 5, \$200; 6, \$471; 7, \$500.

11. Do building 19—Bid 1, \$2,237; 2, \$2,500; 3, \$2,500; 4, \$2,212; 5, \$2,100; 6, \$1,237; 7, \$2,000.

12. Do building 21—Bid 1, \$1,721; 2, \$2,400; 3, \$1,300; 4, \$1,131; 5, \$2,200; 6, \$1,075; 7, \$1,160.

13. Deduct if one or more of buildings 22 to 25 and buildings 27 to 30, inclusive, are omitted—Bid 1, \$2,297; 2, \$3,400 ea.; 3, \$1,900; 4, \$1,925; 5, \$1,300; 6, \$1,311; 7, \$1,300.

14. Deduct if one or both of buildings 31 and 32 are omitted—Bid 1, \$1,749; 2, \$3,000 ea.; 3, \$1,375; 4, \$1,240; 5, \$1,300; 6, \$1,136; 7, \$1,200.

Time—Bid 1, start 25 days, complete 195 days; 2, start 10 days, complete 420 days; 3, start 20 days, complete 30 days after completion of general contract; 4, start 30 days, complete 360 days; 5, start 10 days, complete 308 days; 6, start 10 days, complete 420 days.

Electric Work

Bid 1. Severin Electric Co., 55 5th St., San Francisco.

2. F. E. Newberry Electric Co., 359 Sutter St., San Francisco.

3. Central Electric Co., 185 Stevenson St., San Francisco.

4. G. E. Engineering Co., Inc., 449 W. 42d St., New York City.

5. Becker Electrical Construction Co., 149 N. Montgomery St., San Francisco.

6. Latourrette-Fical Co., Sacramento, Calif.

7. Butte Electric & Mfg. Co., 534 Folsom St., San Francisco.

8. Standard Electrical Construction Co., 80 Natoma St., San Francisco.

9. Becker Electrical Equipment Co., 530 Folsom St., San Francisco.

10. The Turner Co., 272 Natoma St., San Francisco.

11. Globe Electric Works, 1959 Mission St., San Francisco.

Item 1 29 buildings—Bid 1, \$188,000; 2, \$181,371; 3, \$256,440; 4, \$224,000; 5, \$197,085; 6, \$185,200; 7, \$186,000; 8, \$208,410; 9, \$196,415; 10, \$186,000; 11, \$199,599.

2. Deduction for omitting building No. 1—Bid 1, \$1,580; 2, \$1,670; 3, \$2,761; 4, \$1,995; 5, \$2,164; 6, \$1,870; 7, \$1,636; 8, \$1,285; 9, \$1,485; 10, \$1,500; 11, \$1,932.

3. Do building 6—Bid 1, \$5,742; 2, \$5,237; 3, \$7,494; 4, \$7,065; 5, \$6,005; 6, \$5,940; 7, \$6,191; 8, \$4,808; 9, \$5,627; 10, \$5,000; 11, \$6,043.

4. Do building 7—Bid 1, \$5,742; 2, \$5,237; 3, \$7,494; 4, \$7,065; 5, \$6,005; 6, \$5,940; 7, \$6,191; 8, \$4,778; 9, \$5,593; 10, \$5,000; 11, \$6,043.

5. Do building 8—Bid 1, \$5,276; 2, \$5,225; 3, \$6,400; 4, \$5,761; 5, \$5,458; 6, \$5,100; 7, \$4,960; 8, \$4,533; 9, \$5,295; 10, \$4,600; 11, \$5,982.

6. Do building 12—Bid 1, \$3,573; 2, \$3,243; 3, \$3,561; 4, \$3,818; 5, \$4,145; 6, \$4,180; 7, \$3,802; 8, \$3,980; 9, \$3,459; 10, \$3,000; 11, \$3,454.

7. Do building 14—Bid 1, \$4,061; 2, \$3,392; 3, \$4,848; 4, \$6,195; 5, \$1,208; 6, \$4,180; 7, \$4,064; 8, \$4,134; 9, \$3,828; 10, \$2,800; 11, \$5,100.

8. Do building 15—Bid 1, \$5,920; 2, \$6,032; 3, \$6,972; 4, \$8,209; 5, \$5,552; 6, \$5,610; 7, \$4,684; 8, \$5,806; 9, \$5,671; 10, \$4,800; 11, \$6,516.

9. Do building 16—Bid 1, \$3,080; 2, \$6,84; 3, \$3,000; 4, \$2,764; 5, \$2,309; 6, \$2,310; 7, \$2,373; 8, \$1,782; 9, \$2,013; 10, \$2,300; 11, \$1,773.

10. Do building 18—Bid 1, \$534; 2, \$554; 3, \$1,325; 4, \$925; 5, \$592; 6, \$660; 7, \$626; 8, \$380; 9, 428; 10, \$640; 11, \$451.

11. Do building 19—Bid 1, \$839; 2, \$530; 3, \$1,276; 4, \$1,109; 5, \$752; 6, \$770; 7, \$766; 8, \$652; 9, \$386; 10, \$580; 11, \$607.

12. Do building 21—Bid 1, \$1,406; 2, \$1,009; 3, \$1,847; 4, \$1,729; 5, \$1,432; 6, \$940; 7, \$1,344; 8, \$1,390; 9, \$1,286; 10, \$1,300; 11, \$1,698.

13. Deduct if one or more of buildings 22 to 25 and buildings 27 to 30, incl., are omitted—Bids 1, \$2,188; 2, \$1,951; 3, \$2,800; 4, \$2,116; 5, \$2,098; 6, \$1,760; 7, \$1,721; 8, \$1,700; 9, \$1,850; 10, \$2,200; 11, \$1,722.

14. Deduct if one or both of buildings 31 and 32 are omitted—Bid 1, \$1,869; 2, \$2,048; 3, \$3,266; 4, \$1,894; 5, \$2,127; 6, \$1,870; 7, \$2,074; 8, \$1,407; 9, \$1,429; 10, \$1,900.

Time start—Bid 1, 5 days; 2, 10 days; 3, 10 days; 4, 30 days; 5, 3 days; 6, 10 days; 7, 6 days; 8, 10 days; 9, 10 days; 10, 10 days; 11, 30 days.

Time complete—Bid 1, 400 days or will complete when general contract is completed; 2, 475 days; 3, as work progresses; 4, 20 days after completion of construction; 5, 365 days; 6, 300 days; 7, 300 days; 8, 540 days; 9, 350 days; 10, 420 days; 11, as soon as buildings will permit.

Refrigerating Machinery

1. Kearn, S. L., San Francisco, \$21,992; start 1 day.

2. American Carbonic Machinery Co., Wisconsin Rapids, Wis., \$22,575, drinking water piping and covering not included; start 60 days, complete 120 days.

3. Automatic Refrigerating Co., Inc., 536 Munsey Bldg., Washington, \$32,460, start 30 days, complete 90 days; alternate, \$20,985; mortuary plant only, \$2,070; start 30 days, complete 90 days.

York California Construction Co., 832 Folsom St., San Francisco, \$27,700; start 30 days, complete 120 days.

Cyclops Iron Works, San Francisco, alternate, \$18,516; start 30 days, complete 150 days.

Kitchen Equipment

The Turner Co., 272 Natoma St., San Francisco, \$45,800; start 180 days, complete 420 days.

Mangrum & Otter, Inc., 827 Mission St., San Francisco, \$39,048; start 20 days, complete 120 days.

Nathan-Dohrmann Co., Geary and Stockton Sts., San Francisco, \$40,720; start 10 days, complete 90 days.

Lavender, Ellerbrook, Inc., 29 S. Frederick St., Baltimore, \$36,800; start 15 days, complete 180 days.

Laundry Equipment

Speck Mfg. & Geary Co., 2130 Folsom St., San Francisco, \$50,000; start 10

Ye Building Gossip or Pratt's Concrete Mix

CLARENCE SAND PRATT.

ALIAS "SANDY" Pratt, President.

PRATT BUILDING Material Co.

DOUGLAS 300—"easy to remember."

EDITOR of this near-comedy.

CALLED "YE Building Gossip.

OR PRATT'S Concrete Mix."

MAYOR OF Beautiful Westwood Park.

LARGEST EXCLUSIVE sand producer.

IN CALIFORNIA.

WISHES EVERYONE at your house.

A HAPPY AND Prosperous New Year.

BECAUSE EVERYONE at your house.

HAS BEEN good to everyone.

AT "SANDY" Pratt's house.

THE PRATT Building Material Co.

SAND BANK at Sacramento

AT MARYSVILLE and at Pratto.

AND "SANDY" says.

FOR ALL the orders.

FOR CLEAN, sharp sand.

GIVEN TO everybody at his house.

BY EVERYBODY at your house.

"I THANK you."

SAN FRANCISCO—Bids were received as follows on December 27, by Architect John Gaten Howard, First National Bank Bldg., S. F., for the construction of a three-story frame and stucco Women's Faculty Club Building on the grounds of the University of Berkeley. All bids are taken under advertisement:

I. M. Sommer, Balboa Bldg.	\$124,459
Hannan Bros., S. F.	29,000
W. Sorenson, Berkeley	137,073
Conner & Conner, Berkeley	138,200
Reilly & Nemetz, S. F.	138,960
Walter March, Oakland	145,150
M. E. Hopper & Son, Oakland	146,900
John Morton, S. F.	147,750
P. W. Maurice, Oakland	149,650

POWER PLANTS

FRESNO, Fresno Co., Cal.—Enlargement of the conduit carrying water from the Crane valley reservoir to the chain of power houses below, and an increase in the generating capacity of Power House No. 2 of the Crane valley system by the addition of a 6000 h. p. unit, will be undertaken immediately by the San Joaquin Light & Power Corp., 1301 Tulare St., Fresno. The work will cost approx. \$250,000. The addition includes a 6000 h. p. turbine and generator, three 1800-kilowatt transformers and switching equipment. The section of Conduit No. 3 to be enlarged begins at the outlet tunnel under the Crane valley dam, extending four miles to the forbay reservoir at Plant No. 3. It contains about one mile of small tunnels, the balance of the conduit being cement liner earth ditch and steel flume supported on trestles. Approx. 12,000 ft. of earth ditch will be enlarged and relined with concrete, 3857 ft. of trestle supporting the flume will be replaced, and sections of the old tunnels will be relined with concrete. Present capacity of the ditch, 105 cu. ft. per second, will be increased to 170 cu. ft.

SAN FRANCISCO—Until Jan. 10, bids will be received by Bd. of Pub. Wks. for fur. and del. electric transmission line conductors for 2 three-phase 154,000 volt circuits each approx. 1.6 miles in length and for material sufficient to extend one circuit an additional 41 miles. Material to be delivered f. o. b. cars San Francisco bet. August 1, 1923 and Jan. 2, 1923. Approx. cost \$50,000. Above material to be used in connection with Hetch Hetchy project. Spec. may be had from Engineer's office, 3rd floor, city hall.

PUBLIC BUILDINGS

Plans Completed.
R. L. DEPOTS Cost, \$247,000. **LENO**, Nevada.
One-story frame and stucco passenger depot 400 ft. long and 1-story concrete and steel freight depot 800 ft. long.
Owner—Southern Pacific R. R. Co., 65 Market St.
Architect—Eng. Dept. of owner.
The general officials of the company have already given their approval to the improvements but that their execution had been delayed by the unmerger litigation now pending.

JOINT COUNTY BRIDGE BILL WILL BE SUBMITTED TO STATE LEGISLATURE

A bill designed to make it possible for counties to combine into a district for the construction of highways and bridges has been prepared by Assemblyman Frank L. Coombs, of Napa. The measure is intended primarily for bridge construction, highways being included only with reference to approaches to bridges.

Under the bill any number of contiguous counties may combine and pass a resolution creating a bridge district. The resolution shall be certified to the governor, who will issue a commission showing the information of the district and giving it a number, and shall appoint a commission of three from the district to carry out its plans. The commission shall report on the project, and if the cost does not exceed a certain sum, yet to be fixed, the work may be accomplished by direct tax, or if over this amount may be raised by bonds.

No indebtedness can be incurred by the commissioners except on authority of the boards of supervisors of each county and no bond issue can be had except that such bond issue be separately authorized by each county by an election.

If the work is finally authorized the commission may then proceed with the construction, and when finished may place a toll upon the use of such bridge or highway. All expenses will be borne by the counties in proportion to the assessed valuation of property until revenues from tolls shall be sufficient therefor.

Moneys received from tolls shall be distributed in the following order: Repair and maintenance, interest on bonds, sinking fund, repayment of counties' moneys expended by each, surplus to be apportioned to the several counties upon the assessed valuation of property to be applied to the general road fund or any other county purpose.

According to the framers of the bill it is intended to permit public construction of such projects as the Carquinez Straits bridge, the San Francisco-Alameda County bridge, the San Francisco-Marin County bridge.

"Contra Costa County and Solano County," Coombs says, "and I believe that many of the northern counties, including Sacramento, would willingly unite with them, could construct a bridge across Carquinez Straits. I have been assured that there is big money in it, at least that is why private concerns are prompted to start the enterprise."

UNION TERMINAL FOR LOS ANGELES GIVEN SETBACK

The Union Terminal project of Los Angeles received a setback when the State Supreme Court annulled an order of the Railroad Commission which had directed the Southern Pacific, the Santa Fe and the Los Angeles and Salt Lake Railroad companies to build such terminal for their joint purposes.

Basing its reversal of the Railroad Commission's decision on the Esch-Cummings act, the court held that the commission had no jurisdiction in the matter.

Upholding the contention of the rail roads to the effect that the power to order railroads to construct union terminals belonged to the Interstate Commerce Commission, the court declared:

"We arrive at the conclusion that full power and authority over the matter of union terminal depot facilities of the railroads, which are largely engaged in interstate commerce, have been vested in the Interstate Commerce Commission and therefore the Railroad Commission of California has been divested of this power, authority and jurisdiction."

In this opinion Chief Justice Lucien Shaw concurred and added that not even the Interstate Commerce Commission had the right to order the railroads to build a union terminal without their consent.

Under the original mandate the Railroad commission ordered the railroads not merely to build a terminal, but also to eliminate certain grade crossings and practically reorganize their track systems.

The movement for a union terminal was started in Los Angeles through initiative of the Civic Center Association of that city. At the same time the Southern Pacific Company and the Los Angeles and Salt Lake railroad declared themselves willing to establish a joint terminal, but objected to sharing the same with the Santa Fe.

SOUTHERN STATES ACTIVE ROAD BUILDERS BOND REPORTS SHOW

The Southern states have embarked upon a road-building program, involving the construction of several thousand miles of new, hard-surfaced roads. Florida, Texas, North Carolina, Tennessee and Missouri, especially, are building great stretches of roads.

The extent to which southern states are appropriating money for highway construction is reflected in statistics which show that during the first eight months of the present year 343 bond issues, amounting to \$86,438,650 have been sold in the sixteen southern states and the funds made available for road construction.

Bonds sold in each state were as follows: Alabama, \$4,830,000; Arkansas \$2,619,000; Florida, \$6,036,000; Georgia, \$2,360,000; Kentucky, \$1,193,000; Louisiana, \$3,786,000; Maryland, \$2,319,000; Mississippi, \$1,821,000; Missouri, \$1,446,000; North Carolina, \$25,202,500; Oklahoma, \$1,073,000; South Carolina, \$3,262,000; Tennessee, \$2,034,000; Texas \$25,436,750; Virginia, \$1,390,000, and West Virginia, \$381,000.

LODI MUNICIPAL PLANT PAYS

The annual report of the city of Lodi, for the fiscal year ending June 30, 1922, shows that the electric and water systems, which are municipally owned, brought in a net revenue of \$47,565. The electric system earned \$29,809 and the water system \$17,656. The municipal baths showed a loss in operation. The revenue amounted to \$1,907, but the expenditures reached \$3,527. An outlay of \$4,848 was made for improvements.

Official Proposals

NOTICE TO CONTRACTORS AND BIDDERS

(Pacheco School District)

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Pacheco School District of San Benito County, California, at 8 o'clock on the 10th day of January, 1923, in Pacheco Hall, situated in said school district in said county of San Benito, California, for the erection and completion of a school building for the above named district, in accordance with the plans and specifications made for the same by Wyckoff & White, the authorized architects, employed by the board. Proposals will be received on a general contract, including everything shown and specified with the exception of steam heating with alternate propositions. Bids will also be received on steam heating with alternate propositions.

Plans and specifications can be seen at the office of the architects, Wyckoff & White, Growers Bank Bldg., San Jose, California.

A deposit of \$20 is required on all plans loaned out as a guarantee of good faith.

All proposals to be made out on blank forms, furnished by the architects, and must be accompanied by a check for not less than 5 per cent of the amount of the bid, made payable to W. A. Sanders, Clerk of the Board, and certified to by some responsible banking house. This check is to be forfeited in the event that the successful bidder after having been awarded the contract, fails within ten (10) days to sign the contract and furnish the same with the best satisfactory to the Trustees, and as required by law.

Bids will be received up to and including January 10, 1923, at 8 P. M., and must be addressed to W. A. Sanders, R. D. A. Box 150, Gilroy, Calif., Clerk of the Board of Trustees of Pacheco School District.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees dated December 20th, 1922.

W. A. SANDERS,

CARRIE PECK,

EDITH FRAZELL.

NOTICE OF RECEIVING BIDS FOR PURCHASE OF ROAD GRADER

WILLOWS, Calif., Dec. 19, 1922.
NOTICE IS HEREBY GIVEN that sealed bids will be received by the board of supervisors of Glenn County, California, at the office of the county clerk, until ten o'clock a. m., Tuesday, January 9th, 1923, for sale to said District No. 3, of one "Galion Premier Grader" with ten-inch blade and dust proof wheel box; machine to weigh not less than 5000 lbs.—rose neck to be fitted with a recoil spring—machine to be fitted with steerable engine hitch. The Board reserves the right to reject any or all bids.

WITNESS my hand and the seal of the Board of Supervisors of Glenn County, California, affixed this 19th day of December, 1922.

(Seal) W. H. SALE, Clerk.

NOTICE TO CONTRACTORS

Pursuant to a resolution of the Board of Trustees of the City of Hanford, County of Kings, State of California, duly passed and adopted by said Board on the 18th day of December, 1922, notice is hereby given that the said Board will receive up to eight o'clock p. m., January 8th, 1923, sealed proposals for the purchase of two No. 7 Single Stage Raw Sewage Pumps,

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rates: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

each mounted on extended cast-iron base and fitted with flexible couplings for motor connection, each pump being directly connected to a ten H. P. 724 R. P. M. three phase, 220 volt motor accompanied with hand-compensator.

All bids must be in writing, signed by the proposer and accompanied by complete set of specifications, with each bid covering said motors and pumps and a guaranty of immediate delivery. Bids must be made upon acceptance of bid, c. o. b. Hanford, Kings County, California.

The Board of Trustees reserves the right to reject any or all bids.

Dated this 20th day of December, 1922.

D. C. WILLIAMS,
City Clerk

NOTICE TO CONTRACTORS

(Clarksburg Union Grammar School District)

Notice is hereby given that sealed bids will be received and opened by the Board of Trustees of the Clarksburg Union Grammar School District, Yolo County, State of California, in the present Grammar School Building in Clarksburg, at two P. M., of January 12, 1923, for the erection and completion of a Grammar School Building to be erected in the town of Clarksburg, State of California, according to plans and specifications prepared for the same by W. H. Weeks, Architect.

Bids will be received on the General Construction with its Alternate proposals, together with separate bids on the Heating and Ventilating.

Plans and specifications may be seen at the office of W. H. Weeks, Architect, 369 Pine Street, San Francisco, California, or at the residence of G. O. Fraser, President of the Board of Trustees at Clarksburg.

All bids should be presented on bid forms furnished by the Architect.

Each bid must be accompanied by a certified check on some responsible bank in the sum of not less than five per cent (5%) of the amount bid, made payable to Mrs. Mable Heringer, Clerk of the Board of Trustees of the Clarksburg Union Grammar School District, for the purposes stated in the specification.

Each bid must be enclosed in a sealed envelope and addressed to Mrs. Mable Heringer, Clerk of the Board of Trustees and endorsed: "Proposal for Grammar School Building."

The Board reserves the right to reject any and all bids.

Bids must be delivered to the undersigned Clerk of the Board of Trustees in the City of Clarksburg, at the time and place of meeting above stated, or any time up to the hour of opening of bids.

MRS. MABLE HERINGER,
Clerk of the Board of Trustees of the Clarksburg Union Grammar School District, Clarksburg, California.

NOTICE TO BIDDERS

(Alameda Health Center)

NOTICE IS HEREBY GIVEN that the Council of the City of Alameda will receive sealed proposals or bids on Tuesday, January 16, 1923, up to the hour of 8 o'clock P. M., for the construction of the Alameda city health center building to be located on the south side of Vista Clara avenue between Oak and Walnut streets in said city. The bids are to be filed with the city clerk and will be publicly opened and declared on said day and hour in the council chamber of the city hall of said city. Plans and specifications for the proposed building may be obtained in the office of Mr. Carl Werner, Architect, Santa Fe Bldg., San Francisco, and the bids are to be submitted on forms furnished by said architect.

All bids must be accompanied by a certified check or bond in an amount not less than 10% of the aggregate of the bid, conditional that the bidder will enter into a contract with said city in case the same should be awarded to him.

The council reserves the right to reject any and all bids.

By order of the City Council,

W. E. VAICOE,

City Clerk.

Dated, December 19, 1922.

NOTICE TO CONTRACTORS

(Hanford Union High School District)

Pursuant to an order of the Board of Trustees of the Hanford Union High School District, duly passed and entered on its minutes of December 11, 1922, notice is hereby given that said board will receive and open proposals for the following branches of work:

1.—General bid for furnishing material, digging and filling trenches and installation of underground sprinkling system.

2.—Separate bid for material, only, delivered at high school.

3.—Separate bid for digging and filling trenches.

Plans and specifications are on file with the clerk of said Board. Copies may be obtained at the office of Horton and Co., Inc., 43 New Call Bldg., San Francisco, California.

All bids must be in the hands of G. W. Armstead, clerk of the Board of Trustees, at the High School Building, Hanford, California, on or before 7:30 p. m., January 8th, 1923.

Bidders may figure any one or more of the segregations, separately, or all of them together.

A certified check or bidders bond equal to ten per cent of the amount of the bid submitted must accompany each proposal.

The Board reserves the right to reject any or all bids submitted. Of the bidder and branch of work must be marked on the outside of the envelope.

BOARD OF TRUSTEES,
Hanford Union High School,
G. W. Armstead, Clerk

OFFICIAL PROPOSALS

(Continued from Page 17)

BIDS WANTED FOR STATE HIGHWAY IMPROVEMENT

STATE OF CALIFORNIA

DEPARTMENT OF PUBLIC WORKS

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on January 15, 1923, at which time they may be publicly opened and read for construction in accordance with the specifications therefor to which special reference is made, portions of State Highways as follows: Humboldt County, between Fortuna and Leleta (I-Hum-1-G), about four and two-tenths (4.2) miles in length, to be graded and surfaced with gravel.
Plans may be seen and forms of proposals, bonds, contracts and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.
No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.
The Department of Public Works, acting by and through the California Highway Commission, reserves the

right to reject any or all bids or to accept the bid deemed for the best interest of the State.

NEWELL D. DARLINGTON,
CHARLES A. WHITMORE,
GEO. C. MANSFIELD,
California Highway Commission.
AUSTIN B. FLETCHER,
State Highway Engineer.
R. A. MURRAY, Secretary.
Dated December 18, 1922.

NOTICE TO CONTRACTORS

(Hanford Union High School District)

Pursuant to an order of the Board of Trustees of the Hanford Union High School District duly passed and entered in its minutes of December 11th, 1922, notice is hereby given that said board will receive sealed proposals for the following branches of work:
1—General bid for erecting a gymnasium.
2—Separate bid for plumbing and heating work.
Plans and specifications are on file with the clerk of said Board. Copies may be obtained at the office of Coates and Traver, architects, 526 Rowell Building, Fresno, California.
All bids must be in the hands of G. W. Armstead, Clerk of the Board of Trustees at the High School Building, Hanford, California, on or before 5:30 p. m., January 8th, 1923.
Bidders may figure either one of the segregations or both of them together. A certified check or bidder's bond equal to 10 per cent of the amount of the bid submitted, must accompany each proposal.
The Board reserves the right to reject any or all bids submitted.
All bids must be sealed and the name of the bidder and branch of work must be marked on the outside of the envelope.
BOARD OF TRUSTEES,
Hanford Union High School,
G. W. Armstead, Clerk.

BIDS WANTED FOR PAINTING

NOTICE

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., December 16, 1922.
SEALED PROPOSALS will be opened in this office at 3 p. m., January 11, 1923, for painting, plastering, at the U. S. Post Office, Portland, Oregon, in accordance with the specification, copies of which may be had at this office or at the office of the Custodian, in the discretion of the Supervising Architect, Jos. A. Wetmore, Acting Supervising Architect.

AUDITORIUM EQUIPMENT BIDS WANTED

(Reedley Joint Union High School District)

The Board of Trustees of the Reedley Joint Union High School District invites sealed proposals for the equipment and installation of the seating and stage and other equipment of the high school auditorium now under construction, as follows:
A. 1782 opera chairs, more or less.
B. Stage curtain and cyclorama.
Further details and specifications may be obtained from E. W. Hauck, High School Principal, Reedley, Calif. Proposals may be submitted on either or both items. Alternative bids will be considered.
Prices submitted shall be on the basis of delivery and installation, in satisfactory working and usable condition, not later than June 1, 1923.
Bids must be accompanied by samples or by pictures with printed or typewritten description.
A certified check payable to the Reedley Joint Union High School District equal to five per cent (5%) of the highest amount bid must accompany each proposal.
Bids will be received up to 8 p. m., Monday, January 8, 1923, and will be opened immediately thereafter.
The Board reserves the right to reject any or all bids.
MARION DENFEN,
Clerk of the Board of Trustees, Reedley Joint Union High School District.
